2. SIMPLIFIED OVERVIEW OF THE RESTRUCTURING

2.1 The terms of the Restructuring are complicated. This Explanatory Statement contains a significant volume of information and documentation which is important for each Scheme Creditor. This overview provides an essential overview or simple guide to the Scheme.

- Scheme Creditors should note that this section provides only the bare essential information and does **not** replicate all of the information included in the other sections of the Explanatory Statement.
- This simplified guide is limited to Scheme Creditors who are not subject to or affected by any international sanctions on any person or country. If you are a Scheme Creditor who is subject to or affected by any sanction, please read the Explanatory Statement in full.
- The Company recommends that each Scheme Creditor:
  - reads the Explanatory Statement in full (including each Appendix) and all other additional documentation published and made available through the Transaction Website; and
  - considers taking suitable professional advice in order to consider the terms of the Restructuring and the economic Options available.

2.2 Simply put, the entire Restructuring (which involves many different elements or transactions) will primarily be effected through the Scheme compromising the claims of Scheme Creditors against the Company and certain offshore Subsidiaries of the Group in exchange for those creditors receiving a combination of cash, new debt and equity linked instruments as summarised in the table below:

Scheme Creditor	Scheme Consideration Entitlement
Class 1: lenders of record under three syndicated loans	**(A) Security Compensation Amount:** • a cash payment in the aggregate amount of USD89 million; • a two-year term loan in the aggregate principal amount of USD89 million (i.e. the SCA Loan); and • warrants to use the outstanding SCA Loan to subscribe for ordinary shares in the capital of the Company. **(B) Either one or a combination of the following Options:** • **Option 1**: participation in a tender offer, where a Scheme Creditor may tender its claim (up to a maximum offer price of US$100 for every US$1,000) for redemption by the Company in cash. • **Option 2**: zero-coupon mandatory convertible bonds in an aggregate principal amount of up to USD2,000,000,000 with a maturity date of 31 December 2031, which may be converted into ordinary shares of the Company at an initial conversion price of HK$2.60 per share. • **Option 3A/3B**: (i) zero-coupon mandatory convertible bonds in an aggregate principal amount of up to USD5,500,700,000 with a maturity date of 31 December 2031, which may be converted into ordinary shares of the Company at an initial conversion price of HK$2.60 per share; and (ii) medium-term debt instruments of an aggregate principal amount of up to

Scheme Creditor	Scheme Consideration Entitlement
	USD2,709,300,000 and a 2.5% p.a. coupon rate with a maturity date of 31 December 2032. • **Option 4A/4B**: (i) zero-coupon mandatory convertible bonds with a maturity date of 31 December 2034, which may be converted into ordinary shares of the Company at an initial conversion price of HK$10 per share; and (ii) long-term debt instruments with a 2.0% p.a. coupon rate and a maturity date of 31 December 2034. The principal amount of the mandatory convertible bond and long-term debt instrument is not capped. • **Option 5A/5B**: long-term debt instruments of an aggregate principal amount of up to US$1,500,000,000, a 1% p.a. coupon rate and a maturity date of 31 December 2036. **(C) Contingent value right:** • An instrument (i.e. the CVR) that enables holders of the MTN, MTL, LTN, LTL and SCA Loan to share in any cash realisation which the Controlling Shareholder may realise from the onward disposal of the Forest City Project. The CVR will be issued if the Forest City Project is acquired by the CGPV Purchaser in accordance with the terms of the CGPV Acquisition Documents within six months after the Restructuring Effective Date. The CVR will be held by the Collateral Agent on behalf of holders of the MTN, MTL, LTN, LTL and SCA Loan and any cash received by the Collateral Agent in respect of the CVR will be distributed to the New Instrument Administrative Parties under the MTN, MTL, LTN, LTL and SCA Loan in accordance with the terms of an intercreditor agreement to be entered into among the aforementioned parties. In the event CGPV Acquisition is not completed within six months after the Restructuring Effective Date, the Forest City Project will remain in the Group and no CVR will be issued.
Class 2: (i) beneficial holders of public notes and convertible bonds issued by the Company; and (ii) lenders of record under various loans borrowed or guaranteed by the Company (other than the three syndicated loans under Class 1 above)	**(A) Security compensation amount:** • NOT APPLICABLE. **(B) Either one or a combination of the Options:** • Same terms as for Class 1. **(C) Contingent value right:** • Same terms as for Class 1.

Background to the Restructuring

2.3 The Company is incorporated under the laws of the Cayman Islands and its issued share capital is listed on the main board of The Stock Exchange of Hong Kong Limited (Stock Code: 2007). The Company is the holding company of the wider Group which comprises the Company and its direct or indirect Subsidiaries and associates.

2.4 The Group is engaged principally in residential property development, construction, interior decoration, property investment and the development and management of hotels, primarily in the PRC. The Group also has significant projects and operations in Australia, India, Indonesia, Malaysia, Thailand and other parts of the world. One of these projects is known as the Forest City Project in the state of Johor in Malaysia which comprises an integrated residential and hotel development located in a special financial zone which is being jointly developed by the Group and a local Malaysian partner.

2.5 Like many companies operating primarily in the PRC real estate sector, the Group has been negatively affected by the severe downturn in the PRC real estate market since 2021. Although there are signs of better stability, there remains significant negative sentiment in the sector, as a whole, at the date of this Explanatory Statement.

2.6 To address many challenges arising in this difficult trading environment, the Group has needed to implement a series of operational changes, including a reduction to its workforce. These changes have been necessary to avoid an insolvent liquidation during the period when the Company has been actively seeking to restructure all of its financial obligations.

Overview of the Restructuring

2.7 The Restructuring implements certain arrangements or other compromises over substantially all of the indebtedness advanced or guaranteed by the Company irrespective of whether in the form of bank loans or other financial instruments raised in the international capital markets or 'offshore'. For this Explanatory Statement, any reference to the expression 'offshore' simply means outside of Mainland PRC (i.e. including the Hong Kong Special Administrative Region) and the expression 'onshore' has the opposite correlative meaning.

2.8 The Restructuring is proposed to be effected by way of: (i) in the case of the Existing HKD Convertible Bonds, the Existing HKD Convertible Bonds Consent Solicitation to change the governing law so that the Scheme will be effective to restructure these instruments; and (ii) the Scheme.

2.9 The aggregate principal amount of offshore indebtedness (exclusive of all accrued interest) payable to Scheme Creditors as of 31 December 2024 is approximately USD14,659 million. For the purposes of implementing the Scheme, this aggregate indebtedness has been divided into two separate classes of Scheme Creditors, namely, Class 1 (comprising mainly of lenders) and Class 2 (being (largely) holders of beneficial interests in debt securities as principal). The primary reason for separate classes arises from additional credit support in the form of guarantees and security interests that were granted over the assets of certain offshore Subsidiaries of the Group (in favour of syndicated lenders who fall within Class 1) as part of a loan refinancing exercise undertaken in 2023.

2.10 Moreover, irrespective of class composition, substantially all Scheme Creditors have the benefit of other third-party credit support from a common pool of assets derived from nine offshore Subsidiaries of the Group. However, given the stressed financial position of the Group as a whole, it is projected that realisations or other recoveries from these nine offshore Subsidiaries in a Group-wide liquidation (being the appropriate Comparator Scenario if the Restructuring is not successful) are estimated to be minimal.

2.11 It is estimated that the lenders in Class 1 would have received a better recovery than other Scheme Creditors in Class 2 under the Comparator Scenario because of the additional credit support given to the lenders in 2023. One of the main terms of the Restructuring is that lenders will release all of the additional credit support obtained in 2023 in exchange for the payment of monetary compensation in the aggregate amount of USD178 million (otherwise simply known as the 'security compensation amount' or SCA). The release of all of this credit support means that the underlying assets can be used to support the repayment of the New Instruments proposed to be issued under the Scheme.

2.12 In addition to offshore indebtedness, there is additional indebtedness which is proposed to be compromised under the Scheme. This consists of 13 bilateral loans where the Company is either borrower or guarantor and the underlying indebtedness has the benefit of onshore credit support in the form of tangible security interests and guarantees given by onshore Subsidiaries (the "**Onshore Credit Support**"). The valuation of the relevant onshore credit support is significantly more than other third-party credit support granted to other Scheme Creditors falling within Class 1 and Class 2. In those circumstances, the Scheme will not compromise or discharge any of this 'valuable' credit support because of fairness reasons. Accordingly, relevant lenders of these bilateral loans will not receive any similar security compensation payment and they will be grouped together with the other Scheme Creditors within Class 2.

2.13 A table summarising the debt securities or instruments falling within the scope of the Scheme is set out below:

Class	Nature of debt instruments	Outstanding principal amount as at 31 December 2024 (being converted to USD)
Class 1	Three syndicated dual currency term loans borrowed by the Company and governed by Hong Kong law, which benefit from a common offshore security pool and additional credit support obtained in 2023.	USD3,618,140,128
Class 2	15 separate high yield notes issued by the Company and governed by New York law, which benefit from a common offshore security pool.	USD9,375,208,000
	Two separate convertible bonds issued by Smart Insight International Limited and guaranteed by the Company and presently governed by English law, which benefit from a common offshore security pool.	USD884,615,385
	Two term loans borrowed by the Company and governed by Hong Kong law, which benefit from a common offshore security pool.	USD204,871,795
	13 bilateral loans borrowed or guaranteed by the Company and governed variously by Hong Kong and PRC law which benefit from certain onshore credit support.	USD575,679,324

2.14 Certain other indebtedness of the Company has been excluded from the scope of the proposed compromises under the Scheme. These are: (i) bonds and offshore project financing loans which are guaranteed by the Company (approximately USD241 million in aggregate outstanding principal amount); (ii) onshore bonds which are issued or guaranteed by the Company (approximately USD805 million in aggregate outstanding principal amount); (iii) 'trade creditors' claims which potentially have recourse against the Company (approximately USD510 million in aggregate amount); (iv) intercompany claims from other members of the Group (approximately USD7,123 million in aggregate amount); (v) the US$35,000,000 or equivalent term loan facility agreement dated 14 July 2023 ("**CHB Loan**"), entered into between the Company as borrower, Wise Fame Group Ltd (智發集團有限公司) ("**Wise Fame**") as guarantor and Chong Hing Bank Limited as lender, which is, *inter alia*, supported by a security interest over shares owned by Wise Fame in a venture capital fund ("**Wise Fame Credit Support**"); (vi) the CNY1,050,000,000 term loan facility agreement dated 17 November 2016 entered into between 增城市碧桂园凤凰城酒店有限公司 as borrower and 中国农业银行股份有限公司顺德北滘支行 as lender (the "**ABC Loan**"); and (vii) the Shareholder Loans.

2.15 These exposures have been excluded from the Restructuring because: (i) the relevant creditors are either substantially or fully secured by the applicable project collateral; or (ii) they are structurally senior claims; or (iii) they are otherwise critical to maintaining the usual course of business of the Group essential for the success of the Restructuring. The Company has engaged and continues to engage with a number of these creditors on a bilateral basis in order to seek to agree terms to resolve the repayment or compromise of such indebtedness consensually.

2.16 In addition, the Group has incurred substantial liabilities of approximately USD111,128,407,487 in aggregate outstanding principal amount derived from other project loans and other borrowings which do not have any recourse to the Company. For similar reasons, these liabilities are excluded from the Restructuring because the relevant creditors have a fundamentally different position to other Scheme Claims which are to be released under the Scheme. The saliant difference arises from structural seniority (that is, they have recourse to real assets of the Group both onshore and offshore, and would likely receive a better recovery in the Comparator Scenario).

2.17 Should the Restructuring become effective in accordance with its terms, all claims of Scheme Creditors under any debt instrument (whether derived from bank loans or financial debt instruments issued in the debt capital markets and all associated security or credit support) will be fully discharged and extinguished apart from any 'valuable' onshore credit support mentioned at paragraph 2.12 above.

2.18 All Scheme Creditors (unless any sanctions apply) shall be eligible to choose from the same Options of New Instruments proposed to be issued in exchange for Scheme Claims and all holders of the MTN, MTL, LTN, LTL and SCA Loan will share in the prospective future economic benefits of a contingent value right instrument (CVR) to be issued in relation to the Forest City Project (more particularly described in paragraph 2.30 below) if the CGPV Acquisition occurs within a period of six calendar months of the Restructuring Effective Date.

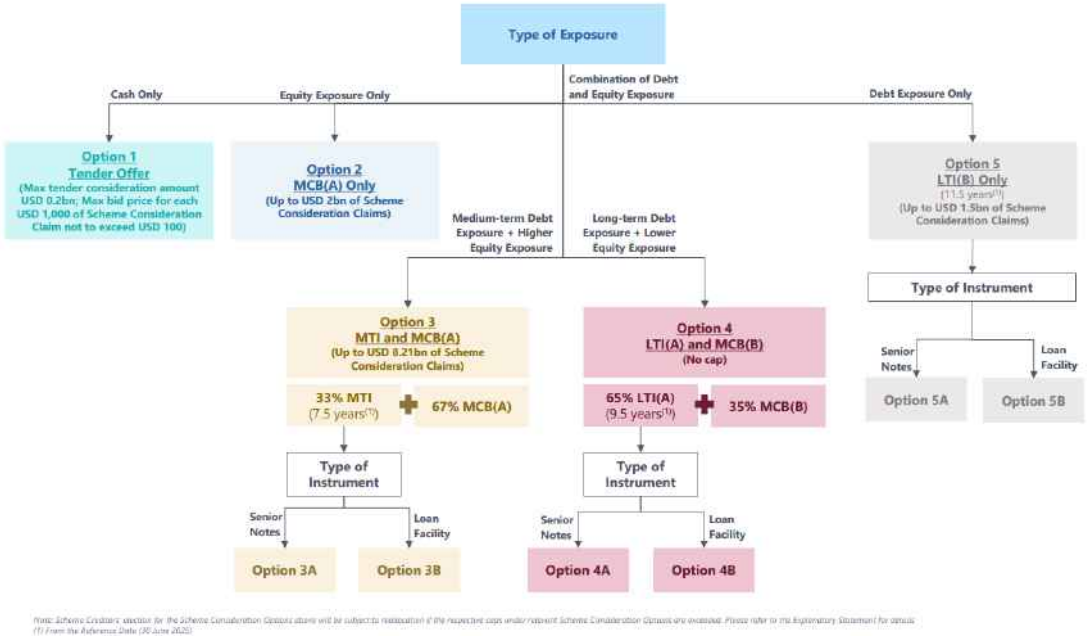
2.19 Separately, and additionally, all Scheme Creditors in Class 1 will receive the benefit of the terms of the SCA which were fundamental to those creditors contemplating the support of the Restructuring.

2.20 Kroll (HK) Limited ("**Kroll**") has been engaged to prepare a report about the estimated realisations or recoveries for each Scheme Creditor in an insolvent liquidation of the entire Group, and to compare those realisations to those estimated in the event the Restructuring is implemented successfully. This report is produced in full at Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*) of this Explanatory Statement. The key conclusion is that the Restructuring results in all Scheme Creditors receiving better recoveries under the Scheme than under the Comparator Scenario.

Scheme Creditor	Estimated return under the SCA	Estimated return under the Options (excluding CVR)	Total estimated return under the Options and SCA (excluding CVR)	Estimated return in the Comparator Scenario from the Company	Estimated additional return in the Comparator Scenario from other members of the Group[1]	Total estimated return in the Comparator Scenario[2]
Class 1	3.8% to 4.1%	17.3% to 49.8%	21.1% to 53.9%	3.1% to 3.9%	6.2% to 8.0%	9.3% to 11.9%
Class 2 (with no onshore credit support)	N/A	17.7% to 51.0%	17.7% to 51.0%	2.8% to 3.9%	1.0% to 3.2%	3.8% to 6.8%
Class 2 (with onshore credit support)	N/A	17.7% to 51.0%	17.7% to 51.0%	2.8% to 3.9%	0.0% to 1.2%	2.8% to 5.1%[3]

Options and possible adjustments

2.21 Scheme Creditors have a choice to receive one or a combination of various Options to settle the applicable Scheme Consideration Entitlement as part of the Restructuring.



2.22 Set out below is a table to assist Scheme Creditors making an informed decision about each Option.[4]

[1] Excluding the estimated additional return from 'valuable' third-party credit support that will not be compromised under the Scheme.

[2] Excluding the estimated additional return from 'valuable' third-party credit support that will not be compromised under the Scheme.

[3] Please also refer to further details regarding the estimated recovery rates as set out in footnote 3 to paragraph 18 of the Recovery Analysis, as set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

[4] Please note that the information in this table is not intended to be either exhaustive or complete. Scheme Creditors must read this Explanatory Statement and all documents contained therein as well as the documents published on the Scheme Portal. Scheme Creditors are particularly urged to refer to section 8.2(b) (*What does a Scheme Creditor receive under the Scheme?*) for an overview of the Options, section 8.3 (*Overview of the New Instruments and the CVR*) and Schedule 4 (*Scheme Consideration Entitlement Allocation Methodology*) of the Scheme. For full terms of the New Instruments (other than the SCA Warrants), please refer to (i) the form of indentures of the New Notes, which is appended at Appendix 10 (*Form of New Notes Indentures*), (ii) the form of facility agreements of the New Loans, which is appended at Appendix 11 (*Form of New Loans Facility Agreement*) and (iii) the form of trust deed of the MCB (A) and the MCB (B), which is appended at Appendix 12 (*Form of MCB Trust Deed*). The forms of the other key documents for the New Instruments are available on the Scheme Portal.

2.23 All New Instruments (other than the SCA Warrants) issued to settle each Option will benefit from the same package of credit support including guarantees, formal security interests (like share charges, account charges and a comprehensive cash sweep mechanism over the net disposal proceeds of certain designated projects).

2.24 The fundamental intention of the Restructuring is to achieve an appropriately revised capital structure which the Company's current cash flow projection demonstrates can be serviced without further default in the imminent future. On this basis and depending on the circumstances, the Scheme contains mechanisms which fairly and equally reallocate the election of Options of Scheme Creditors in the event of over-subscription to any one of the available Options.

2.25 Where applicable, each reallocation mechanism will not require any action or other step taken by any Scheme Creditor. Nevertheless, it is important that every Scheme Creditor is aware that the final Scheme Consideration Entitlement received by them may differ from their exercise of the election made under the terms of the Scheme.

Scheme Meetings and voting

2.26 Before the Scheme can become effective and binding on the Company and each Scheme Creditor, the Scheme must be approved by the requisite majority[5] of Scheme Creditors at the Scheme Meeting of each class and, even if approved, then must be sanctioned subsequently by the Court.

> The Company intends to convene the Scheme Meeting (Class 1) at 6:00 p.m. Hong Kong time and immediately subsequently the Scheme Meeting (Class 2) at 8:00 p.m. Hong Kong time, on 5 November 2025 at the Linklaters Hong Kong Office. To assist Scheme Creditors who are not in Hong Kong, telephone and video conference facilities will be organised so that those Scheme Creditors can observe the relevant meeting but will not be able to cast any vote. In the event that the date or times of the Scheme Meetings need to change for any reason, each Scheme Creditor will be notified in advance through the Transaction Website, by way of notice through the Clearing Systems, and by email to each Scheme Creditor, Account Holder and Intermediary, for whom the Information Agent has valid and current email addresses.

[5] Please refer to section 9.2(c)(i) (*Overview of the Scheme and schemes of arrangement*) for further details.

2.27 This Explanatory Statement contains detailed instructions for each of the steps and other actions which Scheme Creditors must take in order to be able to vote at the relevant Scheme Meeting.[6] Even if you are not in a position to vote in person at either Scheme Meeting, the Company recommends that you exercise your right to elect an Option as described at paragraph 2.21 above.

2.28 There are a number of important deadlines that each Scheme Creditor must have regard in order to be able to exercise voting rights or elect an Option so that Scheme Creditors can receive their New Instruments promptly on the Restructuring Effective Date. These important deadlines are set out below:

- **Custody Instruction Deadline**: being **5:00 p.m.** Hong Kong time on 27 October 2025.
- **Voting Instruction Deadline**: being **5:00 p.m.** Hong Kong time on 31 October 2025.
- **Bar Time**: being 5:00 p.m. Hong Kong time on the date falling 15 Business Days before the Holding Period Expiry Date.
- **Holding Period Expiry Date**: being one Business Day prior to the date falling six calendar months after the Restructuring Effective Date (or, if such date is not a Business Day, the next Business Day after that date), or such later date as the Company may designate in its sole discretion acting reasonably, as notified by the Company to Unadmitted Scheme Creditors in writing in accordance with the Scheme.

Overview of Corporate Actions and Shareholder Support

2.29 There are numerous corporate actions that need to be effected in connection with the Restructuring and which need to be approved by shareholders. These actions also involve approval of certain arrangements which are intended to provide a more sustainable platform for the stabilisation and future growth of the Company and also to align the interests of key management personnel to the performance of the business. These arrangements are highlighted below.

2.30 First, the Group has determined that it is unable to financially support the Forest City Project. This project requires significant ongoing capital in order to remain viable which the Group simply cannot continue to pay. In those circumstances, the Group has considered possible options and has concluded that the best approach to preserve value for all stakeholders is to dispose of the Forest City Project to the Controlling Shareholder. As described in further detail in section 7.5(a) (*CGPV Acquisition*), it is proposed that the Group will dispose of the Forest City Project to the Controlling Shareholder in exchange for a write-off of USD50 million of the Shareholder Loans. The CGPV Acquisition shall be subject to a separate independent review and verification to be conducted by Kroll (pursuant to the Kroll engagement letter dated 14 April 2025) on behalf of the AHG and the CoCom. The Controlling Shareholder has confirmed an intention to continue the development of Forest City Project and in doing so will engage members of the Group to provide project management services. As part of this disposal and, to seek to ensure the Company and Scheme Creditors have adequate protection, the Controlling Shareholder (or a party designated by the Controlling Shareholder) (i.e. the CGPV Purchaser) has agreed to procure the issuance of a contingent value right instrument to the Company and also the

[6] Please refer to section 3 (*Expected Timetable of Principal Events Concerning the Scheme*) for important deadlines and details of the Scheme Meetings and section 9.6 (*Scheme Meetings and Voting at the Scheme Meetings*) for further details, and section 10 (*Summary of action to be taken by Scheme Creditors*) and Appendix 4 (*Solicitation Packet*) for further instructions.

Collateral Agent (in the form of the CVR) if the disposal completes in accordance with the terms of the CGPV Acquisition Documents within six calendar months after the Restructuring Effective Date. The CVR will be held by the Collateral Agent on behalf of holders of the MTN, MTL, LTN, LTL and SCA Loan and any cash received by the Collateral Agent in respect of the CVR will be distributed to the New Instrument Administrative Parties under the MTN, MTL, LTN, LTL and SCA Loan in accordance with the terms of an intercreditor agreement to be entered into among the aforementioned parties. In the event CGPV Acquisition is not completed within six months after the Restructuring Effective Date, the Forest City Project will remain in the Group and no CVR will be issued. The CVR creates an opportunity to share economically in the success of this project or should the Controlling Shareholder effect a future disposal of the Forest City Project for a cash consideration.

2.31 Second, as part of the intended disposal exercise, the Controlling Shareholder will write-off no less than USD1.15 billion in shareholder loans which have been made to the Company in exchange for (a) the acquisition of all of the Group's equity interests in the Forest City Project and (b) the subscription for new warrants which are to be issued by the Company giving the Controlling Shareholder the right to purchase ordinary shares in the capital of the Company at an initial price of HKD0.60 per share.

2.32 Third, the Controlling Shareholder will undertake or refrain from undertaking certain actions pursuant to and subject to the terms of the Deed of Undertaking and Subordination, as described in more detail in section 7.5(c) (*Controlling Shareholders' Undertakings*) below.

2.33 Fourth, the Company will introduce a new management incentive plan which will allow, from time to time, no more than 5% of the ordinary issued share capital of the Company on a fully diluted basis to be issued to the management team and key employees of the Group (excluding the Controlling Shareholder) in order to align their interests with the long term growth prospects of the Company and incentivise management to meet or exceed performance targets under the Company's business plan. The actual grant and vesting of shares under this incentive plan is to be linked, amongst other things, to the satisfaction of scheduled payments under the New Instruments issued under the terms of the Scheme, performance of the Company's share price and improvement of the Group's overall financial performance.

Action Items for Scheme Creditors

2.34 A Scheme Creditor must refer to section 10 (*Summary of action to be taken by Scheme Creditors*) and Appendix 4 (*Solicitation Packet*), which provide a summary of actions required to be taken by each Scheme Creditor in order to vote at the Scheme Meetings and to receive their Scheme Consideration Entitlement.

If any Scheme Creditor requires additional help to complete any documentation or information about procedural steps, then in the first instance, a Scheme Creditor that is not a Blocked Scheme Creditor should contact the Information Agent at countrygarden@investor.sodali.com for assistance and a Blocked Scheme Creditor should contact the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency. Naturally, submitting the required documentation well before the applicable deadline permits more time to answer any queries.

If there is any change to the dates or times listed in this timetable, the revised date and/or time will be announced as soon as practicable when it is known to the Company.

[8] For Existing Noteholders (who are not Sanctions-Affected Scheme Creditors), the Custody Instruction Deadline is the latest date and time for delivery of Custody Instructions to the relevant Clearing System for blocking the Existing Notes for an Existing Noteholder to be eligible to vote at the Scheme Meetings.

[9] The Voting Instruction Deadline is the latest date and time for delivery of a validly completed Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable), to vote at the Scheme Meetings and to receive or be allocated your Scheme Consideration Entitlement and any applicable RSA Fees on the Restructuring Effective Date. The Company will be entitled to exercise discretion as to whether it recognises any assignment or transfer of Scheme Claims after the Record Date.

[12] The date of the Scheme Sanction Hearing will depend on the Court's availability. If this date changes, the dates of all subsequent steps, including the Scheme Effective Date and the expected Restructuring Effective Date, may be affected. Notice will be provided to all Scheme Creditors if the date of the Scheme Sanction Hearing changes.

[13] The Restructuring Effective Date is the date on which the arrangements and compromises provided for in the Scheme will become effective and be implemented.

Event	Expected date	Hong Kong time
Longstop Date[14]	31 March 2026, or such later date as may be extended pursuant to the terms of the Scheme	
Bar Time[15]	The date falling 15 Business Days before the Holding Period Expiry Date	5:00 p.m.

The dates provided in the table are based on current expectations and are subject to change. If any of these dates change, notice of the change will be given to the Scheme Creditors and published on the Transaction Website.

For Existing Noteholders (who are not Sanctions-Affected Scheme Creditors) who have to submit an Account Holder Letter, as regards the Custody Instruction Deadline and the Voting Instruction Deadline. *PLEASE NOTE*: the Clearing System or Intermediaries in which you hold your Existing Debt (or your Account Holder) may impose an earlier deadline for the submission of the relevant Custody Instructions and/or Account Holder Letter.

To ensure timely submission of your relevant Custody Instructions and Account Holder Letter, *PLEASE ASK* your Account Holder to check with the Clearing System as to whether any earlier deadline is applicable and ensure that your relevant Custody Instructions and/or Account Holder Letter are received before any such applicable deadline. These matters are particularly important if you wish to submit an Account Holder Letter by the Voting Instruction Deadline in order to vote at the Scheme Meetings.

[14] The Longstop Date is the date by which the Restructuring Effective Date must occur. If the Restructuring Effective Date does not occur (and therefore the Scheme is not implemented) on or before the Longstop Date, the Scheme will terminate.
[15] The Bar Time is the latest time before which the fully completed documentation necessary to receive any Unadmitted Entitlement may be delivered. 5. LETTER FROM THE BOARD TO EACH SCHEME CREDITOR

13 October 2025

Dear Scheme Creditor,

Introduction

5.1 The Board writes to you in your capacity as a person who is, or appears to be, a Scheme Creditor. Defined terms used in this letter shall have the meaning given to those terms in Part A (*Definitions*) of Appendix 1 (*Definitions and interpretation*).

5.2 The Company proposes to implement the Scheme with Scheme Creditors as part of the Restructuring. This letter provides a brief explanation of the Scheme and its effect in the event that it becomes effective.

5.3 The Explanatory Statement has been produced in accordance with Hong Kong law and is distributed to give each Scheme Creditor all information reasonably necessary to enable them to make an informed decision about whether to approve the Scheme. This letter gives a short explanation of the reasons surrounding the need to implement the Restructuring and the proposed Scheme.

5.4 Please note that the information in this letter is not intended to be either exhaustive or complete. Scheme Creditors should read the Explanatory Statement as a whole, in conjunction with the documents that accompany it (including the Solicitation Packet at Appendix 4 (*Solicitation Packet*)).

5.5 This letter is divided into the following parts:

(a) background to the Restructuring;

(b) specific details of the Restructuring and the Scheme, including the commercial terms;

(c) what happens if the Restructuring fails;

(d) steps or other actions to be taken by Scheme Creditors;

(e) general risk factors in respect of the Restructuring; and

(f) the recommendation of the Board to vote in favour of the Scheme without modification.

Background to the Restructuring

The Group and Company

5.6 The Company was incorporated as an exempted company with limited liability under the laws of the Cayman Islands on 10 November 2006 with registration number 177345. The Company is registered in Hong Kong as a non-Hong Kong company under Part 16 of the Hong Kong Companies Ordinance and has been assigned the business registration number 37592254. The ordinary shares of the Company were listed on the main board of The Stock Exchange of Hong Kong Limited (Stock Code: 02007) on 20 April 2007.

5.7 The Group is a major property developer primarily on the Mainland and is engaged in real estate development, construction, interior decoration, property investment and the development, operation and management of hotels. The Group also has significant projects in jurisdictions outside of the PRC, including Australia, India, Indonesia, Malaysia and

Thailand. One of these projects is known as "Forest City" in the state of Johor in Malaysia which comprises an integrated residential and hotel development located in a special financial zone which is being jointly developed by the Group and a local Malaysian partner (the "**Forest City Project**").

5.8 A simplified Group structure chart of each member of the Group as of the date of this Explanatory Statement is produced at Appendix 5 (*Group Structure Chart*).

5.9 A simple description of the business of the Group, its key assets and indebtedness (including under the Existing Debt) is produced at section 6 (*Background to the Company, the Group and the Group's principal financial indebtedness*).

Circumstances leading to the Restructuring

5.10 The Group, like many other companies operating in the PRC real estate sector, has been severely and negatively affected by the prolonged downturn of the real estate sector in the PRC since the end of 2021. As a result, the Group is operating in a difficult trading environment, exacerbated by negative sentiment, driven by:

(a) the tightening of financing policies and reduced bank lending for real estate development which has limited access of Mainland property developers to onshore capital;

(b) the subdued and general economic downturn in the PRC which has reduced the availability of bank lending to assist residential buyers obtaining a mortgage which has been further compounded by the concerns of prospective buyers over their future and possible reduction in the value of real property which, collectively, have slowed the sale of completed projects for not only the Group but the industry as a whole; and

(c) the contagion caused by other businesses of the Group being similarly affected. The consequent adverse reaction to these onshore events in the offshore capital markets has similarly limited the ability of the Group to obtain alternative sources of capital to address upcoming maturities of any of its outstanding indebtedness.

5.11 Prior to these sector-wide difficulties in the PRC, the Group had consistently operated with robust fundamentals, adequate liquidity, and satisfied all debt servicing obligations as they became due. However, the confluence of all of the factors highlighted has: (i) caused significant deterioration to the Group's financial position; and (ii) severely limited the Group's ability to sustain its existing capital structure. By way of illustration the Group has incurred losses in the last two financial periods with a loss of approximately RMB35,145 million (USD4,881 million) for the year ended 31 December 2024 and RMB200,962 million (USD27,910 million) for the year ended 31 December 2023.

5.12 In these difficult circumstances, the Company appointed: (i) Houlihan Lokey (China) Limited and China International Capital Corporation Hong Kong Securities Limited as financial advisers; and (ii) Linklaters as international legal adviser, each appointment with a view to facilitate and execute a comprehensive restructuring to "right-size" the Group's offshore indebtedness. The Company also appointed Maples and Calder (Hong Kong) LLP as legal adviser on matters of the law of the Cayman Islands.

5.13 Following a comprehensive analysis of the strategic options available under these difficult market conditions, the Group determined (based on professional advice) that seeking to implement a comprehensive restructuring of all Existing Debt with both the Existing Noteholders and Existing Lenders would be the best and most suitable option for all stakeholders in the prevailing circumstances. As such, the Company has taken proactive steps to engage with creditors to help formulate and develop the terms of the Restructuring.

5.14 The Company has identified approximately USD15 billion of financial indebtedness in aggregate where the Company is either the borrower or guarantor and which will be the subject matter of the Restructuring. This indebtedness is classified as follows:

Class 1

(a) **Existing Syndicated Loans**: three syndicated dual currency term loans borrowed by the Company and with credit support in the form of: (i) guarantees granted by eight offshore Subsidiaries of the Group[18] and also security interests over the shares of the same offshore Subsidiaries plus Wise Fame (the "**ICA Credit Support**"); and (ii) additional guarantees granted by, and security interests granted over the shares of, another 11 offshore members of the Group[19] as governed by a security sharing agreement ("**SSA Credit Support**");

Class 2

(b) **Existing Public Notes:** 15 separate issues of high yield notes issued by the Company and governed by New York law;

(c) **Existing HKD Convertible Bonds**: two separate issues of convertible bonds issued by Smart Insight International Limited and guaranteed by the Company and presently governed by English law;

(d) **Ever Credit Bilateral Loan** and **ICBC Loan**: two term loans borrowed by the Company (which, together with the Existing Public Notes and Existing HKD Convertible Bonds, benefit from the ICA Credit Support) governed by Hong Kong law; and

(e) **Existing Loans (Onshore Credit Support)**: 13 bilateral loans borrowed or guaranteed by the Company, which benefit from certain onshore and/or offshore credit support – one of the loans is governed by Hong Kong and the remaining 12 loans are governed by PRC law,

(together, the "**Existing Debt**").

Discussions with the Existing Noteholders and Existing Lenders

5.15 Together with the support of its financial and legal advisers, the Company has been involved with extensive negotiations and other discussions with major offshore creditors which largely include an ad hoc group of beneficial holders of the Existing Public Notes (the "**AHG**") and a co-ordination committee of lenders (the "**CoCom**") that were constituted respectively during October 2023 and February 2024.

5.16 The AHG, representing approximately 29.9% of the aggregate outstanding principal amount of the Existing Notes as at 11 April 2025, appointed PJT Partners (HK) Limited ("**PJT**") as financial adviser and Kirkland & Ellis ("**K&E**") as legal adviser. PJT and K&E entered into appropriate fee arrangements with the Company respectively on 16 July 2024 and 29 April

2024. The CoCom, which represents no less than 49% of all of the Existing Syndicated Loans, appointed Deloitte Advisory (Hong Kong) Limited ("**Deloitte**") as financial adviser and Allen Overy Shearman Sterling ("**AOS**") as legal adviser. Deloitte and AOS entered into appropriate fee arrangements with the Company respectively on 3 May 2024 and 23 April 2024 (as supplemented by a fee letter dated 12 August 2025).

5.17 The discussions with the AHG, the CoCom and their respective advisers about the prospect and feasibility of implementing a restructuring have been ongoing since the first quarter of 2024. The fundamental premise of these discussions was to achieve a holistic financial restructuring which would: (i) maximise recoveries for all creditors of the Group; (ii) establish a sustainable capital structure for the long-term benefit of the Group; (iii) afford a sufficiently long period of time for the business activities of the Group to recover thus enabling non-core assets to be disposed in an orderly manner without any fire sale; (iv) help to stabilise the Group in order to fulfil the delivery of completed onshore real property as required by relevant Government authorities in the PRC; and (v) generally to preserve asset value for the benefit of all stakeholders.

5.18 The Company has also engaged with (i) certain holders of the Existing HKD Convertible Bonds ("**CB Holder Group**"), and (ii) Ever Credit Limited ("**Ever Credit**"), which filed a winding-up petition against the Company in Hong Kong, from the beginning of the first quarter of 2024 by providing periodic updates about the progress of the discussions with the AHG and the CoCom over possible terms of the Restructuring.

5.19 The negotiations between the Company, the AHG and the CoCom have been complex and protracted. One of the more contentious areas has related to certain intercreditor issues and the treatment of the SSA Credit Support granted in favour of the lenders only as part of a loan refinancing of the Existing Syndicated Loans in 2023.

5.20 Eventually, all parties have reached a broad consensus that seeks to preserve value for all stakeholders under which the lenders of the Existing Syndicated Loans will be compensated for the release of all rights under the SSA Credit Support, therefore permitting the underlying assets to be shared with holders of the New Instruments issued under the terms of the Scheme.

5.21 On 11 April 2025, the Company entered into a restructuring support agreement (the "**Restructuring Support Agreement**") with the AHG (comprising at that time Scheme Creditors representing approximately 29.9% of the aggregate outstanding principal amount of the Existing Notes). The Term Sheet appended to the Restructuring Support Agreement incorporated a reservation that certain terms of the security compensation amount (the "**SCA**") to be paid to the lenders of the Existing Syndicated Loans for the release of all rights under the SSA Credit Support were subject to change and further negotiation.

5.22 After the due execution of the Restructuring Support Agreement by the AHG and following a series of meetings arranged by the Company with the respective advisers of the AHG and the CoCom and one principal-to-principal meeting between both creditor groups, the Company managed to bridge the gaps with each creditor group and achieved a resolution of the commercial terms of the SCA. This culminated in the due execution of a deed poll on 23 June 2025 requiring the Company to implement the SCA on terms solely satisfactory to the CoCom ("**Deed Poll**").

5.23 On 18 August 2025, the Company entered into an amendment agreement with the AHG (the "**RSA Amendment Agreement**") to amend the terms of the Restructuring Support Agreement to, *inter alia,* append the revised Term Sheet (incorporating more detailed commercial terms concerning the SCA. On the same day, the Company also entered into a deed of confirmation in favour of the beneficiaries of the Deed Poll confirming that the terms of the Deed Poll remain and shall continue to remain in full force and effect, notwithstanding the execution of the RSA Amendment Agreement. On 18 August 2025, the Company published a public announcement on the HKEx about the RSA Amendment Agreement and uploaded a copy of the amendment agreement on the Transaction Website.

5.24 Since the due execution of the RSA Amendment Agreement, holders of the Existing Debt from both Class 1 and Class 2 have continued to accede to the Restructuring Support Agreement. The Company has also not received any request from any holder of Existing Debt to revoke or withdraw their accession to the Restructuring Support Agreement following the various amendments coming into effect.

5.25 As of the date of this Explanatory Statement, Scheme Creditors representing no less than 75.43% of the aggregate outstanding principal amount of Existing Debt have either duly executed or acceded to the terms of the Restructuring Support Agreement, comprising approximately 68.09% of the Scheme Claims (Class 1) and approximately 77.85% of the Scheme Claims (Class 2)[20]. A broad population of institutional and retail investors have acceded to the Restructuring Support Agreement and have indicated their support for the Restructuring, including members of the AHG, CoCom, the CB Holder Group and Ever Credit. As disclosed in the Company's announcement dated 7 August 2025, the hearing of the Ever Credit Petition has been adjourned and the solicitors of Ever Credit wrote to the Hong Kong Court stating that Ever Credit intends to support the proposed Restructuring subject to further terms and conditions. The Company understands that certain bank creditors are in the process of acceding to the Restructuring Support Agreement.

5.26 As discussed in section 5.64 below, the Company considers that, in light of the significant value attributable to the third-party credit support given by certain onshore members of the Group (comprising the Scheme Claims (Excluded Liabilities)) of the Existing Loans (Onshore Credit Support) included in Class 2, it is appropriate and fair that the rights of lenders under the relevant credit support (comprising the Scheme Claims (Excluded Liabilities)) are preserved following the Restructuring. If requested by a lender under an Existing Loans (Onshore Credit Support), the relevant onshore members of the Group that have provided third-party credit support in respect of such Existing Loans (Onshore Credit Support) will do all such acts or execute all such documents necessary to protect or maintain the legality, validity and enforceability of such third-party credit support. The Company has invited the lenders under the Existing Loans (Onshore Credit Support) to accede to the Restructuring Support Agreement and has been engaged in discussions with them to assist them in understanding the terms of the Scheme and how the Scheme applies to the Existing Loans (Onshore Credit Support). Notwithstanding that, under the terms of the Scheme, the rights of lenders under such credit support will not be released or varied, Tai Fung Bank Limited as the lender under the TF Loan has indicated to the Company that it does not agree to the inclusion of the TF Loan in the Scheme and it may formally oppose the Scheme. No other lender under the Existing Loans (Onshore Credit Support) has indicated to the Company that it will oppose the Scheme.

5.27 The terms of the Restructuring Support Agreement are described in more detail in section 7 (*Background to the Scheme and the Restructuring*) and a copy is available on the Transaction Website (https://projects.sodali.com/countrygarden).

The Restructuring and the Scheme

5.28 The Company has divided Scheme Creditors into two separate classes for the purposes of voting on approving the Scheme. In addition, there are other arrangements which must be performed to ensure that the purposes of the Scheme are satisfied. These arrangements involve (among other things) obtaining customary corporate authorisations from shareholders approving the Restructuring (as described in section 7.5 (*Other matters relevant to the Restructuring*)) and a consent solicitation for the Existing HKD Convertible Bonds to change the governing law of those instruments to Hong Kong law so that they can be compromised effectively under the Scheme in Hong Kong.

[20] The percentages stated in this sentence are representative of the aggregate Scheme Creditor accessions to the Restructuring Support Agreement as at the date of this Explanatory Statement, including any pending debt transfers which are still being processed by the Information Agent.

5.29 In order for the Scheme to be legally effective and binding, it requires:

(a) the approval of the Scheme by a majority in number of Scheme Creditors in each class representing no less than 75% in value of the relevant Scheme Claims who are present in person or by proxy and voting at the meeting convened to approve the Scheme;

(b) the approval of the Scheme by the Court granting the Scheme Sanction Order approving the terms of the Scheme (with or without modification); and

(c) the delivery of a sealed copy of the Scheme Sanction Order to the Hong Kong Registrar of Companies.

Once the Scheme is effective it will bind all Scheme Creditors whether or not they voted for or against the Scheme, or did not vote at all.

5.30 Nevertheless, the Restructuring as a whole will not be effective until each of the Restructuring Conditions have been satisfied. The Restructuring Conditions are set out in the Scheme and relate to matters such as obtaining regulatory approvals, the payment of certain fees, costs and expenses and the due execution of all necessary transaction documentation.

5.31 The compromise of the claims of Scheme Creditors arising under or related to Existing Debt (apart from Scheme Claims (Excluded Liabilities)) will only be compromised and released in exchange for the New Instruments and other consideration once all Restructuring Conditions have been satisfied. The Company intends to achieve satisfaction of all Restructuring Conditions by **31 December 2025** and, in any event, no later than the Longstop Date (which is 31 March 2026 unless extended).

Rationale for Scheme in Hong Kong

5.32 The Existing Debt subject to the Restructuring is governed variously by the laws of Hong Kong, New York, England and Wales and the PRC. In those circumstances, the Company needs to implement other steps to ensure the effectiveness of the compromises and releases of Scheme Claims under the Scheme where they are governed by laws other than Hong Kong law. For example, the Existing Notes are governed by New York law and so relief under Chapter 15 of the U.S. Bankruptcy Code will be sought by the Company in the United States.

5.33 The rule in *Gibbs*[21] provides that, under the laws of Hong Kong and the laws of England and Wales, the question of whether an obligation has been effectively discharged is governed by the proper law of the contract giving rise to the relevant obligation. In those circumstances, the Company will seek to change the governing law of the Existing HKD Convertible Bonds to the laws of Hong Kong through the Existing HKD Convertible Bonds Consent Solicitation. Any change of the governing law of the Existing HKD Convertible Bonds will occur in accordance with the terms of the Existing HKD Convertible Bonds Consent Solicitation including the satisfaction or waiver of all Restructuring Conditions (save for those relating to the consent solicitation itself). In practice, this means that the governing law of the Existing HKD Convertible Bonds will only change to Hong Kong law immediately before the closing of the Restructuring.

5.34 In respect of 12 Existing Loans (Onshore Credit Support), which are advanced respectively by Bank of Guangzhou Co., Ltd. and Postal Savings Bank of China Co., Ltd., and are governed by PRC law, the Company acknowledges that there is a risk that the guarantee obligations of the Company may not be effectively discharged by the Scheme due to the rule in *Gibbs.* Notwithstanding, the Company considers that there are sufficient risk

[21] As established in the case of *Antony Gibbs & sons v La Société Industrielle et Commerciale des Métaux* (1890) ("***Gibbs***").

mitigating factors because: (i) the outstanding indebtedness of such Existing Loans (Onshore Credit Support) is small (approximately 3%) compared to the overall quantum of the Existing Debt (USD15 billion); (ii) based on the current engagement between the Company and these two bank lenders, the likelihood of them objecting to the Scheme or pursuing claims against the Company in an offshore jurisdiction appears to be relatively low; and (iii) in the event these two bank lenders took enforcement action against the Company in the PRC, the impact of any such enforcement action on the Company is low given the Company does not directly hold any assets in the PRC. The Company has invited Bank of Guangzhou Co., Ltd. and Postal Savings Bank of China Co., Ltd. to accede to the Restructuring Support Agreement.

5.35 The Company has been advised by Cayman Islands legal counsel that the rule in *Gibbs* is also applied in the Cayman Islands[22]. Therefore, the courts of the Cayman Islands will recognise the effectiveness of the Scheme to compromise Hong Kong law-governed Existing Debt and also other Existing Debt, for example, governed by the laws of New York provided the Scheme is recognised and given legal effect by virtue of appropriate relief under Chapter 15 of the U.S. Bankruptcy Code. The courts of the Cayman Islands also recognise the effectiveness of the Scheme to compromise Existing Debts governed by the laws of New York or the PRC where Scheme Creditors of those obligations have participated in the Scheme in Hong Kong and thereby have submitted to the jurisdiction of Hong Kong.

5.36 In view of this legal analysis, the high level of creditor accession to the Restructuring Support Agreement (which notably contains a positive obligation for each Consenting Creditor to vote in favour of the Scheme) and the Company's limited resources, the Company has determined that the likely costs to be incurred pursuing a parallel scheme of arrangement in the Cayman Islands are disproportionate to the likely benefits of effecting any such parallel scheme of arrangement. As such, the Company does not intend to effect any parallel scheme of arrangement in the Cayman Islands.

5.37 The rule in *New Zealand Loan and Mercantile Agency Company Limited v. Morrison* (1898), as applied in Hong Kong, provides that a scheme creditor is unable to enforce any scheme claim (regardless of the applicable governing law) within the jurisdiction which sanctioned the scheme. It is for those reasons that the Company has proposed the Scheme in Hong Kong in order to ensure that Scheme Creditors cannot enforce any of their Scheme Claims relating to Existing Debt against any of the assets of the Company which are primarily centred in Hong Kong.

The Determination of Classes of Scheme Creditors

5.38 The Company has considered the existing rights of the Scheme Creditors against the Company as at the date of this Explanatory Statement ('on the way in' as it were) and how those rights are compromised or affected by the Scheme ('on the way out') by reference to an insolvent liquidation of the Group which is the most likely outcome if the Restructuring should fail.

5.39 The Company has concluded that it is necessary for Scheme Creditors to be divided into two separate classes, being Scheme Creditors (Class 1) and Scheme Creditors (Class 2). This distinction is made on the basis that the "Rights In" (as defined in section 9.5(c)) and the "Rights Out" (as defined in section 9.5(c)) of the Scheme Creditors (Class 1) and Scheme Creditors (Class 2) against the Company are, in each case, sufficiently similar *vis-à-vis* one another within those classes that it is appropriate for the Scheme Creditors to vote within those two classes at the relevant Scheme Meeting and that no further class division is appropriate or necessary.

5.40 In examining the "Rights In" of the Scheme Creditors (Class 1), the Company is of the opinion that these Scheme Creditors have the same rights *against the Company* and there is nothing to prevent them being able to consult together within the same class about the

[22] As established in the Privy Council decision of *Wight v Eckhardt Marine GmbH* [2004] 1 AC 147.

terms of the Scheme as Scheme Creditors (Class 1) being holders of interests in the Existing Syndicated Loans.

5.41 In examining the "Rights In" of the Scheme Creditors (Class 2), the Company is of the opinion that these Scheme Creditors have the same rights *against the Company* and they are able to consult together within the same class about the terms of the Scheme because:

(a) the Existing Public Notes, Existing HKD Convertible Bonds, Ever Credit Bilateral Loan and ICBC Loan benefit from essentially the same security interests granted by the Company over its shareholding of its wholly-owned direct subsidiary, Smart World Development Holdings Company Ltd (豪華發展控股有限公司) ("**Smart World**") ("**Smart World Share Security**"); and

(b) while the Existing Loans (Onshore Credit Support) do not have the benefit of the Smart World Share Security, the value of this security interest is of no material significance in an insolvent liquidation (being the relevant Comparator Scenario) given the stressed financial circumstances of Smart World. Moreover, to the extent there is any difference in outcome by reason of the Smart World Share Security, those differences are minimal and do not fracture the class.

5.42 Notwithstanding the fact that the lenders under the Existing Loans (Onshore Credit Support) benefit from additional third-party credit support comprising, *inter alia,* guarantees by onshore Subsidiaries of the Group and security interests over onshore assets, those differences also do not fracture the class because the key focus of class composition is on the rights of Scheme Creditors against the scheme company (i.e. the Company) itself; the treatment of third-party interests and releases are, strictly, not a class composition issue.

5.43 As to "Rights Out" against the Company, in the event that the Scheme becomes effective in accordance with its terms, all Scheme Creditors are given the same rights to elect each of the Options (unless they are Sanctioned Scheme Creditors) and all holders of the MTN, MTL, LTN, LTL and SCA Loan are entitled to share in the benefit of the CVR (as described at section 5.75). In addition, and separately, all Scheme Creditors within Class 1 have the right to receive the benefit of the SCA.

5.44 As explained in section 9.5 (*Scheme classes*), the Company having considered the RSA Fees, the work fees payable to the AHG, the CoCom and the CB Holder Group (as well as the payment of the professional fees incurred by the AHG and the CoCom) has concluded that no further class distinction is either appropriate or necessary.

Terms of the Restructuring

5.45 The components of the Restructuring are described in more detail in section 8.2 (*Overview of the implementation method*) and broadly contemplates the following:

(a) The cancellation and discharge of the Existing Debt and the release of all Existing Debt Obligors in exchange for Scheme Creditors (other than any Sanctioned Scheme Creditor) receiving Scheme Consideration Entitlement, comprising: (i) one or more of the various Options; and (ii) in respect of Scheme Creditors (Class 1) only, the SCA. Holders of the MTN, MTL, LTN, LTL and SCA Loan will also benefit from the CVR.

(b) The Options cater to the different preferences and needs of Scheme Creditors, while also delivering a revised capital structure that the Company's current cash flow projection demonstrates can be serviced without further default in the imminent future. The Options[23] are:

[23] The terms of the New Instruments to be issued under each Option are discussed in further detail in paragraph 8.3 (*Overview of the New Instruments and the CVR*) below.

(i) **Option 1**: participation in a tender offer where the Company shall be entitled to redeem Existing Debt through an "Unmodified Dutch Auction" by which the Company shall accept a valid offer submitted by a Scheme Creditor (provided that the offer price is no more than US$100 for every US$1,000 of Scheme Consideration Claims) in inverse order of the offer price up to the Option 1 Cap of US$200,000,000.

(ii) **Option 2**: MCB (A) consisting of new zero-coupon mandatory convertible bonds in an aggregate principal amount of up to US$2,000,000,000 to be issued by the Company with a maturity of 78 months following the Reference Date of 30 June 2025, which may be converted into ordinary shares of the Company at an initial conversion price of HK$2.60 per share.

(iii) **Option 3A**: MCB (A) and MTN; or **Option 3B**: MCB (A) and MTL. The MCB (A) issued pursuant to Option 3A and Option 3B shall have an aggregate principal amount of up to US$5,500,700,000. The MTN and MTL to be issued by the Company are medium-term instruments with mirrored economic terms. They shall have an aggregate principal amount of up to US$2,709,300,000 and will have a 2.5% p.a. coupon rate and an amortisation repayment schedule starting from the Restructuring Effective Date and ending 90 months after the Reference Date of 30 June 2025.

(iv) **Option 4A**: MCB (B) and LTN (A); or **Option 4B**: MCB (B) and LTL (A). MCB (B) are zero-coupon mandatory convertible bonds to be issued by the Company with a maturity of 114 months after the Reference Date of 30 June 2025, which may be converted into ordinary shares of the Company at an initial conversion price of HK$10 per share. The LTN (A) and LTL (A) to be issued by the Company are long-term instruments with mirrored economic terms. They shall have a 2.0% p.a. coupon rate and an amortisation repayment schedule starting from 102 months and ending 114 months after the Reference Date of 30 June 2025. The principal amount of the MCB (B), LTN (A) and LTL (A) is not capped.

(v) **Option 5A**: LTN (B); or **Option 5B**: LTL (B). The LTN (B) and LTL (B) to be issued by the Company are long-term instruments with mirrored economic terms. They shall have an aggregate principal amount of up to US$1,500,000,000 and a 1.0% p.a. coupon rate, with an amortisation repayment schedule starting from 126 months and ending 138 months after the Reference Date of 30 June 2025.

(c) In the event the CGPV Acquisition Completion occurs within a period of six calendar months of the Restructuring Effective Date, the CGPV Purchaser will issue the CVR to the Collateral Agent in part consideration of the disposal of the Forest City Project. The purpose of the CVR is to allow holders of the MTN, MTL, LTN, LTL and SCA Loan to be entitled to share in any cash consideration which the Controlling Shareholder may realise from the onward disposal of the Forest City Project. The instrument will be held by the Collateral Agent on behalf of holders of the MTN, MTL, LTN, LTL and SCA Loan and any cash received by the Collateral Agent in respect of the CVR will be distributed to the New Instrument Administrative Parties under the MTN, MTL, LTN, LTL and SCA Loan in accordance with the terms of an intercreditor agreement to be entered into among the aforementioned parties. In the event CGPV Acquisition is not completed within six months after the Restructuring Effective Date, the Forest City Project will remain in the Group and no CVR will be issued.

(d) To address the fact that only the Scheme Creditors (Class 1) currently benefit from the SSA Credit Support, the Company intends to provide Scheme Creditors (Class 1) with monetary compensation for agreeing to their inclusion in the Scheme and to compromise their existing rights over the SSA Credit Support, such that the assets

subject to the SSA Credit Support can be shared between all Scheme Creditors in the future as part of the credit support package of the New Instruments (apart from the SCA Warrants) issued as part of the Scheme Consideration Entitlements. As such, Scheme Creditors (Class 1) will also receive their SCA Pro Rata Proportion of the SCA/security compensation amount of USD178,000,000 in aggregate. The SCA comprises the following:

(i) **SCA Day 1 Payment**: a cash payment in the aggregate amount of USD89,000,000 to be paid on the Restructuring Effective Date;

(ii) **SCA Loan**: a term loan in the principal amount of USD89,000,000 to be advanced by each of the Scheme Creditors (Class 1) on the Restructuring Effective Date; and

(iii) **SCA Warrants**: warrants under which such lender shall be entitled to subscribe for ordinary shares of the Company at an initial strike price of HK$0.60 per share in exchange for setting-off a corresponding amount owed to it under the SCA Loan.

5.46 All New Instruments will be issued on the Restructuring Effective Date and (except for the SCA Warrants) benefit from a newly created common credit support package, which shall include guarantees and formal security interests granted by and over certain offshore members of the Group, security interests taken in respect of certain offshore bank accounts augmented by cash sweep arrangements. The CVR will be issued provided that the CGPV Acquisition Completion occurs within a period of six (6) calendar months of the Restructuring Effective Date.

5.47 An overview of the New Instruments and the CVR are set out in section 8.3 (*Overview of the New Instruments and the CVR*). Full terms of the New Instruments (other than the SCA Warrants) are set out in Appendix 10 (*Form of New Notes Indentures*), Appendix 11 (*Form of New Loans Facility Agreement*), Appendix 12 (*Form of MCB Trust Deed*) and Appendix 13 (*Form of SCA Loan*).

5.48 The various elections and allocations afforded to each Scheme Creditor with regard to their respective Scheme Claims are subject to possible reallocation depending on whether any cap or other adjustment applies to any Option. Other than Option 4A or Option 4B, the aggregate quantum of the Scheme Consideration Entitlement is fixed and accordingly the availability of other Options must necessarily be capped. In those circumstances, any oversubscription to the relevant Options will be re-allocated according to the terms of the Scheme as summarised at section 8.2(b) below.

In particular, if any Scheme Creditor does not make an election in respect of any portion of its Scheme Consideration Claims, its 'unelected' Scheme Consideration Claims shall be allocated in the following manner:

(a) first, to Option 1 at the applicable *Option 1 Valid Offer Price (Default)*; and

(b) second, if any Option 1 Valid Bid in respect of such Scheme Consideration Claims is not accepted (or only accepted in part) due to the Option 1 Cap being met, such 'unelected' Scheme Consideration Claims shall be reallocated to Option 4A.

Option 1 Valid Bids in respect of any 'unelected' Scheme Consideration Claims will only be accepted in accordance with the terms of the Scheme if all Option 1 Valid Bids submitted by Option 1 Scheme Creditors (i.e. a Scheme Creditors that have elected Option 1) have been accepted.

The "*Option 1 Valid Offer Price (Default)*" refers to:

(a) in respect a Scheme Creditor (Class 1), an Option 1 Valid Offer Price of USD48 for every USD1,000 of its Scheme Consideration Claims; and

(b) in respect of a Scheme Creditor (Class 2), an Option 1 Valid Offer Price of USD62 for every USD1,000 of its Scheme Consideration Claims.

The pricing of the "*Option 1 Valid Offer Price (Default)*" reflects the price which the Company views as offering a better rate of return to Scheme Creditors under Option 1 than under the Comparator Scenario, measured against an 'objective' benchmark. The Option 1 Valid Offer Prices of USD48 and USD62 are 'liquidation plus' recoveries, which are equivalent to:

(a) the mid-point estimated recovery of Scheme Creditors (Class 1)[24] and Scheme Creditors (Class 2)[25] in the Comparator Scenario, excluding (i) the recoveries from the SSA Credit Support (where the Scheme Creditors (Class 1) will receive the SCA for such release) and (ii) the recoveries from the Onshore Credit Support (which will not be released or varied under the terms of the Scheme); plus

(b) an additional 0.1% in recoveries.

The above pricing structure strikes an appropriate balance between ensuring non-participating Scheme Creditors receive better recoveries than in the Comparator Scenario on their 'unelected' Scheme Claims, while also allowing the Company to deleverage its capital structure to the largest extent possible for the benefit of all stakeholders, including Scheme Creditors who proactively participate in the Scheme.

5.49 The reallocation mechanisms are a necessary safeguard to ensure that the debt profile of the Company following the Restructuring Effective Date is more sustainable for the Company to maintain and service. For details, please refer to section 8.2 (*Overview of the implementation method*) and Appendix 16 (*Overview of Scheme Consideration Entitlement Calculation Methodology*) to understand the methodology applicable to the calculation of Scheme Consideration Entitlement.

Group*'*s capital structure post-Restructuring

5.50 As a consequence of Scheme Creditors being offered a number of different Options, there is a range of future capital structures which may be produced following the successful implementation of the Restructuring. In order to illustrate those possible outcomes, we refer to three possible scenarios as follows:

(a) the first scenario represents the Company's view of the most likely outcome based on the feedback of creditors received by the Company and its professional advisers ("**Scenario 1**");

(b) the second scenario represents the scenario that would ultimately result from full participation in Option 1 (tender offer) and the issue of the largest number of Company Shares allotted to Scheme Creditors following the conversion of the MCB (A) and MCB (B) into Company Shares ("**Scenario 2**"); and

[24] Scheme Creditors (Class 1) are expected to receive aggregate recoveries of between 4.1% (low case) and 5.2% (high case) from the Company and its relevant third-party credit support, excluding the SSA Credit Support.

[25] The mid-point estimated recovery of Scheme Creditors (Class 2) is based on the estimated mid-point recovery of the group of Scheme Creditors (Class 2) with the highest recovery range (i.e. the Existing Noteholders under the Existing HKD Convertible Bonds). The Existing Noteholders under the Existing HKD Convertible Bonds are expected to receive aggregate recoveries of between 5.3% (low case) and 6.8% (high case) from the Company, the other members of the Group and its third-party credit support, excluding the Onshore Credit Support.

(c) the third scenario represents the scenario where none of the Scheme Creditors elect to participate in Option 1 (tender offer) or otherwise receive MCB (A) under Option 2 and Option 3. Instead, all Scheme Creditors elect for either Option 4A, 4B, 5A or Option 5B, each of which does not involve any reduction or haircut of principal indebtedness ("**Scenario 3**").

Please also refer to Appendix 15 (*Group's Pro Forma Post-Restructuring Balance Sheet*) for the pro forma balance sheet of the Group post-Restructuring under each of the three Scenarios below.

5.51 **Scenario 1**

This scenario represents the Company's forecast of how Scheme Claims are most likely to be allocated. Based on the caps agreed with the relevant creditor groups, the Company expects the caps under Options 1, 2, 3 and 5 to be fully elected by Scheme Creditors, while remaining Scheme Consideration Claims will be exchanged to Option 4 consideration[26].

Options	Scheme Consideration Claims (USD)	Scheme Consideration (USD)
Option 1	2,000 million	200 million Cash
Option 2	2,000 million	2,000 million MCB (A)
Option 3A or 3B	8,210 million	5,501 million MCB (A) + 2,709 million MTN / MTL
Option 4A or 4B	1,977 million [27]	Approximately 692 million MCB (B) + 1,285 million LTN (A) / LTL (A)
Option 5A or 5B	1,500 million	1,500 million LTN (B) / LTL (B)

5.52 **Scenario 2**

This scenario results in the maximum amount of "deleveraging", where all Scheme Creditors elect Option 1 and all Scheme Consideration Claims above the cap for Option 1 shall be reallocated to Option 2, Option 3 and Option 4[28].

Options	Scheme Consideration Claims (USD)	Scheme Consideration (USD)
Option 1	2,000 million	200 million Cash
Option 2	2,000 million	2,000 million MCB (A)
Option 3A or 3B	8,210 million	5,501 million MCB (A) + 2,709 million MTN / MTL
Option 4A or 4B	3,477 million [29]	Approximately 1,217 million MCB (B) + 2,260 million LTN (A) / LTL (A)
Option 5A or 5B	-	-

[26] This assumes that all Scheme Creditors allocated with Option 1 will be tendered at US$100 for every US$1,000 of Scheme Consideration Claims.
[27] The amount of Option 4 Scheme Consideration Claims is calculated for illustrative purpose only and subject to changes and further confirmation from Scheme Creditors.
[28] This assumes that all Scheme Creditors allocated with Option 1 will be tendered at US$100 for every US$1,000 of Scheme Consideration Claims.
[29] The amount of Option 4 Scheme Consideration Claims is calculated for illustrative purpose only and subject to changes and further confirmation from Scheme Creditors.

5.53 **Scenario 3**

This scenario results in the least amount of "deleveraging", where all Scheme Creditors elect Option 5 and all Scheme Consideration Claims above the cap for Option 5 shall be reallocated to Option 4.

Options	Scheme Consideration Claims (USD)	Scheme Consideration (USD)
Option 1	-	-
Option 2	-	-
Option 3A or 3B	-	-
Option 4A or 4B	14,187 million[30]	Approximately 4,965 million MCB (B) + 9,221 million LTN (A) / LTL (A)
Option 5A or 5B	1,500 million	1,500m LTN (B) / LTL (B)

5.54 The changes in shareholdings of the Company following the Restructuring Effective Date under each of the Scenarios are as follows (noting that the shareholding percentages post Restructuring are illustrative only and calculated on a maximum diluted basis)[31]:

[31] These figures rely on the following key assumptions:

(a) assumptions of the Scheme Creditors' election for the Scheme Consideration Options are the same as 5.51, 5.52 and 5.53;

(d) to the extent that the Company is allowed to issue New Company Shares to settle Work Fees, the Company will choose to issue New Company Shares in connection with the payment of the relevant Work Fees in accordance with the terms of the relevant work fee letters;
(e) the Shareholder Loans Equitisation is completed;
(f) all New Company Shares to be issued in connection with the MIP are issued and vested; and
(g) all Scheme Creditors (Class 1) receive SCA Warrants and subscribe for New Company Shares at an initial strike price of HK$0.60 per share.

Scheme Meetings and voting

5.55 Before the Scheme can become effective and legally binding on the Company and each Scheme Creditor, the Scheme must be approved by the requisite majority at each Scheme Meeting.

5.56 The Company has obtained the Scheme Convening Order to convene the Scheme Meetings as follows:

(a) the Scheme Meeting (Class 1) will be convened as one meeting at **6:00 p.m.** Hong Kong time on **5 November 2025**; and

(b) the Scheme Meeting (Class 2) will be convened as one meeting at **8:00 p.m.** Hong Kong time on **5 November 2025**,

and each Scheme Meeting shall be held at Linklaters Hong Kong Office.

5.57 Telephone and video conference facilities will be organised for Scheme Creditors to observe the Scheme Meetings (but not cast any vote) upon request made to: (a) the Information Agent at countrygarden@investor.sodali.com (for Scheme Creditors who are not Blocked Scheme Creditors); or (b) the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency (for Blocked Scheme Creditors), in each case, at least forty-eight (48) hours before the relevant Scheme Meeting.

5.58 Scheme Creditors who are Sanctioned Scheme Creditors shall not be: (a) eligible to vote at the Scheme Meetings; or (b) able to receive or otherwise be allocated any Scheme Consideration Entitlement during the continuance of any Applicable Sanctions and, in any event, are required to notify the Company immediately in writing of their status in accordance with clause 5.5 of the Scheme.

5.59 Blocked Scheme Creditors shall: (a) be eligible to vote at the Scheme Meetings; and (b) be allocated (but shall not receive) any Blocked Scheme Consideration Entitlement, provided that they submit their Blocked Scheme Creditor Form in accordance with the instructions set out in the relevant Blocked Scheme Creditor Form, the Solicitation Packet and the Scheme.

5.60 Please refer to section 9.6 (*Scheme Meetings and Voting at the Scheme Meetings*) for further details, and Appendix 4 (*Solicitation Packet*) for further instructions about the action you need to take in order to vote at the Scheme Meetings.

Scheme Creditor releases

5.61 The Restructuring will affect the contractual obligations of the Company and other members of the Group. Certain third parties will also receive the benefit of certain releases given under, and in connection with, the Scheme as permitted by applicable law.

5.62 The Scheme broadly contemplates the following:

(a) the release and discharge of all Liability against the Company in respect of the Existing Debt irrespective of the capacity of the Company, whether as primary obligor, secondary obligor, as surety or otherwise howsoever; and

(b) save for the Existing Loans (Onshore Credit Support), all other Existing Debt Obligors will be released and discharged from their respective obligations (including under any guarantee or security interest) as they relate to the Existing Debt, as summarised in the table below:

Existing Debt	Scope of third-party releases under the Scheme
Class 1	
Existing Syndicated Loans	Release of claims against guarantors and arising under security interests over shares of the Group's Subsidiaries under the (i) ICA Credit Support and (ii) SSA Credit Support.
Class 2	
Existing Public Notes	Release of claims against guarantors and arising under security interests over shares of the Group's Subsidiaries under the ICA Credit Support.
Existing HKD Convertible Bonds	
Ever Credit Bilateral Loan	
ICBC Loan	
Existing Loans (Onshore Credit Support)	Release of claims against guarantors who are also guarantors under the ICA Credit Support and each other member of the Group which is incorporated outside of the PRC. All other claims against any relevant obligors under or in connection with the Existing Loans (Onshore Credit Support) shall not be released or varied by the Scheme[32].

5.63 The Company considers these third-party releases to be necessary to prevent "ricochet" type claims against the Company following the Restructuring, in the form of claims by creditors against the guarantors under the relevant debt instruments, leading to claims from the guarantors against the Company for contribution, which would undermine the Scheme and the Restructuring.

5.64 Notwithstanding, the Company considers it is appropriate and fair that the rights of lenders under third-party credit support given by certain onshore members of the Group (comprising the Scheme Claims (Excluded Liabilities)) ought to be preserved following the Restructuring. The Liquidation Analysis estimates that, unlike other security interests or guarantees

[32] See definition of "Scheme Claims (Excluded Liabilities)" in the Scheme.

released by the Scheme, there is significant value attributable to the relevant credit support held by the lenders under the Existing Loans (Onshore Credit Support). The Liquidation Analysis estimates that these creditors would receive overall recoveries of 26.7% to 100.0% in the Comparator Scenario, as compared to an overall estimated recovery rate of 3.8% to 6.8% for the other Scheme Creditors (Class 2) in the Comparator Scenario. These additional anticipated recoveries for the lenders under the Existing Loans (Onshore Credit Support) in the Comparator Scenario are expected to be largely derived from the 'valuable' third-party credit support that they hold, which will not be compromised under the Scheme. In those circumstances, it would be unfair to release the Scheme Claims (Excluded Liabilities) where the lenders under the Existing Loans (Onshore Credit Support) do not receive additional compensation compared to other Scheme Creditors (Class 2). If requested by a lender under an Existing Loans (Onshore Credit Support), the relevant onshore members of the Group that have provided third-party credit support in respect of such Existing Loans (Onshore Credit Support) will do all such acts or execute all such documents necessary to protect or maintain the legality, validity and enforceability of such third-party credit support.

5.65 The Scheme also provides for the release and discharge of the following parties (in each case, in its or their stated capacity): (i) the Advisers; (ii) any Director; (iii) the Information Agent; (iv) the Chairperson; (v) the Blocked Scheme Creditor Tabulation Agent; (vi) the Existing Debt Administrative Parties and their predecessors; (vii) the New Notes Administrative Parties; (viii) the MCB Administrative Parties; (ix) the New Loans Administrative Parties; (x) the Holding Period Trustee; (xi) the Blocked Escrow Agent; (xii) the Intercreditor Agent; and (xiii) the AHG, the CoCom and each of their respective Personnel and Affiliates, under or in relation to (a) any action taken, omission or other circumstance occurring on or prior to the Restructuring Effective Date relating to the Existing Debt and (b) the negotiation, preparation, execution, sanction and/or implementation of the Scheme and/or the Restructuring, including carrying out of the steps and transactions contemplated in the Scheme in accordance with their terms (including, without limitation, the Scheme, the Restructuring Steps, the Restructuring Documents, the Restructuring Support Agreement and any other document referred to in any of the foregoing).

5.66 Each release is qualified and does not, for example, release any claim derived from gross negligence, fraud or wilful misconduct.

5.67 A summary of the releases given by the Scheme are set out at section 9.10 (*Scheme Creditor releases*) and the full language of the various releases are contained in the form of Deeds of Release at Appendix 8 (*Form of Deeds of Release*).

What happens if the Restructuring fails?

5.68 The proposed Restructuring is the culmination of extensive arm's length discussions and negotiations with creditors of the Company since the first quarter of 2024. The objective of implementing a holistic financial restructuring is necessary to provide the Group with an appropriate and sustainable capital structure capable of delivering long-term value to all stakeholders given the difficulties in the real estate sector and the Company's current distressed financial condition.

5.69 The commercial terms proposed by the Restructuring offer each Scheme Creditor with the choice to elect between various different recovery options based on their own individual preference.

5.70 The Restructuring Support Agreement requires the forbearance of Consenting Creditors but will terminate automatically in the event the Restructuring is not implemented successfully. Following termination, Existing Noteholders and Existing Lenders may exercise all of their rights, including being able to commence or continue enforcement action as available in respect of the relevant Existing Debt.

5.71 Moreover, given the limitations to the Group's financial resources and cashflow, if the Restructuring is not successfully implemented, the Company believes that:

(a) it will be unable to perform each obligation under or in respect of the Existing Debt;

(b) the Group, taken as a whole, will be unable to repay other outstanding indebtedness payable by other members of the Group; and

(c) there is a material risk that certain Scheme Creditors and other creditors of the Group will pursue enforcement action against the Company and/or other members of the Group.

In those circumstances, the Company anticipates that members of the Group would likely be required to make, or cause the Company to make, an application to the Court and/or other courts of appropriate jurisdiction, to place the Company and other members of the Group into involuntary liquidation or another appropriate Insolvency Proceeding in order to facilitate an orderly realisation of the Group's assets for the benefit of the creditors of the Company and creditors of other members of the Group ("**Comparator Scenario**").

The Company, having considered its financial condition and available options, have formed the view that the Comparator Scenario involving a Group-wide liquidation would be the most likely outcome in the event the Restructuring is not successful.

Scheme Creditors' recoveries – Restructuring Scenario vs. Comparator Scenario

5.72 The Group engaged Kroll to undertake:

(a) an analysis of the estimated realisations or recoveries to Scheme Creditors in the Comparator Scenario (please refer to the Liquidation Analysis at Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*); and

(b) an analysis of the expected recoveries to Scheme Creditors (the "**Recovery Analysis**") (please refer to Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*) on the assumption that the Restructuring and the Scheme are implemented successfully (the "**Restructuring Scenario**").

Each analysis is subject to customary assumptions and other qualifications mentioned at section E (*Methodology, Assumptions and Analysis*) of the Liquidation Analysis. The Liquidation Analysis has been prepared from information about the financial position of the Group as at 31 December 2024 which dovetails with the most recent audited consolidated financial statements of the Group. As at the date of this Explanatory Statement, there has been no material change in the distressed condition of the Group.

5.73 For the purposes of illustration only, the table below produces a snapshot of the recoveries under the Restructuring Scenario and the Comparator Scenario for each class of Scheme Creditor. Nevertheless, each Scheme Creditor is referred to section 12 (*Estimated Alternative Outcomes for Scheme Creditors*) which explains the important assumptions underlying each analysis:

Restructuring Scenario – Scheme Creditors (Class 1)

Options[33]	Estimated recoveries post-Restructuring	
	Low-end recovery	**High-end recovery**

[33] The recovery rates listed in the low-end recovery and high-end recovery scenarios in respect of Option 1, Option 2, Option 3, Option 4, and Option 5 represent the estimated return available to all Scheme Creditors for every USD100 of Scheme

Options[33]	Estimated recoveries post-Restructuring	
Option 1	10.0%	10.0%
Option 2	17.4%	64.3%
Option 3	23.1%	65.6%
Option 4	14.2%	40.7%
Option 5	11.2%	41.7%
SCA	3.8%	4.1%
Total[34]	21.1%	53.9%

Restructuring Scenario – Scheme Creditors (Class 2)

Options[35]	Estimated recoveries post-Restructuring	
	Low-end recovery	**High-end recovery**
Option 1	10.0%	10.0%
Option 2	17.4%	64.3%
Option 3	23.1%	65.6%
Option 4	14.2%	40.7%
Option 5	11.2%	41.7%
Weighted Average[36]	17.7%	51.0%

Comparator Scenario – Scheme Creditors (Class 1) and Scheme Creditors (Class 2)

Existing Debt	Estimated return from the Company in the Comparator Scenario	Estimated additional return from third-party credit support in the Comparator Scenario[37]
Class1		
Existing Syndicated Loans	3.1% to 3.9%	6.2% to 8.0%
Class 2		
Existing Public Notes	2.8% to 3.9%	1.0% to 1.3%
Existing HKD Convertible Bonds	2.8% to 3.5%	2.5% to 3.2%
Ever Credit Bilateral Loan	3.1% to 3.9%	1.0% to 1.3%

Consideration Claims. The recovery rates listed in the low-end recovery and high-end recovery scenarios in respect of the SCA represent the estimated return available to the Scheme Creditors (Class 1) for every USD100 of Scheme Claims.

[34] This represents the weighted average estimated recoveries from each Scheme Consideration Option plus the estimated recovery from the SCA. Estimated returns from the RSA Fees are not accounted for in both low-end and high-end recovery scenarios. These scenarios assume, inter alia, that (i) each of the Scheme Creditors will elect Option 1, Option 2, Option 3 and Option 5 in proportion to the maximum acceptance amounts of each Option and the total election by or allocation to Scheme Creditors of each of the Options will reach their respective maximum acceptance amounts, while the remaining Scheme Consideration Claims will be allocated to Option 4, and (ii) Scheme Creditors allocated with Option 1 will be tendered at US$100 for every US$1,000 of Scheme Consideration Claims. Estimated returns from the SCA Day 1 Payment and the SCA Loan are added on top of estimated returns from each Option.

[35] The recovery rates listed in low-end recovery and high-end recovery scenarios in respect of Option 1, Option 2, Option 3, Option 4, and Option 5 represent the estimated return available to all Scheme Creditors for every USD100 of Scheme Consideration Claims.

[36] This represents the weighted average estimated recoveries from each Scheme Consideration Option. Estimated returns from the RSA Fees are not accounted for in both low-end and high-end recovery scenarios. The additional return from the RSA Fees over the Scheme Claims is estimated to range from 0.007% to 0.058% by Kroll. These scenarios assume, inter alia, that (i) each of the Scheme Creditors will elect Option 1, Option 2, Option 3 and Option 5 in proportion to the maximum acceptance amounts of each Option and the total election by or allocation to Scheme Creditors of each of the Options will reach their respective maximum acceptance amounts, while the remaining Scheme Consideration Claims will be allocated to Option 4,, and (ii) Scheme Creditors allocated with Option 1 will be tendered at US$100 for every US$1,000 of Scheme Consideration Claims.

[37] This only accounts for third-party credit support which is within the scope of the third-party releases under the Scheme (as set out at section 5.62(b) above).

ICBC Loan	3.1% to 3.9%	1.0% to 1.3%
Existing Loans (Onshore Credit Support)[38]	2.8% to 3.9%	0.0% to 1.2%

Comparison

The Scheme is estimated to produce a total recovery rate of 21.1% – 53.9% for Scheme Creditors (Class 1) as compared to 9.3% – 11.9% in a liquidation scenario, and a total recovery rate of 17.7% – 51.0% for Scheme Creditors (Class 2) as compared to 2.8% – 6.8% in a liquidation scenario. Both of which are more than the estimated recovery rate available to the Scheme Creditors under liquidation:

Comparison	Restructuring Scenario (Recovery Rate)	Comparator Scenario (Recovery Rate)
Class 1	21.1% – 53.9%	9.3% – 11.9%
Class 2 – Existing Public Notes / Existing HKD Convertible Bonds / Ever Credit Bilateral Loan / ICBC Loan	17.7% – 51.0%	3.8% – 6.8%
Class 2 – Existing Loans (Onshore Credit Support)		2.8% – 5.1%[39]

For detailed information, refer to the Recovery Analysis set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

Based on each independent and professional analysis, the Company believes that successfully implementing the Restructuring offers each Scheme Creditor the best prospects of achieving the continuation of the business of the Company as a going concern and also improving likely recoveries than would otherwise occur from the economic consequences of insolvency.

Overview of Corporate Actions and Shareholder Support

5.74 There are numerous corporate actions that need to be effected in order to achieve the entire Restructuring and which require the approval of shareholders. These actions include other arrangements which are intended to cultivate a platform for the stabilisation and future growth of the Company as well as align the interests of senior management to the operational improvement of the business. These arrangements are highlighted below.

5.75 First, the Group has determined that it is unable to financially support the Forest City Project. This project requires significant ongoing capital in order to remain viable which the Group simply cannot continue to pay. In the circumstances, the Group has considered possible options and has concluded that the best approach to preserve value for all stakeholders is to dispose of the Forest City Project to the Controlling Shareholder (i.e. the CGPV Acquisition). As described in further detail in section 7.5(a) (*CGPV Acquisition*), it is proposed that the Group will dispose of the Forest City Project to the Controlling Shareholder in exchange for a write-off of USD50 million of the Shareholder Loans. The CGPV Acquisition shall be subject to a separate independent review and verification to be conducted by Kroll (pursuant to the Kroll engagement letter dated 14 April 2025) on behalf of the AHG and the CoCom. The Controlling Shareholder has confirmed an intention to continue the development of Forest City Project and in doing so will engage members of the

[38] Please also refer to further details regarding the estimated recovery rates as set out in footnote 3 to paragraph 18 of the of the Recovery Analysis, as set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).
[39] This only accounts for third-party credit support which is within the scope of the third-party releases under the Scheme (as set out at section 5.62(b) above).

Group to provide project management services. As part of this disposal and to seek to ensure the Company and Scheme Creditors have adequate protection, the CGPV Purchaser has agreed to procure the issuance of a contingent value right instrument to the Company and also the Collateral Agent (in the form of the CVR) upon the CGPV Acquisition Completion if it occurs within a period of six (6) calendar months of the Restructuring Effective Date, which creates an opportunity for holders of the MTN, MTL, LTN, LTL and SCA Loan to share economically in the success of this project or should the Controlling Shareholder effects a future disposal of the Forest City Project for a cash consideration. The commercial terms and rationale for the CGPV Acquisition are described in more detail in section 7.5(a) (*CGPV Acquisition*) below.

5.76 Second, as part of the CGPV Acquisition, the Controlling Shareholder will write-off no less than USD1.15 billion in shareholder loans which have been made to the Company in exchange for (a) the acquisition of all of the Group's equity interests in the Forest City Project and (b) the equitisation of the remaining shareholder loans not written off pursuant to the Shareholder Loans Equitisation, including by way of subscription for (i) new warrants which are to be issued by the Company giving the Controlling Shareholder the right to purchase ordinary shares in the capital of the Company at an initial price of HKD0.60 per share (i.e. the Shareholder Warrants) or (ii) ordinary shares in the capital of the Company at an initial price of HKD0.60 per share pursuant to the Shareholder Loans Equitisation Agreement. The commercial terms and rationale for the CGPV Acquisition are described in more detail in section 7.5(b) (*Shareholder Loans Equitisation*) below.

5.77 Third, the Controlling Shareholder will undertake or refrain from undertaking certain actions pursuant to and subject to the terms of the Deed of Undertaking and Subordination, as described in more detail in section 7.5(c) (*Controlling Shareholders' Undertakings*) below.

5.78 Fourth, the Company will introduce a new management incentive plan (the "**MIP**") which will allow, from time to time, no more than 5% of the ordinary issued share capital of the Company on a fully diluted basis to be issued to the management team and key employees of the Group (excluding the Controlling Shareholder) in order to align the interests of the management team with the long term growth prospects of the Company and incentivise management to meet or exceed performance targets under the Company's business plan. The actual grant and vesting of shares under this incentive plan is to be linked, amongst others, to the satisfaction of scheduled payments under the new instruments issued under the terms of the Scheme, performance of the Company's share price and improvement of the Group's overall financial performance. The commercial terms and rationale for the MIP are described in more detail in section 7.5(d) (*Management Incentive Plan*) below.

Actions to be taken

Scheme Creditors must refer to section 3 (*Expected Timetable of Principal Events Concerning the Scheme*) for important deadlines and for other information about the respective Scheme Meetings. Section 10 (*Summary of action to be taken by Scheme Creditors*) and Appendix 4 (*Solicitation Packet*) explain the necessary steps and other actions required to be taken in order to participate in the Scheme.

5.79 To vote at either Scheme Meeting, Scheme Creditors should ensure that the relevant forms set out in the table below are validly completed and submitted to the relevant scheme administrative party in accordance with the relevant instructions and any requirement of the Clearing Systems or Account Holder (where applicable).

Relevant Existing Debt held	Item/document to be submitted	Relevant scheme administrative party	Deadline
Scheme Creditor (who is not a Sanctions-Affected Scheme Creditor)			
Existing Public Notes Existing HKD Convertible Bonds	Custody Instruction(1)	To be delivered to the relevant Clearing System	Custody Instruction Deadline
	Account Holder Letter(2)	Information Agent To be submitted on the online Scheme Portal (https://portal.sodali.com/countrygarden)	Voting Instruction Deadline
Existing Loans	Lender Proxy Form(2)	Information Agent To be submitted on the online Scheme Portal (https://portal.sodali.com/countrygarden)	Voting Instruction Deadline
Blocked Scheme Creditor			
Any Existing Debt	Blocked Scheme Creditor Form(3)	Blocked Scheme Creditor Tabulation Agent To be submitted by email at agent.asis@glas.agency	Voting Instruction Deadline

Important Notes:

(1) A separate Custody Instruction must be submitted on behalf of each Existing Noteholder. For the avoidance of doubt, Custody Instructions in respect of the Existing Public Notes may only be submitted in principal amounts of US$1,000 and integral multiples of US$1,000, or in the case of the Existing HKD Convertible Bonds HK$2,000,000 and integral multiples of HK$2,000,000. Custody Instructions will be irrevocable once submitted.

(2) A separate Account Holder Letter and Lender Proxy Form must be submitted on behalf of each Scheme Creditor. If a Scheme Creditor holds both Existing Loans and Existing Notes, both an Account Holder Letter and a Lender Proxy Form must be submitted. The Account Holder Letter and Lender Proxy Form will be irrevocable once submitted. The Account Holder Letter and Lender Proxy Form each comprises Appendix 1 (*Designated Recipient Form*) and Appendix 2 (*Distribution Confirmation Deed*). Appendix 1 (*Designated Recipient Form*) needs to be completed *only if* the Scheme Creditor is not an Eligible Person and/or would like to designate a Designated Recipient who is an Eligible Person to receive its Scheme Consideration Entitlement and any applicable RSA Fees, while Appendix 2 (*Distribution Confirmation Deed*) must be completed by each Scheme Creditor (who is not a Sanctions-Affected Scheme Creditor) in order to receive any Scheme Consideration Entitlement and any applicable RSA Fees.

(3) The Blocked Scheme Creditor Form does not enclose any additional documents, apart from requiring the Blocked Scheme Creditor's details and details of its holdings (including supporting evidence), and any other document required by the Blocked Scheme Creditor Tabulation Agent.

5.80 Detailed instructions for completion and submission of the Account Holder Letter, the Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable) are included in the Solicitation Packet at Appendix 4 (*Solicitation Packet*).

The Company urges all Scheme Creditors to start the process to obtain authorisation and arrange for the attendance of an authorised representative or other person as its

proxy, and the submission of the Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form as soon as possible and, in any event, no later than the relevant deadline set out in the Solicitation Packet. Scheme Creditors may alternatively instruct the Chairperson as proxy to cast a vote on its behalf by indicating its wish to do so in its Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable).

Risk factors

5.81 The Group's ability to continue to operate as a going concern and service the New Instruments is subject to operational and other risks many of which are beyond the control of the Company or its management. Detailed disclosures about these risks are in section 13 (*Risk Factors*).

Recommendation

5.82 In summary, the Restructuring seeks to:

(a) establish a sustainable capital structure for the Group with an improved balance sheet which ought to allow the Group to satisfy all remaining debt obligations and other liabilities so as to trade on a going-concern basis;

(b) alleviate the liquidity pressures faced by the Company and align the debt servicing demands with the prevailing circumstances of the real estate sector and the financial condition of the Group; and

(c) maximise value for all stakeholders while seeking to ensure that all applicable rights are adequately protected and each stakeholder is treated fairly.

5.83 For the reasons set out in the Explanatory Statement, the Company considers the Restructuring and the Scheme to be in the best interests of the Company, its shareholders and all of its creditors as a whole.

5.84 In those circumstances, the Company recommends that each Scheme Creditor votes in favour of the Scheme (without modification) at the relevant Scheme Meeting.

Yours faithfully,

YANG Huiyan

Chairman of the Board

6.5 **Summary of the Group's principal assets**

(a) As at 31 December 2024, the consolidated non-current assets of the Group were approximately RMB118,958 million (c. US$16,521.9 million) and its consolidated current assets were approximately RMB916,885 million (c. US$127,345.1 million).

(b) As at 31 December 2024, the key assets of the Group relate primarily to the following:

(i) **Real Property under development.** The real property of the Group under development was RMB465,996 million (c. US$64,721.7 million) as at 31 December 2024, as compared to approximately RMB657,167 million (c. US$91,273.1 million) as at 31 December 2023. The Group's real property under development is located in the PRC, Malaysia, Australia, Indonesia, Thailand, India and other regions. As at 31 December 2024, real property under development of RMB126,101 million (c. USD17,514 million) have been pledged as collateral for the Group's bank and other borrowings.

One of the largest offshore projects being jointly developed by the Group is the Forest City Project. The Group owns 60% of the issued equity of the joint venture entity, Country Garden Pacificview Sdn. Bhd ("**CGPV**"). In turn, CGPV beneficially owns the Forest City Project. Although CGPV is recorded as having a book value of approximately USD669.8 million, the Forest City Project itself is expected to have a negative equity value. This is because CGPV and its Subsidiaries (together "**FC Group**") have incurred significant liabilities during the course of the development of the project, including approximately MYR8 billion (USD1.82 billion) of intercompany payables due to the Company and other Subsidiaries ("**Non-FC Group**").

(ii) **Completed real property held for sale.** The Group recorded completed real property pending future sale of RMB112,271 million (c. US$15,593.1 million) as at 31 December 2024, when compared to approximately RMB75,855 million (c. US$10,535.4 million) as at 31 December 2023. The Group's real property pending sale is mainly located in the PRC.

(iii) **Trade and other receivables.** The Group recorded trade and other receivables of approximately RMB268,432 million (c. US$37,282.2 million) as at 31 December 2024, when compared to approximately RMB300,142 million (c. US$41,686.4 million) as at 31 December 2023.

6.6 **Summary of the Group's principal financial indebtedness**

(a) As at 31 December 2024, the consolidated non-current liabilities were in the aggregate amount of approximately RMB41,839 million (c. US$5,811.0 million) and its aggregate consolidated current liabilities were approximately RMB942,750 million (c. US$130,937.5 million).

(b) The aggregate outstanding principal amount of indebtedness sought to be compromised by the Scheme is approximately USD14,658,514,631, and the aggregate amount of liabilities that will be excluded from the Scheme is approximately USD114,004,741,596, in each case as at 31 December 2024. [51] As reflected in the audited consolidated results of the Group for the year ended 31 December 2024, the contract liabilities were in the aggregate amount of RMB281,988,000,000.

[52] As reflected in the audited consolidated results of the Group for the year ended 31 December 2024, the trade and other payables amounted to RMB394,857,000,000. However, when examining the Company on a standalone basis (rather than on a consolidated basis), the applicable trade and other payables (except for the Liabilities discussed at section 6.7(b)(vi) below) are significantly smaller, constituting only an immaterial fraction of the consolidated figure and a small fraction of the total liabilities of the Company.

As at the date of this Explanatory Statement, the Company has identified and confirmed no less than 2,300 onshore trade creditors with aggregate claims of approximately USD510,000,000.

(b) **Indebtedness which is excluded and not subject to the Restructuring (and the Scheme)**

There is certain outstanding indebtedness which will be excluded from the Scheme as described below. None of the relevant creditors of this indebtedness have expressed any opposition to being excluded from the Scheme or the Restructuring. In those prevailing circumstances, the Company intends to adopt a principled approach in seeking to resolve these outstanding liabilities on a bilateral basis tailored to the precise circumstances. The relevant indebtedness relates to:

(i) **Certain offshore project financings guaranteed by the Company (relating to various Malaysian and Indonesian financings) and other offshore project financings with no recourse to the Company (relating to various Australian, Indonesian, Thailand and US financings)**

The relevant financings are either fully or substantially fully collateralised. Therefore, as a practical matter, it is highly unlikely that any of the relevant creditors will agree to participate in the Restructuring and the Scheme, and if made subject to the Scheme, would most likely enforce their credit support diminishing possible recoveries to other offshore creditors generally. Presently, none of these creditors are taking any enforcement action against the Company and the Company does not consider any such action is probable given the underlying financings are all current with payment of both principal and interest.

(ii) **Other offshore financings of the Company or onshore financings that may have recourse to the Company with significant credit support**

(A) The Company has engaged bilaterally with the Chong Hing Bank Limited in respect of the CHB Loan (an US$35,000,000 (or equivalent) term loan facility agreement dated 14 July 2023, entered into between the Company as borrower and Chong Hing Bank Limited as lender), which is, *inter alia*, supported by the Wise Fame Credit Support.

(B) After various rounds of negotiation, it has reached a bilateral arrangement with Chong Hing Bank Limited, which is intended to be implemented in parallel with the Restructuring. Under the terms of the bilateral arrangement, the Company proposes to issue new mandatory convertible bonds on the Restructuring Effective Date

in exchange for the discharge of the Company's liability under the facility (including the Wise Fame Credit Support).

(C) The ABC Loan is advanced to an onshore Subsidiary of the Group and benefits from substantial credit support from onshore assets of the Group. The ABC Loan also purportedly benefits from a letter of undertaking from the Company that it will pay any shortfall amounts under the ABC Loan that are not paid by the borrower thereunder. The Company is in bilateral discussions with the lender under the ABC Loan and is also considering the validity of the letter of undertaking and whether the lender would have any recourse against the Company.

(iii) **Other onshore bank facilities and other borrowings**

As at 31 December 2024, the Group has onshore bank loans or other borrowings of approximately USD17,478,768,847.

(iv) **Onshore corporate bonds**

There are numerous onshore corporate bonds that comprise: (i) three series of RMB-denominated bonds issued by Country Garden Real Estate Group Co., Ltd. (碧桂园地产集团有限公司) and Guangdong Giant Leap Construction Co., Ltd. (广东腾越建筑工程有限公司) which are guaranteed by the Company; and (ii) one series of RMB-denominated bonds issued by the Company. As at 31 December 2024, the aggregate outstanding principal amount of all of these onshore corporate bonds was approximately the equivalent of USD804,842,183.

The Company has already effected an extension to the maturity of these bonds, the earliest of which now falls due on 12 October 2025 after taking into account the applicable grace periods). Accordingly, the Company is in the process of soliciting consent from bondholders to further extend the maturity of these onshore bonds.

(v) **Contract liabilities**

These relate to the Liability of the Group arising from sale contracts made with counterparties where the quantum of the Group's unsatisfied contractual obligation to either deliver goods or provide services exceeds the amount of consideration payable by the counterparty.

(vi) **Trade and other payables**

(A) Trade payables are obligations relating to the payment of goods or services that have been used in the ordinary course of business. Other payables relate to deposits made by end-user buyers of real property or the current balance payables to certain joint ventures, associates or shareholders of certain Subsidiaries of the Group or otherwise deferred or outstanding consideration payable to acquire Subsidiaries, joint ventures and associates. As a general matter, these obligations are unsecured, do not accrue interest and are repayable in accordance with the terms of the relevant contract.

(B) Based on readily accessible records of the Group, certain onshore trade creditors ***may*** have legal recourse to the Company under certain framework agreements. As at the date of this Explanatory Statement, the Company has identified and confirmed no less than 2,300 onshore trade creditors with aggregate claims of

approximately USD510,000,000. Notwithstanding, it is possible that there ***may*** be additional onshore trade claims which are not readily known to any member of the Group with definitive certainty.

(C) As is customary, the Group will not compromise any of the claims of trade creditors as it requires the continued support of those creditors in order to maintain operations on a going concern basis.

(vii) **Shareholder Loans**

The Shareholder Loans, comprising three loans advanced by Concrete Win Limited as lender to the Company as borrower with an aggregate outstanding principal amount of approximately US$1,148,076,923.08, payable by the Group to the Controlling Shareholder, will not be compromised as part of the Scheme. The Shareholder Loans shall be subordinated to the New Instruments in accordance with the terms of the Intercreditor Agreements and the Deed of Undertaking and Subordination until the Shareholder Loans together with all accrued and unpaid interest (including default interest) up until 30 September 2024 are applied as follows (as further described in sections 7.5(a) (*CGPV Acquisition*) and 7.5(b) (*Shareholder Loans Equitisation*) below):

(A) USD50,000,000 (or equivalent) of the Shareholder Loans as consideration for the CGPV Acquisition; and

(B) the remaining balance of the Shareholder Loans shall be equitised into Company Shares at conversion price of HKD 0.60 per share, including by way of subscription (and pre-payment in full of the exercise price) for (i) the Shareholder Warrants on the Restructuring Effective Date to acquire ordinary shares in the Company at a conversion price of HKD 0.60 per share or (ii) ordinary shares in the Company at a conversion price of HK 0.60 per share.

6.8 **Material contracts**

During the two years immediately preceding the date of this Explanatory Statement, other than the contracts entered into in the ordinary course of business and the contracts relevant to its offshore and onshore indebtedness as described above (as applicable), the Group entered into a number of material contracts under which it has obligations or entitlements material to the Group as at the date of this Explanatory Statement. A summary of each material contract is set out below:

(a) certain material contracts have been entered into in furtherance of the Restructuring, including, without limitation, the Restructuring Support Agreement as described at section 7 (*Background to the Scheme and the Restructuring*);

(b) as disclosed previously in the Company's announcements dated 14 December 2023, 3 January 2024 and 24 September 2024, Gold Ease Global Limited (an indirect wholly-owned subsidiary of the Company) effected a disposal of approximately 1.79% equity interest in Zhuhai Wanda Commercial Management Group Co., Ltd. to Zhuhai Wanying Enterprise Management Co., Ltd. (or its designate). The disposal was entered into as part of the Group's means to resolve the phased liquidity pressure. As at the date of this Explanatory Statement, this transaction has been completed; and

(c) as disclosed in the Company's announcement dated 27 December 2024, on 27 December 2024, Foshan Nanhai District Huibi No. 5 Equity Investment Partnership (Limited Partnership) (an indirect non-wholly owned limited partnership of the

Company) effected a disposal of approximately 1.56% equity interest in Changxin Technology Group Co., Ltd. The disposal was entered into as part of the Group's means to resolve the phased liquidity pressure. As at the date of this Explanatory Statement, this transaction has been completed.

6.9 **Material litigation, arbitration or other legal actions against the Group**

To the best of the actual knowledge and belief of the directors of the Company, as at the date of the Explanatory Statement, the following material litigation or arbitration proceedings have been commenced or are continuing against a member of the Group:

(a) On 27 February 2024, Ever Credit presented a winding-up petition against the Company in Hong Kong because of outstanding amounts payable under the Ever Credit Bilateral Loan ("**Ever Credit Petition**"). Since presentation, the Hong Kong Court has adjourned the hearing of the Ever Credit Petition on numerous occasions given the general support received from the majority of the Company's creditors, including the AHG and the CoCom to effect the Restructuring. As disclosed in the Company's announcement dated 7 August 2025, solicitors of Ever Credit wrote to the Hong Kong Court stating that Ever Credit intends to support the proposed Restructuring subject to further terms and conditions.

7. BACKGROUND TO THE SCHEME AND THE RESTRUCTURING

7.1 Circumstances leading to the Restructuring

(a) The COVID-19 pandemic affected millions of individuals and adversely impacted national economies worldwide, including the PRC. Since mid-2021, a number of high-profile PRC companies in the PRC real estate sector began to experience difficulties in securing external financing from PRC banks and the offshore capital markets. The onshore bank lending and the offshore capital markets that have funded the growth and development of the PRC real estate sector have experienced an unprecedented inflection point. The Group, like many others in the PRC real estate sector, has been severely and negatively affected by this downturn in the following respects:

(i) Difficulty raising onshore and offshore financing:

From mid-2021, the Group experienced difficulties obtaining capital from its usual financing channels of bank lending institutions and debt and equity capital markets. Reduced bank lending for the real estate sector resulted in a reduction to onshore capital. To exacerbate these difficulties, the continued economic downturn in the PRC, reduced available bank lending for mortgages to help buyers acquire real property as well as concerns of buyers about future incomes and property price movements and the ability of property developers to complete projects has resulted in reduced property sales for both the industry and the Group.

The Group's other businesses have also been adversely affected owing to the overall downturn of the upstream real estate industry. Adverse reaction to these onshore events by offshore capital markets has limited the Group's funding sources to address upcoming maturities on its outstanding indebtedness. The offshore bond market, on which the Group relies heavily for refinancing and growth capital, is effectively closed to the privately-owned companies in the PRC real estate sector. The difficulty faced by the Group in raising onshore and offshore financing has significantly exacerbated its current liquidity pressures.

(ii) Decreased cash flows and liquidity in a deteriorating market:

In light of tightened government policy, multiple high-profile credit events and deteriorating consumer sentiment in the PRC real estate sector, sales for residential property in China have shown a significant slowdown and prices for residential properties also suffered a substantial reduction and remained depressed in 2025.

The subdued and general economic downturn in the PRC has also reduced the availability of bank lending to assist residential buyers obtaining a mortgage, which has been further compounded by the concerns of prospective buyers over their future and possible reductions in the value of real property, which collectively has slowed the sale of completed projects for not only the Group but the industry as a whole.

(iii) The ongoing negative impact of the COVID-19 pandemic:

The PRC economy as a whole continues to remain sluggish post-pandemic. Naturally the state of the economy affects the business of the Group causing, among other things: (i) a slowdown in real property sales and a decrease in purchase price due to poor consumer sentiment; (ii) reduced revenue streams from the business of property management because of weak consumer demand in the PRC; and (iii) difficulties in

accessing the global capital markets due to overall negative investor sentiment. While central and local governments in the PRC have taken various measures to boost the economy generally and stimulate the local real property markets, which established some improvement in the sector, overall outlook in the real estate sector is expected to remain challenging in 2025 and into 2026.

(b) The confluence of all of these factors has: (i) resulted in a significant deterioration of the Group's financial condition as illustrated by the Group incurring losses over the last two financial years (approximately RMB35,145 million for the year ended 31 December 2024 and another loss of RMB200,962 million for the prior year ended 31 December 2023); and (ii) severely handicapped the Group's ability to sustain its existing capital structure.

7.2 **The Group's recent financial conditions and mitigating actions taken**

(a) Prior to these severe difficulties affecting the entire PRC real estate sector, the Group had been consistently robust in managing its operations and liquidity, and significantly repaid all of its debt obligations as they became due.

(b) To improve the financial condition of the Group, the Group's management sought to mitigate the impact of these adverse market conditions by:

(i) implementing appropriate cost-control measures to minimise all capital expenditure in order to preserve liquidity for the completion of existing real property development projects;

(ii) implementing measures seeking to accelerate pre-sales and final sales of real property either under development or completed, and to accelerate the collection of outstanding payables due to the Group; and

(iii) continuing to actively investigate potential opportunities for the disposal of investment property in order to create better liquidity.

(c) Despite best efforts of the Group, the challenging market conditions have reduced viable options and restricted the sources of financing to pay imminent debt maturities and ongoing interest payments (including in respect of the Existing Debt).

7.3 **Negotiations with Existing Noteholders and Existing Lenders culminating in the Restructuring Support Agreement**

(a) Following a comprehensive examination of the strategic options available to the Company with the assistance of professional advisers, the Company formed the view that formulating a comprehensive restructuring of its offshore indebtedness was a top priority and, if successfully implemented, would be the best available outcome for all stakeholders of the Company and wider Group.

(b) As previously disclosed in the Company's announcement dated 10 October 2023, the Company appointed Houlihan Lokey (China) Limited and China International Capital Corporation Hong Kong Securities Limited as joint financial advisers (together with the subsequent appointment of Linklaters as legal adviser) to facilitate a transparent dialogue between the Company and its offshore creditors to explore feasible options to effect a holistic plan to secure the long-term future of the Company for the benefit of stakeholders. In making the announcement of 10 October 2023, the Company's offshore creditors were invited to contact the Company's financial advisers to initiate a dialogue about a possible debt restructuring.

(c) In conjunction with its financial and legal advisers, the Company has conducted extensive negotiations and discussions with the AHG and the CoCom and certain other significant creditors. The AHG and CoCom currently own or control no less than 33% of the Existing Public Notes (approximately US$3.109 billion of outstanding principal) and no less than 49% of the Existing Syndicated Loans (approximately US$1.77 billion of outstanding principal) respectively.

(d) The negotiations between the Company, the AHG and the CoCom occurred in three phases since the first quarter of 2024.

(e) In the ***first phase***, the Company responded to extensive due diligence requests received from the professional advisers of the AHG and the CoCom to enable those major creditors to have a better understanding of the financial condition of the Group and to help facilitate negotiations about the Restructuring.

(f) During these initial discussions, it became clear that the AHG and the CoCom had different views about the validity and enforceability of the SSA Credit Support which had been created as part of the refinancing of one of the Existing Syndicated Loans in July 2023. Notwithstanding those differences, the Company expressed its intention to balance the interests of these creditor groups by adopting a principled approach to seek to achieve a consensual commercial resolution to better preserve value for all stakeholders and to avoid a series of competing enforcement actions and/or litigation proceedings.

(g) Both the AHG and the CoCom were supportive of seeking to achieve a commercial resolution, and this led to an interim standstill in July 2024. Suitable escrow arrangements were also effected in August 2024 over certain offshore assets, including the net disposal proceeds from the sale of the Group's equity interests in SJ Semiconductor Corporation and Zhuhai Wanda Commercial Management Group Co., Ltd. each of which are associated with the SSA Credit Support. These arrangements created an anchored basis for continuing negotiations in respect of the Restructuring and resolution of intercreditor issues arising as a result of the SSA Credit Support.

(h) While negotiations in respect of the Restructuring were ongoing, on 27 February 2024, Ever Credit presented the Ever Credit Petition which has subsequently been adjourned on several occasions given the ongoing negotiations and support from the AHG and the CoCom. The Company sought to maintain a constructive dialogue with Ever Credit and its solicitors. In this regard, following the execution of the non-disclosure agreement on 5 November 2024, the Company provided periodic updates about the status of the negotiations with AHG and the CoCom.

(i) Similarly, since the first quarter of 2024, the Company engaged actively with the CB Holder Group, which represents no less than 34% of the outstanding Existing HKD Convertible Bonds, and their legal advisers by providing periodic updates on the progress of the Restructuring.

(j) The ***second phase*** of the negotiations concerns the specific negotiations over the commercial terms of the Restructuring generally and in respect of the New Instruments to be issued under the Scheme. This phase initially involved the exchange of term sheets between each of the advisers to seek to narrow the underlying framework of the Restructuring and points of contention.

(k) On 11 November 2024, the Company entered into a non-disclosure agreement with members of the AHG to permit the Company to disclose price sensitive/material non-public information ("**MNPI**") as a means to facilitate direct principal-to-principal negotiations between the Company and the AHG. Each member of the AHG was restricted from trading in any securities of the Company until MNPI was cleansed

on 9 January 2025 by the Company publishing a public announcement on the HKEX about the key commercial terms of the proposed Restructuring.

(l) Subsequently, the Company and the AHG entered into a second round of principal-to-principal negotiations on 18 March 2025 during which the AHG were similarly restricted from trading in the securities of the Company. In parallel, the Company continued to engage with the CoCom, particularly on the terms of the SCA.

(m) Although the Company managed to reach an in-principle understanding with the CoCom about the commercial terms of the SCA (and related credit support), the AHG did not fully agree with all of the proposed terms ("**SCA Intercreditor Issues**") despite there being some consensus that: (i) the overall quantum of the SCA should be fixed at USD178 million; and (ii) the SCA should be discharged by an initial 'upfront' cash payment (that is, the SCA Day 1 Payment) and the balance satisfied by the repayment of a two-year term loan (that is, the SCA Loan).

(n) Overall, the second round of negotiations were fruitful (certainly in part) as they culminated in the Company and the AHG duly executing the Restructuring Support Agreement on 11 April 2025. However, given certain outstanding issues remained unresolved, the CoCom was unable to support entry into that agreement at the same time.

(o) In those circumstances, the Term Sheet appended to the Restructuring Support Agreement simply incorporated a reservation about resolution of the SCA Intercreditor Issues and certain other matters being subject to further negotiation.

(p) The resolution of the SCA Intercreditor Issues became the principal subject matter of the *third phase* of the negotiations. Following a series of meetings arranged by the Company with the respective advisers of the AHG and the CoCom and one principal-to-principal meeting between both creditor groups, the parties resolved the SCA Intercreditor Issues.

(q) This culminated in the due execution of the Deed Poll by the Company on 23 June 2025 and a reassessment of the AHG Work Fee to ensure that it properly compensated and is proportionate to the additional time, effort and resources committed to negotiating the resolution of each of the SCA Intercreditor Issues.

(r) Subsequently, the Company entered into the RSA Amendment Agreement on 18 August 2025 with the AHG to amend the Restructuring Support Agreement by, *inter alia,* appending a revised Term Sheet that incorporates more detailed commercial terms about the SCA. On the same day, the Company also entered into a deed of confirmation in favour of the beneficiaries of the Deed Poll confirming that the terms of the Deed Poll remain and shall continue to remain in full force and effect, notwithstanding the execution of the RSA Amendment Agreement. On 18 August 2025, the Company published a suitable public announcement on the HKEX and uploaded a copy of the amendment agreement to the Transaction Website.

(s) Separately, on 6 August 2025, solicitors of Ever Credit wrote to the Hong Kong Court stating that Ever Credit intended to support the proposed Restructuring subject to further terms and conditions. Following the announcement published 18 August 2025 regarding the RSA Amendment Agreement, Ever Credit formally acceded to the Restructuring Support Agreement. The Company also confirms that it has not received any request from any Consenting Creditor to withdraw support from the Restructuring Support Agreement.

(t) In light of the significant value attributable to the third-party credit support given by certain onshore members of the Group (comprising the Scheme Claims (Excluded Liabilities)) of the Existing Loans (Onshore Credit Support), the Company initially sought to engage these lenders to address these financings on a bilateral basis.

However, as the parties were unable to reach an in-principal agreement on the commercial terms by August 2025, the Company considers that it is appropriate and fair for the Existing Loans (Onshore Credit Support) to be included in Class 2 on the basis that the rights of lenders under the relevant credit support (comprising the Scheme Claims (Excluded Liabilities)) are preserved following the Restructuring (as discussed in section 5.64 above). Between 17 August 2025 and 27 August 2025, the Company sent written notices to the lenders under the Existing Loans (Onshore Credit Support) to invite them to accede to the Restructuring Support Agreement to be eligible to receive the RSA Fees. In addition, the Company has been engaged in discussions with those lenders to assist them in understanding the terms of the Scheme and how the Scheme applies to the Existing Loans (Onshore Credit Support). If requested by a lender under an Existing Loans (Onshore Credit Support), the relevant onshore members of the Group that have provided third-party credit support in respect of such Existing Loans (Onshore Credit Support) will do all such acts or execute all such documents necessary to protect or maintain the legality, validity and enforceability of such third-party credit support. Notwithstanding that the rights of lenders under such credit support will not be released or varied under the terms of the Scheme, Tai Fung Bank Limited as the lender under the TF Loan has indicated to the Company that it does not agree to the inclusion of the TF Loan in the Scheme and it may formally oppose the Scheme. No other lender under the Existing Loans (Onshore Credit Support) has indicated to the Company that it will oppose the Scheme.

(u) As of the date of this Explanatory Statement, Scheme Creditors representing more than 75.43% of the aggregate outstanding principal amount of the Existing Debt have executed or acceded to the Restructuring Support Agreement which comprises approximately 68.09% of the Scheme Claims in Class 1 and approximately 77.85% of the Scheme Claims in Class 2[54]. A summary of the terms of the Restructuring Support Agreement is produced in section 7.6 (*Summary of key terms of the Restructuring Support Agreement*).

(v) During the course of these multi-party negotiations, the Company has agreed, similarly to the position of the AHG, to pay work fees to the CoCom and the CB Holder Group to compensate proportionately each of these creditor groups for, *inter alia,* the time, effort and resources which they have committed to the negotiation of the Restructuring as explained in more detail in sections 9.5(l) to 9.5(m) (*Scheme classes*).

7.4 Overview of the Restructuring

(a) Each Scheme Creditor is referred to section 8.2 (*Overview of the implementation method*) which explains the mechanical elements of the Restructuring. Nevertheless, on a non-exhaustive basis, the Restructuring seeks to implement the following:

(i) the cancellation of Existing Debt and the release and discharge of all Existing Debt Obligors save for any Scheme Claims (Excluded Liabilities); and

(ii) in consideration and exchange for those releases, the Scheme Creditors (apart from Sanctioned Scheme Creditors) will be entitled to receive:

(A) at the election of each Scheme Creditor, one or more of numerous different Options for Scheme Consideration Entitlement distributed under the Scheme. These Options incorporate elements of a

haircut and financial instruments convertible into the ordinary shares of the Company as follows:

Option	Description
Option 1	Cash upon the redemption of Existing Debt validly tendered by a Scheme Creditor and accepted, in each case in accordance with the Scheme.
Option 2	Mandatory convertible bonds (A)
Option 3A	Medium term notes and mandatory convertible bonds (A)
Option 3B	Medium term loan and mandatory convertible bonds (A)
Option 4A	Long term notes (A) and mandatory convertible bonds (B)
Option 4B	Long term loan (A) and mandatory convertible bonds (B)
Option 5A	Long term notes (B)
Option 5B	Long term loan (B)

These Options are designed to cater for the different needs and preferences of Scheme Creditors reflecting basic economic terms such as nature of instrument, tenor and repayment profile for each Scheme Consideration Entitlement; and

(B) only in respect of Scheme Creditors (Class 1), the SCA comprising the SCA Day 1 Payment, the SCA Loan and the SCA Warrants.

(iii) All New Instruments will be issued on the Restructuring Effective Date.

(iv) The CVR will be issued upon the CGPV Acquisition Completion if it occurs within a period of six calendar months of the Restructuring Effective Date. The CVR enables holders of the MTN, MTL, LTN, LTL and SCA Loan to share in the cash consideration, which the Controlling Shareholder may receive from any future disposal of the Forest City Project after the separation of this development project from the Group as part of the CGPV Acquisition.

7.5 **Other matters relevant to the Restructuring**

(a) **CGPV Acquisition**: The Group intends to effect the CGPV Acquisition as part of the Restructuring. As the CGPV Acquisition is a "connected person" transaction under the HKEX Listing Rules, it is subject to approval by the independent shareholders of the Company.

Rationale of the CGPV Acquisition

(i) The Forest City Project is a significant undertaking. When completed and fully developed, it is intended to be an integrated township comprising: (i) three reclaimed islands with both residential and commercial real property; (ii) a golf resort; and (iii) an industrial area.

(ii) CGPV (the joint venture entity that owns beneficially the Forest City Project) is the overall developer and operator. The sale of real property within the Forest City Project to residential end-users is being conducted in phases.

(iii) Historically, the Forest City Project has been financed primarily through a mixture of external financing raised from local lenders in Malaysia, the beneficial holders of certain Islamic bonds and intercompany loans advanced by members of the Non-FC Group in the aggregate amount of approximately MYR8 billion (USD1.82 billion) ("**FC ICL**").

(iv) Due to the scale of the Forest City Project, it is still not complete and remains under development. The Company estimates conservatively that substantial additional capital expenditure will be required over the course of the next few years to ensure the current valuation and marketability of the Forest City Project to residential end-users.

(v) The Group has concluded that it can no longer financially support the Forest City Project given its distressed condition and the terms of the New Instruments which restrict the ability of the Group to raise financing and reinvest in offshore projects such as the Forest City Project. In those circumstances, the Group has explored possible alternatives with its professional advisers but, nonetheless, has concluded that separation from the Group is the best approach in order to preserve value and enable the Group to focus its limited resources on investment in other/more profitable development projects and servicing the New Instruments after the Restructuring Effective Date.

(vi) In exploring alternatives, the Company formed the view that the potential pool of suitable investors is limited having due regard to the sheer scale of the project and the contractual restrictions in the documentation enabling the project and related financing documentation. Similarly, a conventional M&A process would necessarily need to be protracted to avoid a 'fire-sale' and that process would not be conducive to the Group 'offloading' a non-performing asset within an accelerated timeline demanded by the Restructuring.

(vii) The proposed disposal to the Controlling Shareholder has the advantage of familiarity with the Forest City Project and will ensure continuity and preservation of value in the longer term for all stakeholders.

Terms of the CGPV Acquisition

(viii) The commercial terms of the CGPV Acquisition will be described in more detail in the shareholder circular to be issued by the Company ("**Shareholder Circular**"). The CGPV Acquisition contemplates (in summary and among other things):

(A) The Group will dispose of:

(I) certain preference shares in CGPV;

(II) certain ordinary shares and preference shares in Country Garden Waterfront Sdn. Bhd., the immediate holding company of CGPV; and

(III) certain preference shares in CGPV Industrial Building System Sdn. Bhd., an indirect subsidiary of Country Garden Waterfront Sdn. Bhd.,

to the Controlling Shareholder and in exchange, the Controlling Shareholder will write off USD50 million of the Shareholder Loans.

(B) It is a requirement by the Controlling Shareholder that all historical Liabilities between the FC Group and the Non-FC Group be properly resolved before completion of the CGPV Acquisition. As a condition precedent to the CGPV Acquisition, there shall be a mandatory netting-off, on a dollar-for-dollar basis, of all historical Liabilities between the FC Group and the Non-FC Group, such that there shall be no Liability owed or payable by any member of the Non-FC Group to any member of the FC Group upon the completion of the CGPV Acquisition (the "**Mandatory Net-off**"). Any remaining FC ICL following the Mandatory Net-off will therefore be converted into the preference shares in CGPV and the preference shares in CGPV Industrial Building System Sdn. Bhd. referred to in (A)(I) and (A)(III) above, prior to the CGPV Acquisition.

(C) In order to ensure continuity for the operations of the Forest City Project, the Controlling Shareholder shall procure that the FC Group enters into a management agreement with the Company under which the Non-FC Group will continue to provide day-to-day oversight over the operations of the Forest City Project.

(D) In consideration of the CGPV Acquisition, the Controlling Shareholder (or a party designated by the Controlling Shareholder) will procure the issuance of a contingent value right instrument to the Company and also the Collateral Agent (in the form of the CVR) and also execute an upside-sharing agreement with the Company upon the CGPV Acquisition Completion if it occurs within a period of six calendar months of the Restructuring Effective Date. The purpose of each of these contractual arrangements is to allow the holders of the MTN, MTL, LTN, LTL and SCA Loan and the Company to receive further compensation in the event that the Controlling Shareholder realises any cash consideration from the onward disposal of the Forest City Project after the completion of the CGPV Acquisition. The CVR will be held by the Collateral Agent on behalf of holders of the MTN, MTL, LTN, LTL and SCA Loan and any cash received by the Collateral Agent in respect of the CVR will be distributed to the New Instrument Administrative Parties under the MTN, MTL, LTN, LTL and SCA Loan in accordance with the terms of an intercreditor agreement to be entered into among the aforementioned parties. In the event CGPV Acquisition is not completed within six months after the Restructuring Effective Date, the Forest City Project will remain in the Group and no CVR will be issued.

(E) The CGPV Acquisition shall be subject to a separate independent review and verification to be conducted by Kroll (pursuant to the Kroll engagement letter dated 14 April 2025) on behalf of the AHG and the CoCom.

(b) **Shareholder Loans Equitisation**. To provide support to the Company, the Controlling Shareholder has agreed to procure the conversion into equity of the remaining outstanding amount of the Shareholder Loans, which have not been written off as part of the CGPV Acquisition ("**Remaining Shareholder Loans**").

This equitisation of the Remaining Shareholder Loans (valued at approximately USD1.1 billion) will be effected by way of the Controlling Shareholder subscribing

for Company Shares, conversion into Company Shares and/or subscription (and pre-payment in full of the exercise price) of warrants to be issued by the Company on the Restructuring Effective Date (that is, the Shareholder Warrants), in each case, at a subscription, conversion or initial strike price (as applicable) of HKD0.60 per share.

If the Shareholder Loans Equitisation is implemented by way of Shareholder Warrants, the Shareholder Warrants will be exercisable at the sole discretion of the Controlling Shareholder and at any time after the Restructuring Effective Date. Notwithstanding this, the present intention of the Controlling Shareholder is to exercise such rights in accordance with the mandatory conversion schedule of MCB (A) and MCB (B) so that the Controlling Shareholder shall maintain a shareholding in the issued share capital of the Company of not less than 40% on a fully diluted basis when exercising the Shareholder Warrants.

The Shareholder Loans Equitisation has real benefit to the Company and its stakeholders:

(i) first, it further reduces approximately USD1.1 billion of liabilities of the Company; and

(ii) second, the Controlling Shareholder has undertaken that following the equitisation of the Remaining Shareholder Loans, it shall only be permitted to dispose of the shares in the Company provided that, *inter alia*, the disposal proceeds are applied toward repayment of the SCA Loan and the New Instruments.

(c) **Controlling Shareholders' Undertakings**. The Controlling Shareholder will undertake for as long as the Controlling Shareholder receives any new shares attributable to the Shareholder Loans Equitisation and any of the New Instruments remain outstanding, on terms to be agreed in the Restructuring Documents:

(i) to ensure Concrete Win Limited remains wholly owned (directly or indirectly) by the Controlling Shareholder or certain of its affiliates and to only elect to receive scrip dividend if any dividend is declared and distributed on the capital stock of the Company; and

(ii) to not voluntarily sell, transfer or otherwise dispose of the capital stock of the Company, unless (x) such sale, transfer or disposition shall not result in them being the beneficial owners of less than 30% of the total voting power of the capital stock of the Company, and (y) such proceeds (following deducting reasonable costs and expenses) from such sale, transfer or disposition are used:

(A) to pay interest and principal repayments due under the SCA Loan and the New Instruments and then on a pro rata basis to prepay principal on the SCA Loan and New Instruments;

(B) for the purpose of restructuring the indebtedness of Country Garden Real Estate Group Co., Ltd;

(C) for preserving the value of the assets directly or indirectly held in the Forest City Project or reinvestment into the same for the purposes of maximising the returns under the CVR;

(D) for preserving the value of the assets directly or indirectly held by the Group companies: (i) which are obligors under the New Instruments or the SCA Loan; or (ii) whose shares form part of the

security or credit support package for the New Instruments or SCA Loan; and/or

(E) for preserving the value of the real estate development projects of the Group which form part of the cash sweep package for the New Instruments or the SCA Loan.

(d) **Management Incentive Plan**. The Company will introduce a MIP which will allow, from time to time, no more than 5% of the ordinary issued share capital of the Company on a fully diluted basis to be issued to the management team and key employees of the Group (excluding the Controlling Shareholder) in order to align their interests with the long-term growth prospects of the Company and incentivise them to meet or exceed performance targets under the Company's business plan.

The commercial terms and vesting schedule of the MIP will be described in more detail in the Shareholder Circular and contemplates (in summary and among other things):

For the first 2.5% MIP shares, the grant of such MIP shares is expected to be triggered by milestones in repayment of the new instruments issued as part of the Scheme and by performance in the Company's share price.

For the remaining 2.5% MIP shares, the grant of such MIP shares is expected to be linked to the Group's overall financial performance.

Vesting of all granted MIP shares shall be subject to a lock-up period and shall be conditional upon satisfaction of certain requirements.

(iii) not exercised its rights to terminate the Restructuring Support Agreement as at the Restructuring Effective Date; and

(iv) complied with its obligations under the Restructuring Support Agreement and shall not be in breach as at the Restructuring Effective Date.

(e) The Restructuring Support Agreement contains various customary termination provisions, including that it terminates immediately upon the earliest to occur of any of the following:

(i) the rejection by the Court, after exhausting all rights of appeal, of the application to convene each Scheme Meeting;

(ii) the Scheme not being approved by the requisite statutory majority of Scheme Creditors at either or both Scheme Meetings (or any adjournment thereof);

(iii) the decision of the Court to decline to make the Scheme Sanction Order at the Scheme Sanction Hearing is upheld after exhausting all rights of appeal;

(iv) the Restructuring Effective Date;

(v) 11:59 p.m. Hong Kong time on the Longstop Date (being: (A) 31 March 2026 (or as extended pursuant to the terms of the Restructuring Support Agreement); or (B) following the Scheme Effective Date, in accordance with the Scheme); and

(vi) the Court ordering, in a final and unappealable decision, the compulsory winding up of the Company.

RSA Amendment Agreement

The Company and the AHG entered into the RSA Amendment Agreement on 18 August 2025 in order to:

(a) append a revision of the Term Sheet incorporating detailed commercial terms about the SCA;

(b) bifurcate the RSA Fee Deadlines for Scheme Creditors (Class 1) and Scheme Creditors (Class 2) to facilitate the Company exercising its discretion to extend the RSA Fee Deadline for each class independently of each other; and

(c) give the Company the flexibility to pay the RSA Fees by way of ordinary shares of the Company (instead of through MCB (A)) if permitted under the terms of the Restructuring Support Agreement.

The reasons for these amendments were as follows:

(a) first, disclosure of each of the revisions to the Term Sheet to ensure that all Scheme Creditors (including Scheme Creditors who had already acceded to the Restructuring Support Agreement) had symmetry of information about the commercial terms of the SCA;

(b) second, while a substantial number of Scheme Creditors (Class 2) (at that time, representing no less than 75% of the relevant Scheme Claims) had acceded to the Restructuring Support Agreement), in contrast, lenders representing only approximately 9.40% of the aggregate outstanding principal amount in respect of the Scheme Claims (Class 1) had acceded to the Restructuring Support Agreement during the same time period largely because of the SCA Intercreditor Issues and the extended credit approval processes. The bifurcation of the RSA Fee Deadlines afforded the Company appropriate flexibility to extend the RSA Fee Deadline for the Scheme Creditors (Class 1) only in order to accommodate their extended approval processes; and

(c) third, the Company understands that in recent transactions issuers have experienced difficulties in obtaining the requisite onshore regulatory approvals to issue mandatory convertible bonds for the purposes of paying consent fees. Therefore, the Company requires flexibility to pay the RSA Fees in an amount of shares equal to the amount of shares that the relevant Scheme Creditor would otherwise have received if they had elected to voluntarily convert the MCB (A) into shares in full on the Restructuring Effective Date.

8. OVERVIEW OF THE RESTRUCTURING (INCLUDING THE SCHEME)

This section 1 provides Scheme Creditors with an overview of the Restructuring. The information provided is not exhaustive and is qualified entirely by reference to the full text of the Scheme (as produced in Appendix 2 (*Scheme*)) and any subsequent modification, addition, deletion or condition which the Court may think fit to approve or impose, as appropriate.

8.1 Purpose of the Restructuring

The Scheme is a fundamental part of the implementation of the Restructuring which seeks to:

(a) strengthen and "right-size" the offshore assets and liabilities of the Group as reflected in the consolidated accounts of the Company by reducing offshore indebtedness by an aggregate amount of more than USD10 billion.[55] This exercise will enable each member of the Group (after the FC Disposal) to satisfy all remaining offshore indebtedness and other liabilities in order to continue to trade on a going-concern basis;

(b) alleviate liquidity pressures being faced by the Company and to adequately align offshore debt servicing obligations with the prevailing financial condition of the Group and the real estate sector on the Mainland. The Restructuring will reduce annual offshore debt servicing costs substantially by reducing interest payments on offshore indebtedness. Prior to the Restructuring, the prevailing interest rates of the Existing Notes range from 2.70% to 8.00% per annum and rates applying to substantially all Existing Loans range approximately from 2.92% to 3.90% per annum plus applicable Term SOFR rates, HIBOR rates and customary credit adjustment. Following the successful implementation of the Restructuring, applicable interest rates for interest-bearing New Instruments and the SCA Loan will range from 1% to 4.29% per annum;[56]

(c) provide the Group with extended maturity dates under the New Instruments and the SCA Loan ranging from 2027 to 2036;

(d) cultivate a more stable platform for the Company and the remaining members of the Group to focus the attention of senior management on the improvement of the underlying business to ensure payment of all offshore debt obligations as they fall due; and

(e) maximise value for all stakeholders by ensuring that they are treated fairly in accordance with their legal rights and applicable law.

8.2 Overview of the implementation method

(a) The Restructuring involves a series of different transactions:

<u>Existing HKD Convertible Bonds Consent Solicitation</u>

Concurrently with the implementation of the Scheme, the Company is proposing to conduct a consent solicitation exercise in relation to the Existing HKD Convertible Bonds to obtain approval to change the governing law from England and Wales to the laws of Hong Kong. This is necessary to simplify the effectiveness of the Scheme in respect of these instruments. Notwithstanding this, the change will only take effect upon the Restructuring Effective Date once all the Restructuring

[55] This figure is based on Scenario 1 as described in section 5.51 above assuming all MCB (A) and MCB (B) are converted into Company Shares.
[56] As described in section 5.50 above, the Company's current cash flow projection indicates that it can support the different possible revised capital structures following the Restructuring without further default in the imminent future.

Conditions have been satisfied (the "**Existing HKD Convertible Bonds Consent Solicitation**").

Implementation steps on the Restructuring Effective Date

(i) On the Restructuring Effective Date, the Company will, subject to and in accordance with the Scheme, allocate and, where possible, distribute the Scheme Consideration Entitlement and any applicable RSA Fees to each Scheme Creditor.

(ii) In exchange for the distribution of Scheme Consideration Entitlement, the Existing Debt will be cancelled and discharged on the Restructuring Effective Date and the Existing Debt Obligors will be released from their obligations in respect of the Existing Debt (apart from the Scheme Claims (Excluded Liabilities)).

(iii) All claims howsoever arising against the Company or other members of the Group under or in connection with any Existing Debt shall be released and discharged, in each case, on the basis of the terms of the Deeds of Release.

Chapter 15 Recognition

The Company will seek an order of the United States Bankruptcy Court for the Southern District of New York or such other appropriate forum for relief under Chapter 15 of the U.S. Bankruptcy Code under Title 11 of the United States Code to recognise and give effect to each of the compromises and other arrangements effected by the Scheme.

(b) **What does a Scheme Creditor receive under the Scheme?**

Scheme Creditors are entitled to receive Scheme Consideration Entitlements based on **Scheme Consideration Claims** (that is, the aggregate of: (i) the principal amount of Scheme Claims as at the Record Date (***less*** any SCA Day 1 Payment where applicable); and (ii) accrued and unpaid interest (including default interest) up to and including 30 September 2024).

All Scheme Creditors are entitled to receive:

(i) cash consideration and/or New Instruments under either one or a combination of the Options set out in the table below as elected or allocated to each Scheme Creditor calculated on the basis of their individual Scheme Consideration Claims; and

(ii) only in respect of Scheme Creditors (Class 1), the SCA Day 1 Payment, the SCA Loan and the SCA Warrants.

All New Instruments will be issued on the Restructuring Effective Date. The CVR will be issued upon the CGPV Acquisition Completion if it occurs within a period of six calendar months of the Restructuring Effective Date.

(i) Options for Scheme Consideration

Subject to all applicable caps and, depending on the circumstances, possible reallocation between Options as described below, Scheme Creditors are free to elect any Option. Further specific details about allocations between Options are set out at Schedule 4 (*Scheme Consideration Entitlement Allocation Methodology*) of the Scheme.

(ii) Option caps and reallocation and adjustment

Each of the following Options is subject to a finite cap (the "**Option Cap**") which applies to all Scheme Claims. To the extent that elections are made exceeding the relevant Option Cap for that specific Option, the "**Allocation Mechanism**" described below shall apply automatically:

Option	Option Cap	Allocation Mechanism
Option 1	Maximum amount available to Company for purchasing tendered Scheme Consideration Claims: **USD200,000,000**	Any unaccepted Scheme Consideration Claims which have been submitted by a Scheme Creditor (excluding, for the avoidance of doubt, any Scheme Consideration Claims of any Scheme Creditor that does not make an election in respect of its Scheme Consideration Claims) under Option 1 (being the "**Option 1 Election Amount (Oversubscribed Portion)**") shall be reallocated to Option 2.

		Any Scheme Consideration Claims of any Scheme Creditor that does not make an election in respect of any portion of its Scheme Consideration Claims that have been allocated to Option 1 shall, if unaccepted under Option 1, be reallocated to Option 4A.
Option 2	Maximum aggregate principal amount of MCB (A): **USD2,000,000,000**	First, Option 2 will be allocated to any **Option 1 Election Amount (Oversubscribed Portion)** on a *pro rata* basis. Second, any remaining Option 2 Cap will be allocated to Scheme Creditors who selected Option 2 on a *pro rata* basis. Third, any unallocated Scheme Consideration Claims under Option 2 (i.e. the "**Option 2 Election Amount (Oversubscribed Portion)**") shall be reallocated to Option 3A (if they are an Existing Noteholder or an Existing Lender who has elected to be reallocated to Option 3A) or Option 3B (if they are an Existing Lender or an Existing Noteholder who has elected to be reallocated to Option 3B).
Option 3A ("Notes" format) **and** **Option 3B ("Loans" format)**	Maximum aggregate principal amount of MTN (issued under **Option 3A**) and MTL (issued under **Option 3B**): **USD2,709,300,000** Maximum aggregate principal amount of MCB (A): **USD5,500,700,000**	First, Option 3A or 3B will be allocated to Scheme Creditors who selected Option 3A or 3B, respectively, on a *pro rata* basis. Second, any remaining Option 3 Cap will be allocated to **Option 2 Election Amount (Oversubscribed Portion)** on a *pro rata* basis. Any remaining Option 2 Election Amount (Oversubscribed Portion) exceeding the remaining Option 3 Cap will be reallocated to Option 4A (if they are an Existing Noteholder or an Existing Lender who has elected to be reallocated to Option 4A) and Option 4B (if they are an Existing Lender or an Existing Noteholder who has elected to be reallocated to Option 4B). Third, any unallocated Scheme Consideration Claims under Option 3A shall be reallocated to Option 4A (if they are an Existing Noteholder or an Existing Lender who has elected to be reallocated to Option 4A), and any unallocated Scheme Consideration Claims under Option 3B shall be reallocated to Option 4B (if they are an Existing Lender or an Existing Noteholder who has elected to be reallocated to Option 4B).

Option 4A ("Notes" format') **and** **Option 4B ("Loans" format)**	Maximum aggregate principal amount for LTN (A) (issued under **Option 4A**) or LTL (A) (issued under **Option 4B**): **No cap** Maximum aggregate principal amount of MCB (B): **No cap**	N/A
Option 5A ("Notes" format') **and** **Option 5B ("Loans" format)**	Maximum aggregate principal amount of LTN (B) and LTL (B): **USD1,500,000,000**	First, Option 5A or 5B will be allocated to Scheme Creditors who elected Option 5A or 5B, respectively, on a *pro rata* basis. Second, any unallocated Scheme Consideration Claims under Option 5A shall be reallocated to Option 4A (if they are an Existing Noteholder or an Existing Lender who has elected to be reallocated to Option 4A) and any unallocated Scheme Consideration Claims under Option 5B shall be reallocated to Option 4B (if they are an Existing Lender or an Existing Noteholder who has elected to be reallocated to Option 4B).

Note to each Scheme Creditor:

(A) Incomplete or late submission of documentation

If a Scheme Creditor:

(i) submits a completed Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) on or before the Scheme Consideration Entitlement Election Deadline but fails to make any election; or

(ii) does not submit a validly completed Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) on or before the Scheme Consideration Entitlement Election Deadline,

its 'unelected' Scheme Consideration Claims shall be allocated in the following manner:

(i) first, to Option 1 at the applicable *Option 1 Valid Offer Price (Default)*; and

(ii) second, if any Option 1 Valid Bid in respect of such Scheme Consideration Claims is not accepted (or only accepted in part) due to the Option 1 Cap being met, such 'unelected' Scheme Consideration Claims shall be reallocated to Option 4A.

Option 1 Valid Bids in respect of any 'unelected' Scheme Consideration Claims will only be accepted in accordance with the terms of the Scheme if all Option 1 Valid Bids submitted by Option 1 Scheme Creditors (i.e. a Scheme Creditors that have elected Option 1) have been accepted.

The "*Option 1 Valid Offer Price (Default)*" refers to:

(i) in respect a Scheme Creditor (Class 1), an Option 1 Valid Offer Price of USD48 for every USD1,000 of its Scheme Consideration Claims; and

(ii) in respect of a Scheme Creditor (Class 2), an Option 1 Valid Offer Price of USD62 for every USD1,000 of its Scheme Consideration Claims.

The pricing of the "*Option 1 Valid Offer Price (Default)*" reflects the price which the Company views as offering a better rate of return to Scheme Creditors under Option 1 than under the Comparator Scenario, measured against an 'objective' benchmark. The Option 1 Valid Offer Prices of USD48 and USD62 are 'liquidation plus' recoveries, which are equivalent to:

(i) the mid-point estimated recovery of Scheme Creditors (Class 1)[57] and Scheme Creditors (Class 2)[58] in the Comparator Scenario, excluding (i) the recoveries from the SSA Credit Support (where the Scheme Creditors (Class 1) will receive the SCA for such release) and (ii) the recoveries from the Onshore Credit Support (which will not be released or varied under the terms of the Scheme); plus

(ii) an additional 0.1% in recoveries.

The above pricing structure strikes an appropriate balance between ensuring non-participating Scheme Creditors receive better recoveries than in the Comparator Scenario on their 'unelected' Scheme Claims, while also allowing the Company to deleverage its capital structure to the largest extent possible for the benefit of all stakeholders, including Scheme Creditors who proactively participate in the Scheme.

(B) Eligibility criteria to receive "loan" format New Instruments

Any Scheme Creditor, who has elected to receive consideration in the form a "loan" for the New Instruments (that is, Option 3B, Option 4B and/or Option 5B), shall be eligible only to receive the elected Option provided that they:

(i) deliver, or procure the delivery of, all necessary documentation and/or other evidence as may be reasonably requested by the New Loans Administrative Parties in order for them to conduct and be satisfied with the outcome of all "know your customer" and/or other similar procedures which are required (or deemed desirable) within 14 calendar days of request from the New Loans Administrative Parties (or such longer period determined by the New Loans Administrative Parties, in their sole discretion, acting reasonably and as notified in writing to each relevant Scheme Creditor); and

(ii) are able to represent to the New Loans Administrative Parties that they are not disqualified from being a lender of record under the MTL, LTL (A) and/or LTL (B) pursuant to Money Lenders Ordinance of Hong Kong (Cap. 163), Money Lenders Act 2008 of Singapore or under any other applicable law,

(the "**New Lender Preconditions**").

[57] Scheme Creditors (Class 1) are expected to receive aggregate recoveries of between 4.1% (low case) and 5.2% (high case) from the Company and its relevant third-party credit support, excluding the SSA Credit Support.

[58] The mid-point estimated recovery of Scheme Creditors (Class 2) is based on the estimated mid-point recovery of the group of Scheme Creditors (Class 2) with the highest recovery range (i.e. the Existing Noteholders under the Existing HKD Convertible Bonds). The Existing Noteholders under the Existing HKD Convertible Bonds are expected to receive aggregate recoveries of between 5.3% (low case) and 6.8% (high case) from the Company, the other members of the Group and its third-party credit support, excluding the Onshore Credit Support.

In the event that a Scheme Creditor is unable to satisfy the New Lender Preconditions, it shall automatically be deemed to have elected irrevocably to receive the corresponding Option in the format of "notes" (that is, by illustration (i) an election for Option 3B will be deemed as being an Option 3A election, (ii) an election for Option 4B will be deemed as being an Option 4A election and (iii) an election for Option 5B will be deemed as being an Option 5A election) for all purposes.

(C) Important information regarding the New Loans

Scheme Creditors should refer to section 13 (*Risk Factors*) for more detailed information regarding risk factors that the Company believes are potentially significant, but this should not be regarded as a comprehensive statement of all potential risks and uncertainties relating to the Restructuring or the Scheme. The Company notes, in particular, the New Loans will not be publicly traded and will have limited liquidity. Scheme Creditors should also note that, under the terms of the New Loans, a lender may only assign any of its rights or transfer by novation any of its rights and obligations under the relevant New Loans Finance Documents in accordance with the terms therein. Any such assignment or transfer would also incur a fee of USD3,500 payable to the relevant New Loans Administrative Party.

(iii) CVR

The CVR will be issued upon the CGPV Acquisition Completion if it occurs within a period of six calendar months of the Restructuring Effective Date. The purpose of the CVR is to allow the holders of the MTN, MTL, LTN, LTL and SCA Loan and the Company to receive further compensation in the event that the Controlling Shareholder realises any cash consideration from the onward disposal of the Forest City Project after the completion of the CGPV Acquisition. The CVR will be held by the Collateral Agent on behalf of holders of the MTN, MTL, LTN, LTL and SCA Loan and any cash received by the Collateral Agent in respect of the CVR will be distributed to the New Instrument Administrative Parties under the MTN, MTL, LTN, LTI and SCA Loan in accordance with the terms of an intercreditor agreement to be entered into among the aforementioned parties. In the event CGPV Acquisition is not completed within six months after the Restructuring Effective Date, the Forest City Project will remain in the Group and no CVR will be issued.

(iv) SCA

Only a Scheme Creditor (Class 1) shall be entitled to receive its *pro rata* share of the (i) SCA Day 1 Payment and (ii) the benefit of the SCA Loan and the SCA Warrants, as assessed by reference to each individual exposure as a proportion of the aggregate indebtedness of the Existing Syndicated Loans.

8.3 **Overview of the New Instruments and the CVR**

Note: The table below produces a descriptive summary of the nature and type of instruments that are proposed to be issued to Scheme Creditors. Please refer to section 8.2 (*Overview of the implementation method*) for the methodology to be applied to the calculation and allocation of Scheme Consideration Entitlement to each Scheme Creditor. Capitalised terms used but not defined in herein shall have the meanings ascribed thereto in the form of the indentures of the New Notes appended at Appendix 10 (*Form of New Notes Indentures*), the form of facility agreements of the New Loans appended at Appendix 11 (*Form of New Loans Facility Agreement*) and the form of trust deed of the MCB appended at Appendix 12 (*Form of MCB Trust Deed*).

MTN **(USD-denominated and governed by New York law)** **Issued under Option 3A**	The MTN will be constituted by a series of USD-denominated senior notes having a maturity date of 31 December 2032 (being 90 months after the Reference Date) or, in the event the cumulative onshore contract sales of the Group for the period of 1 January 2025 to 31 December 2030 reflected in the report delivered by the Company to the Monitoring Accountant exceeds USD67.3 billion, 30 June 2032. The MTN will bear interest from and including the Reference Date at **2.50%** per annum payable semi-annually (each such date a "**MTN Interest Payment Date**") in arrears. The Company may elect, by giving a notice in writing prior to each MTN Interest Payment Date, to pay a portion of such interest in paid-in-kind interest (such interest, "**MTN PIK Interest**") instead of Cash Interest under the terms of the MTN by increasing the principal amount of the Notes by the amount of such MTN PIK Interest accrued for such interest period, with the remaining portion of accrued and unpaid interest paid in Cash Interest under the terms of the MTN; *provided*, that the Company must pay Cash Interest under the terms of the MTN at a rate of at least 1.0% per annum on the Interest Accrual Basis. If the Company elects to pay MTN PIK Interest in lieu of Cash Interest under the terms of the MTN in respect of a portion of the interest due on an MTN Interest Payment Date, (i) the amount of MTN PIK Interest in respect of the relevant interest period for that MTN Interest Payment Date shall be in an amount which reflects an interest rate increase of 2.50% as compared to the amount of Cash Interest under the terms of the MTN in

(i) international recognition of the Scheme (section 9.11 (*Cross-Border Recognition of the Scheme*)).

9.2 Overview of the Scheme and schemes of arrangement generally

(a) The arrangement and compromise of Scheme Claims contemplated by the Scheme is proposed to be effected by way of a single scheme of arrangement under Hong Kong law. The Scheme Claims comprise all claims arising from or related to any Liability of the Company and/or any member of the Group to each Scheme Creditor that, directly or indirectly, derive from the Existing Notes Finance Documents and the Existing Loans Finance Documents, whether before, at or after the Record Date, including, for the avoidance of doubt, any interest, default interest, or distribution accruing on, or accretions arising in respect of, such claims, and excluding Scheme Claims (Excluded Liabilities) and any other liability of the Company under Clause 14 (*Costs and expenses*) of the Scheme.

(b) A scheme of arrangement is a procedure which enables a company to propose to its creditors, or one or more classes of those creditors, a compromise or arrangement of indebtedness or other obligations owed to those creditors.

(c) The Scheme can only become effective and legally binding when:

(i) approved by a majority in number of scheme creditors representing no less than 75% in value of the scheme claims owned or held by the scheme creditors who are present in person or by proxy and voting at each of the Scheme Meetings convened to consider and, if thought fit, approve the Scheme;

(ii) approved by the Court making an order sanctioning the Scheme; and

(iii) the sealed copy of the order sanctioning the Scheme is filed with the Hong Kong Registrar of Companies.

(d) Once the Scheme has become effective in accordance with its terms, it is legally binding on the Company and all the Scheme Creditors whether or not they voted in favour or against the Scheme, or did not vote at all.

(e) The Court will not sanction the Scheme unless it is satisfied that, among other things, (i) the applicable provisions of the Hong Kong Companies Ordinance (including sections 670, 673 and 674) have been complied with, (ii) each class of creditors voting on the Scheme have been properly constituted, (iii) the Scheme was approved by the requisite majority of each class of Scheme Creditors and (iv) the Scheme is otherwise, in all circumstances, fair and reasonable.

(f) The Scheme Effective Date is a distinct time separate from the Restructuring Effective Date. The occurrence of the Scheme Effective Date is merely one of the Restructuring Conditions. The Restructuring Effective Date can only occur when all Restructuring Conditions (e.g. obtaining necessary regulatory approvals, the payment of certain fees, costs and expenses and the due execution of all necessary documentation) have been satisfied or waived.

9.3 **Identity of Scheme Creditors**

(a) The creditors who will be bound by the terms of the Scheme, once effective, are defined as Scheme Creditors. You will be a Scheme Creditor if you are a person who owns or holds a legal, economic or beneficial interest as principal in the Existing Debt comprising the Existing Notes and the Existing Loans as at the Record Date.

(b) ***Existing Notes:*** The structure of the Existing Notes is complicated and effectively involves three different layers of ownership. For the purposes of the Scheme, the holders of the beneficial or economic interests in the Existing Notes as principal will be entitled to vote in respect of the Scheme.

For the avoidance of doubt, the Existing Notes Trustees and the Existing Notes Common Depositaries (including any nominee(s) of each Existing Notes Common Depositary as registered holders of the Existing Notes) (solely in their capacities as the recipients beneficiaries of the covenants to repay the Existing Notes) are technically Scheme Creditors, but they will not be permitted, unless instructed by the Existing Noteholders, to exercise any voting rights they may have in respect of the Existing Notes at the Scheme Meeting (to avoid double counting) and will not receive any Scheme Consideration Entitlement in respect of the Existing Notes proposed to be compromised under the Scheme.

(c) ***Existing Loans:*** Each Existing Lender who is a lender of record will be entitled to vote under the Scheme.

For the avoidance of doubt, the Existing Loans Administrative Parties (solely in their capacities as the beneficiaries of the covenants to pay the Existing Loans) are technically Scheme Creditors, but they will not be permitted to exercise any voting rights they may have in respect of the Existing Loans at the Scheme Meeting (to avoid double counting) and will not receive any Scheme Consideration Entitlement in respect of the Existing Loans proposed to be compromised under the Scheme.

9.4 **Inter-conditional Existing HKD Convertible Bonds Consent Solicitation and the Scheme in Hong Kong**

(a) The Existing Debt of the Company is governed variously by the laws of Hong Kong, England and Wales, New York and PRC. In order to achieve the effective release or discharge of the indebtedness under the Existing Debt in the relevant jurisdictions, the Company has proposed to effect the Restructuring through the following actions:

(i) the Scheme;

(ii) recognition of the Scheme under Chapter 15 of the U.S. Bankruptcy Code; and

(iii) the Existing HKD Convertible Bonds Consent Solicitation.

(b) The Restructuring will fail unless each of these actions become effective in accordance with their respective terms. The relevance of these actions to promote the effective compromise of Existing Debt under the various governing laws is further explained below.

Scheme in Hong Kong

(c) The rule in *Gibbs*[61] states that, for the purposes of the laws of Hong Kong, the question of whether an obligation has been effectively discharged is governed by the proper law of the contract giving rise to the relevant obligation. As such, the Company has proposed the Scheme in Hong Kong in order to achieve effective release, discharge and/or compromise of Existing Debt which are governed by the laws of Hong Kong.

(d) Further, the rule in *New Zealand Loan and Mercantile Agency Company Limited v. Morrison* (1898), as applied in Hong Kong, provides that a scheme creditor is unable to enforce any scheme claim (regardless of the applicable governing law) within the jurisdiction which sanctioned the scheme. Therefore, by proposing the Scheme in Hong Kong, the Company can ensure that Scheme Creditors cannot enforce any of their Scheme Claims against any of the assets of the Company which are primarily centred in Hong Kong.

Chapter 15 proceedings

(e) Given that the Existing Public Notes, which are governed by New York law, comprise a significant proportion (approximately 63%) of the Existing Debt, the Company will seek the recognition of the Scheme under Chapter 15 of the U.S. Bankruptcy Code such that the Scheme can be give full force and effect in the United States.

Existing HKD Convertible Bonds Consent Solicitation

(f) The Company will complete the Existing HKD Convertible Bonds Consent Solicitation to change the governing laws of the Existing HKD Convertible Bonds to the laws of Hong Kong, with such changes to take effect upon the satisfaction or waiver of all the Restructuring Conditions (other than the Restructuring Condition in respect of the effectiveness of the changes to the governing law of the Existing HKD Convertible Bonds), but prior to the occurrence of the Restructuring Effective Date. The change in the governing laws of the Existing HKD Convertible Bonds to the

[61] As established in the case of *Gibbs*.

laws of Hong Kong will enable the holistic and effective release, discharge and/or compromise of the Existing Debt through the Scheme once it becomes effective.

PRC law governed Existing Debt

(g) In respect of the 12 PRC law governed loans that are subject to the Restructuring (the only Existing Debt that is not governed by the laws of Hong Kong, New York and England and Wales), the Company notes that the aggregate outstanding principal amount of the loans is approximately US$459 million as at 31 December 2024, which forms a relatively small portion (approximately 3%) of the overall Existing Debt to be restructured.

(h) In addition, the Company has been actively engaging with Postal Savings Bank of China Co., Ltd (中国邮政储蓄银行股份有限公司保定市分行) (which advanced 10 of the loans) and Bank of Guangzhou Co., Ltd. (广州银行股份有限公司) (which advanced the remaining two loans). The Company has invited Bank of Guangzhou Co., Ltd. and Postal Savings Bank of China Co., Ltd. to accede to the Restructuring Support Agreement. Based on the most recent communications, the Company understands that both lenders are unlikely to participate in or object to the Scheme.

(i) Therefore, the Company considers that although there is a risk that the guarantee obligations of the Company may not be effectively discharged by the Scheme due to the rule in *Gibbs*, there are sufficient risk-mitigating factors to reduce any disruption to the effectiveness of the Restructuring.

No necessity for parallel scheme of arrangement in the Cayman Islands

(j) The Company has been advised by Cayman Islands legal counsel that the rule in Gibbs is also applied in the Cayman Islands . Therefore, the courts of the Cayman Islands will recognise the effectiveness of the Scheme to compromise Hong Kong law-governed Existing Debt and also other Existing Debt, for example, governed by the laws of New York provided the Scheme is recognised and given legal effect by virtue of appropriate relief under Chapter 15 of the U.S. Bankruptcy Code. The courts of the Cayman Islands also recognise the effectiveness of the Scheme to compromise Existing Debts governed by the laws of New York and the PRC where Scheme Creditors of those obligations have participated in the Scheme in Hong Kong and thereby have submitted to the jurisdiction.

(k) In view of this legal analysis, the high level of creditor accession to the Restructuring Support Agreement (which notably contains a positive obligation to each Consenting Creditor to vote in favour of the Scheme) and the Company's limited resources, the Company has determined that the likely costs to be incurred pursuing a parallel scheme of arrangement in the Cayman Islands are disproportionate to the likely benefits of effecting any such parallel scheme of arrangement. As such, the Company does not intend to effect any parallel scheme of arrangement in the Cayman Islands.

9.5 **Scheme classes**

(a) The Scheme proposes two classes of Scheme Creditors as follows:

(i) Scheme Creditors (Class 1) – lenders of record under the Existing Syndicated Loans; and

(ii) Scheme Creditors (Class 2) – beneficial holders of economic interests in the Existing Public Notes and the Existing HKD Convertible Bonds as principal, and lenders of record in respect of the ICBC Loan, the Ever Credit Bilateral Loan and the Existing Loans (Onshore Credit Support).

(b) In assessing the need to separate Scheme Creditors into different classes, the Court considers the similarities and differences in the respective legal rights of Scheme Creditors against the Company. In considering those matters, the Court will not have any regard to any individual interest of any creditor. The Court will only assess those interests when deciding whether or not to approve the Scheme. The rights of Scheme Creditors against a third party (for example, third-party obligors (such as guarantors) or security providers of indebtedness of the Company) generally only constitute interests as opposed to legal rights.

(c) In order to properly constitute any class, the population of Scheme Creditors must consist of creditors whose existing rights against the Company (the "**Rights In**") are not so dissimilar as to make it impossible for them to consult together with a view to agreeing their common interest. Similarly, where Scheme Creditors affected by the Scheme would (once it became effective) have rights which are so dissimilar, or would be otherwise affected so differently (the "**Rights Out**"), as to make it impossible for them to consult together with a view to agreeing their common interest, then those creditors must be divided into a separate class or classes and separate meetings must be convened for them to separately consult together.

(d) The Company has considered the existing rights of each Scheme Creditor against the Company and the proposed treatment of those rights under the Scheme. Those existing rights have also been assessed by reference to the alternative to the successful implementation of the Scheme, which is an insolvent liquidation of the Group (that is, the Comparator Scenario).

(e) Having reflected on these factors, the Company has concluded that Scheme Creditors must be divided into two separate classes, being Scheme Creditors (Class 1) and Scheme Creditors (Class 2). This is because the "Rights In" and the "Rights Out" of the Scheme Creditors (Class 1) and the Scheme Creditors (Class 2) against the Company are sufficiently dissimilar *vis-à-vis* each other that it is appropriate for the Scheme Creditors to vote in separate classes at the proposed Scheme Meeting and that no further class divisions are appropriate or necessary.

(f) All Scheme Creditors (Class 1) are lenders under the Existing Syndicated Loans having identical "Rights In".

(g) In examining the "Rights In" of the Scheme Creditors (Class 2), the Company considers that these creditors broadly have the same rights *against the Company* and will be able to consult together about the terms of the Scheme on the basis that:

(i) the Existing Public Notes, the Existing HKD Convertible Bonds, the ICBC Loan and the Ever Credit Bilateral Loan largely benefit from the same package of security interests which include the Smart World Share Security; and

(ii) while the Existing Loans (Onshore Credit Support) do not benefit from the Smart World Share Security, the realisable value of this security interest is not significant value under the Comparator Scenario given the financial circumstances of Smart World. In the circumstances, therefore, differences in respect of the Smart World Share Security are not material and do not fracture the proposed class.

(h) Similarly, notwithstanding that the lenders under the Existing Loans (Onshore Credit Support) benefit from additional third-party credit support in the form of guarantees given by onshore Subsidiaries and other security interests on onshore assets, such differences do not fracture the class because the focus of class composition is on the rights of Scheme Creditors against the Company itself so the treatment of third-party interests and releases are not significantly relevant to class composition.

(i) In reflecting upon "Rights Out" against the Company, in the event that the Scheme becomes effective (without modification), all Scheme Creditors have been given the same right to elect any of the Options (other than Sanctioned Scheme Creditors). Separately, Scheme Creditors (Class 1) have the additional right to receive the SCA as part of the arrangements agreed for supporting the Scheme.

(j) The Company has also had regard to the payment of fees (i.e. RSA Fees, Work Fees and/or the professional fees of the AHG and CoCom) during the Restructuring process and whether these payments may cause class issues. The conclusions of the Company about these matters is as below.

RSA Fees

(k) The Company has considered whether these payments, to encourage and incentivise Scheme Creditors to vote for the Scheme, causes a different determination on class. After careful reflection, the Company considers that these payments do not impact the classification of classes of Scheme Creditors because:

(i) all Scheme Creditors have been given a significant period to accede to the Restructuring Support Agreement and become entitled to receive RSA Fees:

(A) Scheme Creditor (Class 1) received no less than 6 months to accede and the Company intends to exercise its discretion to extend the applicable deadline until the Scheme Creditors (Class 1) representing no less than 75% of relevant claims (Class 1) had acceded; and

(B) Scheme Creditor (Class 2) were given no less than 4 months to accede, and the Company exercised its discretion not to extend the applicable deadline after Scheme Creditors (Class 2) representing no less than 75% of the relevant claims (Class 2) had acceded;

(ii) despite extending the deadline for each Scheme Creditor (Class 1) to accept RSA Fees for a period longer than what was given to Scheme Creditors (Class 2), because of the limitations on lenders needing more time to complete their internal approval processes (for periods of three months or longer), in some cases, those internal processes could not be started until the due execution of the Deed Poll on 23 June 2025. Moreover, it was always the intention of the Company to extend respective deadlines for RSA Fees until achieving a comparable 75% consent threshold for each class; and

(iii) the RSA Fees are immaterial in the prevailing circumstances as compared to the predicted amount of consideration that it is proposed Scheme Creditors will receive under the Scheme. The reality is that it is unlikely that a Scheme Creditor (who has properly considered the substantive aspects of the Scheme and is minded to vote against the Scheme) would be persuaded simply because of the RSA Fees to enter into or accede to the Restructuring Support Agreement and to agree to vote in favour of the Scheme.

Work Fees

(l) The Company has also agreed to pay work fees to certain major creditors that have worked tirelessly to negotiate the terms of the Restructuring and contribute to the drafting and finalisation of the Restructuring Documents.

Creditor Group	Work fees payable	Estimated realisation amount	% of outstanding principal amount of Existing Debt held by the creditor group	% of total aggregate outstanding principal amount in the relevant Scheme Class
AHG	• USD19 million in cash • 483,600,000 shares in the Company • USD2,837,027 in face value of MCB (A)	US$58,116,522 comprising: • USD19 million in cash; • 483,600,000 shares in the Company valued at HKD0.62 per share;[62] • USD2,837,027 in face value of MCB (A) valued at USD676,522[63]	1.81%	0.53% of Scheme Claims (Class 2)
CoCom	• USD10 million in cash • 235,485,404 shares in the Company	US$28,718,068 comprising: • USD10 million in cash; • 235,485,404 shares in the Company valued at HKD0.62 per share[64]	1.62%	0.79% of Scheme Claims (Class 1)
CB Holder Group	54,736,364 shares in the Company	USD4,350,839, based on valuation of HKD0.62 per share[65]	1.43%	0.04% of Scheme Claims (Class 2)

(m) Similarly, the Company does not consider that payment of any Work Fee (even when aggregated with RSA Fees) ought to impact the classification of creditors for the purposes of the Scheme. This is because:

(i) as the Work Fee is compensatory in nature and independent of the Scheme, it is payable regardless of whether the Scheme is sanctioned and implemented successfully;

(ii) the Work Fee broadly compensates the work, time and resources dedicated by each creditor group to negotiating the Restructuring and soliciting support to vote in favour of the Scheme from other holders of the Existing

Debt and/or to vote in favour of the Existing HKD Convertible Bonds Consent Solicitation,[66] in particular:

(A) negotiating and structuring proposals for the Restructuring over a period of 20 months (including no less than 4.5 months of further extensive negotiations since the execution of the original Restructuring Support Agreement dated 11 April 2025), during which period the Company and the creditors exchanged no fewer than 13 rounds of restructuring proposals;

(B) communicating with the current management of the Company, as well as its representatives and advisers, along with other creditor constituents, to negotiate the terms and documentation of the Restructuring;

(C) carrying out extensive due diligence on the Group's complex and sizeable capital structure and assets with over 130 entities across Australia, the British Virgin Islands, the Cayman Island, India, Hong Kong, Indonesia, Malaysia, New Zealand, the PRC, Singapore, Thailand, the United Kingdom and the United States;

(D) reviewing, assessing, negotiating and providing feedback on the Restructuring Documents that are estimated to exceed 1,000 pages; and

(E) working with the Company, other creditor constituents and their respective professional advisers to formulate and implement the Restructuring and encourage the participation of creditors;

(iii) moreover, it is appropriate to compensate the AHG for loss of opportunity and risks associated with the restrictions imposed on the ability of the AHG to trade Existing Notes (in the amount of approximately US$3 billion) due to receipt of "material non-public information" under confidentiality agreements for approximately three months (from November 2024 to January 2025 and from March 2025 to April 2025). The institutions comprising the AHG do not usually charge fees on a time-costs basis;

(iv) the Company believes genuinely that it is highly unlikely that it would have been able to garner such a high degree of creditor support to the Restructuring without the material contributions, work and assistance of each of the AHG, CoCom and CB Holder Group undertaken since the first quarter of 2024;

(v) it is unlikely that a Scheme Creditor who is not eligible to receive the Work Fee would be persuaded to vote against (or a Scheme Creditor who is eligible to receive the Work Fee would be persuaded to vote for) the Scheme by reason of the existence of the Work Fee because:

(A) in aggregate, the AHG Work Fee, CoCom Work Fee and CB Holder Group Work Fee represents circa. **0.53%, 0.79% and 0.04%** of the aggregate outstanding principal amount of the total Scheme Claims in each class, respectively. These amounts are not substantial when compared to the estimated return under the Scheme (which ranges from circa. 17.7% to 53.9% under the Recovery Analysis) – the value of the Work Fee is immaterial to estimated returns to

[66] As at the date of this Explanatory Statement, engagement with all creditor groups has been significant. The Company has been in discussions with the AHG and CoCom over a period of more than 20 months and with the CB Holder Group periodically over this same period.

Scheme Creditors in the event of a successful implementation of the Scheme;

(B) as at the date of this Explanatory Statement, Scheme Creditors representing over 75.43% by value of the aggregate outstanding principal amount of the total Scheme Claims have already acceded to the Restructuring Support Agreement; and

(C) the Comparator Scenario would result in Scheme Creditors receiving returns of circa. 2.8% to 11.9%, which are significantly lower than the forecasted returns under the Scheme (circa. 17.7% to 53.9%);

	Recovery under the Scheme	**Recovery under the Comparator Scenario (i.e. liquidation)**
CoCom	22.5% - 55.3%	9.3% - 11.9%
Scheme Creditors (Class 1)	21.1% - 53.9%	

	Recovery under the Scheme	**Recovery under the Comparator Scenario (i.e. liquidation)**
AHG	19.4% - 52.7%	2.8% - 6.8%
CB Holder Group	19.0% - 52.3%	
Scheme Creditors (Class 2)	17.7% - 51.0%	

(vi) each of the AHG Work Fee, CoCom Work Fee and CB Holder Group Work Fee is proportionate and consistent with work fees paid by other distressed companies seeking to implement similar restructuring transactions. The table below sets out certain comparable matters:

Professional fees incurred as part of the Restructuring

(n) Under the Scheme, the Company has agreed to pay the professional fees, costs and other expenses of the AHG Advisers and the CoCom Advisers incurred as part of the Restructuring and in accordance with the terms of the relevant fee letters.

(o) The table below produces a breakdown of the aggregate incurred and estimated professional fees, costs and expenses of the Company, the AHG Advisers, the CoCom advisers, the legal advisers to the Existing Notes Administrative Parties and the legal advisers to the New Instrument Administrative Parties:

Advisers	USD'000 (approximately)
Company Advisers	42,020.00
AHG Advisers	20,550.00
CoCom Advisers	8,200.00
Legal advisers to the Existing Notes Administrative Parties	250.70
Legal advisers to the New Instrument Administrative Parties	30.00
Total	**71,050.70** **(c. 0.48% of the aggregate principal amount outstanding under the Existing Debt as at 31 December 2024)**

(p) The AHG's legal adviser (K&E) and financial adviser (PJT) are paid a monthly retainer. K&E is also entitled to invoice for outstanding fees, which have been incurred beyond the monthly retainers, when milestones are achieved (for example, the signing of the Restructuring Support Agreement). PJT is also entitled to an overall success transaction fee which is contingent on the successful completion of the Restructuring.

(q) The CoCom's legal adviser (AOS) and financial adviser (Deloitte) are similarly compensated by monthly retainer fees and similar additional fees.

(r) The payment of these professional fees and other expenses does not confer any benefit upon any member of the AHG, the CoCom or the Existing Debt Administrative Parties, but instead simply represents reimbursement (rather than any economic uplift or financial enrichment) of costs incurred necessarily in undertaking the role of providing feedback and generally coordinating the negotiation of the terms of the Restructuring which is customary and entirely proportionate for a transaction of this kind. In any event, a significant amount of these fees have been paid or are payable **regardless of** the outcome of the Restructuring (including whether or not the Scheme is sanctioned)[67].

(s) In the light of these factors, the Company has concluded likewise that the payment of the professional fees, costs and expenses incurred by the AHG's Advisers, the CoCom Advisers and the legal advisers of the Existing Notes Administrative Parties will not fracture class, nor will it have a bearing on whether any Scheme Creditor votes in favour of or against the Scheme.

9.6 **Scheme Meetings and Voting at the Scheme Meetings**

(a) Before the Scheme can become effective and legally binding on the Company and each Scheme Creditor, the Scheme must be approved by the requisite majority at

[67] Note that the AHG's financial advisers are expected to be paid USD1.7 million of their fees on the Restructuring Effective Date.

each Scheme Meeting (as described above) and, if so, then be subsequently sanctioned by the Court.

(b) The Company has obtained the Scheme Convening Order granting permission to convene two separate meetings of Scheme Creditor (that is, one meeting for each class) to consider and vote on the Scheme. As such, there will be a single Scheme Meeting for Scheme Creditors (Class 1) and a single Scheme Meeting for Scheme Creditors (Class 2). Scheme Creditors should refer to the detailed instructions in relation to voting at the Scheme Meeting at section 10 (*Summary of action to be taken by Scheme Creditors*) of, and Appendix 4 (*Solicitation Packet*) to, this Explanatory Statement.

> In accordance with the Scheme Convening Order, the Scheme (Class 1) will be convened at **6:00 p.m.** Hong Kong time on **5 November 2025** and the Scheme Meeting (Class 2) will be convened at **8:00 p.m.** Hong Kong time on **5 November 2025**, each at the Linklaters Hong Kong Office. In addition, telephone and video conference facilities will be arranged for any Scheme Creditor to observe only, rather than cast any vote, each Scheme Meeting, upon making a written request to: (i) the Information Agent at countrygarden@investor.sodali.com (for Scheme Creditors who are not Blocked Scheme Creditors); or (ii) the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency (for Blocked Scheme Creditors), in each case, at least forty-eight (48) hours before the relevant Scheme Meeting.

(c) The Scheme Meetings are subject to the possibility of an adjournment (as may be appropriate), in which case, any change to the meeting arrangements shall be communicated to Scheme Creditors in advance of the Scheme Meetings on the Transaction Website, by way of notice through the Clearing Systems, and by email to each Scheme Creditor, Account Holder and Intermediary, for whom the Information Agent has valid and current email addresses.

(d) Any person having the benefit of a Scheme Claim as at the Record Date who has duly completed and submitted all necessary forms as required by the terms of the Scheme will be entitled to attend and vote at the relevant Scheme Meeting. Each Scheme Creditor has a choice about how to exercise the right to vote as follows:

(i) *Physical Attendance*: to attend and vote at the relevant Scheme Meetings in person or, if a corporation, by a duly authorised representative;

(ii) *Appoint Chairperson*: to instruct the Chairperson as proxy to cast a vote on behalf of such Scheme Creditor in accordance with the wishes of the relevant Scheme Creditor; or

(iii) *Appoint Proxy*: to appoint someone else as proxy to attend and whether to instruct that proxy to cast a vote in accordance with the wishes of the relevant Scheme Creditor.

> Each Scheme Creditor is recommended to appoint a proxy (either the Chairperson or someone of its own choice who is willing to attend the applicable Scheme Meeting) ***EVEN IF*** that Scheme Creditor intends to attend and vote in person or, if a corporation, by a duly authorised representative, as a fallback, should such Scheme Creditor be unable to attend for some reason.

(e) In addition, telephone and video conference facilities will also be made available to Scheme Creditors to only observe the Scheme Meeting (but not cast any vote),

upon request to: (i) the Information Agent at countrygarden@investor.sodali.com (for Scheme Creditors who are not Blocked Scheme Creditors); or (ii) the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency (for Blocked Scheme Creditors), in each case, at least forty-eight (48) hours before the relevant Scheme Meeting.

(f) Every Scheme Creditor whose vote is validly cast in person or by the duly authorised representative (if a corporation) or by proxy at either Scheme Meeting shall have one vote for every US$1.00 of its Voting Scheme Claims (as defined in paragraph (g) below) (rounded down to the nearest whole US$1.00) as calculated for voting purposes in accordance with paragraph (g) below.

(g) Subject to paragraph (h) below, the amount of the Scheme Claims of each Scheme Creditor who submits (or has submitted on its behalf) a valid Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) will be calculated and admitted for voting purposes at the Scheme Meetings at a value equal to the sum of:

(i) the outstanding principal amount of the Existing Debt as at the Record Date;

(ii) all accrued and unpaid interest (including default interest) and distributions in respect of the outstanding principal under the Existing Debt up to but excluding the Record Date; and

(iii) any other claim or liability arising, directly or indirectly, in relation to, or arising out of or in connection with, the Existing Debt Finance Documents, as at the Record Date,

converted, where relevant, from HKD to USD at a rate of 7.8:1 and from RMB to USD at a rate of 7.2:1, (together, the "**Voting Scheme Claims**").

(h) The Chairperson may, for voting purposes only, reject a Voting Scheme Claim in whole or in part if the Chairperson considers that the relevant Scheme Creditor has not complied with the voting procedures described in the Solicitation Packet (as set out in Appendix 4 (*Solicitation Packet*)). If a Voting Scheme Claim is contingent, its value is unascertained or disputed, or is otherwise disputed, but the Chairperson is able to ascribe a just estimate of that Voting Scheme Claim, the Chairperson may admit the Voting Scheme Claim for voting purposes at the Scheme Meeting only at that value. If the Chairperson is otherwise unable to ascribe a just estimate of its value, that Voting Scheme Claim may be valued at US$1 for voting purposes.

(i) The Chairperson will report in writing to the Court at the Scheme Sanction Hearing about any decision to reject any Voting Scheme Claim, with particulars of the underlying Voting Scheme Claim and giving reasons for any such rejection. Subject to any inherent jurisdiction of the Court, the decision of the Chairperson about the admission or rejection of any vote at either Scheme Meeting shall be final and binding to the fullest extent permitted by law howsoever.

9.7 **Effectiveness of the Scheme**

(a) **Court sanction of the Scheme**

(i) If the requisite majority of Scheme Creditors at each Scheme Meeting approves the Scheme, a hearing will be required before the Court in order to seek to obtain the sanction of the Scheme by the Court (that is, the Scheme Sanction Hearing).

(ii) Each Scheme Creditor is entitled (but not obliged) to attend the Scheme Sanction Hearing, through legal counsel, to support or oppose the sanction

of the Scheme. Scheme Creditors should note that they will be afforded an opportunity to raise any issues in relation to the constitution of the Scheme Meetings at the Scheme Convening Hearing.

(iii) The Scheme Sanction Hearing is presently listed to be heard at the Court at 10:00 a.m. Hong Kong time on 4 December 2025.

(b) **Occurrence of the Scheme Effective Date**

(i) The Scheme Effective Date will occur on the filing of a sealed copy of the Scheme Sanction Order with the Hong Kong Registrar of Companies.

(ii) Upon the occurrence of the Scheme Effective Date, the Scheme (including any modifications to the Scheme made in accordance with clause 13.1 (*Modification of this Scheme and Restructuring Documents*) of the Scheme) will become effective and binding on all Scheme Creditors, wherever they are located and regardless of whether they voted for or against the Scheme or whether they abstained from voting at all.

(c) **Stay of proceedings**

Under the Scheme, from the Scheme Effective Date, but subject always to the termination of the Scheme in accordance with clause 12 (*Termination of Scheme*), no Scheme Creditor shall commence, continue, support any person commencing or continuing, or instruct any person to commence or take, any Enforcement Action or other Proceeding against any Restructuring Released Party in respect of any claim or Liability that are to be released, following satisfaction or waiver of each Restructuring Condition, in accordance with clause 9 (*Releases and waivers*) of the Scheme and the Deeds of Release.

For the avoidance of doubt, subject to any applicable contractual restrictions, a Scheme Creditor may commence a proceeding against the Company after the Restructuring Effective Date in respect of any claim or Liability that is not to be released in accordance with clause 9 (*Releases and waivers*) of the Scheme and the Deeds of Release.

9.8 **Implementation of the Restructuring**

Unless otherwise indicated or defined in this Explanatory Statement, all capitalised terms used in this section shall have the meanings given to those terms in the Scheme.

As explained in section 9.7 (*Effectiveness of the Scheme*), once the Scheme is effective in accordance with its terms, it will legally bind all the Scheme Creditors, including Scheme Creditors who voted in favour and those who voted against it, or otherwise abstained from voting. However, the Restructuring cannot be implemented unless and until each Restructuring Condition is satisfied or waived in accordance with its terms.

(a) **Restructuring Conditions**

(i) The Restructuring Steps as summarised in section 9.8(b) can only occur when all of the Restructuring Conditions have been satisfied or waived in accordance with clause 13.2 (*Waiver of provisions of this Scheme*) of the Scheme (as applicable). Pursuant to clause 13.2 (*Waiver of provisions of this Scheme*) of the Scheme, any Restructuring Condition may be waived only with: (A) the consent in writing of the Majority Scheme Creditors; and

(B) where the beneficiary of any clause being waived is not a Scheme Creditor, the consent in writing of that person or entity.

(b) **Restructuring Steps**

On the Restructuring Effective Date and subject to the occurrence of the Restructuring Conditions Satisfaction Time, the Restructuring Steps as summarised below shall occur in the order or sequence prescribed in clause 4.3.2 of the Scheme (to the fullest extent possible):

Restructuring Steps	
(a)	The finance documentation for each of the New Notes, MCB (A), MCB (B), the New Loans, the SCA Loan and the SCA Warrants, the New Security Documents, the Intercreditor Agreements, the ICL Assignment Deed, the Deed of Undertaking and Subordination and the other duly executed Restructuring Documents (other than the Deeds of Release) shall be released unconditionally and become legally effective in accordance with their respective terms;

(f)	Conditional on the completion of each of the steps outlined in paragraphs (a) to (e) above, the following shall occur: (i) the Deeds of Release shall be released unconditionally and become effective in accordance with each of their respective terms; (ii) the Company shall ensure that the Existing Notes Global Notes are cancelled, marked down and discharged absolutely; and (iii) save for the Existing Loans (Onshore Credit Support), the Company shall ensure that the Existing Loans are cancelled absolutely; and
(g)	The Company shall redeem or repay (as applicable) the MTN and the MTL due to be redeemed or repaid on the Restructuring Effective Date in such amounts and manner in accordance with the MTN Indenture and the MTL Facility Agreement, respectively.

(c) **Restructuring Effective Date**

(i) The Restructuring Effective Date can only occur when all Restructuring Conditions are satisfied or waived (as described in section 9.8(a) (*Restructuring Conditions*)) ***before*** the Longstop Date.

(ii) If the Restructuring Effective Date does not occur, and the Restructuring Steps have not been effected or otherwise completed, by the Longstop Date (as may be extended under clause 2.2 (*Longstop Date*) of the Scheme), the terms of, and obligations on the parties under or pursuant to, the Scheme shall terminate automatically on the Longstop Date, and the rights and obligations of the Scheme Creditors under the Existing Debt Finance Documents shall be entirely unaffected by the Scheme and the

underlying obligations shall remain in full force and effect in accordance with their respective terms.

(iii) Upon the approval of any Longstop Date Extension, the Company shall promptly deliver a notice in writing (in accordance with clause 15 (*Notices*) of the Scheme) to confirm such extension to each Scheme Creditor, the Existing Notes Trustees and the Existing Loans Agents.

9.9 **Other Scheme mechanics**

(a) **Assignment or transfer of Scheme Claims after the Record Date**

(i) If the Scheme becomes effective, the identity of Scheme Creditors (and/or their Designated Recipients, as applicable) under the Scheme, which are entitled to the Scheme Consideration Entitlement, shall be determined as at the Record Date.

(ii) The Company, the Blocked Scheme Creditor Tabulation Agent and the Information Agent (in each case acting on the instructions of the Company) shall not be under any obligation to recognise any assignment or transfer of any Scheme Claim made ***after*** the Record Date and all entitlements of each Scheme Creditor (and/or the Designated Recipients) under the Scheme shall be determined, as at the Record Date only, provided that, where the Company has received from the relevant party written notice of such assignment or transfer, the Company may in its sole and absolute discretion, and subject to the production of evidence as the Company may reasonably require and also subject to any other term or condition considered necessary or appropriate, agree to recognise any such assignment or transfer for the purposes of determining Scheme Consideration Entitlement under the Scheme.

(iii) Any assignee or transferee of interests in any Scheme Claim recognised pursuant to clause 8.2.1 of the Scheme shall be bound by the terms of the Scheme in the capacity of being a Scheme Creditor and shall produce such evidence as the Company or, as applicable, the Blocked Scheme Creditor Tabulation Agent or the Information Agent (in each case acting on the instructions of the Company) may reasonably require to confirm that the assignee or transferee has agreed to be bound by the terms of this Scheme without any modification.

(iv) None of the Existing Debt Administrative Parties will be responsible for verification of any Scheme Creditor as at the Record Date or for monitoring, acknowledging, or processing any assignment or transfer of any Scheme Claim (or any interest therein) that may occur after the Record Date.

(b) **Modification of the Scheme and Restructuring Documents**

(i) Pursuant to clause 2.2 (*Longstop Date*) of the Scheme, the Company may at any time before the occurrence of the earlier of (A) the Restructuring Effective Date, (B) the Longstop Date or (C) the termination of the Scheme, extend the Longstop Date. Upon any Longstop Date Extension, the Company shall promptly deliver a notice in writing to confirm such extension to each Scheme Creditor, the Existing Notes Trustees and the Existing Loans Agents.

(ii) At any point in time, immediately upon the identification of any Scheme Creditor as being a Sanctioned Scheme Creditor (including where a Scheme Creditor becomes a Sanctioned Scheme Creditor while the Scheme is in effect):

(A) the Company may modify the Scheme and/or any Restructuring Document to the extent reasonably necessary and in such manner to ensure that a Sanctioned Scheme Creditor is treated fairly in relation to receiving any Scheme Consideration Entitlement, while simultaneously ensuring that the Scheme is not contrary to any Applicable Sanctions; and

(B) each of the New Instrument Administrative Parties, and any other administrative party, as required, is duly authorised to make any amendment to the New Instrument Documents and take any action necessary or desirable to give effect to appropriate modification to the relevant New Instrument Documents on and following written notice from the Company that such modification is reasonably necessary to ensure that the Scheme is not contrary to the Applicable Sanctions, which the New Instrument Administrative Parties and any other administrative party (as required) are entitled to rely upon conclusively.

(iii) Each Scheme Creditor acknowledges, irrevocably and unconditionally, that the Company may, before or at any hearing of the Court (including the Scheme Sanction Hearing), and to the extent practicable after consultation with the AHG (or the AHG Advisers on their behalf) and the CoCom (or the CoCom Advisers on their behalf), consent on behalf of all Scheme Creditors to any modification of, or addition to:

(A) the proposed Scheme (as appended at Appendix 2 (*Scheme*)), and/or any Restructuring Document (in the form set out in this Explanatory Statement); or

(B) any terms or other conditions,

in each case, that the Court may think fit to approve or impose and which are otherwise necessary for the purpose of implementing the Restructuring, and which could not reasonably be expected, directly or indirectly, to have any material adverse effect on the interests of any Scheme Creditor under the Scheme.

However, if any such modification could reasonably be expected, directly or indirectly, to have a material adverse effect on the interests of a Scheme Creditor, then the Company may not give such consent without the prior written consent of that Scheme Creditor.

(c) **Termination of Scheme**

If the Restructuring Effective Date has not occurred, and the steps stated in clause 4.3.2 of the Scheme have not been completed, in each case, by the Longstop Date, the Scheme shall terminate automatically on the Longstop Date, and shall be construed as if it had never become effective, and the rights and obligations of the Scheme Creditors under the Existing Debt Finance Documents shall not be affected and shall remain in full force and effect.

9.10 **Scheme Creditor releases**

(a) The Restructuring affects the contractual obligations between the Company and other members of the Group. In addition, certain third parties will receive the benefit

of certain releases given under, and in connection with, the Scheme to the fullest extent permitted by applicable law.

Scheme Creditors should refer to clause 9 (*Releases and waivers*) of the Scheme for all provisions relevant to releases and discharges given under, and in connection with, the Scheme.

Please refer to clause 9 (*Releases and waivers*) of the Scheme for the full provisions addressing the releases given under, and in connection with, the Scheme.

(b) Broadly, the Scheme contemplates the following releases:

(i) the irrevocable release and discharge of any claim or other Liability against the Company in respect of the Existing Debt irrespective of the relevant capacity of the Company whether as primary obligor, secondary obligor, as surety or otherwise howsoever; and

(ii) save for the Existing Loans (Onshore Credit Support), all other Existing Debt Obligors will be released and discharged from their respective obligations (including under any guarantee or security interest) as relate to Existing Debt, as summarised in the table below:

Existing Debt	**Scope of third-party releases under the Scheme**
Class 1	
Existing Syndicated Loans	Release of claims against guarantors and all obligations arising under security interests over shares of the Group's Subsidiaries under the (i) ICA Credit Support and/or (ii) SSA Credit Support.
Class 2	
Existing Public Notes Existing HKD Convertible Bonds Ever Credit Bilateral Loan ICBC Loan	Release of claims against guarantors and all obligations arising under security interests over shares of the Group's Subsidiaries under the ICA Credit Support.
Existing Loans (Onshore Credit Support)	Release of claims against guarantors who are also guarantors under the ICA Credit Support and each other member of the Group which is incorporated outside of the PRC. All other claims against any relevant obligors under or in connection with the Existing Loans (Onshore Credit Support) shall not be released or varied by the Scheme[68].

(c) The Company considers the proposed third-party releases are necessary to prevent "ricochet" claims against the Company that can arise by operation of law following

[68] See definition of "Scheme Claims (Excluded Liabilities)" in the Scheme.

the release of guarantors and which, ultimately, could potentially undermine the purpose of the Scheme.

(d) Notwithstanding, the Company considers it is appropriate and fair that the rights of lenders under third-party credit support given by certain onshore members of the Group (comprising the Scheme Claims (Excluded Liabilities) ought to be preserved even following the Restructuring becoming effective.

(e) The Liquidation Analysis estimates that, unlike other security interests or guarantees released by the Scheme, there is significant value attributable to the relevant credit support held by the lenders under the Existing Loans (Onshore Credit Support). The Liquidation Analysis estimates that these creditors would receive overall recoveries of 26.7% to 100.0% in the Comparator Scenario, as compared to an overall estimated recovery rate of 3.8% to 6.8% for the other Scheme Creditors (Class 2) in the Comparator Scenario. These additional anticipated recoveries for the lenders under the Existing Loans (Onshore Credit Support) in the Comparator Scenario are expected to be largely derived from the 'valuable' third-party credit support that they hold, which will not be compromised under the Scheme. In those circumstances, it would be unfair to release the Scheme Claims (Excluded Liabilities) where the lenders under the Existing Loans (Onshore Credit Support) do not receive any additional compensation compared to other Scheme Creditors (Class 2).

(f) As a consequence of preserving the Scheme Claims (Excluded Liabilities) post-Restructuring, the Company acknowledges that there is a theoretical risk of the lenders under the Existing Loans (Onshore Credit Support) obtaining aggregate recoveries in excess of the value of their indebtedness claims secured by the Existing Loan (Onshore Credit Support). Nonetheless, the Company is of the view that the risk of recovering more than 100 per cent. of indebtedness is a remote possibility for the following reasons:

(A) first, the Liquidation Analysis is a desktop valuation of estimated recoveries from the realisation of third-party credit support granted by the onshore subsidiaries of the Group. In those circumstances, actual recoveries may vary significantly from estimated recoveries as the market conditions as at the time of an actual forced-sale/enforcement scenario cannot be quantified or be fully taken into account by making assumptions or revising the Liquidation Analysis; and

(B) second, the Company has obtained appropriate PRC law advice that opines that if the relevant lenders under the Existing Loans (Onshore Credit Support) commence any debt recovery and/or enforcement proceedings in respect of the onshore credit support for such loans, the PRC Courts are likely to take into account the projected distribution of respective Scheme Consideration Entitlements when determining the quantum of any judgment in the onshore proceedings. In those circumstances, the Company considers that, on balance (but without any absolute certainty), the risk of over recovery by these relevant lenders after the consummation of the Restructuring will be mitigated by operation of PRC law.

(g) The Scheme also provides for the release and discharge of the following parties (in each case, in its or their stated capacity): (i) the Advisers; (ii) any Director; (iii) the Information Agent; (iv) the Chairperson; (v) the Blocked Scheme Creditor Tabulation Agent; (vi) the Existing Debt Administrative Parties and their predecessors; (vii) the New Notes Administrative Parties; (viii) the MCB Administrative Parties; (ix) the New Loans Administrative Parties; (x) the Holding Period Trustee; (xi) the Blocked Escrow Agent; and (xii) the AHG, the CoCom and each of their respective Personnel and Affiliates, under or in relation to: (a) any step or action, omission or other circumstance occurring on or prior to the Restructuring

Effective Date concerning the Existing Debt; and (b) the negotiation, preparation, execution, sanction and/or implementation of the Scheme and/or the Restructuring, including the performance of any step or transaction contemplated by the terms of, without limitation, the Scheme, the Restructuring Steps, the Restructuring Documents, the Restructuring Support Agreement and any other document referred to in any of the foregoing.

(h) The Scheme further provides for the waiver of, and agreement by each Scheme Creditor to not to assert or exercise, any consent rights, veto rights, restrictions or similar claims that it may otherwise have, in relation to (i) the CGPV Acquisition, provided that the CGPV Acquisition is implemented in accordance with the terms of the Scheme and the applicable New Instrument Documents; and (ii) the Company's entry into the Deed of Undertaking and Subordination. This is required in order for the CGPV Acquisition to be implemented in accordance with the Scheme, the applicable New Instrument Documents and the CGPV Acquisition Documents. As mentioned above, the Group has concluded that it can no longer financially support the Forest City Project given its distressed condition and the terms of the New Instruments which restrict the ability of the Group to raise financing and reinvest in offshore projects such as the Forest City Project. In those circumstances, the Group has concluded that separation from the Group is the best approach in order to preserve value and enable the Group to focus its limited resources on investment in other/more profitable development projects and servicing the New Instruments after the Restructuring Effective Date. Therefore, the CGPV Acquisition enables the Group to dispose of this asset and the issuance of the CVR creates an opportunity for holders of the MTN, MTL, LTN, LTL and SCA Loan to share economically in the success of the Forest City Project should the Controlling Shareholder effect a future disposal of the Forest City Project for a cash consideration.

(i) In any event, each proposed release and discharge is qualified and shall not:

(i) in any way release, discharge, waive, impair or prejudice any right of any Scheme Creditor in respect of any Scheme Claim (Excluded Liabilities);

(ii) in any way release, discharge, waive, impair or prejudice any rights of any Scheme Creditor arising under the Scheme or any Restructuring Document (including as a consequence of non-compliance with the terms of the Scheme or the Restructuring Documents) on and after the Scheme Effective Date (in the case of the Scheme) or the Restructuring Effective Date (in the case of any Restructuring Document);

(iii) in any way release, discharge, waive, impair or prejudice any claim in respect of fees, disbursements, expenses or any other costs of the Advisers, the Existing Debt Administrative Parties, the New Instrument Administrative Parties, the Information Agent, the Chairperson, the Blocked Escrow Agent and the Holding Period Trustee that are payable in accordance with the terms of the Scheme and/or any Restructuring Document;

(iv) apply to any claim or other Liability or cause of action against any Directors for breach of director’s duties or malfeasance arising from or relating to any action, omission or other circumstance which are not under or in connection with the negotiation, preparation and/or consummation of the Scheme and/or the Restructuring;

(v) extend to any claim or other Liability of any Adviser arising under or relating to a duty of care to such Adviser’s client or arising under a duty of care to another person which has been expressly accepted or acknowledged in writing by that Adviser;

(vi) apply to any claim or other Liability or cause of action arising from or relating to gross negligence, fraud or wilful misconduct as determined by a final, non-appealable judgment of a court of competent jurisdiction of any Restructuring Released Party, or any claim, other Liability or cause of action which does not arise directly or indirectly pursuant to, under or in connection with the Existing Debt Finance Documents, the Scheme or the Restructuring; or

(vii) release, discharge or waive and shall not be asserted to release, discharge or waive any relevant member of the Group from, or in any way prejudice, impair or hinder, any claim or cause of action of any Existing Debt Administrative Party to each relevant Existing Debt Finance Document, to exercise any applicable Surviving Rights.

(j) The Company acknowledges that it is customary in restructurings, as applies to this Scheme, to include appropriate releases and discharges of other third parties such as the Advisers, the Directors, the administrative parties in connection with the debt instruments subject to the Scheme and the debt instruments issued pursuant to the Scheme (being the Existing Debt Administrative Parties and the New Instrument Administrative Parties) as well as the administrative parties in connection with the Scheme (being the Information Agent, the Blocked Scheme Creditor Tabulation Agent and the Blocked Escrow Agent). Such releases are necessary and appropriate: (A) to provide such party with adequate comfort to take key decisions and other steps to facilitate and implement the Restructuring in the best interests of creditors; and (B) as necessary, to prevent possible "ricochet" claims against the Company following the Restructuring, by virtue of the Company having provided certain indemnities to some of these parties, thereby potentially undermining the effect of the Scheme.

The Company emphasises and acknowledges that all releases are subject to certain carve-outs to ensure that they are not unduly broad and are commensurate with their intended purpose.

9.11 **Cross-Border Recognition of the Scheme**

The Company will seek recognition of the Scheme under Chapter 15 of the U.S. Bankruptcy Code. To the extent that the Company considers it necessary or appropriate, the Company may seek recognition and assistance of the Scheme in any other jurisdiction and under any other law derived from or similar to the UNCITRAL Model Law on Cross-Border Insolvency.

10. SUMMARY OF ACTION TO BE TAKEN BY SCHEME CREDITORS

NOTE: For the avoidance of doubt, references to "Scheme Creditors" in this section 10 excludes all Sanctioned Scheme Creditors. If you are a Sanctioned Scheme Creditor, please notify the Company immediately in writing about your status as required by clause 5.5 of the Scheme.

10.1 Each Scheme Creditor should refer to section 3 (*Expected Timetable of Principal Events Concerning the Scheme*) for the key expected timing in relation to the Scheme.

10.2 This summarises the actions that each Scheme Creditor is required to take and the relevant forms which need to be validly completed in order to: (a) vote at the Scheme Meeting; and (b) receive or be allocated (as applicable) Scheme Consideration Entitlement and any applicable RSA Fees on the Restructuring Effective Date. This section should be read in conjunction with the Solicitation Packet at Appendix 4 (*Solicitation Packet*), which provides detailed instructions for each Scheme Creditor.

Please note that pursuant to the terms of the Restructuring Support Agreement, Consenting Creditors must vote in favour of the Scheme at the relevant Scheme Meeting in order to be eligible to receive their RSA Fees Entitlement.

(3) The Blocked Scheme Creditor Form does not enclose any additional documents, apart from requiring the Blocked Scheme Creditor's details and details of its holdings (including supporting evidence), and any other document required by the Blocked Scheme Creditor Tabulation Agent.

10.4 **To receive or be allocated Scheme Consideration Entitlement on the Restructuring Effective Date**

Scheme Creditors (who are not Sanctions-Affected Scheme Creditors)

(a) In order to receive Scheme Consideration Entitlement and any applicable RSA Fees on the Restructuring Effective Date, each Scheme Creditor must ensure that a valid Custody Instruction is submitted prior to submission of the Account Holder Letter (if applicable), and a validly completed Account Holder Letter or Lender Proxy Form (as produced in the table at section 10.3 (*Actions to be taken by each Scheme Creditor to vote at the Scheme Meeting*)) (in each case, including the Distribution Confirmation Deed, which is an appendix to the Account Holder Letter and/or the Lender Proxy Form) is submitted by the Scheme Consideration Entitlement Election Deadline in accordance with the appropriate instructions provided.

(b) Each Scheme Creditor who is not an Eligible Person (i.e. a person who cannot make the necessary Securities Law Representations and Sanctions Law Representations set out in Annex B to the Distribution Confirmation Deed) and/or wishes to nominate a Designated Recipient who is an Eligible Person to receive Scheme Consideration Entitlement on the Restructuring Effective Date, must ensure the delivery and submission of the Designated Recipient Form (together with an Account Holder Letter and/or Lender Proxy Form (as applicable) and a Distribution Confirmation Deed).

(c) It is the sole responsibility of each Scheme Creditor to ensure that any Account Holder Letter, Lender Proxy Form, Distribution Confirmation Deed or Designated Recipient Form (as applicable) submitted in respect of a Scheme Claim is validly completed, and that any Custody Instruction is validly submitted through the operation of the Clearing Systems.

Blocked Scheme Creditors

(d) Each Blocked Scheme Creditor who submits the required documents under Part 1 of the Blocked Scheme Creditor Form to the Blocked Scheme Creditor Tabulation Agent before the Scheme Consideration Entitlement Election Deadline will be entitled to be allocated the Blocked Scheme Consideration Entitlement on the Restructuring Effective Date.

(e) It is the sole responsibility of each Scheme Creditor to ensure that any Blocked Scheme Creditor Form submitted in respect of its Scheme Claim is validly completed and is submitted to the Blocked Scheme Creditor Tabulation Agent within the prescribed deadlines.

10.5 **Unadmitted Scheme Creditors: actions to take prior to the Bar Time**

(a) Any Scheme Creditor failing to validly complete or submit the required documents under Part 1 of the Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form to the Information Agent or the Blocked Scheme Creditor Tabulation Agent (as applicable) before the Scheme Consideration Entitlement Election Deadline will be deemed to be an Unadmitted Scheme Creditor (in the case of a Scheme Creditor (Class 1), only in respect of any Scheme Consideration other than any SCA Day 1 Payment Entitlement, SCA Loan Entitlement or SCA Warrants Entitlement) and will not receive, or otherwise be allocated, any Scheme Consideration Entitlement (other than any SCA Day 1 Payment Entitlement, SCA Loan Entitlement or SCA Warrants Entitlement, in the case of a Scheme Creditor (Class 1) only) on the Restructuring Effective Date.

(b) On the Restructuring Effective Date, such Unadmitted Entitlement shall be issued and delivered to the Holding Period Trustee. The Holding Period Trustee will hold such Unadmitted Entitlement on trust for the relevant Unadmitted Scheme Creditor as part of the Trust Assets held on trust for all Unadmitted Scheme Creditors subject to and pursuant to the terms of the Holding Period Trust Deed, until the Holding Period Expiry Date.

(c) **To establish entitlement to Trust Assets and Option 1 Valid Bid Entitlement:** in accordance with the terms of the Holding Period Trust Deed and the Scheme, an Unadmitted Scheme Creditor should ensure that the relevant forms in the table below (and any other document or information required in the Holding Period Trust Deed) are validly completed and submitted to the relevant scheme administrative party in accordance with the instructions provided. Provided that an Unadmitted Scheme Creditor has established a valid entitlement to an Option 1 Valid Bid Entitlement (if any) by no later than the Bar Time, the relevant Unadmitted Scheme Creditor may, prior to the Bar Time, make a request in writing to the Company for the transfer of the Option 1 Valid Bid Entitlement (if any) to itself or its Designated Recipient (as applicable) on or before the Holding Period Expiry Date, and the Company shall transfer such Option 1 Valid Bid Entitlement to the relevant Unadmitted Scheme Creditor or its Designated Recipient (as applicable) on or before the Holding Period Expiry Date.

12. ESTIMATED ALTERNATIVE OUTCOMES FOR SCHEME CREDITORS

Determination of the Comparator Scenario

12.1 If the Scheme is not sanctioned and accordingly the Restructuring is not implemented successfully, the Existing Noteholders and Existing Lenders who are parties to the Restructuring Support Agreement will have the right to terminate the Restructuring Support Agreement.

12.2 This would mean that:

(a) the forbearances from the taking any Enforcement Action against the Group contained in the Restructuring Support Agreement would cease; and

(b) the Company would remain unable to satisfy its existing obligations under the Existing Debt and similarly the Group would remain unable to pay other outstanding indebtedness such that there would be a material likelihood that certain Scheme Creditors (and, perhaps, other creditors of the Group), will commence Proceedings or Enforcement Action against the Company and/or other members of the Group.

12.3 In those circumstances, the Group would endeavour to maximise recoveries for creditors as best as it can, but anticipates that some or all members of the Group would likely be required to make, or cause the Company to make, an application to the Court and/or courts in other relevant jurisdictions, as applicable, to place the Company and/or certain other members of the Group into compulsory liquidation or other appropriate Insolvency Proceedings in order to facilitate an orderly winding-up and realisation of their assets for the benefit of the creditors of the Company and/or the relevant members of the Group in accordance with the relevant statutory scheme and terms of existing documentation.

12.4 In light of these matters, the Group engaged Kroll to undertake:

(a) an analysis of the expected recoveries to Scheme Creditors in the Restructuring Scenario (that is, the Recovery Analysis, as produced in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*); and

(b) an analysis of the realisations available to Scheme Creditors in the Comparator Scenario (that is, the Liquidation Analysis produced at Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

Key assumptions and basis of preparation

12.5 The key assumptions underlying the preparation of the Comparator Scenario are set out in section E (*Methodology, Assumptions and Analysis*) of the Liquidation Analysis produced at Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

Restructuring Scenario analysis

The methodology adopted in the Restructuring Scenario analysis mainly includes:

- considering the Scheme Consideration Options available to each Scheme Creditor including Option 1, Option 2, Option 3, Option 4, Option 5 (available to all Scheme Creditors) and the SCA (only available to Scheme Creditors (Class 1));

- calculating the future cash flow available to the Scheme Creditors under each of the Scheme Consideration Options and the SCA (only available to Scheme Creditors (Class 1)) on a present value[69] basis as at the Restructuring Effective Date;

- estimating the return available to the Scheme Creditors by considering:

  i. the present value of the Scheme Consideration Options calculated above;

  ii. the elections made by Scheme Creditors;[70]

  iii. the additional return (on top of the return from New Instruments under all Options) from the SCA available to Scheme Creditors (Class 1); and

[69] Paragraph 12 (*Key Assumptions*) of the Recovery Analysis set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*) outlines additional information in respect of the considerations for adopting the relevant discount rates.
[70] It is assumed in the Restructuring Scenario analysis that each of the Scheme Creditors will elect Option 1, Option 2, Option 3 and Option 5 in proportion to the maximum acceptance amounts of each Option and the total election by or allocation to Scheme Creditors of each of the Options will reach their respective maximum acceptance amounts. The remaining Scheme Claims will be allocated to Option 4.

iv. accrued and unpaid interest from 1 October 2024 to 30 June 2025 excluded in the Scheme Consideration Claims and effectively waived on the Restructuring Effective Date; and

v. calculating the total estimated recovery rate by dividing the returns calculated in the above steps by the Scheme Consideration Claims held by the Scheme Creditors.

Given each Option has multiple variations that may apply depending on the discretion of each Scheme Creditor, Kroll has made certain assumptions in order to determine a range of recoveries (that is, low-end and high-end) for each Option and the Scheme Consideration Entitlement available only to Scheme Creditors (Class 1) (being the SCA Day 1 Payment, the SCA Loan and the SCA Warrants) on a standalone basis as outlined in the table below.

Option[71]	Estimated return to Scheme Creditors			
	Low-end recovery	Key assumptions	High-end recovery	Key assumptions
Option 1	10.00%	• The purchase of Scheme Consideration Claims under Option 1 will be made in cash at USD0.1 for every USD1 of Scheme Consideration Claim and will be completed on the Restructuring Effective Date	10.00%	• Same as the key assumptions under low-end recovery scenario
Option 2	17.40%	**MCB (A):** • Holders of MCB (A) under Option 2 will voluntarily convert all MCB (A) to shares of the Company at the conversion price of HKD2.60 per share on the Restructuring Effective Date and then sell the conversion shares in the secondary market for cash on the same day of conversion • The disposal of the conversion shares in the secondary market is HKD0.45 per share[72] • The shares of the Company remain to be listed at all material times	64.3%	**MCB (A):** • Holders of MCB (A) under Option 2 will convert all MCB (A) to shares of the Company in accordance with the mandatory conversion schedule between 31 December 2027 and 31 December 2031 at the conversion price of HKD 2.60 per share and then sell the conversion shares in the secondary market for cash on the same day of conversion • The disposal price of the conversion shares in the secondary market is HKD 2.57 per share[73] • The shares of the Company remain listed at all material times

[71] The recovery rates listed in low-end recovery and high-end recovery scenarios in respect of Option 1, Option 2, Option 3, Option 4, and Option 5 represent the estimated return available to all Scheme Creditors for every USD100 of Scheme Consideration Claims. The recovery rates listed in the low-end recovery and high-end recovery scenarios in respect of the SCA Day 1 Payment and the SCA Loan represent the estimated return available to the Scheme Creditors (Class 1) for every USD100 of Scheme Claims.

[72] Paragraph 12 (*Key Assumptions*) of the Recovery Analysis set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*) outlines additional information in respect of the considerations for adopting the relevant disposal prices.

After the adjustment of total unpaid and accrued interest to be waived, the Scheme is estimated to result in the following total recovery rates set out below:

- 21.1% - 53.9% for Scheme Creditors (Class 1)
- 17.7 – 51.0% for Scheme Creditors (Class 2)

Comparator Scenario analysis

According to the professional analysis and opinion of Kroll, the estimated realisations to Scheme Creditors in a Group-wide liquidation scenario are summarised in the table below:

Existing Debt		Return from the Company	Return from SSA Credit Support	Return from ICA Credit Support	Return from other members of the Group	Total return
Instrument Category	Class	Low case/ High case	Low case/ High case	Low case/ High case	Low case/ High case	Low case/ High case
Existing Syndicated Loans	Class 1	3.1% / 3.9%	5.2% / 6.7%	1.0% / 1.3%	-	9.3% / 11.9%

Existing Debt		Return from the Company	Return from SSA Credit Support	Return from ICA Credit Support	Return from other members of the Group	Total return
Ever Credit Bilateral Loan	Class 2	3.1% / 3.9%	-	1.0% / 1.3%	-	4.1% / 5.2%
ICBC Loan	Class 2	3.1% / 3.9%	-	1.0% / 1.3%	-	4.1% / 5.2%
Existing Public Notes	Class 2	2.8% / 3.9%	-	1.0% / 1.3%	-	3.8% / 5.2%
Existing HKD Convertible Bonds	Class 2	2.8% / 3.5%	-	1.0% / 1.3%	1.5% / 1.9%	5.3% / 6.8%
Existing Loans (Onshore Credit Support)	Class 2	2.8% / 3.9%	-	-	0.0% / 1.2%[76]	2.8% / 5.1%[77]

Comparison

The Liquidation Analysis estimates that:

(i) the Scheme results in an overall estimated recovery rate of 21.1% - 53.9% for Scheme Creditors (Class 1). This is approximately 11.9% - 42.1% more than the estimated realisations available to the Scheme Creditors (Class 1) in any compulsory liquidation; and

(ii) the Scheme results in an overall total estimated recovery rate of 17.7% - 51.0% for Scheme Creditors (Class 2). This is approximately 14.9% - 44.3% more than the estimated realisations available to the Scheme Creditors (Class 2) in any compulsory liquidation.[78]

As summarised in the below table:

Comparison	Restructuring Scenario (Recovery Rate)[79]	Comparator Scenario (Recovery Rate)
Class 1	21.1% – 53.9%	9.3% – 11.9%

[76] This only accounts for third-party credit support which is within the scope of the third-party releases under the Scheme (as set out at paragraph 5.62(b) above).
[77] Please also refer to further details regarding the estimated recovery rates as set out in footnote 3 to paragraph 18 of the of the Recovery Analysis, as set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).
[78] This only accounts for third-party credit support which is within the scope of the third-party releases under the Scheme (as set out at section 5.62(b) above).
[79] Estimated returns from the RSA Fees are not accounted for. The additional return from the RSA Fees over the Scheme Claims is estimated by Kroll to range from 0.007% to 0.058%.

Class 2 – Existing Public Notes / Existing HKD Convertible Bonds / Ever Credit Bilateral Loan / ICBC Loan	17.7% – 51.0%	3.8% – 6.8%
Class 2 – Existing Loans (Onshore Credit Support)		2.8% – 5.1%[80]

For detailed information, all Scheme Creditors must refer to the Recovery Analysis produced in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

12.6 The Board has considered these conclusions carefully and considers them to be realistic in the prevailing circumstances. As such, the Board is of the firm view that the Scheme is in the interests of the Scheme Creditors because if the Scheme is not approved and the wider Restructuring is not implemented successfully, realisations under the Comparator Scenario would, on the basis of the work undertaken by Kroll, be materially less than their estimated recoveries should the Restructuring (as implemented by the Scheme) be successful.

Disclaimer to Scheme Creditors

12.7 The ranges produced above are merely illustrative and have been based on certain assumptions and other limitations. Accordingly, actual realisations or recoveries could be greater or less than the percentages stated. In particular, the low case does not necessarily represent the worst-case scenario, as there are many factors which could impact the illustrative ranges presented. Similarly, the high case does not represent the best case.

Each Scheme Creditor is encouraged to seek independent legal or other professional advice in relation to the Scheme generally or any particular query, or concern about expected recoveries or estimated realisations in the Restructuring Scenario and/or the Comparator Scenario (as applicable)

[80] This only accounts for third-party credit support which is within the scope of the third-party releases under the Scheme (as set out at section 5.62(b) above). Please also refer to further details regarding the estimated recovery rates as set out in footnote 3 to paragraph 18 of the of the Recovery Analysis set out in Part B of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

13. RISK FACTORS

All statements in this Explanatory Statement are to be read subject to, and are qualified in their entirety by, the matters referred to in this section 13.

The risk factors described below are those that the Company believes are potentially significant, but this should not be regarded as a comprehensive statement of all potential risks and uncertainties relating to the Restructuring or the Scheme. Additional risks and uncertainties not presently known to the Company or that the Company currently deems immaterial may become material and have a material adverse effect on the business, financial condition or results of operations of the Group, and no assurance can be given that all material risks relating to the Group are set out below.

This Explanatory Statement contains forward-looking statements, which involve risks and uncertainties of their own. Actual results may differ materially from those anticipated in these forward-looking statements as a result of various factors and circumstances, including the risks and uncertainties described in this Explanatory Statement.

Unless otherwise indicated or defined in this Explanatory Statement, all capitalised terms used below shall have the meanings given to those terms in the New Instrument Documents.

13.1 Risks relating to the Scheme

Scheme Creditors may not approve the Scheme

(a) In order for the Scheme to become effective, the Scheme must be approved by a majority in number representing 75% or more in value of each class of Scheme Creditors present, in person or by proxy, and voting at each Scheme Meeting. If the requisite majorities of Scheme Creditors do not vote in favour of the Scheme at the Scheme Meetings, the Restructuring will not be undertaken pursuant to the Scheme or possibly even at all.

(b) Pursuant to and subject to the terms of the Restructuring Support Agreement, any Scheme Creditor that is a party to or has acceded to the Restructuring Support Agreement is bound to comply with the terms of the Restructuring Support Agreement, including (among other things) to:

(i) vote and deliver within any applicable time periods any proxies, instructions, directions or consents in respect of all of the Existing Debt in which it holds a legal, economic or beneficial interest as principal, including (without limitation) to vote in favour of the Scheme and the Existing HKD Convertible Bonds Consent Solicitation (in each case, as applicable to it) in respect of (A) its Existing Notes in which it holds a legal, economic or beneficial interest as principal at the Record Date and/or (B) its Existing Loans in respect of which it is a lender of record at the Record Date, at the Scheme Meetings and/or any similar creditors' meeting applicable to it, provided that the Scheme and/or the Existing HKD Convertible Bonds Consent Solicitation are consistent in all material respects with the Restructuring Support Agreement and the Term Sheet; and

(ii) not challenge or object to or support any challenge or objection to any term of the Scheme and/or the Existing HKD Convertible Bonds Consent Solicitation, provided that the Scheme and/or the Existing HKD Convertible Bonds Consent Solicitation are consistent in all material respects with the terms set out in the Restructuring Support Agreement and the Term Sheet.

(c) Although Scheme Creditors which are party to the Restructuring Support Agreement are expected to vote in favour of the Scheme, in the event that the Restructuring Support Agreement is terminated in accordance with its terms, any Scheme Creditor that was party to the Restructuring Support Agreement would cease to be bound by its obligation to support the Scheme.

Bondholders may not approve the consent solicitations

(d) In order to restructure the Existing HKD Convertible Bonds, a parallel and inter-conditional consent solicitation exercise to change the governing law to the laws of Hong Kong so that the Scheme will be effective to restructure the Existing HKD Convertible Bonds, with such change to take effect upon the satisfaction or waiver of all the Restructuring Conditions (other than the Restructuring Condition in respect of the effectiveness of the changes to the governing law of the Existing HKD Convertible Bonds) but prior to the occurrence of the Restructuring Effective Date, failing which the Existing HKD Convertible Bonds will not be included in the Scheme.

To approve the consent solicitations for the Existing HKD Convertible Bonds, the quorum required for each bondholder meeting to consider each extraordinary resolution is two or more persons holding or representing over 50 per cent. in aggregate principal amount of the relevant series of bonds for the time being outstanding (as defined in the relevant trust deed).

The extraordinary resolution in respect of the HK$7,830,000,000 4.50% per cent. Secured Guaranteed Convertible Bonds due 2023 requires a majority in favour consisting of not less than 75 per cent. of the votes cast in accordance with the terms of the trust deed.

The extraordinary resolution in respect of the HK$3,900,000,000 4.95 per cent. Secured Guaranteed Convertible Bonds due 2026 requires a majority in favour consisting of not less than 66 per cent. of the votes cast in accordance with the terms of the trust deed.

There is no assurance that the required quorum and majority votes will be obtained to approve the change of governing law to the laws of Hong Kong for the Existing HKD Convertible Bonds.

(e) Given the occurrence of the Existing HKD Convertible Bonds Consent Solicitation Effective Date is designated as a "Restructuring Condition" under the Scheme, if relevant bondholders do not approve the Existing HKD Convertible Bonds Consent Solicitation, the Restructuring Effective Date may not occur.

Even if the Scheme Creditors approve the Scheme, the Scheme may be objected to and may not be completed

(f) Even if the Scheme is approved at the Scheme Meetings, any Scheme Creditor (including any Scheme Creditor who voted or gave instructions to someone to vote on their behalf at a Scheme Meeting) may appear at the Scheme Sanction Hearing in order to make representations that the Scheme should not be approved and to object to the granting of the Scheme Sanction Order. The Court may also be prepared to hear such representations and objections of any other person whom they are satisfied has a substantial economic interest in the Scheme. Therefore, it is possible that objections will be made at or before the Scheme Sanction Hearing and that any such objections will delay or possibly prevent the Scheme from being sanctioned and becoming effective.

(g) Further, even if the Court approves the Scheme, it is possible for any person who opposed the sanctioning of the Scheme at the Scheme Sanction Hearing to appeal against the granting of the Scheme Sanction Order. Any such appeals and/or subsequent litigation could delay the Scheme becoming effective or possibly prevent the Scheme from becoming effective at all.

Effectiveness of the Scheme requires the sanction of the Court

(h) In order for the Scheme to become effective under Hong Kong law, the Court must sanction the Scheme.

(i) The Court has the discretion over whether or not to sanction the Scheme and will need to be satisfied that, among other things:

(i) the Scheme Meetings were convened and held in accordance with the Scheme Convening Order;

(ii) the Scheme was approved by the requisite majorities of those Scheme Creditors who voted at the Scheme Meetings in person or by proxy; and

(iii) the Scheme is one which might reasonably be approved by an intelligent and honest person acting as a member of the creditors concerned and in respect of his/her interest,

and, in addition, the Court will have regard to the following: (A) that each class of Scheme Creditors voting in respect of the Scheme was properly constituted; (B) that the provisions of the Hong Kong Companies Ordinance have been complied with; (C) that each class of Scheme Creditors was fairly represented by those who attended the meeting and that the statutory majority was acting bona fide and was not coercing the minority in order to promote interests adverse to the Scheme Creditors (as a class of creditors); and (D) whether there is any blot on the Scheme.

(j) There can be no assurance that the Court will approve the Scheme. If the Court does not approve the Scheme, or approves it subject to conditions or amendments which: (i) the Company deems unacceptable; or (ii) would have (directly or indirectly) a material adverse effect on the interests of any Scheme Creditors and such conditions and amendments are not approved by the Scheme Creditors, the Scheme will remain ineffective.

The implementation of the Scheme and the Restructuring may result in adverse and/or complex tax consequences to Scheme Creditors

(k) The Company is not providing tax advice to any Scheme Creditor in connection with the Restructuring, and each Scheme Creditor should consult its own tax adviser regarding tax consequences of the Restructuring in any relevant jurisdiction.

If the Restructuring Conditions, including but not limited to various payments and regulatory approvals, are not satisfied or waived, the Restructuring may not be completed

(l) The Restructuring will not become effective unless the Restructuring Conditions are satisfied or waived in accordance with the terms of the Scheme or the Restructuring Documents (as applicable) and the Restructuring Effective Date occurs. If this does not occur, it will not be possible to complete the Restructuring. There is a risk associated with fulfilling various payments, such as RSA Fees, professional fees, costs and expenses of existing debt and new instrument administrative parties and advisers, as well as a risk related to obtaining necessary regulatory approvals, including but not limited to those from NDRC, HKEX and CSRC with respect to the New Equity Instruments, SGX-ST for the listing of the New Notes and MCB (A), and NDRC registration in respect of the relevant New Instruments. See section 9.8(a) (*Restructuring Conditions*) for a description of the Restructuring Conditions. While there is also a risk that the relevant parties to the Restructuring Documents may disagree as to when a condition precedent has been satisfied or waived (or will refuse to waive a condition precedent), the Company anticipates that most of the Restructuring Conditions are capable of being satisfied prior to the Scheme Effective Date or will be satisfied by actions to take place on or after the Scheme

Effective Date. However, there is no assurance that the Restructuring Conditions will be satisfied or otherwise waived, and that the Restructuring Effective Date will occur and the Restructuring will be completed.

Scheme Creditors are responsible for complying with the procedures set out in this Explanatory Statement

(m) Scheme Creditors are solely responsible for complying with all of the procedures of the Scheme, including, but not limited to, submitting Account Holder Letters, Lender Proxy Forms and/or Blocked Scheme Creditor Forms (as applicable) in accordance with the instructions and information provided to Scheme Creditors in this Explanatory Statement, as applicable. Further details on voting at the Scheme Meetings are set out in the Solicitation Packet.

Scheme Creditors are responsible for assessing the merits of the Restructuring and the Scheme

(n) Each Scheme Creditor is responsible for independently assessing the merits of the Restructuring and the Scheme. This Explanatory Statement has been prepared without taking into account the objectives, financial situation or needs of any particular recipient of it and, consequently, the information contained in this Explanatory Statement may not be sufficient or appropriate for the purpose for which a recipient might use it. Any such recipient should conduct its own due diligence and consider the appropriateness of the information in this Explanatory Statement having regard to its own objectives, financial situations and needs, and make an assessment of how this Explanatory Statement and the Scheme will affect them.

13.2 **Risks relating to a failure to implement or a delay in implementing the Scheme**

The Restructuring may not be completed in accordance with the timeline envisaged by this Explanatory Statement

(a) Factors unknown to the Company as at the date of this Explanatory Statement may result in delays to the completion of the Restructuring. There is no guarantee that the Restructuring Effective Date will occur by the Longstop Date, at which time those Scheme Creditors who are parties to the Restructuring Support Agreement will no longer be bound by their obligations under the Restructuring Support Agreement to support the Restructuring and not to take action against the Company and/or any member of the Group, and the Scheme will lapse.

(b) The Longstop Date may, however, be extended in accordance with the terms of the Scheme and Restructuring Support Agreement.

The Company has short-term funding needs to continue operations until the implementation of the Scheme and the Restructuring

(c) As at 31 December 2024, the Group had total cash of approximately RMB29,897 million (c. US$4,152.4 million), down from the amount of approximately RMB63,816 million (c. US8,863.3 million) as at 31 December 2023, which included cash and cash equivalents of approximately RMB6,362 million (31 December 2023: approximately RMB7,130 million) and restricted cash with an amount of approximately RMB23,535 million (31 December 2023: approximately RMB56,686 million). While the Company's management believes that its cash position should suffice to continue operations until the implementation of the Scheme and the Restructuring, there may be unforeseen circumstances, including a delay in the implementation of the Scheme, which may cause the Company to require additional short-term funding. If the Company is unable to obtain, at favourable rates or at all,

such additional short-term funding, it may be unable to implement the Scheme and the Restructuring.

Insolvency Proceedings if the Restructuring is not implemented promptly

(d) The Existing Notes and the Existing Loans are due and payable (or the payment of which is capable of being demanded) as at the date of this Explanatory Statement and the Company was obliged to repay the principal amount and/or accrued interest under the Existing Notes and the Existing Loans on each of their respective due dates. Various events of default have arisen under the Existing Notes and the Existing Loans.

(e) Should the Scheme and the Restructuring not be implemented, the scope and feasibility of an alternative workable transaction, liquidity solution and/or medium-term to long-term plan to address the Group's difficulties will be limited, given the Group's current business operations, financial position, available financing sources and cash flow position.

(f) Accordingly, should the Scheme and the Restructuring not proceed, the Company will be unable to comply with its obligations under the Existing Notes and the Existing Loans, and the Group will likewise be unable to comply with its obligations in connection with the other outstanding indebtedness of the Group and there is a material risk that certain of the Scheme Creditors, as well as onshore creditors of the Group, will pursue enforcement actions against the Company and/or the other obligors under the Existing Notes and the Existing Loans, and/or any other Subsidiaries of the Company in respect of their outstanding obligations. In these circumstances, it is likely that members of the Group would likely be required to make, or cause the Company to make, an application to the Court or courts in other relevant jurisdictions as applicable to place the Company and/or certain other members of the Group into liquidation or other appropriate Insolvency Proceedings to facilitate an orderly winding-up and realisation of their assets for the benefit of the creditors of the Company and/or the relevant members of the Group.

(g) If the Company and other members of the Group are placed into formal Insolvency Proceedings, the proceeds available to Scheme Creditors will likely be reduced to a level that is considerably lower than the potential value of the consideration they would receive under the Scheme (as per the Liquidation Analysis set out in Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*).

There is no guarantee that the Scheme will be recognised and given effect to by the United States Bankruptcy Court

(h) The Company will seek recognition of the Scheme under Chapter 15 of the U.S. Bankruptcy Code. There can be no assurance that the U.S. Bankruptcy Court will recognise and give effect to the Scheme. It is subject to a number of considerations by the U.S. Bankruptcy Court under the laws of the United States. If recognition is sought but the U.S. Bankruptcy Court does not recognise the Scheme, the terms and effect of the Scheme, including the discharge of the U.S. law-governed debt, may not be given effect to or be binding in the U.S.

13.3 **Risks following the implementation of the Scheme**

The Group's financial performance and business operations have been and will continue to be affected by adverse market conditions, and the Company may not be able to generate sufficient cash to fully address its financial commitments or to fund its business operations

(a) Since the second half of 2021, the PRC real estate sector and the capital markets that have funded growth and development of the sector have experienced a number of adverse developments, including:

(i) reduced bank lending for real estate development and access to onshore and offshore capital by property developers;

(ii) reduced bank lending for mortgage finance for buyers, combined with concerns of buyers about the ability of property developers to complete projects, resulting in reduced property sales;

(iii) tightened restrictions on the use of pre-sale proceeds under PRC law; and

(iv) a material decrease in aggregate contracted sales and a substantial reduction in prices for residential units across the sector.

(b) There has been negative news relating to numerous Chinese property companies, including news relating to defaults on their indebtedness. This has had further negative impact on, and has resulted in increased volatility in, the property sector in the PRC. Such defaults have had and will continue to have an adverse impact on the ability of PRC property developers, management companies and potential property purchasers to obtain financing, weaken consumer confidence and demand in PRC real estate and increase market volatility. There is no guarantee that the situation will improve and the property market may continue to experience significant contraction. In addition, there may be more companies in the PRC real estate sector that are unable to pay their debts when due and default on their indebtedness, which may further destabilise the PRC real estate market. There cannot be any assurance that the Group will be able to refinance its existing indebtedness and/or generate sufficient cash to fully address its financial commitments or to fund its business operations in these conditions.

The Group is and will continue to be dependent on the performance of the PRC property market

(c) The Group depends on its property development business segment for a substantial portion of its revenue. The Group's property sale revenues are derived from a number of regions across the PRC, including Guangdong, Hainan, Jiangsu, Henan and Zhejiang. As at 31 December 2024, the acquired attributable gross floor area of the Group in the PRC, together with its joint ventures and associates, was 112.5 million sq.m., with 78% of the landbank being located outside of the Guangdong province. For the year ended 31 December 2024, the Group, together with its joint ventures and associates, achieved contracted sales attributable to the shareholders of the Company of approximately RMB47.2 billion, with contracted sales gross floor area attributable to the shareholders of the Company of approximately 4.92 million sq.m. Any over-development, market downturn or fluctuations in property prices in the PRC in general will have a material adverse impact on the Group's business, prospects, financial condition and results of operations. If the Group does not respond to changes in market conditions and customer preferences in a timely manner, its business, prospects, financial condition and results of operations may be materially and adversely affected. In addition, the PRC property market is affected by many factors, including changes in the PRC's political, economic and legal environment, and the PRC government may from time to time revise its fiscal and monetary policies to adjust the growth rate of the PRC's national economy and local economies, and such policy changes may affect the real estate market in the regions where the Group has or will have property developments.

(d) Moreover, the Group's property investment and hotel operations business segments are also impacted by the current market conditions impacting the PRC real estate market and are subject to risks incidental to the ownership and operation

of commercial properties, including volatility in market rental rates and occupancy levels, competition for contracts, costs resulting from ongoing maintenance and repair and inability to collect management fees or management contracts with various property developers and property owners due to bankruptcy, insolvency, financial difficulties or other reasons. In addition, the Group may not be able to renew leases with tenants on terms acceptable to the Group, or increase rental rates to the level of the then prevailing market rate, or at all, upon the expiry of the existing terms. The Group may also not be able to enter into management contracts at the management fees expected, given that such fees are regulated by PRC laws and regulations. All these factors could negatively affect the demand for the Group's investment properties, management and rental income, which could have a material and adverse effect on these business segments.

(e) The business, operations, financial condition and prospects of the Company and other members of the Group are subject to numerous risks, including, among other things: changes in government regulations and policies, including, but not limited to, those relating to the real estate industry; supply and demand changes in the Chinese property market; volatility of and changes in property prices; failure to obtain sufficient funding for the Group's acquisition and future operation developments, business operations or repayment of the Group's indebtedness; failure to acquire land reserves in desirable locations suitable for development at commercially acceptable prices in the future; failure to obtain or renew any or all relevant approvals, licences and permits; failure to collect the Group's loan receivables; changes in demand for commercial and residential properties; changes in the Group's construction and sales capabilities; the relationship of the Company and other members of the Group with their joint venture and associated company partners, customers and third-party contractors; increases in development and construction costs; delays in construction and delivery of properties; risks inherent in property development, leasing, sales and operations; competition; inflationary trends; interest rate changes; changes in currency exchange rates; environmental, safety and health laws and regulations and political, economic, legal and social conditions in the PRC.

The real estate industry and the property market are heavily influenced by PRC government regulations and policies

(f) The PRC government exerts considerable direct and indirect influence on the development of the PRC property sector by imposing industry-wide policies and other economic measures, such as control of foreign exchange, taxation, available financing and foreign investment. These measures may raise benchmark interest rates of commercial banks, place additional limitations on the ability of commercial banks to make loans to property developers, impose additional taxes and levies on property sales, restrict foreign investment in the PRC property sector, restrict domestic individuals from purchasing properties in some cities in the PRC or require property developers to deleverage. Many of the policies introduced by the PRC government in the property sector are unprecedented and are expected to be refined and improved over time. This refining and adjustment process may not necessarily have a positive effect on the Group's business, operations, financial condition and prospects.

The Group's results of operation, financial condition and cash flow have been and will continue to be affected by fluctuations in the global economy, volatility in financial markets and exposure to geopolitical risks

(g) The COVID-19 pandemic affected millions of individuals and adversely impacted national economies worldwide, including the PRC. Since mid-2021, a number of high-profile PRC companies in the PRC real estate sector began to experience difficulties in securing external financing from PRC banks and the offshore capital markets. The onshore bank lending and the offshore capital markets that have

funded the growth and development of the PRC real estate sector have experienced an unprecedented inflection point. The Group, like many others in the PRC real estate sector, has been severely and negatively affected by this downturn, including but not limited to, (i) increased difficulty in raising onshore and offshore financing, (ii) decreased cash flows and liquidity in a deteriorating market, and (iii) the continuing negative impact of the COVID-19 pandemic.

(h) In addition, the global economic slowdown and financial market turmoil have adversely affected, and will continue adversely affecting, the general demand for real estate property in the PRC, which may adversely affect the property sales of the Group. There is no assurance that further economic slowdown will not occur in the near future, or the macro-economic recovery will be sustainable or successful to address the economic slowdown. If market conditions deteriorate or a market downturn occurs again and becomes more severe, longer lasting or broader than expected, the Group may face weakened sales and pre-sales which in turn could cause the Group to face a material loss of customers and revenue and overall business prospects could be materially and adversely affected. Any further tightening of liquidity in the global financial markets may negatively affect the Group's liquidity.

(i) Furthermore, the Group's business operations, in particular, the overseas operations, are subject to geopolitical risks. Any change in political stability in the regions where the Group operates could result in regional regulatory changes in the property development sector and may have a material adverse effect on the Group's business, financial condition and results of operations.

The Company may be subject to PRC withholding taxes on interest or any amounts it pays on the New Instruments (where interest-bearing)

(j) According to relevant PRC laws and regulations, the tax resident status of an enterprise is subject to determination by the PRC tax authorities and uncertainties remain with respect to the interpretation of the term "de facto management body": (i) if the PRC tax authorities consider the Company to be a PRC resident enterprise for PRC enterprise income tax purposes; (ii) to the extent that such withholding tax payments are deemed to be income sourced within the PRC; and (iii) provided that there are no tax treaties between China and those countries or regions which exempt or reduce such withholding tax, the Company is obliged to withhold PRC income tax of up to 10% on interest paid and other related amounts on the New Instruments (where interest-bearing) from holders of the New Instruments (where interest-bearing) who are non-PRC resident enterprises, or up to 20% on interest paid to non-PRC individual holders. Similarly, any gain realised by such non-PRC resident enterprise or non-PRC individual holders from the transfer of the New Instruments (where interest-bearing) would be regarded as being derived from sources within the PRC and would accordingly be subject to 10% or 20% PRC withholding tax, respectively.

The Group is involved from time to time in disputes and administrative, legal and other proceedings arising out of its operations and may face significant liabilities as a result

(k) The Group has been involved in, and may be involved in, disputes with various parties arising out of its operations, including, but not limited to, its contractors, construction workers, suppliers, partners, purchasers and creditors. These disputes may lead to legal or other proceedings and may result in damage to the Group's reputation, the incurrence of substantial costs and the diversion of resources and management's attention.

(l) The Group has received, and may continue to receive, claims from its contractors, construction workers, suppliers, partners, purchasers and/or creditors and enforcement actions from its creditors in respect of its financial and other

obligations. As a result of these events, the Group may be involved in more disputes with various parties. There is no assurance that the Group will not be subject to any additional disputes and administrative, legal and other proceedings arising out of its operations, that the Group will successfully resolve such disputes and proceedings to its satisfaction, or that any judgment or ruling in respect of such disputes and proceedings would be in favour of the Group.

(m) Although the Group strives to maintain proper internal control, there is no assurance that its internal control measures will be effective or that there will not be any non-compliance incidents in the future. The Group may be involved in such potential investigations by regulatory bodies in the PRC, Hong Kong and other applicable jurisdictions in the future. Such investigations may result in fines, financial and business losses, reputational damages and other material adverse effects on the Group's business operation and financial performance.

(n) The Group cannot assure you that it has been, or will be, in strict compliance with all applicable laws and regulations. In addition, PRC laws, rules or regulations governing the real estate industry have been evolving rapidly, and there can be no assurance that the Group will not be subject to fines or penalties arising from non-compliance incidents if it fails to adapt to the new regulatory regime in a timely manner, or at all, which may have a material adverse effect on its business, financial condition and results of operations.

There may be remaining out-of-scope debt and other financing arrangements after the implementation of the Scheme

(o) As at the date of this Explanatory Statement, the Group is yet to enter into agreements to restructure certain out-of-scope debt and the Group's other financial debts (both onshore and offshore). In particular, with respect to the Existing Loans (Onshore Credit Support) which benefit from onshore credit support in the form of tangible security interests and guarantees provided by onshore subsidiaries of the Group, the Scheme will not compromise or discharge any of the valuable credit support on fairness grounds. As a result, the relevant lenders under the Existing Loans (Onshore Credit Support) retain their rights to commence debt recovery and/or enforcement proceedings in respect of the onshore credit support for such loans. Negotiations remain ongoing and certain out-of-scope debt remain in default. Please refer to section 6.7(b) (*Indebtedness which is excluded and not subject to the Restructuring (and the Scheme)*) for details in respect of the Group's proposed solutions in respect of such out-of-scope debt and the Group's other financial debts (both onshore and offshore). There is no guarantee that such out-of-scope debt and the Group's other offshore or onshore financing arrangements can be restructured and/or extended before the Restructuring Effective Date, or at all. Should the extension and/or restructuring to the out-of-scope debt and the Group's other offshore financing arrangements remain unsettled prior to the Restructuring Effective Date, such relevant creditors of the out-of-scope debt and the Group's other offshore financing arrangements have the rights to take legal and/or security enforcement action in the PRC and/or outside the PRC against, among others, the Company and other relevant members of the Group, including presenting a petition to wind up the Company. The Company cannot guarantee it will be able to successfully settle each claim in a manner that is in the best interests of all creditors. Further, the existence of multiple claims against the Company may hamper onshore operations, including relevant creditors' willingness to allow the Group to refinance existing loans or raise new funds to support onshore operations. Such action may undermine the objectives of the Scheme and Restructuring to enable the Company to continue to operate on a going-concern basis.

13.4 **Risks relating to the New Instruments**

The Company is a holding company and payments with respect to the New Instruments are structurally subordinated to liabilities, contingent liabilities and obligations of the Company's Subsidiaries

(a) The Company is a holding company with limited assets and has no material business operations. The Group conducts its operations primarily through its PRC Subsidiaries. The New Instruments will not be guaranteed by any current or future PRC subsidiaries or by certain other non-guarantor Subsidiaries. The Company's primary assets are loans to and ownership interests in its PRC Subsidiaries, which are held through the Subsidiary Guarantors and certain non-guarantor Subsidiaries incorporated outside China. Accordingly, the Company's ability to pay principal and interest on the New Instruments and the ability of the Subsidiary Guarantors to satisfy their obligations under the Subsidiary Guarantees will depend upon their receipt of principal and interest payments on the intercompany loans and distributions of dividends from their Subsidiaries, including the PRC Subsidiaries. If the Company experiences difficulties receiving funds from the Group's PRC Subsidiaries due to profitability, regulatory or other reasons (including restrictions on the payment of dividends and other amounts contained in the relevant financing and other arrangements of the PRC Subsidiaries), the Company may in turn experience difficulties servicing the New Instruments.

(b) Creditors, including trade creditors of our non-guarantor subsidiaries and any holders of preferred shares in such entities, would have a claim on the non-guarantor subsidiaries' assets that would have priority over the claims of the holders of the New Instruments. Accordingly, the Company's payment obligations under the New Instruments will not rank *pari passu* in right of payment with, but will be effectively subordinated to, all existing and future obligations of the Group's non-guarantor subsidiaries (including their obligations under guarantees they issued in connection with the Group's business), and all claims of creditors of the non-guarantor Subsidiaries will have priority as to the assets of such entities over the Company's claims and those of the Company's creditors, including holders of the New Instruments. The New Instruments and the New Instrument Documents permit the Company and the non-guarantor Subsidiaries to incur additional indebtedness and issue additional guarantees, subject to certain limitations. In addition, the Company's secured creditors would have priority as to the Company's relevant assets securing the related obligations over claims of holders of the New Instruments to the extent that those assets do not also secure the New Instruments.

The Group has substantial indebtedness and may incur substantial additional indebtedness in the future, which could adversely affect the Group's financial health and its ability to generate sufficient cash to satisfy its outstanding and future debt obligations

(c) As at 31 December 2024, the Group's liabilities which are not subject to the Scheme were in the sum of approximately USD114,004,741,596. See section 6.6 (*Summary of the Group's principal financial indebtedness*) for further details. Indebtedness of the Group falling outside the scope of the Restructuring will not be compromised as part of the Scheme. There is no assurance that the Company will be able to service such indebtedness or cure, acquire waivers in respect of or otherwise resolve any existing or future defaults in respect of such indebtedness.

(d) The Group's substantial indebtedness could have important consequences for a holder of the New Instruments. For example, it could:

(i) limit the Company's ability to satisfy its obligations under the New Instruments and other debt;

(ii) increase its vulnerability to adverse general economic and industry conditions;

(iii) require it to dedicate a substantial portion of its cash flow from operations to servicing and repaying its indebtedness, thereby reducing the availability of its cash flow to fund working capital, capital expenditures and for other general corporate purposes;

(iv) limit its flexibility in planning for or reacting to changes in its businesses and the industry in which it operates;

(v) place the Group at a competitive disadvantage compared to its competitors that have less debt;

(vi) limit, along with the financial and other restrictive covenants of its indebtedness, its ability to borrow additional funds; and

(vii) increase the cost of additional financing.

(e) The Group may from time to time incur additional indebtedness and contingent liabilities. Although the New Instrument Documents restrict the Company and the Restricted Subsidiaries from incurring additional debt and contingent liabilities, these restrictions are subject to important exceptions and qualifications. If the Group incurs additional debt, the risks that it faces as a result of its existing indebtedness and leverage could intensify.

(f) The Group's ability to generate sufficient cash to satisfy its outstanding and future debt obligations will depend upon its future operating performance, which will be affected by prevailing economic conditions and financial, business and other factors, many of which are beyond the Group's control. If the Group is unable to service its indebtedness, it will be forced to adopt an alternative strategy that may include actions such as reducing or delaying capital expenditures, selling assets, restructuring or refinancing its indebtedness or seeking equity capital. These strategies may not be implemented on satisfactory terms, if at all, including due to restrictions placed upon the Company and the Restricted Subsidiaries in the New Instrument Documents.

(g) In addition, the terms of the New Instrument Documents prohibit the Company and the Restricted Subsidiaries from incurring additional indebtedness unless they are able to meet certain applicable restrictions. Their ability to meet such applicable restrictions may be affected by events beyond their control. Certain of the financing arrangements of the Group also impose operating and financial restrictions on its business. Such restrictions in the New Instrument Documents and the other financing arrangements may impair the Group's ability to react to changes in market conditions, take advantage of business opportunities it believes to be desirable, obtain future financing, fund required capital expenditures or withstand a continuing or future downturn in its business. Any of these factors could materially and adversely affect the Company's abilities to satisfy its obligations under the New Instruments and other debt.

Servicing the Group's indebtedness will require a significant amount of cash and its ability to generate cash depends on many factors beyond its control

(h) The Group's ability to make payments on and to refinance its indebtedness, including the New Instruments, and to fund planned capital expenditures and project development, will depend on its ability to generate cash. This, to a certain extent, is subject to general economic, financial, competitive, legislative, regulatory and other factors that are beyond the Group's control.

(i) The Group's business might not generate cash flow from operations in an amount sufficient to enable it to pay its indebtedness, including the New Instruments, or to fund its other liquidity needs. The Group's operations, financial performance and ability to service its indebtedness may continue to be affected by the decrease in sales and property prices, suspension of construction work, restraints on obtaining new financing, ongoing and potential disputes with creditors, business partners, customers and others, volatility in the property sector and the capital markets and other factors. The Group may need to refinance all or a portion of its indebtedness (some of which matures prior to the New Instruments), including the New Instruments, on or before maturity (where applicable). The Group might not be able to refinance any of its indebtedness on commercially reasonable terms or at all.

The Group's operations are restricted by the terms of the New Instruments, which could limit its ability to plan for or to react to market conditions or meet its capital needs, which could increase the credit risk of a holder of the New Instruments

(j) The New Instrument Documents governing the New Instruments include a number of significant restrictive covenants. In particular, the covenants of certain New Instruments restrict, among other things, the Company and the Restricted Subsidiaries from:

(i) incurring or guaranteeing additional Indebtedness and issuing disqualified or preferred stock;

(ii) declaring dividends on their capital stock or purchasing or redeeming capital stock;

(iii) making investments or other specified restricted payments;

(iv) issuing or selling capital stock of Restricted Subsidiaries;

(v) guaranteeing Indebtedness of Restricted Subsidiaries;

(vi) selling, transferring, or disposing of assets;

(vii) creating liens;

(viii) entering into sale and leaseback transactions;

(ix) entering into agreements that restrict the Restricted Subsidiaries' ability to pay dividends, transfer assets or make intercompany loans;

(x) entering into transactions with shareholders or affiliates; and

(xi) effecting a consolidation or merger.

(k) These covenants could limit the Group's ability to plan for or react to market conditions or to meet its capital needs. The Group's ability to comply with these covenants may be affected by events beyond its control and it may have to curtail some of its operations and growth plans to maintain compliance.

Certain material terms of the New Instrument Documents may be modified, amended or waived with the consent of holders of not less than 75% in aggregate outstanding principal amount of such series of instrument, which may adversely affect the interests of the respective holders of the New Instruments and increase the credit risks of the New Instruments

(l) Typically, certain major terms of an indenture may only be modified, amended or waived with the consent of each holder of the outstanding notes affected thereby.

(m) For a single-series amendment or waiver, under the New Instrument Documents, amendments, modifications or waivers that would have required the consent of each holder affected thereby under the Existing Notes and the Existing Loans would only require the consent of the respective holders of not less than 75% in aggregate outstanding principal amount of such series of instrument, which includes, among other things, modifying the due date for any payment and reducing the principal amount, premium and interests payable in respect of each series of the New Instruments.

(n) Save as set out at paragraph (m) above and save for some limited exceptions, all other single-series amendments, modifications or waivers under the New Instruments shall only require the consent of holders of not less than a majority in aggregate principal amount under the relevant instrument.

(o) The Group has been required, from time to time, to seek amendments, waivers and consents in connection with financial and other covenants under its debt facilities. The reduced threshold for the amendment, modification or waiver of material terms of the New Instruments will reduce the protection afforded to the holders of the New Instruments, which may adversely affect the interests of the holders of the New Instruments and increase the credit risk of the New Instruments.

*The events of default provision under the New Instruments will carve out any cross-default and cross-acceleration for any defaults under any indebtedness of any restricted subsidiary incorporated in the PRC (the "**Onshore Indebtedness**") and financial indebtedness of the Company or any subsidiaries of the Company organised outside the PRC other than the New Instruments (the "**Out-of-Scope Financial Indebtedness**")*

(p) The events of default provision under the New Instruments carves out any cross-default and cross-acceleration for any defaults under any Onshore Indebtedness and Out-of-Scope Financial Indebtedness. In addition, the events of default provision under the New Instruments also carves out any involuntary case or proceeding commenced based on any Onshore Indebtedness or Out-of-Scope Financial Indebtedness under any applicable bankruptcy, insolvency or other similar law, and such events upon the appointment of or taking possession by a receiver, liquidator, assignee, custodian, trustee, sequestrator or similar official of the Company or any significant restricted subsidiary or for all or substantially all of the property and assets of the Company or any significant restricted subsidiary solely for the purpose of defending against any remedy exercised under any Onshore Indebtedness or Out-of-Scope Financial Indebtedness by any holder or the trustee thereof. Holders of the New Instruments may face more uncertainty and potentially higher credit risk in this regard if any default occurs with respect to the Company's other indebtedness, including the Onshore Indebtedness and the Out-of-Scope Financial Indebtedness, because such other indebtedness could become immediately due and payable upon such defaults, and the Company would have to settle or repay such indebtedness, but payment of the New Instruments would not be accelerated and holders of the New Instruments would continue to hold the New Instruments without recourse to any cross-default.

The Company may not be able to repurchase the New Instruments upon a Change of Control

(q) The Company is required to offer to purchase certain New Instruments upon the occurrence of a Change of Control at the stipulated purchase price plus accrued and unpaid interest (where applicable), if any, up to (but not including) the offer to purchase payment date. The source of funds for any such purchase would be the Company's available cash or third-party financing. However, it may not have enough available funds at the time of the occurrence of any Change of Control to make purchases of the relevant New Instruments. The failure to make the offer to purchase or to purchase the relevant New Instruments would constitute an event of

default under the relevant New Instrument Documents. This may, in turn, constitute an event of default under other indebtedness, any of which could cause the related debt to be accelerated after any applicable notice or grace periods. If its other debt were to be accelerated, the Company may be more distressed and may not have sufficient funds to repay the relevant New Instruments and other debt.

(r) In addition, the definition of "Change of Control" for the purposes of the New Instrument Documents does not necessarily afford protection for the holders of the relevant New Instruments in the event of some highly leveraged transactions, including certain acquisitions, mergers, refinancings, restructurings or other recapitalisations, although these types of transactions could increase the Group's indebtedness or otherwise affect its capital structure or credit ratings. The definition of "Change of Control" for the purposes of the relevant New Instrument Documents also includes a phrase relating to the sale of "all or substantially all" of the assets of the Company. Although there is a limited body of case law interpreting the phrase "substantially all", there is no precise established definition under applicable law. Accordingly, the Company's obligation to make an offer to purchase the New Instruments, and the ability of a holder of the New Instruments to require the Company to purchase its New Instruments pursuant to the offer as a result of a highly leveraged transaction or a sale of less than all of its assets, may be uncertain.

The cash sweep with respect to Offshore Specified Assets, Onshore Specified Assets and CGVC Portfolio Assets, and repayment of the New Instruments with the specified net proceeds, are subject to uncertainties and limitations

(s) The Group's ability to effect a cash sweep with respect to Offshore Specified Assets, Onshore Specified Assets and CGVC Portfolio Assets, and to repay the New Instruments with specified net proceeds, is subject to significant uncertainties and limitations, in particular, the risks and uncertainties arising from legal and regulatory requirements in relevant jurisdictions. The Group is not obliged to make or cause the deposit if such deposit would not comply with applicable legal or regulatory restrictions. In such circumstances, and for so long as such restrictions remain in effect, the Group is required to use commercially reasonable endeavours to obtain any necessary consent, waiver, or approval from the relevant regulatory, judicial or governmental authority. However, there is no assurance that such consent, waiver, or approval will be obtained. In addition, the Group's ability to transfer the onshore net proceeds to offshore designated accounts is subject to applicable regulatory, judicial and governmental requirements under the PRC law. Such conditions may delay or even prevent the deposit of specified net proceeds into the designated accounts, which could, in turn, impact the timing and amount of payments made to satisfy the obligations under the New Instruments.

The liquidity and price of the New Notes, MCB (A) and MCB (B) following the Restructuring may be volatile

(t) The price and trading volume of the New Notes, MCB (A) and MCB (B) may be highly volatile. Factors such as variations in the Group's revenues, earnings and cash flows and proposals for new investments, strategic alliances and acquisitions, interest rates, the general state of the securities market and fluctuations in price for comparable companies could cause the price of the New Notes, MCB (A) and MCB (B) to change. Any such developments may result in large and sudden changes in the trading volume and price of the New Notes, MCB (A) and MCB (B). There is no assurance that these developments will not occur in the future.

A trading market for the New Notes, MCB (A) and MCB (B) may not develop

(u) The New Notes, MCB (A) and MCB (B) are new issues of securities for which there is currently no trading market. While application will be made for the listing of and quotation for the New Notes and the MCB (A) on the Official List of the SGX-ST,

there is no assurance that the Company will be able to obtain or maintain a listing on the SGX-ST or on any recognised securities exchange and, even if listed, a liquid trading market may not develop. The Company will not make any listing application in respect of MCB (B). If no active trading market develops, any holder of the New Notes, MCB (A) and MCB (B) may not be able to resell its New Notes, MCB (A) and MCB (B) at their fair market value or at all. Future trading prices of the New Notes, MCB (A) and MCB (B) will depend on many factors, including prevailing interest rates, the Group's operating results and the market for similar securities, which may be beyond the Group's control.

(v) In addition, the New Notes, MCB (A) and MCB (B) are being offered pursuant to exemptions from registration under the U.S. Securities Act and, as a result, any holder of the New Notes, MCB (A) and MCB (B) will only be able to resell its New Notes, MCB (A) and MCB (B) in transactions that have been registered under the U.S. Securities Act or in transactions exempt from registration under the U.S. Securities Act. There may not be an active trading market for the New Notes, MCB (A) and MCB (B), and such a market may not be developed or sustained. If an active trading market for the New Notes, MCB (A) and MCB (B) does not develop or is not sustained, the market price and liquidity of the New Notes, MCB (A) and MCB (B) may be adversely affected.

(w) The New Loans will not be publicly traded and will have limited liquidity.

The transfer of the New Notes, MCB (A) and MCB (B) may be restricted, which may adversely affect their liquidity and the price at which they may be sold

(x) The New Notes, MCB (A) and MCB (B) have not been registered under, and the Company is not obliged to, and does not plan to, register the New Notes, MCB (A) and MCB (B) under, the U.S. Securities Act or the securities laws of any other jurisdiction. The New Notes, MCB (A) and MCB (B), unless so registered, may not be offered or sold except pursuant to an exemption from, or a transaction not subject to, the registration requirements of the U.S. Securities Act and any other applicable laws. The Group has not agreed to or otherwise undertaken to register the New Notes, MCB (A) and MCB (B) with the SEC or the securities regulatory authority of any other jurisdiction and the Group has no intention of doing so.

The New Notes, *MCB (A) and MCB (B) will initially be held in book-entry form, and therefore a holder of the New Notes, MCB (A) and MCB (B) must rely on the procedures of the relevant Clearing Systems to exercise any rights and remedies*

(y) The New Notes, the MCB (A) and the MCB (B) will initially only be issued in global certificated form and held through Euroclear and Clearstream. Interests in one or more global notes or global certificates will trade in book-entry form only, and the New Notes and the MCB in definitive registered form will be issued in exchange for book-entry interests only in very limited circumstances. Owners of book-entry interests will not be considered owners or holders of the New Notes, the MCB (A) and the MCB (B) for purposes of the New Notes Documents, the MCB (A) Documents and the MCB (B) Documents. The respective nominee for the New Notes Common Depositary, the MCB (A) Common Depositary and the MCB (B) Common Depositary will be the sole registered holder of the respective global notes and global certificates. Accordingly, a holder of the New Notes, the MCB (A) and/or the MCB (B) must rely on the procedures of Euroclear or Clearstream, and, if the holder is not a participant in Euroclear or Clearstream, on the procedures of the participant through which it owns its interest to exercise any rights and obligations of such holder or a winding-up of the Company. Upon the occurrence of an event of default under the New Notes Documents, the MCB (A) Documents and/or the MCB (B) Documents, unless and until the New Notes, the MCB (A) and/or the MCB (B) in definitive registered form are issued with respect to all book-entry interests, if a holder of the New Notes, the MCB (A) and/or the MCB (B) owns a book-entry

interest, it will be restricted to acting through Euroclear or Clearstream. The procedures to be implemented through Euroclear and Clearstream may not be adequate to ensure the timely exercise of rights under the New Notes, the MCB (A) and/or the MCB (B).

The New Instrument Administrative Parties may request the holders or lenders of the New Instruments (as applicable) to provide an indemnity and/or security and/or prefunding to its satisfaction

(z) In certain circumstances, including, without limitation, giving of notice to the Company and taking enforcement steps pursuant to terms of the New Instruments, each of the New Instrument Administrative Parties may, at its sole discretion, request the holders or lenders of the New Instruments (as applicable) to provide an indemnity and/or security and/or prefunding to its satisfaction before it takes actions on behalf of the holders or lenders of the New Instruments (as applicable). None of the New Notes Administrative Parties is obliged to take any such actions if not indemnified and/or secured and/or prefunded to its satisfaction. Negotiating and agreeing to an indemnity and/or security and/or prefunding can be a lengthy process and may impact on when such actions can be taken. The New Instrument Administrative Parties may not be able to take actions, notwithstanding the provision of an indemnity or security or prefunding to it, in breach of the terms of the New Instrument (as applicable) and in circumstances where there is uncertainty or dispute as to the applicable laws or regulations.

Gains on the transfer of the New Instruments (or interests thereof where applicable) may be subject to income tax under PRC tax laws

(aa) Under the EIT Law and its implementation rules, any gains realised on the transfer of the New Instruments (or interests thereof where applicable) by holders or lenders who are deemed under the EIT Law as non-resident enterprises may be subject to PRC enterprise income tax if such gains are regarded as incomes derived from sources within the PRC. Under the EIT Law, a "non-resident enterprise" means an enterprise established under the laws of a jurisdiction other than the PRC and whose actual administrative organisation is not in the PRC, which has established offices or premises in the PRC with no actual management functions performed in China, or which has not established any offices or premises in the PRC but has obtained incomes derived from or accruing in the PRC. In addition, there is uncertainty as to whether gains realised on the transfer of the New Instruments (or interests thereof where applicable) by individual holders or lenders who are not PRC citizens or residents will be subject to PRC individual income tax. If such gains are subject to PRC income tax, the 10% enterprise income tax rate and 20% individual income tax rate will apply respectively unless there is an applicable tax treaty or arrangement that reduces or exempts such income tax. The taxable income will be the balance of the total income obtained from the transfer of the New Instruments (or interests thereof where applicable) minus all costs and expenses that are permitted under PRC tax laws to be deducted from the income.

Disclosure standards that apply to the Group may differ from those in the United States or other jurisdictions

(bb) The Group's consolidated financial information is prepared in accordance with IFRS, which differs in certain respects from U.S. GAAP. As a result, the Group's consolidated financial information and reported earnings could be significantly different if they were prepared in accordance with U.S. GAAP. No attempt has been made to quantify the impact of those differences. This Explanatory Statement does not contain reconciliation of the Group's consolidated financial information to U.S. GAAP and there is no assurance that such reconciliation would not reveal material differences. Scheme Creditors should consult their own professional advisers for

an understanding of the differences between IFRS and U.S. GAAP, and how these differences might affect the financial information herein.

An investment in the New Instruments is subject to exchange rate risks, and exchange controls may result in a holder of the New Instruments receiving a lesser amount than expected

(cc) The Company will pay principal and interest (where applicable) on the New Notes in U.S. dollars and in U.S. dollars on the New Loans (as the case may be). This presents certain risks relating to currency conversions if a holder's financial activities are denominated principally in a currency or currency unit (the "**Investor's Currency**") other than U.S. dollars or Renminbi (as the case may be). These include the risk that exchange rates may significantly change (including changes due to devaluation of the U.S. dollar or Renminbi (as the case may be) or revaluation of the Investor's Currency) and the risk that authorities with jurisdiction over the Investor's Currency may impose or modify exchange controls. An appreciation of the value of the Investor's Currency relative to the U.S. dollar or Renminbi (as the case may be) would decrease: (i) the Investor's Currency equivalent yield on the New Notes and/or the New Loans; (ii) the Investor's Currency equivalent value of the principal payable on the New Notes and/or the New Loans, if any; and (iii) the Investor's Currency equivalent market value of the New Notes and/or the New Loans. Governments and monetary authorities may impose (as some have done in the past) exchange controls that could adversely affect an applicable exchange rate. As a result, a holder of the New Notes and/or the New Loans may receive a lesser amount than expected.

The insolvency laws of the Cayman Islands, the British Virgin Islands and other local insolvency laws may differ from U.S. bankruptcy laws or those of Hong Kong or another jurisdiction with which holders of the New Instruments are familiar

(dd) Because the Company is incorporated under the laws of the Cayman Islands, an insolvency proceeding relating to the Company, even if brought in the United States, would likely involve Cayman Islands insolvency laws, the procedural and substantive provisions of which may differ from comparable provisions of United States federal bankruptcy law or of other jurisdictions with which the holders of the New Instruments are familiar. In addition, the Subsidiary Guarantors are incorporated in the British Virgin Islands or Hong Kong, and the insolvency laws of such jurisdictions may also differ from comparable provisions of United States federal bankruptcy law or those of other jurisdictions with which the holders of the New Instruments are familiar.

(ee) The Group conducts substantially all of its business operations through PRC-incorporated Subsidiaries in the PRC. The Company, as equity holder in the Group's PRC subsidiaries, is necessarily subject to the bankruptcy and insolvency laws of the PRC in a bankruptcy or insolvency proceeding involving any such PRC Subsidiaries. The PRC laws and regulations relating to bankruptcy and insolvency and the legal proceedings in that regard may differ significantly from those of the United States and other jurisdictions with which the holders of the New Instruments are familiar.

(ff) In addition, the New Instruments are issued by the Company, which was incorporated under the laws of the Cayman Islands. The New Instruments, the New Instruments Documents, the New Loans Documents, the MCB (A) Documents and the MCB (B) Documents are governed by the laws of the State of New York or Hong Kong law (as the case may be). In the event of a bankruptcy, insolvency or similar event, proceedings could be initiated in two or more jurisdictions. Such multi-jurisdictional proceedings are complex, may be costly for creditors and otherwise may result in greater uncertainty and delay regarding the enforcement of your rights. Rights of the holders of the New Instruments will be subject to the insolvency and

administrative laws of several jurisdictions and there can be no assurance that holders of the New Instruments will be able to enforce their rights effectively in such complex multiple bankruptcy, insolvency or similar proceedings. For instance, the bankruptcy, insolvency, administrative and other laws of two or more jurisdictions may conflict with each other, including in the areas of rights of creditors, priority of governmental and other creditors, ability to obtain post-petition interest and duration of the proceedings. The application of these laws, or any conflict among them, could call into question whether any particular jurisdiction's laws should apply and could adversely affect the ability of holders of the New Instruments to enforce their rights under the New Instruments in the relevant jurisdictions or limit any amounts that holders of the New Instruments may receive.

The Company may be unable to obtain and remit foreign exchange

(gg) The Company's ability to satisfy its obligations under the New Instruments depends solely upon the ability of the Company's Subsidiaries in the PRC to obtain and remit sufficient foreign currency to pay dividends to the Company and, if applicable, to repay intercompany loans.

(hh) The PRC Subsidiaries must present certain documents to SAFE, its authorised branch or the designated foreign exchange bank for approval, registration or filing before they can obtain and remit foreign currencies out of the PRC, including, in the case of dividends, evidence that the relevant PRC taxes have been paid and, in the case of intercompany loans, evidence of the registration of the loan with SAFE. Prior to payment of interest and principal on any intercompany loan granted by the Company to the Group's PRC subsidiary, the relevant PRC subsidiary must also present evidence of payment of withholding tax at a rate of 10% or a lower tax treaty rate, if any, on the interest payable in respect of such intercompany loan. If any PRC subsidiary for any reason fails to satisfy any of the PRC legal requirements for remitting foreign currency payments, the PRC subsidiary will be unable to pay the Company dividends or interest and principal on intercompany loans, which may affect the Company's ability to satisfy its obligations under the New Instruments.

The Company's Subsidiaries are subject to restrictions on the payment of dividends and the repayment of intercompany loans or advances to the Company

(ii) The Company depends on the receipt of dividends and the interest and principal payments on intercompany loans or advances from the Company's Subsidiaries, including its PRC Subsidiaries, to satisfy its obligations, including its obligations under the New Instruments. The ability of the Company's Subsidiaries to pay dividends and make payments on intercompany loans or advances to their shareholders is subject to, among other things, distributable earnings, cash flow conditions, restrictions contained in the articles of association of its Subsidiaries, applicable laws and restrictions contained in the debt instruments or agreements of such Subsidiaries. In addition, if any of the Company's Subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities would not be available to the Company for the purpose of making payments on the New Instruments. These restrictions could reduce the amounts that the Company receives from its Subsidiaries, which would restrict its ability to meet payment obligations under the New Instruments.

(jj) In addition, if any of the Company's Subsidiaries raises capital by issuing equity securities to third parties, dividends declared and paid with respect to such equity securities, if any, would not be available to the Company to make payments on the New Instruments.

(kk) PRC laws and regulations permit payment of dividends only out of accumulated profits as determined in accordance with PRC accounting standards and regulations and such profits differ from profits determined in accordance with IFRS

in certain significant respects, including the use of different bases of recognition of revenue and expenses. The Company's PRC Subsidiaries are also required to set aside a portion of their after-tax profits according to PRC accounting standards and regulations to fund certain reserves that are not distributable as cash dividends. In addition, starting from 1 January 2008, dividends for the year 2008 and onwards paid by the Company's PRC Subsidiaries to their non-PRC parent companies will be subject to a 10% withholding tax, unless there is a tax treaty between the PRC and the jurisdiction in which the overseas parent company is incorporated, which specifically exempts or reduces such withholding tax. Pursuant to an avoidance of a double taxation arrangement between Hong Kong and the PRC, if the non-PRC parent company is a Hong Kong resident and directly holds a 25% or more interest in the PRC enterprise, such withholding tax rate may be lowered to 5%. However, according to a circular issued by SAT in October 2009, tax treaty benefits will be denied to "conduit" or shell companies without business substance.

(ll) In addition, the Company's PRC Subsidiaries are required to pay a 7% withholding tax on behalf of the Company on the interest paid under any shareholders' loans. As a result of such restrictions, there could be timing and other limitations on payments from the Company's PRC Subsidiaries to meet payments required by the New Instruments, and there could be restrictions on payments required to redeem the New Instruments at maturity (if applicable) or as required for any mandatory redemption or early redemption.

(mm) As a result of the foregoing, the Company cannot assure the holders or lenders of the New Instruments that the Company will have sufficient cash flow from dividends from its Subsidiaries to satisfy its obligations under the New Notes and the New Loans or the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees, as the case may be.

If the Company is unable to comply with the restrictions and covenants in its debt agreements, the New Instrument Documents governing the New Instruments, there could be a default under the terms of these agreements, the New Instrument Documents governing the New Instruments, which could cause repayment of its debt to be accelerated

(nn) If the Company is unable to comply with the restrictions and covenants in the New Instrument Documents governing the New Instruments, or its current or future debt and other agreements, there could be a default under the terms of these agreements. In the event of a default under these agreements, the holders of the debt could terminate their commitments to lend to the Company, accelerate the debt, declare all amounts borrowed due and payable and enforce all or any of the security or terminate the agreements, as the case may be. Furthermore, some of the Group's debt agreements, including the New Instrument Documents governing the New Instruments, contain, and the Group's future debt agreements are likely to contain, cross-acceleration or cross-default provisions. As a result, a default of the Company's or any Restricted Subsidiary under one debt agreement may cause the acceleration of debt, including the New Instruments, or result in a default under the Group's other debt agreements, including the New Instrument Documents governing the New Instruments. If any of these events occur, the Company cannot assure the holders of the New Instruments that its assets and cash flow would be sufficient to repay in full all of its indebtedness, or that it would be able to find alternative financing. Even if the Company could obtain alternative financing, the Company cannot assure the holders of the New Instruments that it would be on terms that are favourable or acceptable to the Company.

The Group has flexibility to incur debt secured by assets, the security interest of which may not be shared with the holders or lenders of the New Instruments

(oo) Although the "Limitation on Liens" covenant or the equivalent covenant as described under the New Instruments Documents provide that the Group may not create or permit to exist any liens on its assets and properties unless such liens are shared on a *pari passu* basis with the holders of the New Instruments, such restriction is subject to important exceptions and qualifications. The terms of the New Instruments give the Group flexibility to make restrict payments, including investments, in Unrestricted Subsidiaries, minority owned joint ventures and other persons, and it has the flexibility under the terms of the New Instruments to designate certain subsidiaries as Unrestricted Subsidiaries, which may have substantial assets. Unrestricted Subsidiaries themselves are not subject to the restrictive covenants under the New Instrument Documents governing the New Instruments and will therefore be permitted to incur debt secured by their assets, the security interest of which will not be shared with the holders of the New Instruments. In addition, the definition of "Permitted Liens" (or its equivalent) also gives the Company and its Restricted Subsidiaries flexibility to incur debt secured by certain assets, the security interest of which may not be shared with the holders of the New Instruments. The New Instruments will therefore rank behind such secured debt to the extent of the value of such security, the amount of which may be material.

Certain transactions that constitute "connected transactions" under the listing rules of the Stock Exchange of Hong Kong Limited will not be subject to the "Limitation on Transactions with Shareholders and Affiliates" covenant of the New Notes Indentures and the New Loans Documents

(pp) The Company's Shares are listed on the Hong Kong Stock Exchange and it is required to comply with the listing rules of the Stock Exchange of Hong Kong Limited, which provide, among other things, that any transaction between a listed company or any of its subsidiaries, on the one hand, and a "connected person" of such listed company, on the other hand, is a "connected transaction" that, if the value of such transaction exceeds the applicable *de minimis* thresholds, will require the prior approval of the independent shareholders of such listed company. The definition of "connected person" to a listed company includes, among others, any 10% or more shareholder of: (i) such listed company; or (ii) any subsidiary of such listed company. The concept of "connected person" also captures "associates", which include, among others: (a) any subsidiary of such "connected person"; (b) any holding company of such "connected person" and any subsidiary of such holding company; and (c) any company in which such entity or entities mentioned in (a) and (b) above taken together has/have the power to exercise control, directly or indirectly, of 30% or more of the voting power of such company.

(qq) The "Limitation on Transactions with Shareholders and Affiliates" covenant in the New Instruments Documents only applies to transactions between the Company or any Restricted Subsidiary, on the one hand, and: (i) any holder (or any affiliate of such holder) of 10% or more of any class of capital stock of the Company; or (ii) any affiliate of the Company, on the other hand. As such, transactions between the Company or any Restricted Subsidiary, on the one hand, and an affiliate of any Restricted Subsidiary, on the other hand, will not be captured by such covenant, even though they are subject to the independent shareholders' requirement under the listing rules of the Stock Exchange of Hong Kong Limited. As a result, the Company is not required by the terms of the New Notes and the New Loans to ensure that any such transactions are on terms that are fair and reasonable, and it will not need to deliver officers' certificates or procure the delivery of fairness opinions of accounting, appraisal or investment banking firms to the New Notes Trustee and the New Loans Facility Agent for any such transactions.

A material uncertainty exists which may cast significant doubt on the Group's ability to continue as a going concern

(rr) For the year ended 31 December 2024, the Group incurred a loss of RMB35,145 million and, as of 31 December 2024, the Group had net current assets of RMB118,958 million. Such condition indicates the existence of a material uncertainty which may cast significant doubt on the Group's ability to continue as a going concern. Should the Group be unable to continue as a going concern, adjustments would have to be made to the consolidated financial statements to adjust the value of the Group's assets to their recoverable amounts, to provide for any further liabilities which might arise and to reclassify non-current assets as current assets and non-current liabilities as current liabilities.

13.5 **Risks relating to the Subsidiary Guarantees, the JV Subsidiary Guarantees, the Collateral and the ICL Collateral**

Certain initial Subsidiary Guarantors do not currently have significant operations and certain Subsidiary Guarantees may in some cases be replaced by limited-recourse guarantees

(a) The Group conducts its business operations primarily through its PRC Subsidiaries, but none of its current PRC Subsidiaries and their direct PRC or non-PRC Subsidiaries will provide a Subsidiary Guarantee or a JV Subsidiary Guarantee either upon issuance of the New Instruments or at any time thereafter. Therefore, the revenue and income of the Group are primarily attributed to its PRC operating Subsidiaries and any contributions from direct operations of the Subsidiary Guarantors are relatively immaterial. No future subsidiaries that are organised under the laws of the PRC or their future PRC or non-PRC subsidiaries will provide a Subsidiary Guarantee at any time in the future. As a result, the New Instruments will be effectively subordinated to all the debt and other obligations, including contingent obligations and trade payables, of the PRC Subsidiaries. Moreover, the Collateral will not include the capital stock of the existing or future non-guarantor Subsidiaries, including the PRC Subsidiaries of the Group.

(b) Certain initial Subsidiary Guarantors that will guarantee the New Instruments do not have significant operations. There is no assurance that the initial Subsidiary Guarantors or any Subsidiaries that may become Subsidiary Guarantors or JV Subsidiary Guarantors in the future will have the funds necessary to satisfy the financial obligations under the New Instruments if the Company is unable to do so.

(c) In addition, a Subsidiary Guarantee required to be provided by a subsidiary of the Company under the terms of the New Instruments may be replaced by a limited-recourse JV Subsidiary Guarantee following the sale or issuance to a third party of a minority interest in such subsidiary or its direct or indirect majority shareholders. Recovery under a JV Subsidiary Guarantee is limited to an amount equal to the Group's proportional interest in the issued share capital of such JV Subsidiary Guarantor multiplied by the fair market value of the total assets in such JV Subsidiary Guarantor and its Subsidiaries, on a consolidated basis, as of the date of the last fiscal year end of the Company.

The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees

(d) Under bankruptcy laws, fraudulent transfer laws, insolvency or unfair preference or similar laws in the British Virgin Islands, Hong Kong and other jurisdictions where future Subsidiary Guarantors or JV Subsidiary Guarantors (if any) may be established, a guarantee could be voided, or claims in respect of a guarantee could be subordinated to all other debts of that guarantor if, among other things, the

guarantor, at the time it incurred the indebtedness evidenced by, or when it gives, its guarantee:

(i) incurred the debt with the intent to hinder, delay or defraud creditors or was influenced by a desire to put the beneficiary of the guarantee in a position which, in the event of the guarantor's insolvency, would be better than the position the beneficiary would have been in had the guarantee not been given;

(ii) received less than reasonably equivalent value or fair consideration for the incurrence of such guarantee;

(iii) was insolvent or rendered insolvent by reason of the incurrence of such guarantee;

(iv) was engaged in a business or transaction for which the guarantor's remaining assets constituted unreasonably small capital (in the case of a guarantor incorporated outside the British Virgin Islands only); or

(v) intended to incur, or believed that it would incur, debts beyond its ability to pay such debts as they mature.

(e) The measure of insolvency for purposes of the foregoing will vary depending on the laws of the applicable jurisdiction. Generally, however, a guarantor would be considered insolvent at a particular time if it were unable to pay its debts as they fell due or if the sum of its debts was then greater than all of its properties at a fair valuation or if the present fair saleable value of its assets was then less than the amount that would be required to pay its probable liabilities in respect of its existing debts as they became absolute and matured.

(f) In addition, a guarantee may be subject to review under applicable insolvency or fraudulent transfer laws in certain jurisdictions or subject to a lawsuit by or on behalf of creditors of the guarantor. In such a case, the analysis set forth above would generally apply, except that the guarantee could also be subject to the claim that, since the guarantee was not incurred for the benefit of the guarantor, the obligations of the guarantor thereunder were incurred for less than reasonably equivalent value or fair consideration.

(g) In an attempt to limit the applicability of insolvency and fraudulent transfer laws in certain jurisdictions, the obligations of the Subsidiary Guarantors or JV Subsidiary Guarantors (if any) under the Subsidiary Guarantees or JV Subsidiary Guarantees (as the case may be) will be limited to the maximum amount that can be guaranteed by the applicable Subsidiary Guarantor or JV Subsidiary Guarantor without rendering the guarantee, as it relates to such Subsidiary Guarantor or JV Subsidiary Guarantor, voidable under such applicable insolvency or fraudulent transfer laws.

(h) If a court voids a Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be), subordinates such guarantee to other indebtedness of the Subsidiary Guarantor or JV Subsidiary Guarantor, or holds the Subsidiary Guarantee or JV Subsidiary Guarantee (as the case may be) unenforceable for any other reason, holders of the New Instruments would cease to have a claim against that Subsidiary Guarantor or JV Subsidiary Guarantor based upon such guarantee, would be subject to the prior payment of all liabilities (including trade payables) of such Subsidiary Guarantor or JV Subsidiary Guarantor (as the case may be), and would solely be creditors of the Company and any Subsidiary Guarantors or JV Subsidiary Guarantors whose guarantees have not been voided or held unenforceable. There is no assurance that, in such an event, after providing for all prior claims, there would be sufficient assets to satisfy the claims of the holders of the New Instruments.

Security over the Collateral or the ICL Collateral is not granted directly to the holders of the New Instruments

(i) Security over the Collateral or the ICL Collateral for the obligations of the Company under the New Notes, the New Notes Documents, the MCB (A), the MCB (B), the MCB (A) Documents, the MCB (B) Documents, the New Loans and the New Loans Documents is not granted directly to the holders of the New Notes, the MCB (A), the MCB (B) or the New Loans but is granted only in favour of the New Security Agent for the benefit of the holders of the New Instruments. As a consequence, holders of the New Instruments do not have direct security and are not entitled to take enforcement action in respect of the security for the New Instruments, except through the New Security Agent, which has agreed to apply any proceeds of enforcement on such security toward such obligations. The New Security Agent would enforce or procure the enforcement of the Collateral or the ICL Collateral and take such further action on behalf of the holders of the New Instruments as the New Security Agent deems appropriate, subject to and in accordance with the New Instrument Documents.

The Collateral and the ICL Collateral may in some circumstances be voidable

(j) The Collateral and the ICL Collateral may be voidable as a preference under insolvency or fraudulent transfer or similar laws of the Cayman Islands or other applicable laws if made at any time within six months immediately preceding the commencement of liquidation or, under some circumstances, within a longer period. In addition, the Collateral and the ICL Collateral may be voided based on the analysis set forth under "*The Subsidiary Guarantees or JV Subsidiary Guarantees may be challenged under applicable insolvency or fraudulent transfer laws, which could impair the enforceability of the Subsidiary Guarantees or JV Subsidiary Guarantees*" above. If the Collateral or the ICL Collateral were to be voided for any reason, holders of the New Instruments would have only an unsecured claim against the Company and the Subsidiary Guarantors.

The Intercreditor Agreements may impact the ability of the Company, the Subsidiary Guarantors and the JV Subsidiary Guarantors (if any) to pay amounts due under the New Instruments, the Subsidiary Guarantees and the JV Subsidiary Guarantees (if any) and the Intercreditor Agreements may limit the rights of holders of the New Instruments to the Collateral and the ICL Collateral

(k) The New Security Agent is required to take action to enforce the Collateral and the ICL Collateral in accordance with the instructions of the trustees or agents of the New Instruments, and the holders (or representatives or agents) of other permitted secured indebtedness, given under and in accordance with the Intercreditor Agreements. Any enforcement action taken by the New Security Agent will adversely affect the Company's entitlement to receive distributions from the Collateral, which will, in turn, have an adverse impact on the Company's ability to fulfil its payment obligations under the New Instruments. Further, the Subsidiary Guarantors' or the JV Subsidiary Guarantors' ability to pay under the Subsidiary Guarantees or the JV Subsidiary Guarantees will be adversely affected. The ability of holders of the New Instruments and the respective trustees or agents of the New Instruments to enforce the Collateral is restricted under the Intercreditor Agreements, as only the New Security Agent is permitted to take enforcement action. If an event of default occurs under any series of the New Instruments, the requisite number of the holders of such series of the New Instruments may decide whether to take any enforcement action and may thereafter, through their respective trustee, representative or agent, in accordance with the Intercreditor Agreements, instruct the New Security Agent to take enforcement action against the Collateral. After receipt of such instruction, the New Security Agent will seek instructions from the trustee, representative or agent of the other series of New Instruments or permitted secured indebtedness, and may take action to enforce on the Collateral

upon receipt of enforcement instruction from the requisite majority secured parties in accordance with the Intercreditor Agreements.

(l) The New Security Agent, acting in its capacity as such, shall have such duties with respect to the Collateral pledged, charged or granted pursuant to the New Security Documents as are set forth in the Intercreditor Agreements. Under certain circumstances, the New Security Agent may have obligations under the New Security Documents or the Intercreditor Agreements that are in conflict with the holders of the New Instruments. The New Security Agent will not be under any obligation to exercise any rights or powers conferred under the Intercreditor Agreements or any of the New Security Documents for the benefit of the holders of the New Instruments, unless such holders have offered to the New Security Agent indemnity and/or security satisfactory to the New Security Agent against any loss, liability or expense.

The value of the Collateral and the ICL Collateral is unlikely to be sufficient to satisfy the Company's obligations under the New Instruments

(m) The value of the Collateral and the ICL Collateral in the event of a liquidation will depend upon market and economic conditions, the availability of buyers and similar factors. No independent appraisals of any of the Collateral or the ICL Collateral have been prepared by the Company in connection with the New Instruments. Accordingly, there is no assurance that the proceeds of any sale or enforcement of the Collateral or the ICL Collateral following an acceleration of the New Instruments would be sufficient to satisfy, or would not be substantially less than, amounts due and payable under the New Instruments. By their nature, some or all of the Collateral and the ICL Collateral, in particular, the capital stock of the existing or any future subsidiary, may be illiquid and may have no readily ascertainable market value. There is no assurance that the Collateral will be saleable or, if saleable, that there will not be substantial delays in its liquidation.

Rights of holders of the New Instruments in the Collateral may be adversely affected by the failure to create or perfect the security interests

(n) The ability of the New Security Agent to foreclose on the Collateral upon the occurrence of an event of default or otherwise will be subject in certain instances to perfection and priority issues. The New Security Agent's ability to foreclose on the Collateral may also be subject to state and provincial law requirements, applicable bankruptcy law, prior liens and practical problems associated with the realisation of the New Security Agent's lien on the Collateral, including cure rights, foreclosing on the Collateral within the time periods permitted by third parties or prescribed by laws, obtaining third-party consents, making additional filings, statutory rights of redemption and the effect of the order of foreclosure. There can be no assurance that the consents of any third parties and approvals by governmental entities or courts of competent jurisdiction will be given when required to facilitate a foreclosure on such assets or that foreclosure on the Collateral will be sufficient to make all payments on the New Notes. Although procedures will be undertaken to support the validity and enforceability of the security interests, there is no assurance that the New Security Agent, New Notes Trustee or holders of the New Notes will be able to enforce the security interest.

The ICL Collateral is subject to significant limitations and uncertainties that may affect its enforceability and value

(o) Security will be granted over the ICL Collateral under an omnibus assignment deed[81], which will not identify or specify the details or the quantum of each intercompany receivable comprising the ICL Collateral securing the New

[81] The terms of the omnibus assignment deed in respect of the ICL Collateral are subject to further negotiation with the AHG and the CoCom.

Instruments. As limited due diligence has been conducted by the Company and its advisers, there is limited information regarding the nature and quantum of such intercompany receivables, and there is therefore no assurance as to the value of the ICL Collateral or to the scope or the completeness of such ICL Collateral.

(p) In addition, the omnibus assignment deed[82] will likely include certain carve-outs that no security is purportedly granted in certain circumstances, such as where it would breach any applicable law or regulation. These limitations and conditions may materially limit the value, if any, that can ultimately be realised from the ICL Collateral, the Common Security Collateral and/or the Tiered Security Collateral.

(q) Furthermore, unlike the Collateral, the ICL Collateral will be treated separately under the terms of the New Instruments. Due to the limitations and uncertainties associated with the ICL Collateral, the representations, covenants, events of default or other provisions in relation to the creation, validity, enforceability, priority or perfection of the security over the ICL Collateral purportedly to be granted under the omnibus assignment deed and/or the value, scope or completeness of the ICL Collateral will be limited, in each case, to such provisions (if any) as set out in the omnibus assignment deed[83] or the New Instruments. Subject to the terms of the omnibus assignment deed[84], the Company may not be required to take certain requisite steps under applicable laws and undertake other customary procedures in connection with the creation, validity, enforceability and/or perfection (if relevant) of the security interest on the ICL Collateral, or to deliver board resolutions, officer's certificate, legal opinion, notices of assignment to the relevant counterparties prior to the occurrence of any event of default which is continuing under the New Instruments (other than any notice deemed to be delivered, pursuant to the terms of the omnibus assignment deed, to the other parties to the omnibus assignment deed), or other customary deliverables in relation to the ICL Collateral. Therefore, there is no assurance as to the enforceability or value of the ICL Collateral nor the creation, validity, enforceability, perfection or priority of the security over the ICL Collateral purportedly to be granted under the omnibus assignment deed.

13.6 **Risks relating to the MCB (A), the MCB (B) and the New Equity Instruments**

Holders of the MCB (A) and the MCB (B) may be subject to risk of fluctuation in the value of the Company's Shares upon conversion

(a) Holders of the MCB (A) and the MCB (B) may elect to convert their MCB (A) and/or their MCB (B) pursuant to the terms and conditions of the MCB (A) and the MCB (B), but such conversion is subject to the restrictions and procedural requirements under the terms and conditions of the MCB (A) and the MCB (B). The MCB (A) and the MCB (B) will not be redeemed for cash on their maturity date but will be mandatorily convertible into the Company's Shares, subject to the terms and conditions of the MCB (A) and the MCB (B).

(b) At the time the MCB (A) and the MCB (B) are issued to the relevant Scheme Creditors on the Restructuring Effective Date, the price of the Company's Shares upon conversion of the MCB (A) and/or the MCB (B) will not be ascertainable. Holders of the MCB (A) and the MCB (B) will therefore each bear the risk of fluctuation in the value of the Company's Shares. In addition, the value of the Company's Shares to be delivered upon conversion may vary substantially between

the date on which the relevant holder exercises its conversion right and the date on which the Company's Shares are delivered.

Conversion of the MCB (A) and the MCB (B) may dilute the ownership interest of existing shareholders and could also adversely affect the market price of the Company's Shares

(c) The conversion of some or all of the MCB (A) and/or the MCB (B) may dilute the ownership interests of existing shareholders of the Company. Any sales in the public market of the Company's Shares issuable upon such conversion could adversely affect prevailing market prices for the Company's Shares. In addition, the conversion of the MCB (A) and/or the MCB (B) might encourage short-selling of the Company's Shares by market participants.

Short selling of the Company's Shares by holders of the MCB (A) and the MCB (B) could materially and adversely affect the market price of the Company's Shares

(d) The issuance of the MCB (A) and/or the MCB (B) may result in downward pressure on the market price of the Company's Shares. Investors in convertible securities may seek to hedge their exposure to the underlying equity securities, often through short selling of the underlying equity securities or similar transactions. Any short selling and similar hedging activities could place significant downward pressure on the market value of the Company's Shares owned by an investor as well as on the trading price of the MCB (A) and/or the MCB (B).

Holders of the MCB (A) and the MCB (B) are not entitled to rights with respect to the Company's Shares, but are subject to changes made with respect to the Company's Shares

(e) Holders of the MCB (A) and the MCB (B) are not entitled to any rights with respect to the Company's Shares (including, without limitation, voting rights and rights to receive any dividends or other distributions on the Company's Shares) prior to the time when the MCB (A) and/or the MCB (B) are converted into the Company's Shares and are themselves registered as holders thereof. However, such MCB (A) and/or the MCB (B) holders are subject to all changes affecting the Company's Shares. For example, in the event that an amendment is proposed to the Company's articles requiring shareholder approval, and the record date for determining the shareholders of record entitled to vote on the amendment occurs prior to the date of conversion of the MCB (A) and/or the MCB (B) for such Company's Shares and the date of registration by the relevant MCB (A) and/or the MCB (B) holders as the holder thereof, that MCB (A) and/or the MCB (B) holder would not be entitled to vote on the amendment but would nevertheless be subject to any resulting changes in the powers, preferences or special rights that affect the Company's Shares after conversion.

Holders of the MCB (A) and the MCB (B) have limited anti-dilution protection

(f) The conversion price as described in the terms and conditions of the MCB (A) and the MCB (B) will be adjusted on the occurrence of certain events, including a consolidation, subdivision or reclassification of the Company's Shares, capitalisation of profits or reserves, distributions, rights issues of the Company's Shares or options over the Company's Shares below 85% of the current market price, rights issues of other securities, issues at less than 85% of the current market price, other issues at less than 85% of the current market price or other events as specified in the terms and conditions of the MCB (A) and the MCB (B). There is no requirement that there should be an adjustment for every corporate or other event that may affect the value of the Company's Shares. The terms and conditions of the MCB (A) and the MCB (B) will also contain exceptions to adjustment events, such as shares or other securities issued pursuant to employee share scheme and in connection with the Scheme. Events in respect of which no adjustment is made may

adversely affect the value of the Company's Shares and, therefore, adversely affect the value of the MCB (A) and/or the MCB (B).

Failure of to take required actions in the event of mandatory conversions by the specified deadline may result in such holders' rights being permanently extinguished

(g) Holders of the MCB (A) and the MCB (B) should be aware that the procedures for mandatory conversion of the MCB (A) and the MCB (B) require them to complete, execute and deposit the relevant reply form within the specified deadlines detailed in the terms and conditions. If a holder fails to respond to a mandatory conversion notice by both the initial and delayed cut-off dates, its rights in respect of the principal amount of the bonds concerned, including the right to receive shares or payment of any amounts, will be irrevocably extinguished without further compensation. Accordingly, failure to comply strictly with the response requirements and prescribed timelines, whether due to oversight, administrative error, or any other reason, will result in the forfeiture of such rights, and holders will have no recourse against the Company in respect of such unreplied bonds after the expiration of the final cut-off date.

The liquidity and market price of the New Equity Instruments may be volatile

(h) The trading price and volume of the New Equity Instruments may be volatile. Factors such as fluctuations in the Group's revenue, earnings and cash flows, changes in laws, regulations and policies in relation to the PRC real estate industry or any other developments may affect the volume and price at which the New Equity Instruments will be traded.

(i) There is no assurance that the suspension of trading of the Company's Shares will not occur in the future. If this happens, the business operation and financial performance of the Group may be materially adversely affected and the market value of the New Equity Instruments may decline materially.

Future or perceived sales of substantial amounts of the Company's Shares could affect the market price of the New Equity Instruments

(j) The market price of the Company's Shares could decline as a result of future sales of substantial amounts of the Company's Shares or other related securities, or the perception that such sales may occur. The Company's ability to raise future capital at favourable times and prices may also be materially and adversely affected. In addition, there is no assurance that the Company's significant shareholders will not dispose of any shares of the Company. There is uncertainty with regards to the effect of any future sales of the Company's Shares on the market price of the New Equity Instruments.

The Company may not declare dividends on its shares in the future

(k) Any declaration of dividends will be proposed by the Board, and the amount of any dividends will depend on various factors, including, without limitation, the results of operations, financial position, capital requirements and surplus, contractual restrictions, future prospects of the Group and other factors which the Board may determine are important. There is no assurance when, if and in what form dividends will be paid.

(l) Dividend payment is also subject to certain restrictions under Cayman Islands law, namely that dividends may only be paid either out of profits or (if permitted by the Company's memorandum and articles of association) the Company's share premium account, and provided that in no circumstances may a dividend be paid out of share premium, if this would result in the Company being unable to pay its debts as they fall due in the ordinary course of business.

Cayman Islands law on rights of shareholders may differ from other jurisdictions

(m) The Company is a Cayman Islands exempted company and its corporate affairs are governed by its memorandum and articles of association, the Cayman Islands Companies Act and the common law of the Cayman Islands. The rights of shareholders to take action against directors, the rights of minority shareholders to institute actions and the fiduciary responsibilities of the Company's directors to the Company under Cayman Islands law are to a large extent governed by the common law of the Cayman Islands. The common law of the Cayman Islands is derived in part from judicial precedent in the Cayman Islands, as well as from English common law, which has persuasive, but not binding, authority on a court in the Cayman Islands. The rights of the Company's shareholders and the fiduciary responsibilities of the director of the Company under Cayman Islands law may not be the same as they would be under statutes or judicial precedent in Hong Kong or other jurisdictions with which holders of the New Equity Instruments are familiar.

14. IMPORTANT NOTICES TO SCHEME CREDITORS

This section 14 contains a number of important notices to each Scheme Creditor. Scheme Creditors are strongly encouraged to carefully review the terms of the notices in this section 14 and, if necessary, seek and obtain independent legal, financial and/or tax advice.

14.1 Conflicts

(a) In the event of a conflict between the information and terms described in:

(i) this Explanatory Statement; and

(ii) the Scheme,

the terms of the Scheme shall prevail.

(b) Subject to the terms of the Restructuring Support Agreement and the Scheme, the Company shall be at liberty to propose any modification to the form of the Scheme produced in Appendix 2 (*Scheme*) for the approval or imposition of the Court or to propose a different scheme of arrangement or different schemes of arrangement, at any time prior to the sanction of the Scheme and the filing of the Scheme Sanction Order with the Hong Kong Companies Registry. The Company shall enjoy such liberty notwithstanding any action in reliance on the Scheme or this Explanatory Statement by a Scheme Creditor or any other person, provided that such modification does not materially affect a Scheme Creditor's rights. The Court may also impose modifications, additions or conditions on the Scheme.

14.2 Information

(a) Nothing in this Explanatory Statement or any other document issued with, appended to, or made available together with, the Explanatory Statement should be relied on for any purpose other than for Scheme Creditors, in their capacity as creditors of the Company, to make a decision whether or not to approve the Scheme. In particular and without limitation, nothing in this Explanatory Statement should be relied on in connection with the purchase or acquisition of any Scheme Claim or any other financial instruments, securities, assets or liability of the Company or any other member of the Group.

(b) Nothing contained in this Explanatory Statement constitutes a recommendation, or the giving of advice, by the Company or any other member of the Group, the Existing Debt Administrative Parties, the New Instrument Administrative Parties, the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee or the Blocked Escrow Agent to take a particular course of action or to exercise any right conferred by the Existing Debt in relation to buying, selling, subscribing for, exchanging, redeeming, holding, underwriting, disposing of or converting the Existing Debt or any other financial instruments, securities, assets, claims, property interests or liability of the Company or any other member of the Group.

14.3 Notice to Scheme Creditors

(a) Without prejudice to any representations and warranties to be given by the Company or any other member of the Group in the Restructuring Documents, nothing contained in this Explanatory Statement shall constitute a warranty, undertaking or guarantee of any kind, express or implied, nor any admission of any

fact or liability on the part of the Company or any other member of the Group with respect to any asset to which it may be entitled or any claim against it. Without prejudice to the generality of the foregoing, nothing in this Explanatory Statement or the distribution thereof evidences to any person, or constitutes any admission by the Company or any other member of the Group, that a liability is owed to any person in respect of any claim (including, without limitation, any Scheme Claim) or that any person is or may be a Scheme Creditor. The failure to distribute this Explanatory Statement to any Scheme Creditor shall not constitute an admission or determination by the Company or any other member of the Group that such person is not a Scheme Creditor.

(b) No person has been authorised by the Company to give any information or make any representations concerning the Restructuring Documents or the Scheme which is inconsistent with this Explanatory Statement and, if made, such representations shall not be relied upon as having been so authorised.

(c) The information contained in this Explanatory Statement has been prepared based upon information available to the Company prior to the date of this Explanatory Statement. The delivery of this Explanatory Statement does not imply that the information herein is correct as at any time subsequent to the date hereof. To the best of the Company's knowledge, information and belief, the information contained in this Explanatory Statement is in accordance with the facts known to the Company prior to the date of this Explanatory Statement and does not omit anything likely to affect the import of such information in any material respect. The Company has taken all reasonable steps to ensure that this Explanatory Statement contains the information reasonably necessary and material to enable Scheme Creditors to make an informed decision about how the Restructuring and the Scheme affect them.

(d) None of the Company's Advisers, the Existing Debt Administrative Parties (namely, including Citicorp International Limited, Citibank N.A., London Branch, Citibank Europe plc, Citigroup Global Markets Europe AG, The Bank of New York Mellon, The Bank of New York Mellon, Hong Kong Branch, Bank of China (Hong Kong) Limited and China Construction Bank Corporation, Hong Kong Branch and Industrial and Commercial Bank of China (Asia) Limited), the New Instrument Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, or any of their respective directors, officers, employees, agents, affiliates or advisers, have verified the information contained in this Explanatory Statement, and each of those persons expressly disclaims responsibility for such information.

(e) This Explanatory Statement has not been reviewed, verified or approved by any rating agency or any regulatory authority. Without prejudice to any representations and warranties to be given by the Company or any other member of the Group in the Restructuring Documents, to the fullest extent permitted by law, none of the Existing Debt Administrative Parties (namely, including Citicorp International Limited and Citibank N.A., London Branch, Citibank Europe plc, Citigroup Global Markets Europe AG, The Bank of New York Mellon, The Bank of New York Mellon, Hong Kong Branch, Bank of China (Hong Kong) Limited and China Construction Bank Corporation, Hong Kong Branch and Industrial and Commercial Bank of China (Asia) Limited), the New Instrument Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, or any of their respective directors, officers, employees, agents, affiliates or advisers, will have any tortious, contractual or any other liability to any person in connection with the use of this Explanatory Statement and none of the Existing Debt Administrative Parties (namely, including Citicorp International Limited and Citibank N.A., London Branch, Citibank Europe plc, Citigroup Global Markets Europe AG, The Bank of New York Mellon, The Bank of New York Mellon, Hong Kong Branch, Bank of China (Hong Kong) Limited and China Construction

Bank Corporation, Hong Kong Branch and Industrial and Commercial Bank of China (Asia) Limited), the New Instrument Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent nor any of their respective directors, officers, employees, agents, affiliates or advisers, will accept any liability whatsoever to any person, regardless of the form of action, for any lost profits or lost opportunity, or for any indirect, special, consequential, incidental or punitive damages arising from any use of this Explanatory Statement, its contents or otherwise in connection with it.

(f) The Chairperson, the Information Agent and the Blocked Scheme Creditor Tabulation Agent are each an agent of the Company and each owes no obligation towards or relationship of agency or trust with any third party or any other party (including, without limitation, the Scheme Creditors) in respect of the performance of their respective duties as the Chairperson, the Information Agent or the Blocked Scheme Creditor Tabulation Agent (as applicable). The Chairperson, the Information Agent and the Blocked Scheme Creditor Tabulation Agent shall be obliged to perform such duties and only such duties as are specifically set forth in the Scheme, this Explanatory Statement and the Solicitation Packet. No implied duties or obligation shall be read into the aforesaid documents against the Chairperson, the Information Agent or the Blocked Scheme Creditor Tabulation Agent. The Information Agent and the Blocked Scheme Creditor Tabulation Agent shall not be under any duty to inquire into or investigate the validity, accuracy or content of any instruction from the Company or Scheme Creditors and may rely conclusively thereon.

(g) Neither the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any of their directors, officers, employees, agents, affiliates or advisers, is acting for, or owes any duty to, any Existing Noteholder or any Existing Lender, nor will any of them be responsible for providing any advice to any Existing Noteholder or any Existing Lender in relation to the Scheme and the terms of the New Instruments. Accordingly, neither the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any of their respective directors, officers, employees, agents, affiliates or advisers, make any recommendations as to whether any Existing Noteholder or any Existing Lender should take any of the actions contemplated in the Scheme. The Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee and the Blocked Escrow Agent express no opinion on the merits of the Scheme and the terms of the New Instruments. The Existing Debt Administrative Parties, the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee and the Blocked Escrow Agent have not been involved in negotiating or determining the terms of the New Instruments and make no representation that all relevant information has been disclosed to the Existing Noteholders and the Existing Lenders. Neither the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any of their directors, officers, employees, agents, affiliates or advisers, has verified, determined or calculated, or assumes any responsibility or liability for the accuracy or completeness of, any of the information concerning the Scheme, or any factual statements contained in, or the effect or effectiveness of, the Scheme.

(h) Neither the Existing Debt Administrative Parties, the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any of their directors, officers, employees, agents, affiliates or advisers, will have any tortious, contractual or any other liability to any person in connection with the determination of whether a Scheme Creditor is a Blocked Scheme Creditor or a Sanctioned Scheme Creditor. Neither the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any

of their directors, officers, employees, agents, affiliates or advisers, will accept any liability whatsoever to any person, regardless of the form of action, for any lost profits or lost opportunity, or for any indirect, special, consequential, incidental or punitive damages arising from the determination of whether a Scheme Creditor is a Blocked Scheme Creditor or a Sanctioned Scheme Creditor, even if the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent or any of their directors, officers, employees, agents, affiliates or advisers have been advised of the possibility of such damages. The Existing Debt Administrative Parties have not determined or verified the eligibility of Scheme Creditors, Account Holders and Intermediaries, nor have they reviewed the Account Holder Letters, Distribution Confirmation Deeds, the Custody Instructions or Designated Recipient Forms.

(i) Notwithstanding anything to the contrary and under no circumstances will the Chairperson, the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee or the Blocked Escrow Agent be liable for any special, punitive, indirect or consequential loss or damage (including, without limitation, for any loss of business, goodwill, opportunity or profit) of any kind whatsoever, in each case howsoever caused or arising, directly or indirectly, and whether or not foreseeable, even if it is actually aware or has been advised of the possibility of such loss or damage and regardless of the form of action. This protection shall survive the resignation or removal of the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Blocked Escrow Agent or of any of the Existing Debt Administrative Parties.

(j) Neither the Chairperson, the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent, nor any of their directors, officers, employees, agents, affiliates or advisers, is obliged, under the terms of the Scheme or otherwise, to engage in any transaction or conduct that may give rise to a liability under or in connection with Applicable Sanctions and/or may result in any person becoming targeted by Applicable Sanctions. If compliance with any obligations under the terms of the Scheme or otherwise would result in the Chairperson, the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent or any of their directors, officers, employees, agents, affiliates or advisers breaching the Blocking Regulation, that obligation need not be complied with (but only to the extent of the breach).

(k) The Existing Debt Administrative Parties shall not be responsible for calculating, verifying or paying any amounts payable in relation to the Scheme (including the Scheme Consideration Entitlement) or any late interest payable (i.e. the interest unpaid at maturity and the interest payable thereafter). The Existing Debt Administrative Parties shall not be required to take any steps to ascertain whether an Existing Noteholder or an Existing Lender is eligible to receive any RSA Fees under the Restructuring Support Agreement.

(l) None of the Existing Debt Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee and the Blocked Escrow Agent shall be responsible for monitoring the Scheme and shall not be required to take any steps to monitor or ascertain whether any event that triggers the termination of the Restructuring Support Agreement has occurred and will not be responsible to the Existing Noteholders, the Existing Lenders or any other person for any loss arising from any failure to do so.

(m) None of the members of the AHG, the CoCom nor their Advisers have authorised the content of this Explanatory Statement or any part of it, nor do they accept any

responsibility for the accuracy, completeness or reasonableness of the statements contained within it.

14.4 **Listing of the New Notes and MCB (A)**

(a) An application will be made to the SGX-ST for the listing of and quotation for the New Notes and MCB (A) on the Official List of the SGX-ST. The SGX-ST assumes no responsibility for the correctness of any of the statements made or opinions expressed or reports contained herein. Admission to the official list of and the listing and quotation of the New Notes and MCB (A) on the SGX-ST is not to be taken as an indication of the merits of the New Notes and MCB (A), the Company, any guarantors, their respective Subsidiaries (if any), their respective associated companies (if any) or their respective joint venture companies (if any). For so long as the New Notes and MCB (A) are listed on the SGX-ST and the rules of the SGX-ST so require, such New Notes and MCB (A) will be traded on the SGX-ST in a minimum board lot size of SGD200,000 (or its equivalent in foreign currencies). To the extent that the Company is required to disclose additional information solely for the purposes of the application to list the New Notes and MCB (A) on the SGX-ST, such information will be made available to Scheme Creditors on the Transaction Website.

(b) For so long as any New Notes and MCB (A) are listed on the SGX-ST and the rules of the SGX-ST so require, the Company shall appoint and maintain a paying agent in Singapore, where the New Notes and MCB (A) may be presented or surrendered for payment or redemption, in the event that a global note is exchanged for certificated notes. In addition, in the event that a global note is exchanged for certificated notes, an announcement of such exchange will be made by the Company through the SGX-ST and such announcement will include all material information with respect to the delivery of the certificated notes, including details of the paying agent in Singapore.

14.5 **Restrictions**

The distribution of this Explanatory Statement in certain jurisdictions may be restricted by law or regulation and persons into whose possession this Explanatory Statement is received are requested to inform themselves about, and to observe, any such restrictions. Failure to comply with any such restrictions could result in a violation of the laws of such jurisdictions.

14.6 **Forward-looking statements**

(a) Nothing in this Explanatory Statement shall be deemed to be a forecast, projection or estimate of the future financial performance of the Company and/or any member of the Group, except where otherwise specifically stated.

(b) This Explanatory Statement contains statements, estimates, opinions and projections with respect to the Company and the Group and certain plans and objectives of the Company and the Group. These forward-looking statements can be identified by the fact that they do not relate only to historical or current facts. Forward-looking statements often use words such as "*anticipate*", "*target*", "*expect*", "*estimate*", "*intend*", "*plan*", "*goal*", "*believe*", "*will*", "*may*", "*should*", "*would*", "*could*" or other words of similar import. These statements are based on numerous assumptions and assessments made by the Company, as appropriate, in light of their experience and perception of historical trends, current conditions, expected future developments and other factors which they believe appropriate. No assurance can be given that such expectations will prove to be correct. Forward-looking statements involve significant risks and uncertainties, should not be read as guarantees of future performance or results and will not necessarily be accurate indications of whether or not such results will be achieved. Such forward-looking statements only speak as at the date of this Explanatory Statement. A number of

factors could cause actual performance or results to differ materially from the performance or results discussed in the forward-looking statements, including, but not limited to, the factors and uncertainties set out in section 13 (*Risk Factors*).

(c) Each Scheme Creditor is urged to make its own assessment of the validity of such forward-looking statements and their underlying assumptions and no liability is accepted by the Company or any other member of the Group in respect of the achievement or failure thereof of such forward-looking statements and assumptions. Without limiting the above, none of the Company, any other member of the Group, any director of the Company or of any other member of the Group assumes any obligation to update or correct any forward-looking statements contained in this Explanatory Statement to reflect any change of expectations with respect thereto or any change in event, situation or circumstances on which any such forward-looking statement was based.

14.7 **Disclaimer regarding preparation of the Liquidation Analysis**

Kroll is acting as a professional adviser to the Company and only in connection with the preparation of the Liquidation Analysis. At the request of the Company, Kroll has prepared a high-level Liquidation Analysis of the estimated realisations to Scheme Creditors in the event that the Restructuring is not completed for whatever reason.

A copy of the Liquidation Analysis is produced at Part A of Appendix 6 (*Liquidation Analysis and Recovery Analysis*) which is illustrative in nature only and is subject to appropriate disclaimers, assumptions and other qualifications.

Each Scheme Creditor is encouraged to seek independent legal advice or alternatively other professional advice as necessary in relation to any particular query or concern about the Liquidation Analysis and their estimated realisations in a compulsory liquidation.

14.8 **Legal, tax and financial advice**

Without limiting any other disclaimer or limitation made above, each Scheme Creditor should not construe any of the contents of this Explanatory Statement or any other ancillary document relating to the Restructuring as legal, tax or financial advice.

Scheme Creditors should rely on their own due diligence and the advice of their respective professional advisers in their decisions with respect to the Scheme and the Restructuring.

Except as otherwise expressly stated in this Explanatory Statement, none of the Company, any member of the Group, the Existing Debt Administrative Parties, the New Instrument Administrative Parties, the Advisers, the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee or the Blocked Escrow Agent and their respective financial or legal advisers have expressed any opinion as to the merits of the Scheme or with respect to the effect of the Scheme.

(a) This Explanatory Statement has been prepared without taking into account the objectives, financial or tax situation or needs of any particular recipient of it, and consequently, the information contained in this Explanatory Statement may not be sufficient or appropriate for the purpose for which a recipient might use it. Each Scheme Creditor should conduct its own due diligence and consider the

appropriateness of the information in this Explanatory Statement having regard to its own objectives, financial situation and needs. Scheme Creditors are also recommended to consult their own professional advisers as to legal, tax, financial or other aspects relevant to any action that Scheme Creditors might take in relation to the Scheme and the Restructuring, or the implications/consequences of such action.

(b) This Explanatory Statement is addressed to Scheme Creditors for their information only and no person or entity should rely on it in formulating or reaching any investment decision other than for each Scheme Creditor making a decision whether or not to approve the Scheme.

14.9 **Other jurisdictions**

The implications of the Restructuring for any Scheme Creditor who is a resident or citizen of jurisdictions other than Hong Kong may be affected by the laws of other relevant jurisdictions (including the laws of any province or state within any of those jurisdictions). To the extent this applies, each Scheme Creditor should seek to inform themselves about and observe any applicable legal requirements in their respective jurisdictions (and any province or state). Any person outside Hong Kong who is resident in, or who has a registered address in, or is a citizen of, an overseas jurisdiction should consult independent professional advisers to ensure the full observance of the laws of the relevant jurisdiction in connection with the Scheme and the Restructuring, including obtaining any requisite governmental or other consents, observing any other requisite formalities and paying any issue, transfer or other taxes due in such jurisdiction.

14.10 **Taxation**

The Company has not analysed, and this Explanatory Statement does not discuss, any tax consequences to each Scheme Creditor of the Restructuring. Such tax consequences may be complex and each Scheme Creditor is urged to consult its own tax adviser with respect to the tax consequences of the Restructuring in light of such person's particular circumstances, including the tax consequences in any jurisdiction of the exchange of interests in the Existing Debt for its Scheme Consideration Entitlement, and the receipt, ownership and disposition of its Scheme Consideration Entitlement. Scheme Creditors are liable for any taxes that may arise as a result of the Scheme and the Restructuring, and shall have no recourse to the Company, the Group, the Existing Debt Obligors, the Existing Debt Administrative Parties, the Chairperson, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee, the Blocked Escrow Agent or any other person in respect of such taxes or any filing obligation with respect thereto.

15. IMPORTANT SECURITIES LAWS NOTICES

This Explanatory Statement does not constitute an offer to sell or the solicitation of an offer to buy any securities in any jurisdiction in contravention of applicable law. None of the securities referred to in this Explanatory Statement (together, the "New Securities") shall be sold, issued, exchanged or transferred in any jurisdiction in contravention of applicable law.

This Explanatory Statement is not for general release, publication or distribution in or into any jurisdiction where to do so would constitute a violation of the relevant laws of such jurisdiction.

15.1 General

(a) The distribution of this Explanatory Statement and the offering, sale or delivery of the New Securities are subject to restrictions and may not be made except pursuant to registration with, or authorisation by, the relevant securities regulatory authorities or an exemption from the relevant registration requirements. Therefore, persons who may come into possession of this Explanatory Statement or any other materials relating to the New Securities are advised to consult with their own legal advisers as to what restrictions may be applicable to them and to observe such restrictions. This Explanatory Statement may not be used for the purpose of an offer or invitation, in any circumstances, in which such offer or invitation is not authorised.

(b) No action has been or will be taken in any jurisdiction by the Company that will or is intended to permit a public offering, or any other offering under circumstances not permitted by applicable law, of the New Securities, or result in the possession or distribution of this Explanatory Statement or any other materials relating to the New Securities, in any country or jurisdiction where action for that purpose is required. Persons into whose hands this Explanatory Statement comes are required by the Company and the Group to comply with all applicable laws and regulations in each country or jurisdiction in which they purchase, offer, sell or deliver New Securities or have in their possession, distribute or publish this Explanatory Statement or any other materials relating to the New Securities, in all cases, at their own expense.

(c) In order for Scheme Creditors to receive their Scheme Consideration Entitlement, each Scheme Creditor (or its Designated Recipient, if any) will be required to complete the Distribution Confirmation Deed, which includes certain securities law confirmations and undertakings. Scheme Creditors are strongly advised to consult their professional advisers in respect of the contents of such securities law confirmations and undertakings in the Distribution Confirmation Deed. The Company reserves the right to take whatever steps it deems necessary to verify any question of fact that may impact on the accuracy of any securities law representations and undertakings made in the Distribution Confirmation Deed. The determination as to whether any such representation or undertaking has been appropriately given will be made by the Company.

15.2 U.S. securities law considerations

(a) The New Securities have not been and will not be registered under the U.S. Securities Act with the SEC or any state securities laws or any securities regulatory authority of any state or other jurisdiction of the United States.

(b) In connection with the issue of the New Securities to each Scheme Creditor (or its Designated Recipient, as applicable) as part of its Scheme Consideration Entitlement, the Company will require each Scheme Creditor (or its Designated

Recipient) who wishes to receive its Scheme Consideration Entitlement to, among other things, make certain representations and covenants in the Distribution Confirmation Deed. If the confirmations required by the Distribution Confirmation Deed cannot be or are not given by a Scheme Creditor (or its Designated Recipient, as applicable), such Scheme Creditor (or its Designated Recipient, as applicable) will not be eligible to receive the relevant Scheme Consideration Entitlement and will not be treated as an Eligible Person.

(c) Unless otherwise approved by the Company, the New Securities will be transferred and delivered within the United States solely to Accredited Investors. Outside the United States, the New Securities will be transferred and delivered in offshore transactions in reliance on Regulation S.

(d) If you are located in the United States, but you are not an Accredited Investor, you are eligible to receive this Explanatory Statement and to participate in the Scheme and the meeting described herein, but you will not be eligible to receive the New Securities.

(e) The New Securities will not be listed on any U.S. securities exchange or with any inter-dealer quotation system in the United States. The Company does not intend to facilitate a market of the New Securities in the United States. Consequently, the Company believes that it is unlikely that an active trading market in the United States will develop for such New Securities.

(f) This Explanatory Statement has been issued in respect of securities of a non-U.S. company. Any offer of securities is subject to disclosure requirements of a country other than the United States that are different from those of the United States. Financial statements included in the document, if any, may have been prepared in accordance with foreign accounting standards that may not be comparable to the financial statements of United States companies.

(g) It may be difficult for you to enforce your rights and any claim you may have arising under U.S. federal securities laws, since the Company is located in a foreign country and all of its officers and directors are residents of a foreign country. You may not be able to sue a foreign company or its officers or directors in a foreign court for violations of the U.S. securities laws. It may be difficult to compel a foreign company and its affiliates to subject themselves to a U.S. court's judgment.

The New Securities have not been, and will not be, registered with the SEC or any U.S. federal, state or other securities commission or regulatory authority and neither the SEC nor any U.S. federal, state or other securities commission or regulatory authority has approved or disapproved of the Restructuring, the Scheme, this Explanatory Statement, the New Securities or any of the Scheme Consideration Entitlement, or passed upon the accuracy or adequacy of the information contained in the Solicitation Packet, the Scheme or this Explanatory Statement. Any representation to the contrary is a criminal offence in the United States.

Scheme Creditors who are citizens or residents of the United States should consult their own legal, financial and tax advisers with respect to the legal, financial and tax consequences of the Scheme in their particular circumstances.

15.3 **Securities Law Considerations for Certain Other Jurisdictions**

(a) **European Economic Area**

(i) The New Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the European Economic Area ("**EEA**"). For these purposes, a retail investor means a person who is one (or more) of: (A) a

retail client as defined in point (11) of Article 4(1) of Directive 2014/65/EU (as amended, "**MiFID II**"); (B) a customer as defined in Directive 2016/97 (as amended), where that customer would not qualify as a professional client as defined in point (10) of Article 4(1) of MiFID II; or (C) not a qualified investor as defined in Regulation (EU) 2017/1129 (as amended, the "**Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014 (the "**PRIIPs Regulation**") for offering or selling the New Securities or otherwise making the New Securities available to retail investors in the EEA has been prepared and therefore offering or selling the New Securities or otherwise making the New Securities available to any retail investor in the EEA may constitute a breach of the PRIIPs Regulation.

(ii) In addition, this Explanatory Statement has been prepared on the basis that all offers of the New Securities in the EEA will be made pursuant to an exemption under the Prospectus Regulation, as directly effective in member states of the EEA ("**Member States**" and each, a "**Member State**"), from the requirement to produce a prospectus for offers of the New Securities. Accordingly, any person making or intending to make any offer within the EEA of the New Securities should only do so in circumstances in which no obligation arises for the Company to produce a prospectus for such offer. The Company has not authorised and does not authorise the making of an offer of any of the New Securities through any financial intermediary, other than offers made by the Company, as contemplated by this Explanatory Statement.

(iii) In relation to each Member State, no offer of New Securities to the public in that Member State may be made other than to any legal entity which is a qualified investor as defined in the Prospectus Regulation (an "**EEA Qualified Investor**") or, in any other circumstances, falling within Article 1(4) of the Prospectus Regulation, provided that no such offer of New Securities shall require the Company to publish a prospectus pursuant to Article 3 of the Prospectus Regulation or supplement a prospectus pursuant to Article 23 of the Prospectus Regulation.

(iv) In connection with the issue of the New Securities, the Distribution Confirmation Deed will require each Scheme Creditor (or its Designated Recipient) who wishes to receive its Scheme Consideration Entitlement to confirm, among other things, that it (or its Designated Recipient, as applicable) is an Eligible Person and will require any Scheme Creditor (or its Designated Recipient, as applicable) who is located in a Member State and intends to receive their New Securities to make certain representations and covenants in the Distribution Confirmation Deed (as applicable), including that it is an EEA Qualified Investor. If the confirmations required by the Distribution Confirmation Deed cannot be or are not given by a Scheme Creditor (or its Designated Recipient, as applicable), such Scheme Creditor (or its Designated Recipient, as applicable) will not be eligible to receive the relevant New Securities and will not be treated as an Eligible Person.

(v) For the purposes of this provision, an "offer to the public" in relation to the New Securities in any Member State means the communication in any form and by any means of sufficient information on the terms of the offer and the New Securities to be offered so as to enable an investor to decide to purchase or subscribe for the New Securities, as the same may be varied in that Member State by any measure adopted in that Member State pursuant to the Prospectus Regulation (and amendments thereto).

(b) **United Kingdom**

(i) The New Securities are not intended to be offered, sold or otherwise made available to, and should not be offered, sold or otherwise made available to, any retail investor in the United Kingdom ("**UK**"). For these purposes, a retail investor means a person who is one (or more) of: (A) a retail client, as defined in point (8) of Article 2 of Regulation (EU) No 2017/565 as it forms part of domestic law by virtue of the European Union (Withdrawal) Act 2018 ("**EUWA**"); (B) a customer as defined in the provisions of the UK's Financial Services and Markets Act 2000, as amended ("**FSMA**") and any rules or regulations made under the FSMA to implement Directive (EU) 2016/97, where that customer would not qualify as a professional client, as defined in point (8) of Article 2(1) of Regulation (EU) No 600/2014, as it forms part of domestic law by virtue of the EUWA; or (C) not a qualified investor as defined in Article 2 of Regulation (EU) 2017/1129 as it forms part of domestic law by virtue of the EUWA (as amended, the "**UK Prospectus Regulation**"). Consequently, no key information document required by Regulation (EU) No 1286/2014, as it forms part of domestic law by virtue of the EUWA (the "**UK PRIIPs Regulation**") for offering or selling the New Securities or otherwise making them available to retail investors in the UK, has been prepared and therefore offering or selling the New Securities or otherwise making them available to any retail investor in the UK may be unlawful under the UK PRIIPs Regulation.

(ii) In addition, this Explanatory Statement has been prepared on the basis that all offers of the New Securities in the UK will be made pursuant to an exemption under the UK Prospectus Regulation, from the requirement to produce a prospectus for offers of the New Securities. Accordingly, any person making or intending to make any offer in the UK of the New Securities should only do so in circumstances in which no obligation arises for the Company to produce a prospectus for such offer. The Company has not authorised and does not authorise the making of an offer of any of the New Securities through any financial intermediary, other than offers made by the Company, as contemplated by this Explanatory Statement.

(iii) No offer of New Securities to the public in the UK may be made other than to any legal entity which is a qualified investor as defined under Article 2 of the UK Prospectus Regulation (a "**UK Qualified Investor**") or in any other circumstances falling within section 86 of the FSMA, provided that no such offer of New Securities shall require the Company to publish a prospectus pursuant to section 85 of the FSMA or supplement a prospectus pursuant to Article 23 of the UK Prospectus Regulation.

(iv) In connection with the issue of the New Securities, the Distribution Confirmation Deed will require each Scheme Creditor (or its Designated Recipient) who wishes to receive its Scheme Consideration Entitlement to confirm, among other things, that it (or its Designated Recipient) is an Eligible Person and will require any Scheme Creditor (or Designated Recipient) who is located in the UK and intends to receive their New Securities to make certain representations and covenants in the Distribution Confirmation Deed, including that it is a UK Qualified Investor. If the confirmations, the representations and the covenants required by the Distribution Confirmation Deed cannot be or are not given by a Scheme Creditor (or its Designated Recipient), such Scheme Creditor (or its Designated Recipient) will not be eligible to receive the relevant New Securities.

(v) For the purposes of this provision, an "offer to the public" in relation to the New Securities in the UK means the communication in any form and by any

means of sufficient information on the terms of the offer and the New Securities to be offered so as to enable an investor to decide to purchase or subscribe for the New Securities.

(vi) The communication of this Explanatory Statement and any other documents or materials relating to the Scheme is not being made, and such documents and/or materials have not been approved, by an authorised person for the purposes of section 21 of the FSMA. Accordingly, such documents and/or materials are not being distributed to, and must not be passed on to, the general public in the UK. This Explanatory Statement is for distribution only to persons who: (A) are outside the UK; (B) are investment professionals, as such term is defined in Article 19(5) of the UK Financial Services and Markets Act 2000 (Financial Promotion) Order 2000 (as amended, the "**Financial Promotion Order**"); (C) are persons falling within Articles 49(2)(a) to (d) (high net-worth companies, unincorporated associations, etc.) of the Financial Promotion Order; or (D) are persons to whom an invitation or inducement to engage in investment activity (as defined in section 21 of the FSMA in connection with the issue, transfer or sale of any New Securities) may otherwise lawfully be communicated or caused to be communicated (all such persons together being referred to in this section as "**Relevant Persons**"). This Explanatory Statement is directed only at Relevant Persons and must not be acted on or relied on by persons who are not Relevant Persons. Any investment or investment activity to which this Explanatory Statement relates is available only to Relevant Persons and will be engaged in only with Relevant Persons.

(c) **Hong Kong**

This Explanatory Statement has not been and will not be registered with the Securities and Futures Commission of Hong Kong or the Hong Kong Registrar of Companies. The New Securities have not been and will not be offered or sold in Hong Kong by means of any document, other than: (i) to "professional investors" as defined in the Securities and Futures Ordinance (Cap. 571, Laws of Hong Kong) ("**SFO**") and any rules made thereunder; or (ii) in other circumstances which do not result in the document being a "prospectus" as defined in the Companies (Winding Up and Miscellaneous Provisions) Ordinance (Cap. 32 of the Laws of Hong Kong) ("**C(WUMP)O**") or which do not constitute an offer to the public as defined in C(WUMP)O. No advertisement, invitation or document relating to the New Securities may be issued or may be in the possession of any person other than with respect to New Securities which are, or are intended to be, disposed of only to persons outside Hong Kong or only to "professional investors" as defined in the SFO and any rules made under the SFO.

(d) **PRC**

The New Securities have not been and will not be registered under the relevant securities laws of the PRC. Accordingly, no offer, promotion, solicitation for sales or sale of or for, as the case may be, any New Securities in the PRC (excluding Hong Kong, Macau and Taiwan) will be made, except where permitted by the China Securities Regulatory Commission or where the activity otherwise is permitted under the laws of the PRC.

(e) **Singapore**

This Explanatory Statement has not been and will not be registered as a prospectus with the Monetary Authority of Singapore. Accordingly, this Explanatory Statement and any other document or material in connection with the offer or sale, or invitation for subscription or purchase, of New Securities may not be circulated or distributed, nor may New Securities be offered or sold, or be made the subject of an invitation

for subscription or purchase, whether directly or indirectly, to any person in Singapore other than:

(i) to an institutional investor (as defined in section 4A of the SFA) pursuant to section 274 of the SFA; and

(ii) to an accredited investor (as defined in Section 4A of the SFA) pursuant to and in accordance with the conditions specified in Section 275 of the SFA.

(f) **British Virgin Islands**

This Explanatory Statement has not been and will not be registered with the British Virgin Islands Financial Services Commission. No security is or shall be offered to the public in the British Virgin Islands for purchase or subscription for the purposes of the Securities and Investment Banking Act (as Amended).

(g) **Cayman Islands**

There is no registration required or made under the Securities Investment Business Act (As Revised) in the Cayman Islands or with the Cayman Islands Monetary Authority in relation to this Explanatory Statement and this Explanatory Statement is only distributed to Scheme Creditors such that it does not represent an offer to the public in the Cayman Islands under any law in the Cayman Islands.

RECITALS:

The Company

(A) The Company is an exempted company incorporated with limited liability under the laws of the Cayman Islands on 10 November 2006 with registration number 177345 and with its registered office at Conyers Trust Company (Cayman) Limited, Cricket Square, Hutchins Drive, PO Box 2681, George Town, Grand Cayman KY1-1111, Cayman Islands. The Company is registered as a non-Hong Kong company under Part 16 of the Hong Kong Companies Ordinance with business registration number 37592254.

(B) The shares of the Company were listed on the main board of HKEX (Stock Code: 02007) on 20 April 2007. As at the date of the Explanatory Statement, the authorised share capital of the Company is HKD10,000,000,000 divided into 100,000,000,000 ordinary shares of a nominal or par value of HKD0.10 each, of which 27,988,507,946 of the 100,000,000,000 ordinary shares of HKD0.10 have been issued and are fully paid up, or credited as being fully paid up.

Background and purpose of this Scheme

(C) The Group is principally engaged in the business of property development and has projects in multiple jurisdictions, including in the PRC and Malaysia. The Group has been severely and negatively affected by the downturn of the PRC real estate market since 2021. Consequently, the Company has been negotiating the terms of the Restructuring with key stakeholders (including certain Consenting Creditors) in order to avoid a Group-wide liquidation.

(D) The Company and the Consenting Creditors have entered into the Restructuring Support Agreement with a view to implementing the Restructuring by the Longstop Date of 31 March 2026, unless otherwise extended pursuant to Clause 2.2 (*Longstop Date*) of this Scheme.

(E) The purpose of this Scheme is to effect a compromise and arrangement between the Company and the Scheme Creditors of Scheme Claims. This Scheme requires each Scheme Creditor to agree, *inter alia*, to release and discharge all of their Scheme Claims (save for the Scheme Claims (Excluded Liabilities)) in exchange for which each Scheme Creditor (and/or its Designated Recipient, as applicable) will receive, in full and final settlement of applicable Scheme Claims, a distribution of relevant Scheme Consideration Entitlement pursuant to the terms of this Scheme.

IT IS AGREED as follows:

1 Definitions and interpretation

1.1 Unless the context so requires or a specific provision otherwise expressly provides to the contrary, capitalised terms used in this Scheme shall have the meanings attributed to them in Part A (*Definitions*) of Schedule 1 (*Definitions and interpretation*).

1.2 Save as otherwise expressly provided, the principles of interpretation set out in Part B (*Interpretations*) of Schedule 1 (*Definitions and interpretation*) shall be applied in construing the provisions of this Scheme.

2 Application and effectiveness of this Scheme; Longstop Date

2.1 Scheme Effective Date

2.1.1 The provisions of this Scheme shall take effect immediately on the Scheme Effective Date and the compromise and arrangement effected by this Scheme shall thereafter be binding on the Company and each Scheme Creditor and respective successors, assigns and transferees (including, without limitation, any person to whom a Scheme Creditor has transferred all or any part of an interest in and/or title to the Existing Debt Instruments and/or any Scheme Claim after the Record Date).

2.1.2 The Company shall deliver a notice to the Scheme Creditors, the Existing Notes Trustees and the Existing Loans Agents confirming that the Scheme Effective Date has occurred, promptly following the occurrence of the Scheme Effective Date.

2.2 Longstop Date

2.2.1 In accordance with Clause 12.1 below, if the Restructuring Effective Date has not occurred, and the steps described in Clause 4.3.2 have not been completed, in each case, by the Longstop Date, this Scheme shall terminate automatically on the Longstop Date.

2.2.2 The Company may, at any time, before the occurrence of the earlier of (A) the Restructuring Effective Date, (B) the Longstop Date or (C) the termination of the Scheme and, with the prior written consent of the Majority Scheme Creditors, elect to extend the Longstop Date (whether as a single extension or otherwise) (each extension being a "**Longstop Date Extension**") provided always that:

(i) there shall not be more than three Longstop Date Extensions;

(ii) each Longstop Date Extension shall not exceed two calendar months; and

(iii) the Longstop Date shall not, in any event, be extended beyond 30 September 2026.

2.2.3 Upon any Longstop Date Extension, the Company shall promptly deliver a notice in writing to confirm such Longstop Date Extension to each Scheme Creditor, the Existing Notes Trustees and the Existing Loans Agents.

3 Grant of authority and instructions to take steps to implement this Scheme

3.1 For the sole purpose of giving effect to the Scheme, from the Scheme Effective Date, and in consideration of the rights and benefits afforded to each Scheme Creditor irrespective of any term of any Existing Debt Finance Document or any other arrangement governing any Scheme Claim, each Scheme Creditor (for itself and on behalf of its Designated Recipient, unless specifically stated otherwise), irrevocably appoints, and shall for all purposes be treated as having irrevocably and unconditionally appointed, the Company as its lawful attorney and agent, and irrevocably authorises, directs, instructs and empowers the Company (represented by an authorised representative or agent), on behalf of that Scheme Creditor (including any person to whom a Scheme Creditor has transferred an interest and/or title to any Existing Debt Instrument or any Scheme Claim after the Record Date) to:

3.1.1 duly enter into, execute, notarise, hold in escrow and, on and from the Restructuring Effective Date and in accordance with the Restructuring Steps, duly release (or authorise the release) from escrow and deliver (whether as a deed or otherwise, and including, if applicable, before a notary in any jurisdiction), on behalf of each Scheme Creditor, the Deeds of Release and each other Restructuring Document to which each Scheme Creditor, or any of them, are named as a party, and any other document referred to, contemplated by, or ancillary to, any of the foregoing;

3.1.2 agree on its behalf any amendment to the sequencing of the Restructuring Steps, as may be deemed (acting reasonably and in good faith) as being necessary to effect the transactions necessary to effect the Restructuring, provided that any such amendments do not change any right or obligation or impose any additional obligation (by reference to those rights or obligations as are contemplated at the date of the Explanatory Statement) on any Scheme Creditor, are agreed by the Majority AHG and the Majority CoCom and do not, and could not reasonably be expected (directly or indirectly) to have any adverse effect on the interests of any Scheme Creditor under this Scheme;

3.1.3 agree on its behalf any amendment to the form of any Restructuring Document to be executed on the Restructuring Effective Date which the Company and (where applicable) the other person(s) intended to be a party to the relevant Restructuring Document deem (acting reasonably and in good faith) necessary or appropriate in order to:

(i) ensure that they reflect and are consistent with the terms of this Scheme and the transactions intended to be entered into to effect the Restructuring;

(ii) ensure that the information and categories of information contained, or referred to, in any formula, schedule, annex or similar, signature blocks, parties' provisions, notice details or placeholders in any Restructuring Document reflect the relevant information and categories of information as of the applicable date;

(iii) give effect to any amendment to any Restructuring Document as permitted in accordance with this Scheme;

(iv) ensure that each Restructuring Document may be duly executed and delivered; and/or

(v) ensure that each Restructuring Document will be legal, valid, binding and enforceable on each contracting party in accordance with this Scheme,

provided, in each case, any such amendment is not inconsistent with the terms of the Restructuring Support Agreement (including the Term Sheet appended thereto), are agreed by the Majority AHG and the Majority CoCom and does not, and could not reasonably be expected (directly or indirectly) to have any adverse effect on the interests of any Scheme Creditor under this Scheme;

3.1.4 take whatever action as may be necessary or appropriate, in respect of the Existing Notes, to ensure that the books and records of the Clearing Systems are updated to reflect the terms of this Scheme;

3.1.5 perform and carry out any related or ancillary step or action that the Company considers reasonably necessary or appropriate to implement this Scheme including

entering into and complying with any document that the Company reasonably considers necessary or appropriate in order to give effect to the terms of this Scheme and/or any Restructuring Document; and

3.1.6 agree on its behalf any amendment to the Restructuring Steps or any Restructuring Document and perform or carry out any related or ancillary step or action which the Company, the Majority AHG and the Majority CoCom (acting reasonably and in good faith) agree in writing in advance as being reasonably necessary or appropriate to give effect to the terms of this Scheme and/or each Restructuring Document.

3.2 From the Scheme Effective Date, and in consideration of the rights and benefits afforded to each Scheme Creditor irrespective of any term of any Existing Debt Finance Document or any other arrangement governing any Scheme Claim, each Scheme Creditor (for itself and on behalf of its Designated Recipient and, for this purpose, excluding the Existing Notes Trustees, the Existing Notes Common Depositaries and the Existing Loans Administrative Parties), irrevocably authorises, directs, instructs and empowers each Existing Debt Administrative Party and each New Instrument Administrative Party (and to the extent such steps have already been completed) to confirm, agree and ratify any step taken by each Existing Debt Administrative Party and New Instrument Administrative Party), on behalf of that Scheme Creditor (and any person to whom a Scheme Creditor has transferred an interest and/or title to an Existing Debt Instrument or any Scheme Claim after the Record Date), and perform and undertake all steps as reasonably necessary, and within such parties' control, to facilitate the implementation of this Scheme, including (without limitation) taking all such steps or actions to cancel and mark down the Existing Notes Global Notes, duly execute the Deeds of Release, and otherwise comply with the terms of this Scheme and duly enter into and execute in each respective capacity the Restructuring Documents to which it is a party and any other document reasonably considered necessary to implement this Scheme, in each case, to take effect at the time and in accordance with the sequencing of the Restructuring Steps.

3.3 For all purposes, once a Restructuring Document has been duly executed and becomes effective in accordance with its terms, the authority granted by each Scheme Creditor to the Company, any Existing Debt Administrative Party or any New Instrument Administrative Party under this Clause 3 shall expire in respect of that particular Restructuring Document and thereafter may only be amended in accordance with its terms.

3.4 Each Scheme Creditor (for itself and, where applicable, any Designated Recipient or any other person to whom a Scheme Creditor has transferred all rights and interests in respect of a Scheme Claim after the Record Date), other than the Existing Notes Trustees, the Existing Notes Common Depositaries and the Existing Loans Administrative Parties, immediately on and from the Restructuring Effective Date, ratifies irrevocably and confirms each act or omission done or caused or omitted to be done by the Company, each of the Advisers, each of the Existing Debt Obligors, each of the New Notes Obligors, each of the New Loans Obligors, each of the Existing Debt Administrative Parties, each of the New Instrument Administrative Parties, the Information Agent, the Blocked Scheme Creditor Tabulation Agent, the Holding Period Trustee and the Blocked Escrow Agent, or any of their respective Personnel or Affiliates, pursuant to or for the purposes of giving effect to this Scheme, other than any act or omission done or made as a result of fraud, wilful default or wilful misconduct as determined by a final, non-appealable judgment of a court of competent jurisdiction.

3.5 The directions, instructions and authorisations granted under this Clause 3 shall be treated, for all purposes whatsoever and without any limitation, as having been granted lawfully by deed.

4 Effect of the Scheme

4.1 Step 1: Execution of the Restructuring Documents

4.1.1 Prior to the Restructuring Effective Date:

(i) the Company shall execute but leave undated sufficient original copies of (as agreed between the parties thereto):

(a) all Restructuring Documents to which the Company is a party, on its own behalf; and

(b) all Restructuring Documents to which the Scheme Creditors are parties, on behalf of each such Scheme Creditor (acting as their lawful attorney and agent pursuant to the terms of this Scheme) to be released upon the occurrence of the relevant Restructuring Step in Clause 4.3.2;

(ii) any other party to the Restructuring Documents (save for the Existing Debt Administrative Parties and the New Instrument Administrative Parties) shall duly execute but leave undated sufficient original copies (as agreed between the parties thereto) of all Restructuring Documents to which it is a party, and shall deliver unconditionally such executed Restructuring Documents to the Company to be held to that party's order pending immediate release upon the occurrence of the relevant Restructuring Step in Clause 4.3.2;

(iii) each of the Existing Notes Administrative Parties shall duly execute but leave undated sufficient original copies (as agreed between the parties thereto) of all Restructuring Documents to which it is a party, and shall deliver unconditionally such executed Restructuring Documents to the Company to be held to the order of the respective Existing Notes Administrative Party pending immediate release upon: (i) the due execution of the relevant Restructuring Document by the other parties; and (ii) the occurrence of the relevant Restructuring Step in Clause 4.3.2;

(iv) each of the Existing Loans Administrative Parties shall duly execute but leave undated sufficient original copies (as agreed between the parties thereto) of all Restructuring Documents to which it is a party, and shall deliver unconditionally such executed Restructuring Documents to the Company but to be held to the order of the respective Existing Loans Administrative Party pending immediate release upon: (i) the due execution of the relevant Restructuring Document by the other party; and (ii) the occurrence of the relevant Restructuring Step in Clause 4.3.2; and

(v) each of the New Instrument Administrative Parties shall duly execute but leave undated sufficient original copies (as agreed between the parties thereto) of all Restructuring Documents to which it is a party, and shall deliver unconditionally such executed Restructuring Documents to the Company to be held to the order of the respective New Instrument Administrative Party pending immediate release upon: (i) the due execution of the relevant

Restructuring Document by the other party; and (ii) the occurrence of the relevant Restructuring Stepin Clause 4.3.2.

4.1.2 Subject to and in accordance with the terms of this Scheme, each Scheme Creditor (other than the Existing Notes Trustees, the Existing Notes Common Depositaries and the Existing Loans Administrative Parties) duly authorises the Company (and any duly authorised representative) to date, complete and release unconditionally each Restructuring Document to which it is a party and to accept delivery or service on its behalf of any Restructuring Document (and any other documents, notices or evidence expressly referred to in any such Restructuring Document) required to be delivered to it, without needing to obtain any further authorisation from it or any other Scheme Creditor or from any other person or entity, provided always that the relevant release shall only occur in accordance with the relevant Restructuring Step set out in Clause 4.3.2.

4.2 Step 2: Designation of Restructuring Effective Date

4.2.1 The "**Restructuring Effective Date**" shall be the date specified by the Company in a written notice (the "**Completion Notice**") delivered to each Scheme Creditor, the Existing Notes Administrative Parties, the Existing Loans Administrative Parties, the proposed New Notes Trustee, the proposed MCB (A) Trustee, the proposed MCB (B) Trustee and the proposed New Loans Facility Agent, which specified date:

(i) is a Business Day;

(ii) cannot occur after the Longstop Date;

(iii) shall occur promptly after the Restructuring Conditions Satisfaction Time (subject to Clause 4.3.1);

(iv) shall be the same date that the Company designates as the "Restructuring Effective Date" (as defined in the Existing HKD Convertible Bonds Extraordinary Resolution) as part of the Existing HKD Convertible Bonds Consent Solicitation.

4.2.2 In the event that the Company determines (acting reasonably) that the Restructuring Effective Date as specified in a Completion Notice pursuant to Clause 4.2.1 should be postponed, the Company shall deliver a substitute Completion Notice to each Scheme Creditor, the Existing Notes Administrative Parties, the Existing Loans Administrative Parties, the proposed New Notes Trustee, the proposed MCB (A) Trustee, the proposed MCB (B) Trustee and the proposed New Loans Facility Agent giving notice of the new designated Restructuring Effective Date (being the first possible date that the Company reasonably believes is practicable in order to achieve the Restructuring Effective Date, and which, for the avoidance of doubt, complies with paragraphs (i) and (ii) of Clause 4.2.1 above).

4.3 Step 3: Restructuring Steps

4.3.1 Each Scheme Party hereby agrees that, subject to the occurrence of the Restructuring Conditions Satisfaction Time:

(i) the Restructuring Steps shall be completed, to the extent possible, in the order or sequence set out in Clause 4.3.2;

(ii) each Restructuring Step shall be completed as soon as reasonably practicable following completion of the Restructuring Step immediately prior; and

(iii) in the event that any Restructuring Step (a "**Relevant Restructuring Step**") is not completed entirely during the Business Day on which the Restructuring Steps are commenced pursuant to Clause 4.3.2, then:

(a) the process of the closing of the Restructuring shall be paused until the next day on which the Relevant Restructuring Step and all other remaining Restructuring Steps can be completed (on which day all Restructuring Steps shall be completed entirely);

(b) to the fullest extent permitted by law, each Relevant Restructuring Step and all other Restructuring Steps completed following completion of a Relevant Restructuring Step shall be deemed to have been completed on the Restructuring Effective Date; and

(c) no Scheme Party shall raise any objection if any Restructuring Step has not been completed, as a matter of fact, on the Restructuring Effective Date by reason of the operation of the provisions of this Clause 4.3.1(iii).

4.3.2 On the Restructuring Effective Date and subject to the occurrence of the Restructuring Conditions Satisfaction Time, the following steps shall occur in the order or sequence prescribed below (to the fullest extent possible):

(i) each of the New Notes Indentures, the MCB (A) Trust Deed, the MCB (B) Trust Deed, the SCA Warrants Documents, the SCA Loan Documents and each of the New Facility Agreements shall be released unconditionally and become legally effective in accordance with their respective terms;

(ii) the Holding Period Trust Deed and, if applicable, the Blocked Escrow Agreement, shall each be released unconditionally and become legally effective in accordance with their respective terms;

(iii) the Company shall release and deliver unconditionally:

(a) the New Notes Global Notes to the New Notes Trustee, the New Notes Paying Agent, the New Notes Registrar and Transfer Agent and the New Notes Common Depositary;

(b) the MCB (A) Global Certificate to the MCB (A) Trustee, the MCB (A) Principal Paying Agent, the MCB (A) Registrar, the MCB (A) Principal Conversion and Transfer Agent, the MCB (A) Calculation Agent and the MCB (A) Common Depositary;

(c) the MCB (B) Global Certificate to the MCB (B) Trustee, the MCB (B) Principal Paying Agent, the MCB (B) Registrar, the MCB (B) Principal Conversion and Transfer Agent, the MCB (B) Calculation Agent and the MCB (B) Common Depositary; and

(d) the New Loans Documents to the New Loans Facility Agent,

in each case together with: (x) the requisite instructions for authentication; and (y) any requisite settlement instructions;

(iv) the Company shall release and deliver (or procure the delivery of) unconditionally the SCA Warrants Definitive Certificate in respect of the SCA Warrants Entitlement of each Scheme Creditor (Class 1) (who is not a Sanctions-Affected Scheme Creditor or a Scheme Creditor (Class 1) (SCA Warrants Opt-out)) (or its Designated Recipient, as applicable) subject to and in accordance with the provisions of this Scheme and in such proportions consistent with the applicable SCA Pro Rata Proportion;

(v) the Company shall release and deliver (and procure the Controlling Shareholder's release and delivery of) unconditionally the Deed of Undertaking and Subordination to the New Security Agent;

NOTICE OF SCHEME MEETINGS

HCMP 1366 / 2025

IN THE HIGH COURT OF THE

HONG KONG SPECIAL ADMINISTRATIVE REGION

COURT OF FIRST INSTANCE

MISCELLANEOUS PROCEEDINGS NO. 1366 OF 2025

IN THE MATTER OF COUNTRY GARDEN HOLDINGS COMPANY LIMITED (碧桂園控股有限公司)

and

IN THE MATTER OF section 670 of the Companies Ordinance, Chapter 622 of the Laws of Hong Kong

COUNTRY GARDEN HOLDINGS COMPANY LIMITED (碧桂園控股有限公司)

Unless otherwise defined herein, terms used in this Notice have the same meanings as defined in the explanatory statement (the "**Explanatory Statement**") relating to the proposed scheme of arrangement between Country Garden Holdings Limited (碧桂園控股有限公司) (the "**Company**") and the Scheme Creditors (as defined therein) under sections 670, 673 and 674 of the Hong Kong Companies Ordinance (the "**Scheme**"). For the avoidance of doubt, references to "**Scheme Creditors**" in this Notice shall exclude any Sanctioned Scheme Creditors, who are not entitled to vote in the Scheme Meetings and who are required to notify the Company of their status instead.

Copies of the Scheme, the Explanatory Statement and the Solicitation Packet are available for download from the Transaction Website (https://projects.sodali.com/countrygarden) subject to eligibility and registration.

NOTICE IS HEREBY GIVEN that by an order made on 12 September 2025 (as amended by an order made on 29 September 2025) (the "**Scheme Convening Order**"), the Court of First Instance of the High Court of the Hong Kong Special Administrative Region (the "**Court**") has directed that:

(i) a single meeting of Scheme Creditors (Class 1) (the "**Scheme Meeting (Class 1)**") be convened for the purpose of considering and, if thought fit, approving the Scheme (with or without modification, addition or condition approved or imposed by the Court); and

(ii) a single meeting of Scheme Creditors (Class 2) (the "**Scheme Meeting (Class 2)**" and together with Scheme Meeting (Class 1), the "**Scheme Meetings**" and each a "**Scheme Meeting**") be convened for the purpose of considering and, if thought fit, approving Scheme (with or without modification, addition or condition approved or imposed by the Court).

Details of Scheme Meetings

The **Scheme Meeting (Class 1)** will be convened at **6:00 p.m. Hong Kong time on 5 November 2025**.

The **Scheme Meeting (Class 2)** will be convened at **8:00 p.m. Hong Kong time on 5 November 2025**.

Registration at the Scheme Meetings will commence at **5:00 p.m. Hong Kong time on 5 November 2025**.

Each Scheme Meeting will be held at the offices of Linklaters at 11th Floor Alexandra House, Chater Road, Hong Kong ("**Linklaters Hong Kong Office**"). The Scheme Meetings are each subject to any adjournment as may be necessary or appropriate (in which case any changes in arrangements relating to the Scheme Meetings shall be communicated to Scheme Creditors in advance of the Scheme Meetings (i) on the Transaction Website, (ii) by way of notice through the Clearing Systems, and (iii) by email to Scheme Creditors, Account Holders, Existing Lenders and Intermediaries, for whom the Information Agent has valid contact details).

Scheme Creditors (Class 1) and Scheme Creditors (Class 2) will be able to attend their respective Scheme Meeting either in person, by a duly authorised representative (if a corporation) or by proxy provided that an Account Holder Letter (and Custody Instruction), Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) has been validly submitted in relation to their relevant Existing Debts by the relevant deadlines.

Scheme Creditors do not have to personally attend the relevant Scheme Meeting in order to express their vote, provided that they validly complete and submit their Account Holder Letter (and Custody Instruction), Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) by the relevant deadlines, and appoint the Chairperson as their proxy, or a proxy other than the Chairperson (who attends the relevant Scheme Meeting on their behalf) for the purposes of expressing their vote.

Telephone and video conference facilities will also be made available to Scheme Creditors upon request to (i) the Information Agent at countrygarden@investor.sodali.com (for Scheme Creditors who are not Blocked Scheme Creditors); or (ii) the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency (for Blocked Scheme Creditors), in each case, at least forty-eight (48) hours before the relevant Scheme Meeting. Scheme Creditors who dial in by telephone or video conference facilities will only be able to observe the relevant Scheme Meeting (but not cast any vote). Scheme Creditors will be sent instructions for dialing in via telephone or video conference upon providing the Information Agent or Blocked Scheme Creditor Tabulation Agent (as applicable) with satisfactory evidence of their identity and/or their authority (in the case of a corporation) to represent the Scheme Creditor.

For the avoidance of doubt, Scheme Creditors, their duly authorised representatives (if a corporation), or their proxies will not be able to cast their vote at the relevant Scheme Meeting should they only observe such Scheme Meeting via telephone or video conference rather than attend in person. Should Scheme Creditors wish to vote, they will need to attend the relevant Scheme Meeting in person or by proxy (including appointing the Chairperson as proxy) at the Linklaters Hong Kong Office. Scheme Creditors who have validly completed and submitted their Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) appointing the Chairperson as proxy or a proxy other than the Chairperson (who attends the relevant Scheme Meeting on their behalf) to express their vote, may in addition, request for the telephone and video conference facilities to observe such Scheme Meeting.

Completion of voting forms

Scheme Creditors may vote in person (or, if a corporation, appoint a duly authorised representative) or appoint the Chairperson as their proxy or appoint a proxy other than the Chairperson to attend and vote in their place. A Scheme Creditor should indicate whether it wishes to attend and vote at the relevant Scheme Meeting in person (or if a corporation, by a duly authorised representative), or to appoint a proxy to vote on its behalf at the relevant Scheme Meeting in (i) Part 2 (*Voting and Appointment of Proxy*) of the Account Holder Letter or Part 2 (*Voting and Appointment of Proxy*) of the Lender Proxy Form for Scheme Creditors who are not Blocked Scheme Creditors; or (ii) Part 2 (*Voting and Appointment of Proxy*) of the Blocked Scheme Creditor Form for Blocked Scheme

Creditors (as applicable).

Scheme Creditors (who are not Blocked Scheme Creditors)

In order to vote on the Scheme and attend the relevant Scheme Meeting (in person, by a duly authorised representative (if a corporation) or by proxy), a Scheme Creditor must ensure that:

(i) in respect of the Existing Noteholders only, a Custody Instruction is submitted on its behalf by the **Custody Instruction Deadline** (being **5:00 p.m. Hong Kong time on 27 October 2025**) and in any event prior to submitting an Account Holder Letter (in accordance with the instructions set out in the Account Holder Letter and Solicitation Packet); and

(ii) the Account Holder Letter or the Lender Proxy Form (as applicable) has been validly completed and submitted on its behalf to and received by the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden) (in accordance with the instructions set out in the Account Holder Letter or the Lender Proxy Form, and Solicitation Packet) by no later than the **Voting Instruction Deadline** (being **5:00 p.m. Hong Kong time on 31 October 2025**).

Blocked Scheme Creditors

Blocked Scheme Creditors are Scheme Creditors that are not entitled, able or permitted (whether directly or through a custodian) to submit instructions or settle through the Clearing Systems as a result of any Applicable Sanctions affecting the Scheme Creditor or its custodian, and who do not have a sanctions license in respect of the Applicable Sanctions which would allow that Scheme Creditor to freely deal in the Scheme Consideration Entitlement and submit instructions or settle through the Clearing Systems.

In order to vote on the Scheme and attend the relevant Scheme Meeting (in person, by a duly authorised representative (if a corporation) or by proxy), a Blocked Scheme Creditor must ensure the Blocked Scheme Creditor Form (including the required supporting evidence to establish their identity, status as a Scheme Creditor and the value of their holding) has been validly completed and submitted to and received by the Blocked Scheme Creditor Tabulation Agent via email at agent.asia@glas.agency (in accordance with the instructions set out in the Blocked Scheme Creditor Form and Solicitation Packet) by no later than the **Voting Instruction Deadline** (being **5:00 p.m. Hong Kong time on 31 October 2025**).

Registration prior to Scheme Meetings

Registration at the Scheme Meetings will commence at **5:00 p.m. Hong Kong time on 5 November 2025**.

Each Scheme Creditor (or, if a corporation, its duly authorised representative) or its proxy intending to attend a Scheme Meeting in person at the Linklaters Hong Kong Office: (i) will be required to register its attendance at the relevant Scheme Meeting no later than half an hour prior to the scheduled start time of the relevant Scheme Meeting; and (ii) must produce a duplicate copy of the Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) validly completed and submitted by or on behalf of that Scheme Creditor or Blocked Scheme Creditor (as applicable) together with evidence of corporate authority (in the case of a corporation) (for example, a valid power of attorney and/or board resolutions) and evidence of personal identity (being a valid original passport or other original government-issued photographic identification) at the registration desk. If the appropriate personal identification and authorisation evidence is not produced, that person may not be permitted to attend, or vote at, the relevant Scheme Meeting. If a Scheme Creditor appoints the Chairperson as its proxy, there is no need for the Chairperson to take the Account Holder Letter, the Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable) to the relevant Scheme Meeting.

Chairperson of Scheme Meetings

Pursuant to the Scheme Convening Order, the Court has appointed Mat Ng, a Managing Director of Grant Thornton Recovery & Reorganisation Limited, and/or Nigel Trayers, a Managing Director of Grant Thornton Recovery & Reorganisation Limited, or such other representative of Grant Thornton Recovery & Reorganisation Limited to act as the Chairperson of the Scheme Meetings. The results of the Scheme Meetings will be made available on the Transaction Website.

Sanction Hearing

The Scheme, if approved at the Scheme Meetings, will be subject to the subsequent approval and sanction of the Court. The Scheme Sanction Hearing is presently listed to be heard at **10:00 a.m. Hong Kong time on 4 December 2025**. Any Scheme Creditor is entitled (but not obliged) to attend the Scheme Sanction Hearing, through legal counsel, to support or oppose the sanction of the Scheme.

ACCORDINGLY, REFERENCES TO "SCHEME CREDITORS" WITHIN THIS SOLICITATION PACKET SHALL EXCLUDE SANCTIONED SCHEME CREDITORS.

Introduction

This Solicitation Packet performs the following important functions:

- first, the Company is soliciting votes from Scheme Creditors in respect of the Scheme. This Solicitation Packet sets out instructions and guidance for voting at the Scheme Meetings; and

- second, in order to be eligible to receive or be otherwise allocated any Scheme Consideration Entitlement or Blocked Scheme Consideration Entitlement (as applicable) on the Restructuring Effective Date, if the Scheme becomes effective in accordance with its terms, certain forms and information must be submitted by Scheme Creditors. This Solicitation Packet includes those forms, as well as instructions and guidance on how to complete them.

Please note that different instructions and forms apply to: (i) Existing Noteholders (who are not Blocked Scheme Creditors); (ii) Existing Lenders; and (iii) Blocked Scheme Creditors. Please read this Solicitation Packet, the Explanatory Statement and the Scheme and follow the instructions contained herein before completing (or having completed on your behalf) the Account Holder Letter, the Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable).

Definitions and interpretation

Capitalised terms used but not defined in this Solicitation Packet have the meanings given to them in the explanatory statement relating to the Scheme issued by the Company on 13 October 2025 subject to any amendments or modifications made by the Court (the "**Explanatory Statement**").

Notwithstanding the above, references in this Solicitation Packet to Scheme Creditors shall be references to the following:

- persons with an economic or beneficial interest as principal in the Existing Notes whether held in global form or global restricted form through the Clearing Systems or otherwise; and

- lenders of record under the Existing Loans,

in each case, as of the Record Date, being following the close of business on 31 October 2025.

References in this Solicitation Packet to a Blocked Scheme Creditor shall be references to any Scheme Creditor (other than any Sanctioned Scheme Creditor) that is not entitled, able or permitted (whether directly or through a custodian) to submit instructions or settle through the Clearing Systems as a result of any Applicable Sanctions affecting such Scheme Creditor or its custodian as

reasonably determined by the Clearing Systems, and which does not have a sanctions licence in respect of the Applicable Sanctions which would allow that Scheme Creditor to freely deal in its Scheme Consideration Entitlement and submit instructions or settle through the Clearing Systems.

For the avoidance of doubt, references to "Scheme Creditors" in this Solicitation Packet shall exclude any Sanctioned Scheme Creditors, who are required to notify the Company of their status in accordance with clause 5 (*Scheme Consideration Entitlements*) of the Scheme.

Account Holders are those persons who are direct participants in the Clearing Systems, with their interests in the Existing Notes being recorded directly in the books or other records maintained by the Clearing Systems.

Classes of Scheme Creditors

The Company has concluded for the reasons set out in detail in sections 5.38 to 5.44 (*Letter from the Board to each Scheme Creditor*) and section 9.5 (*Scheme classes*) of the Explanatory Statement that the Scheme will proceed on the basis that there will be two classes of Scheme Creditors:

- Scheme Creditors (Class 1) (being those persons who, as at the Record Date, are the lenders of record in the Existing Syndicated Loans); and
- Scheme Creditors (Class 2) (being those persons who, as at the Record Date, are the beneficial holders and lenders of record (as applicable) in the Existing Public Notes, Existing HKD Convertible Bonds, the ICBC Loan and the Ever Credit Bilateral Loan and the Existing Loans (Onshore Credit Support)).

Amendment or termination of the Solicitation Packet

The Company reserves the right to terminate or amend this Solicitation Packet at any time prior to the Record Date and the Voting Instruction Deadline in a manner that is not in any way adverse to the interests of the Scheme Creditors. The Company also reserves the right to change the Record Date, the Voting Instruction Deadline and/or the Scheme Consideration Entitlement Election Deadline to a later time or date. Any such amendment of this Solicitation Packet or extension of the Record Date, the Voting Instruction Deadline and/or the Scheme Consideration Entitlement Election Deadline will be followed, as promptly as reasonably practicable, by notice thereof to the Scheme Creditors, upon which it shall take effect. If the Company extends the Record Date and/or the Voting Instruction Deadline, it also reserves the right to establish a later Custody Instruction Deadline.

1 INTRODUCTION

1.1 These instructions have been prepared to assist:

1.1.1 Scheme Creditors who are not Sanctions-Affected Scheme Creditors (in each case, other than the Existing Debt Administrative Parties) and Account Holders, as applicable, in completing the Account Holder Letter located in Schedule 1 (*Account Holder Letter*) or the Lender Proxy Form located in Schedule 2 (*Lender Proxy Form*); and

1.1.2 Blocked Scheme Creditors in completing the Blocked Scheme Creditor Form located in Schedule 3 (*Blocked Scheme Creditor Form*).

1.2 Scheme Creditors (who are not Blocked Scheme Creditors)

1.2.1 Please see below for an overview of the Account Holder Letter and the Lender Proxy Form to be submitted by Scheme Creditors who are not Blocked Scheme Creditors. In order to submit voting instructions and elections under the Scheme and receive the Scheme Consideration Entitlement: (i) Existing Noteholders will have to submit an Account Holder Letter (including the Distribution Confirmation Deed) with the relevant Custody Instruction Reference Number after valid submission of a Custody Instruction; and (ii) Existing Lenders will have to submit a Lender Proxy Form (including the Distribution Confirmation Deed).

1.2.2 The Information Agent has been appointed to facilitate communications with Scheme Creditors concerning the Scheme. The Information Agent is an agent of the Company and does not owe any duty to any third party (including, without limitation, the Scheme Creditors). If a person has any questions regarding the Account Holder Letter or the Lender Proxy Form, such person should contact the Information Agent using the contact details set out in the Account Holder Letter or the Lender Proxy Form (as applicable).

For Existing Noteholders

1.2.3 Each Account Holder Letter encloses the following documents:

(i) the Designated Recipient Form, being a form that such Scheme Creditor (if it is an Account Holder) or an Account Holder on behalf of the Scheme Creditor may complete, if applicable, in order to appoint a Designated Recipient (instead of the Scheme Creditor) to be the recipient of any of such Scheme Creditor's Scheme Consideration Entitlement that would otherwise be issued to such Scheme Creditor on the Restructuring Effective Date. The Designated Recipient Form is located in Appendix 1 to the Account Holder Letter; and

(ii) the Distribution Confirmation Deed, being a deed that such Scheme Creditor (if it is an Account Holder) or an Account Holder on behalf of the Scheme Creditor (or its Designated Recipient) must complete in order to confirm (among other things) that such Scheme Creditor (or its Designated Recipient) may lawfully be issued with its Scheme Consideration Entitlement. The Distribution Confirmation Deed is located in Appendix 2 to the Account Holder Letter.

1.2.4 Each such Scheme Creditor who is not an Account Holder must submit its voting instructions and elections under the Scheme through its Account Holder. The information for inclusion in an Account Holder Letter must be sent by such Scheme Creditor who is not an Account Holder to its Account Holder, and not to the Information Agent, allowing sufficient time for the Account Holder to receive such information, validly complete the relevant parts of the Account Holder Letter and submit the Account Holder Letter to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden).

1.2.5 It will be the responsibility of an Account Holder who is not the Scheme Creditor to obtain from the Scheme Creditor (through any Intermediaries, if applicable) on whose behalf it is acting, in accordance with the procedures established between them, whatever information or instructions it may require in an Account Holder Letter (including, for the avoidance of doubt, for the purposes of the Designated Recipient Form, if applicable, and the Distribution Confirmation Deed) and to provide the information, instructions and confirmations required by the Account Holder Letter. None of the Company, the Information Agent or any other person will be responsible for any loss or liability incurred by a Scheme Creditor as a result of any determination by the Information Agent (on behalf of and in consultation with the Company) that an Account Holder Letter contains an error or is not validly completed, even if this is subsequently shown not to have been the case, except to the extent that such loss or liability is incurred by a Scheme Creditor and is attributable to fraud, wilful default or wilful misconduct on the part of the Company or the Information Agent.

For Existing Lenders

1.2.6 Each Lender Proxy Form encloses the following documents:

(i) the Designated Recipient Form, being a form that such Scheme Creditor may complete in order to appoint a Designated Recipient (instead of the Scheme Creditor) to be the recipient of any of such Scheme Creditor's Scheme Consideration Entitlement that would otherwise be issued to such Scheme Creditor on the Restructuring Effective Date. The Designated Recipient Form is located in Appendix 1 to the Lender Proxy Form; and

(ii) the Distribution Confirmation Deed, being a deed that such Scheme Creditor must complete in order to confirm (among other things) that such Scheme Creditor (or its Designated Recipient) may lawfully be issued with its Scheme Consideration Entitlement. The Distribution Confirmation Deed is located in Appendix 2 to the Lender Proxy Form.

1.2.7 The relevant parts of the Lender Proxy Form must be validly completed and submitted to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden).

1.3 Blocked Scheme Creditors

1.3.1 Apart from requiring the Blocked Scheme Creditor's details and details of its holdings (including supporting evidence), the Blocked Scheme Creditor Form does not enclose any additional documents. None of the Company, the Blocked Scheme Creditor Tabulation Agent or any other person will be responsible for any loss, expense or other liability suffered or incurred by a Blocked Scheme Creditor as a result of any determination by the Blocked Scheme Creditor Tabulation Agent (on

behalf of and in consultation with the Company) that a Blocked Scheme Creditor Form contains an error or is not validly completed, even if this is subsequently shown not to have been the case, except to the extent that such loss, expense or liability is attributable to fraud, wilful default or wilful misconduct on the part of the Company or Blocked Scheme Creditor Tabulation Agent.

1.3.2 The Blocked Scheme Creditor Tabulation Agent has been appointed to facilitate communications with Blocked Scheme Creditors concerning the Scheme. The Blocked Scheme Creditor Tabulation Agent is an agent of the Company and does not owe any duty to any Scheme Creditor. If a person is in any doubt as to whether or not it is a Blocked Scheme Creditor, such person should contact the Blocked Scheme Creditor Tabulation Agent using the contact details set out in the Blocked Scheme Creditor Form.

2 GENERAL GUIDANCE FOR VOTING

2.1 Scheme Meetings

2.1.1 The Scheme can only become effective and binding on the Company and the Scheme Creditors, provided that the Scheme is approved by:

(i) a majority in number, representing at least 75% of the aggregate value of the Scheme Claims (Class 1) of Scheme Creditors (Class 1) present and voting (whether in person or by proxy) at the Scheme Meeting (Class 1); and

(ii) a majority in number, representing at least 75% of the aggregate value of the Scheme Claims (Class 2) of Scheme Creditors (Class 2) present and voting (whether in person or by proxy) at the Scheme Meeting (Class 2).

2.1.2 The details of the Scheme Meetings are as follows:

(i) the Scheme Meeting (Class 1) will be convened **at 6:00 p.m. Hong Kong time on 5 November 2025** (with registration commencing at 5:00 p.m. Hong Kong time on 5 November 2025); and

(ii) the Scheme Meeting (Class 2) will be convened **at 8:00 p.m. Hong Kong time on 5 November 2025** (with registration commencing at 5:00 p.m. Hong Kong time on 5 November 2025),

with each Scheme Meeting to be held at the offices of Linklaters at 11th Floor, Alexandra House, Chater Road, Hong Kong ("**Linklaters Hong Kong Office**"). The Scheme Meetings are subject to any adjournment as may be necessary or appropriate (in which case, any changes in arrangements relating to the Scheme Meetings shall be communicated to Scheme Creditors in advance of the Scheme Meetings through (i) the Transaction Website (https://projects.sodali.com/countrygarden), (ii) by way of notice through the Clearing Systems, and (iii) by email to the Scheme Creditors, the Account Holders and the Intermediaries, for whom the Information Agent has valid contact details).

2.1.3 Scheme Creditors will be able to attend the relevant Scheme Meeting either in person by a duly authorised representative (if a corporation) or by proxy. A Scheme Creditor may request to observe the relevant Scheme Meeting (but not cast any vote) remotely via telephone and video conference facilities. A Scheme Creditor will only be provided details of the telephone and video conference facilities, provided it

notifies the Information Agent (if you are not a Blocked Scheme Creditor) or the Blocked Scheme Creditor Tabulation Agent (if you are a Blocked Scheme Creditor) of such request by at least forty-eight (48) hours before the relevant Scheme Meeting. Should Scheme Creditors wish to vote at the relevant Scheme Meeting, they will need to attend the relevant Scheme Meeting in person or by proxy at the Linklaters Hong Kong Office. Please refer to paragraph 3.4 below for detailed instructions on attending the Scheme Meetings.

2.1.4 Each Scheme Meeting will be chaired by Mr Mat Ng or failing him, Mr Nigel Trayers (both of Grant Thornton Recovery & Reorganisation Limited). Formal notice of the Scheme Meetings is set out in Appendix 3 (*Notice of Scheme Meeting*) to the Explanatory Statement.

2.1.5 The dates referred to in paragraph 2.1.2 above assume that the Scheme Meetings will not be adjourned or delayed.

2.2 Process and deadline for voting at the Scheme Meetings

2.2.1 General

(i) Voting on the Scheme will take place at the Scheme Meetings by Scheme Creditors appearing in person, by a duly authorised representative (in the case of a corporation or institution) or by proxy.

(ii) Each Scheme Creditor (Class 1) may decide, among other things:

(a) to attend and vote at the Scheme Meeting (Class 1) in person or, if a corporation, by a duly authorised representative;

(b) to instruct the Chairperson as its proxy to cast a vote on behalf of such Scheme Creditor (Class 1) in accordance with the wishes of such Scheme Creditor (Class 1); or

(c) to appoint someone else as its proxy to attend and whether to instruct it to cast a vote in accordance with the wishes of such Scheme Creditor (Class 1).

For the avoidance of doubt, a Scheme Creditor (Class 1) will not be allowed to vote at the Scheme Meeting (Class 2), whether in person or by proxy, in respect of its Scheme Claims (Class 1). Any such votes cast by a Scheme Creditor (Class 1) in respect of its Scheme Claims (Class 1) at the Scheme Meeting (Class 2) shall be disregarded by the Chairperson in its entirety for the purposes of calculating the votes at the Scheme Meeting (Class 2).

(iii) Each Scheme Creditor (Class 2) may decide, among other things:

(a) to attend and vote at the Scheme Meeting (Class 2) in person or, if a corporation, by a duly authorised representative;

(b) to instruct the Chairperson as its proxy to cast a vote on behalf of such Scheme Creditor (Class 2) in accordance with the wishes of such Scheme Creditor (Class 2); or

(c) to appoint someone else as its proxy to attend and whether to instruct it to cast a vote in accordance with the wishes of such Scheme Creditor (Class 2).

For the avoidance of doubt, a Scheme Creditor (Class 2) will not be allowed to vote at the Scheme Meeting (Class 1), whether in person or by proxy, in respect of its Scheme Claims (Class 2). Any such votes cast by a Scheme Creditor (Class 2) in respect of its Scheme Claims (Class 2) at the Scheme Meeting (Class 1) shall be disregarded by the Chairperson in its entirety for the purposes of calculating the votes at the Scheme Meeting (Class 1).

(iv) Each Scheme Creditor is recommended to appoint a proxy (either the Chairperson or someone of its choice who would be willing to attend the relevant Scheme Meeting) in any event, even if that Scheme Creditor intends to attend and vote in person or by a duly authorised representative (if a corporation), in case such Scheme Creditor is unable to do so for some reason. A Scheme Creditor who appoints a proxy will still be entitled to attend and vote at the relevant Scheme Meeting in person or, if a corporation, by a duly authorised representative, but the proxy previously appointed will no longer be entitled to vote under that appointment.

2.2.2 Voting at the Scheme Meetings by Scheme Creditors (who are not Blocked Scheme Creditors)

(i) In order to vote at the relevant Scheme Meeting, such Scheme Creditor should submit (or should arrange to have submitted on its behalf) a validly completed Account Holder Letter or Lender Proxy Form (as applicable) in accordance with the instructions herein by the Voting Instruction Deadline via the Scheme Portal (https://portal.sodali.com/countrygarden).

(ii) Additionally, for Scheme Creditors who have to submit an Account Holder Letter, such Scheme Creditors should:

(a) prior to submitting the Account Holder Letter, submit a valid Custody Instruction in respect of such Scheme Creditor's Existing Notes prior to the **Custody Instruction Deadline** (see paragraph 5.2 (*Procedure for blocking Existing Notes*) below for further details); and

(b) submit a validly completed Account Holder Letter in accordance with the instructions herein by the **Voting Instruction Deadline** via the Scheme Portal (https://portal.sodali.com/countrygarden). If such Scheme Creditor is not an Account Holder, it must ensure that it submits its voting instructions and elections to its Account Holder sufficiently in advance of the Voting Instruction Deadline to enable its Account Holder to validly complete and submit the Account Holder Letter to the Information Agent by the Voting Instruction Deadline.

(iii) Subject to paragraph 2.2.3 (*Voting at the Scheme Meeting by Blocked Scheme Creditors*) below, the failure of such Scheme Creditor to:

(a) in the case of an Existing Noteholder:

(I) block (or procure that its Account Holder blocks) its Existing Notes in the relevant Clearing System before the Custody Instruction Deadline; and/or

(II) submit (or, if applicable, procure that its Account Holder submits) a validly completed Account Holder Letter by the Voting Instruction Deadline via the Scheme Portal (https://portal.sodali.com/countrygarden); and

(b) in the case of an Existing Lender, submit a validly completed Lender Proxy Form by the Voting Instruction Deadline via the Scheme Portal (https://portal.sodali.com/countrygarden),

will mean that the voting instructions and elections contained in any Account Holder Letter or Lender Proxy Form (as applicable) submitted to and received by the Information Agent from or on behalf of that Scheme Creditor will, subject to the Chairperson's discretion, be disregarded for the purposes of voting at the relevant Scheme Meeting, and the relevant Scheme Creditor will not be entitled to vote on the Scheme at the relevant Scheme Meeting.

2.2.3 Voting at the Scheme Meetings by Blocked Scheme Creditors

A Blocked Scheme Creditor should submit (or arrange to have submitted on its behalf) a validly completed Blocked Scheme Creditor Form in accordance with the instructions herein by the **Voting Instruction Deadline** to the Blocked Scheme Creditor Tabulation Agent by email at agent.asia@glas.agency.

2.2.4 Discretion of Chairperson

(i) Notwithstanding any other provision of the Explanatory Statement, the Chairperson of the Scheme Meetings will be entitled, at the sole discretion of the Chairperson, to permit a Scheme Creditor (or a proxy on its behalf) to vote at a Scheme Meeting, notwithstanding the fact that its completed Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) has not been delivered prior to the Voting Instruction Deadline if: (a) the relevant Scheme Creditor has delivered (or has arranged to have its Account Holder deliver on its behalf) a validly completed Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) between the Voting Instruction Deadline and the relevant Scheme Meeting; or (b) the Chairperson considers that the relevant Scheme Creditor has produced sufficient proof that it is in fact a Scheme Creditor.

(ii) For the avoidance of doubt, the Chairperson may not exercise his discretion to allow: (a) a Scheme Creditor (Class 1) to vote at the Scheme Meeting (Class 2) in respect of its Scheme Claims (Class 1); or (b) a Scheme Creditor (Class 2) to vote at the Scheme Meeting (Class 1) in respect of its Scheme Claims (Class 2).

2.3 Assessment of Scheme Claims for voting purposes

2.3.1 Every Scheme Creditor whose vote is validly cast in person or by its authorised representative (if a corporation) or by proxy at a Scheme Meeting shall have one vote for every USD1.00 of its Voting Scheme Claims (as defined below) (rounded

down to the nearest USD1.00) as calculated for voting purposes in accordance with paragraph 2.3.2 below.

2.3.2 Subject to paragraph 2.3.6 below, the amount of the Scheme Claims of each Scheme Creditor who submits (or has submitted on its behalf) a valid Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) will be calculated and admitted for voting purposes at a Scheme Meeting at a value equal to the sum of:

(i) the outstanding principal amount of that Scheme Creditor's Existing Debt **as at the Record Date**;

(ii) all accrued and unpaid interest (including default interest) and distributions in respect of the outstanding principal under that Scheme Creditor's Existing Debt **up to but excluding the Record Date**; and

(iii) any other claim or liability arising, directly or indirectly, in relation to, or arising out of or in connection with, the Existing Debt Finance Documents, as at the Record Date,

converted, where relevant, from HKD to USD at a rate of 7.8:1, and from RMB to USD at a rate of 7.2:1

(together, the "**Voting Scheme Claims**").

2.3.3 Subject to paragraph 2.3.6 below:

(i) in respect of Scheme Creditors (who are not Blocked Scheme Creditors), the Information Agent shall assist the Chairperson to assess Voting Scheme Claims for the purposes of determining the number of votes to be assigned to a Scheme Creditor by:

(a) in respect of the Existing Notes: (x) verifying the principal amount of the Existing Notes set out in the relevant Account Holder Letter against the information provided by the Clearing System through which that Scheme Creditor (or its Account Holder acting on its behalf) holds its interest in the Existing Notes as at the Record Date; and (y) reconciling the Custody Instruction Reference Number specified in the Account Holder Letter submitted by or on behalf of a Scheme Creditor with the blocking instructions recorded by Euroclear and Clearstream; and

(b) in respect of the Existing Loans, obtaining from the Company and the Existing Loans Agents the verified principal amount of the Existing Loans set out in the relevant Lender Proxy Form which would have been verified against the accompanying evidence submitted by the Existing Lenders and the records of the Company and the Existing Loans Agents; and

(ii) in respect of Blocked Scheme Creditors, the Blocked Scheme Creditor Tabulation Agent shall review if each Blocked Scheme Creditor Form has been completed and the Company shall review each Blocked Scheme Creditor Form and the accompanying evidence submitted by the Voting Instruction Deadline to assess if the form has been validly completed. If the identity and status as a Blocked Scheme Creditor and the value of its holding

has been reliably established to the satisfaction of the Blocked Scheme Creditor Tabulation Agent (acting on the instructions of the Company), the Blocked Scheme Creditor Tabulation Agent shall provide to the Chairperson a recommendation that the vote contained therein be admitted as part of the overall vote on the Scheme. The Blocked Scheme Creditor Tabulation Agent shall assist the Chairperson to assess Voting Scheme Claims for the purposes of determining the number of votes to be assigned to a Blocked Scheme Creditor. The Chairperson retains absolute discretion to accept or reject any such Blocked Scheme Creditor Forms. Neither the Clearing Systems nor the Information Agent will assist the Blocked Scheme Creditor Tabulation Agent or the Chairperson with the review of this evidence and, therefore, the Blocked Scheme Creditor Tabulation Agent and the Chairperson will be entirely reliant upon the evidence provided by the Blocked Scheme Creditor to establish its identity, status as a Blocked Scheme Creditor and value of its holding.

2.3.4 Notwithstanding the foregoing, it is the sole responsibility of each Scheme Creditor to ensure that any Account Holder Letter, Lender Proxy Form, Distribution Confirmation Deed or Designated Recipient Form (as applicable) submitted in respect of its Scheme Claims has been validly completed, including the Accession Code, if applicable, and that any Custody Instruction has been validly submitted via the Clearing Systems.

2.3.5 Only those persons who: (i) are Scheme Creditors as at the Record Date; and (ii) have validly submitted (or arranged to have validly submitted on their behalf), by the Voting Instruction Deadline, an Account Holder Letter via the Scheme Portal (https://portal.sodali.com/countrygarden) in accordance with paragraph 3.1 (*Completion and submission of an Account Holder Letter by Scheme Creditors (who are not Blocked Scheme Creditors)*) below, a Lender Proxy Form via the Scheme Portal (https://portal.sodali.com/countrygarden) in accordance with paragraph 3.2 (*Completion and submission of a Lender Proxy Form by Scheme Creditors (who are not Blocked Scheme Creditors)*) below, or a Blocked Scheme Creditor Form to the Blocked Scheme Creditor Tabulation Agent in accordance with paragraph 3.3 (*Completion and submission of a Blocked Scheme Creditor Form by Blocked Scheme Creditors*) (as applicable), are entitled to attend and vote, either in person or, if a corporation, by a duly authorised representative, or by proxy at the relevant Scheme Meeting. For the avoidance of doubt (in accordance with their respective customary practices), none of the Existing Loans Administrative Parties, the Existing Notes Trustees and the Existing Notes Common Depositaries will exercise any voting rights that they may have in respect of the Existing Loans or Existing Notes (as applicable) at the relevant Scheme Meeting.

2.3.6 The Chairperson may, for voting purposes only, reject a Voting Scheme Claim in whole or in part if the Chairperson considers that the relevant Scheme Creditor has not complied with the voting procedures described in this Solicitation Packet. If a Voting Scheme Claim is contingent, its value is unascertained or is otherwise disputed, but the Chairperson is able to ascribe a just estimate of that Voting Scheme Claim, the Chairperson may admit the Voting Scheme Claim for voting purposes at the relevant Scheme Meeting only at that value. If the Chairperson is otherwise unable to ascribe a just estimate of its value, that Voting Scheme Claim may be valued at USD1.00 for voting purposes.

2.3.7 The Chairperson will report to the Court at the Scheme Sanction Hearing with their decision to reject any Voting Scheme Claims, with details of any such Voting Scheme Claims and the reasons for rejection.

2.3.8 Subject to any inherent jurisdiction of the Court, the decision of the Chairperson as to the admission of votes at a Scheme Meeting shall be final and binding to the fullest extent permitted by law for the purposes of, and in relation to the proceedings at, a Scheme Meeting.

2.3.9 The admission and valuation of any Voting Scheme Claim for voting purposes does not (in itself) constitute an admission of the existence or value of any Scheme Claim and will not bind the Company for any purpose other than voting at a Scheme Meeting.

3 INSTRUCTIONS RELATING TO VOTING AND ATTENDING THE SCHEME MEETINGS

3.1 Completion and submission of an Account Holder Letter by Scheme Creditors (who are not Blocked Scheme Creditors)

3.1.1 Each Scheme Creditor should ensure that the following is included in the Account Holder Letter submitted:

(i) its identity and other information in Section 1 (*Details of the Scheme Creditor*) of Part 1 of the Account Holder Letter;

(ii) the Account Holder's information and details of the Existing Notes which are the subject of the Account Holder Letter, including the ISIN code, the principal amount of the Existing Notes held, the Clearing System participant account number of the Account Holder and, in respect of the relevant Custody Instruction, the relevant Custody Instruction Reference Number and Accession Code (if applicable) in Section 2 (*Account Holder Details*) and Section 3 (*Details of holdings and election of scheme consideration by Scheme Creditors*) of Part 1 of the Account Holder Letter;

(iii) its voting instructions with respect to the Scheme in Part 2 of the Account Holder Letter;

(iv) if applicable, the appointment of a Designated Recipient in Appendix 1 of the Account Holder Letter; and

(v) a completed and signed (by the Scheme Creditor (if the Scheme Creditor is an Account Holder) or the Account Holder on behalf of the Scheme Creditor or, if applicable, a Designated Recipient) Distribution Confirmation Deed in Appendix 2 of the Account Holder Letter.

3.1.2 Each Scheme Creditor that submits, delivers or procures the delivery of an Account Holder Letter shall be deemed to make the representations, warranties and undertakings to the Company, the Chairperson and the Information Agent set forth in the Account Holder Letter.

3.1.3 All Account Holder Letters should be submitted by Account Holders as soon as possible to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden). Any Account Holder Letter submitted to and received by the Information Agent after the Voting Instruction Deadline will be

disregarded for voting purposes and the applicable Scheme Creditor shall not be entitled to vote at the Scheme Meetings, except as may be permitted by the Chairperson in his or her sole discretion.

3.1.4 In the case of such Scheme Creditors, it will be the responsibility of an Account Holder to obtain from the Scheme Creditor (through any Intermediaries, if applicable), on whose behalf they are acting, in accordance with the procedures established between them, whatever information or instructions they may require to identify in an Account Holder Letter (including, for the avoidance of doubt, the Designated Recipient Form, if applicable, and the Distribution Confirmation Deed) and to provide the information, instructions and confirmations required by the Account Holder Letter.

3.2 Completion and submission of a Lender Proxy Form by Scheme Creditors (who are not Blocked Scheme Creditors)

3.2.1 Each Scheme Creditor should ensure that the following is included in the Lender Proxy Form submitted:

(i) its identity and other information in Section 1 (*Details of the Scheme Creditor*) of Part 1 of the Lender Proxy Form;

(ii) the Scheme Creditor's information and details of the Existing Loan which are the subject of the Lender Proxy Form, including the principal amount of the Existing Loans held and Accession Code (if applicable) in Section 2 (*Account Holder Details*) of Part 1 of the Lender Proxy Form;

(iii) its voting instructions with respect to the Scheme in Part 2 of the Lender Proxy Form;

(iv) if applicable, the appointment of a Designated Recipient in Appendix 1 of the Lender Proxy Form; and

(v) a completed and signed (by the Scheme Creditor or, if applicable, a Designated Recipient) Distribution Confirmation Deed in Appendix 2 of the Lender Proxy Form.

3.2.2 Each Scheme Creditor that submits, delivers or procures the delivery of a Lender Proxy Form shall be deemed to make the representations, warranties and undertakings to the Company, the Chairperson and the Information Agent set forth in the Lender Proxy Form.

3.2.3 All Lender Proxy Forms should be submitted as soon as possible to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden). Any Lender Proxy Form submitted to and received by the Information Agent after the Voting Instruction Deadline will be disregarded for voting purposes and the applicable Scheme Creditor shall not be entitled to vote at the Scheme Meetings, except as may be permitted by the Chairperson in his or her sole discretion.

3.3 Completion and submission of a Blocked Scheme Creditor Form by Blocked Scheme Creditors

3.3.1 Before any part of the Blocked Scheme Creditor Form is completed, all Blocked Scheme Creditors are strongly advised to read the Explanatory Statement and the

Scheme and this Solicitation Packet set out in Appendix 2 (*Scheme*) and Appendix 4 (*Solicitation Packet*), respectively, to the Explanatory Statement.

3.3.2 All Blocked Scheme Creditor Forms should be submitted as soon as possible to the Blocked Scheme Creditor Tabulation Agent via email at agent.asia@glas.agency. Any Blocked Scheme Creditor Form submitted to the Blocked Scheme Creditor Tabulation Agent after the Voting Instruction Deadline will be disregarded for voting purposes and the applicable Blocked Scheme Creditor shall not be entitled to vote at the Scheme Meetings, except as may be permitted by the Chairperson in his or her sole discretion.

3.3.3 Neither the Company nor the Information Agent nor the Chairperson nor the Blocked Scheme Creditor Tabulation Agent will be responsible for any loss, expense or other liability incurred by any Scheme Creditor as a result of any determination by the Company or the Chairperson (as applicable) that an Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form contains an error or is incomplete, even if this is subsequently shown not to have been the case (save for fraud, wilful default or wilful misconduct).

3.4 Attending the Scheme Meetings

3.4.1 The Scheme Meetings will take place at the time and place described in paragraph 2.1.2 above.

3.4.2 A Scheme Creditor or its proxy may attend and vote at the relevant Scheme Meeting by attending in person at the Linklaters Hong Kong Office, provided that an Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) has been validly completed and submitted in relation to their Existing Debt Instruments. A Scheme Creditor must notify the Information Agent (in the Account Holder Letter via the Scheme Portal), the Company or the Blocked Scheme Creditor Tabulation Agent (as applicable) of its intention to attend and vote at the relevant Scheme Meeting by no later than the Voting Instruction Deadline.

3.4.3 A Scheme Creditor may request to observe the relevant Scheme Meeting (but not cast any vote) remotely via telephone and video conference facilities. A Scheme Creditor will only be provided details of the telephone and video conference facilities, provided it notifies the Information Agent (if you are not a Blocked Scheme Creditor) or the Blocked Scheme Creditor Tabulation Agent (if you are a Blocked Scheme Creditor) of such request by at least forty-eight (48) hours before the relevant Scheme Meeting. Should Scheme Creditors wish to vote at the relevant Scheme Meeting, they will need to attend the relevant Scheme Meeting in person or by proxy at the Linklaters Hong Kong Office.

3.4.4 Any Scheme Creditor or its proxy attending the relevant Scheme Meeting in person must produce a duplicate copy of either: (i) the Account Holder Letter or Lender Proxy Form (as applicable) validly completed and submitted via the Scheme Portal (https://portal.sodali.com/countrygarden) by or on behalf of that Scheme Creditor or the Blocked Scheme Creditor Form validly completed and submitted on behalf of that Blocked Scheme Creditor; or (ii) evidence of corporate authority (in the case of a corporation or institution) (for example, a valid power of attorney, letter of authorisation and/or board resolutions) and evidence of personal identity (being a valid original passport or other original government-issued photographic identification) at the registration desk by no later than half an hour before the

scheduled time of the relevant Scheme Meeting. If appropriate personal identification or evidence of authority is not produced, that person shall only be permitted to attend and vote at the relevant Scheme Meeting at the discretion of the Chairperson. For the avoidance of doubt, if a Scheme Creditor appoints the Chairperson as its proxy, there is no need for the Chairperson to take the Account Holder Letter, Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable) to the relevant Scheme Meeting.

3.4.5 A Scheme Creditor who has indicated in the Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) that it wishes to attend a Scheme Meeting in person or by proxy prior to the Voting Instruction Deadline and has subsequently confirmed to the Information Agent or Blocked Scheme Creditor Tabulation Agent (as applicable) by at least forty-eight (48) hours before the relevant Scheme Meeting that it is unable to attend in person or by proxy, and wishes to observe the relevant Scheme Meeting via telephone or video conference facilities, will be sent instructions for dialling in via telephone or video conference from the Information Agent or the Blocked Scheme Creditor Tabulation Agent (as applicable) to the contact information provided in the Account Holder Letter, Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable), upon the Information Agent or the Blocked Scheme Creditor Tabulation Agent (as applicable) (on behalf of and in consultation with the Company) being satisfied that the Scheme Creditor and/or the representative requesting the same has provided evidence of its identity and/or its authority to represent the Scheme Creditor at the relevant Scheme Meeting. For the avoidance of doubt, Scheme Creditors, their duly authorised representatives (if a corporation) or their proxies will not be able to cast any vote at a Scheme Meeting should they observe the Scheme Meeting via telephone or video conference rather than attend in person. Should Scheme Creditors wish to vote at the relevant Scheme Meeting, they will need to attend the Scheme Meeting in person or by proxy at the Linklaters Hong Kong Office.

4 INSTRUCTIONS RELATING TO SCHEME CONSIDERATION ENTITLEMENT

4.1 Record Date and Scheme Effective Date

4.1.1 For the purposes of determining the entitlement of Scheme Creditors to the Scheme Consideration Entitlement **only**, the Scheme Consideration Claims shall be determined as follows:

(i) in respect of each Scheme Creditor (Class 1) the aggregate of the following:

(a) the outstanding principal amount of its Scheme Claim (Class 1) **as at the Record Date** less the SCA Day 1 Payment paid to such Scheme Creditor (Class 1); and

(b) the accrued and unpaid interest (including default interest) in respect of the outstanding principal under such Scheme Claim (Class 1), **up to and including 30 September 2024**; and

(ii) in respect of each Scheme Creditor (Class 2) the aggregate of the following

(a) the outstanding principal amount of its Scheme Claim (Class 2) **as at the Record Date**; and

4.1.2 If the Scheme Effective Date occurs, the Scheme will become effective and binding on the Company and each Scheme Creditor and its successors, assignees and transferees (including, without limitation, any person to whom a Scheme Creditor has transferred all or any part of its interest in and/or title to the Existing Debt Instruments or otherwise all or any part of its Scheme Claims after the Record Date).

4.2 Assignments or transfers of Scheme Claims after the Record Date

Neither the Company, the Information Agent nor the Blocked Scheme Creditor Tabulation Agent shall be under any obligation to recognise any sale, assignment or transfer of any Scheme Claim after the Record Date, and all entitlements of each Scheme Creditor (and/or the Designated Recipient) under the Scheme shall be determined, as at the Record Date only, provided that, where the Company has received from the relevant party written notice of such assignment or transfer, the Company may, in its sole discretion, and subject to the production of such evidence as the Company may reasonably require and also subject to any other term or condition considered necessary or appropriate, agree to recognise any such assignment or transfer for the purposes of determining any Scheme Consideration Entitlement under the Scheme. Any assignee or transferee of interests in Scheme Claims so recognised by the Company shall be bound by the terms of the Scheme in the capacity of being a Scheme Creditor and shall produce such evidence as the Company, or as applicable, the Blocked Scheme Creditor Tabulation Agent or the Information Agent (in each case acting on the instructions of the Company) may reasonably require to confirm that the assignee or transferee has agreed to be bound by the terms of the Scheme without any modification.

4.3 Scheme Consideration Entitlement of Scheme Creditors (who are not Sanctions-Affected Scheme Creditors)

(b) if the Company receives two (2) or more bids at the same offer price, it shall accept such bids on a *pro rata* basis; and

it shall be deemed an Unadmitted Scheme Creditor and will not receive any Scheme Consideration Entitlement on the Restructuring Effective Date. Unadmitted Scheme Creditors should read the Holding Period Trust Deed (set out at Appendix 9 (*Form of Holding Period Trust Deed*) of the Explanatory Statement) and follow the instructions therein and set out in this Solicitation Packet (including paragraph 4.5 (*Bar Time and Holding Period Expiry Date*) below) for submission of the required documentation by the Bar Time in order to be eligible to receive its relevant Scheme Consideration Entitlement under its Blocked Scheme Creditor Form.

4.4.2 A Blocked Scheme Creditor may be allocated its Blocked Scheme Consideration Entitlement on the Restructuring Effective Date even if it votes against, or does not submit a vote in respect of, the Scheme, subject to it complying with this paragraph 4.4.

4.4.5 In the event that the Applicable Sanctions for any individual Blocked Scheme Creditor are withdrawn on or prior to the expiry of the Blocked Escrow Period, the Company shall, as soon as reasonably practicable after the lifting of the Applicable Sanctions pay, or procure the payment of the Blocked Option 1 Valid Bid Entitlement (if any) for the relevant Blocked Scheme Creditor, to an account nominated by such Blocked Scheme Creditor in the applicable Blocked Scheme Creditor Form, provided always that, in relation to each Blocked Scheme Creditor, if the Applicable Sanctions are not lifted on or prior to the expiry of the Blocked Escrow Period, all of the rights of any such Blocked Scheme Creditor in respect of the Blocked Option 1 Valid Bid Entitlement (if any) shall be extinguished upon the expiry of the Blocked Escrow Period.

4.4.6 In the event that the Applicable Sanctions for any individual Blocked Scheme Creditors are withdrawn on or prior to the expiry of the Blocked Escrow Period, the Blocked Escrow Agent shall, as soon as reasonably practicable after the lifting of the Applicable Sanctions and in accordance with the terms of the Blocked Escrow Agreement, transfer the applicable share of the Trust Assets to such Blocked Scheme Creditor, provided always that, in relation to each Blocked Scheme Creditors, if the Applicable Sanctions are not lifted on or prior to the expiry of the Blocked Escrow Period, all of the rights of any such Blocked Scheme Creditors in respect of the Blocked Assets (if any) shall be extinguished upon the expiry of the Blocked Escrow Period.

4.4.7 Upon expiry of the Blocked Escrow Period, and subject to any action necessary to ensure compliance with Applicable Sanctions by the Company or the Blocked Escrow Agent, any Blocked Assets which remain unable to be distributed, transferred or paid to any Blocked Scheme Creditor (Participating) or any Blocked Scheme Creditor (Residual) in strict compliance with all Applicable Sanctions will be released and returned to the Company without encumbrance in accordance with the terms of the Blocked Escrow Agreement. The rights of the applicable Blocked Scheme Creditor (Participating) and Blocked Scheme Creditor (Residual) under the Scheme and the Blocked Escrow Agreement to any Blocked Assets (including any rights of Blocked Scheme Creditors (Participating) and Blocked Scheme Creditors (Residual)) shall be extinguished upon the receipt of such Blocked Assets by the Company, including any rights of Blocked Scheme Creditors (Participating) and Blocked Scheme Creditors (Residual). Such Blocked Assets received by the Company shall be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

4.5 Bar Time and Holding Period Expiry Date

4.5.1 The **Holding Period Custody Instruction Deadline** is the final deadline for an Account Holder to submit a valid Holding Period Custody Instruction on behalf of the relevant Unadmitted Scheme Creditors (who are Existing Noteholders).

4.5.2 The **Bar Time** is the final deadline for an Unadmitted Scheme Creditor to a validly completed Holding Period Account Holder Letter, Holding Period Lender Proxy Form or Holding Period Blocked Scheme Creditor Form (as applicable) to receive any Scheme Consideration Entitlement under the terms of the Scheme.

4.5.3 The **Holding Period Expiry Date** is one Business Day prior to the date falling six calendar months after the Restructuring Effective Date (or, if such date is not a Business Day, the next Business Day after that date), or such later date as the Company may designate, in its sole discretion acting reasonably, as notified by the Company to Unadmitted Scheme Creditors in writing.

4.5.4 Unadmitted Scheme Creditors must ensure that validly completed and signed copies of the required documents are received by: (i) in the case of Scheme Creditors (who are not Sanctions-Affected Scheme Creditors), the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden); and (ii) in the case of Blocked Scheme Creditors, the Blocked Scheme Creditor Tabulation Agent, in each case, by the **Bar Time** in accordance with the terms of the Holding Period Trust Deed and the Scheme to receive or be allocated (as applicable) its share of the relevant Trust Assets and/or Option 1 Valid Bid Entitlement (if applicable) on or before the Holding Period Expiry Date and shall thereafter be cancelled forthwith.

4.5.5 Any remaining unvested Trust Assets after the distribution set out in paragraph 4.5.4 above shall be transferred to the Company (or any person nominated by the Company) by the Holding Period Trustee in accordance with the terms of the Holding Period Trust Deed and delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

All Scheme Claims will be released on the Restructuring Effective Date in accordance with the terms of the Scheme. If a Scheme Creditor fails to do the above, including following the procedures set out in paragraph 4.5 (*Bar Time and Holding Period Expiry Date*) above and the Holding Period Trust Deed, it will cease to be entitled to receive any Scheme Consideration Entitlement but shall have its Scheme Claims compromised irrevocably and shall be bound by the releases under the Scheme.

5 FOR EXISTING NOTEHOLDERS (WHO ARE NOT BLOCKED SCHEME CREDITORS) – BLOCKING EXISTING NOTES AND UNDERTAKING NOT TO TRANSFER

5.1 General

This section below only applies to Scheme Creditors who are Existing Noteholders and any reference to a "Scheme Creditor" in this section below refers to such persons. If you are an Existing Lender, this section does not apply to you.

5.1.1 A Scheme Creditor who procures the submission of an Account Holder Letter must, prior to delivering the Account Holder Letter to the Information Agent, first block its Existing Notes by ensuring that its Account Holder submits a Custody Instruction via the relevant Clearing System as per the instructions set out in paragraph 5.2 (*Procedure for blocking Existing Notes*) below.

5.1.2 An Account Holder Letter that does not contain reference to a valid Custody Instruction Reference Number will not be valid for the purposes of voting at a Scheme Meeting and/or receiving a Scheme Creditor's Scheme Consideration Entitlement on the Restructuring Effective Date and the Company, the Chairperson and the Information Agent reserve the right to reject any Account Holder Letter that does not contain a reference to a valid Custody Instruction Reference Number.

5.1.3 Please note that the Clearing System in which you (or your custodian) hold your Existing Notes may impose an earlier deadline for the submission of the Custody Instruction. To ensure timely submission of your Custody Instruction, please request your custodian to check with the Clearing System as to whether any earlier deadline is applicable and ensure that your Custody Instruction is received before any applicable deadline. This is particularly important if you wish to submit an Account Holder Letter by the Voting Instruction Deadline in order to vote at the relevant Scheme Meeting.

5.1.4 The Existing Notes should be blocked in accordance with the standard practices and procedures of Euroclear or Clearstream, as applicable, and the deadlines required by Euroclear or Clearstream, as applicable, their Account Holders and any Intermediary. Euroclear or Clearstream, as applicable, will automatically assign a Custody Instruction Reference Number in respect of each Custody Instruction and, as noted above, the Custody Instruction Reference Number must be cross-referenced in the Account Holder Letter relating to the Existing Notes in respect of which the Custody Instruction Reference Number has been obtained. It is the responsibility of the Account Holder to (and of a Scheme Creditor to ensure that its Account Holder does) comply with any particular deadlines required by such persons or the Information Agent in order to meet the Custody Instruction Deadline, the Voting Instruction Deadline or the Scheme Consideration Entitlement Election Deadline. As such, Account Holders should ensure that Euroclear or Clearstream, as applicable, has received Custody Instructions regarding the Existing Notes that are the subject of each Account Holder Letter, and each Scheme Creditor procuring the submission of an Account Holder Letter by its Account Holder should instruct its Account Holder to confirm that (and the Account Holder should ensure that) the Account Holder Letter cross references the Custody Instruction Reference Number.

5.1.5 If the Restructuring Effective Date occurs before the Longstop Date, all of the Existing Notes will be cancelled in the Clearing Systems and will be irrevocably released and cancelled in full in accordance with the terms of the Scheme as at the Restructuring Effective Date and thereafter will not be capable of being traded in the Clearing Systems.

5.1.6 Any documentation and relevant Custody Instruction submitted by or on behalf of a Scheme Creditor shall be irrevocable for all purposes in connection with the Scheme unless and until the Company has provided an irrevocable instruction to the Information Agent in accordance with paragraph 5.1.7 below.

5.1.7 The Company shall provide an irrevocable instruction to the Information Agent, who will in turn provide the irrevocable instruction to the Clearing Systems, to immediately cause the Existing Notes to be unblocked:

(i) on the Restructuring Effective Date (at which time the Existing Notes will be cancelled);

(ii) within two Business Days after one of the circumstances below occurs:

(a) the Scheme is not approved by the requisite majorities of the Scheme Creditors at the Scheme Meetings (or any adjournments thereof), is withdrawn or is terminated in accordance with the terms of the Scheme;

(b) the Scheme is not sanctioned by the Court at the Scheme Sanction Hearing (or any adjournments thereof);

(c) the Restructuring Effective Date does not occur by 11:59 p.m. Hong Kong time on the Longstop Date; or

(d) the Restructuring Support Agreement is otherwise terminated pursuant to clause 13 therein; or

(iii) if the Company, at its sole discretion, consents to unblock the Existing Notes.

5.2 Procedure for blocking Existing Notes

5.2.1 Subject to paragraph 5.1.6 above, a Scheme Creditor that procures submission of an Account Holder Letter **must ensure that its Account Holder, prior to delivering the Account Holder Letter to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden):**

(i) submits the relevant Custody Instruction to block its Existing Notes in Euroclear or Clearstream in accordance with the standard practices and procedures required by Euroclear or Clearstream until such time as the Existing Notes are unblocked or cancelled in accordance with paragraph 5.1.7 above; and

(ii) includes in the Account Holder Letter reference to the relevant Custody Instruction Reference Number.

5.2.2 The relevant Clearing System will provide the Information Agent with confirmation that the Existing Notes that are the subject of the relevant Account Holder Letter have been blocked with effect from or before the date of the relevant Account Holder Letter. In the event that the Clearing System has not received a Custody Instruction prior to its relevant deadline, the Company may reject a Scheme Creditor's Account Holder Letter for the purposes of voting at a Scheme Meeting or receiving its Scheme Consideration Entitlement on the Restructuring Effective Date.

5.3 Undertaking not to transfer

Once a Custody Instruction Reference Number has been received, the Existing Notes held by that Account Holder will be "blocked" from trading until such time as the Existing Notes are unblocked or cancelled in accordance with paragraph 5.1.7 above. By completion of the Account Holder Letter with the inclusion of the Custody Instruction Reference Number, each of the Scheme Creditors will be deemed to have given the undertaking that it will not, from the date of submission of its Account Holder Letter, sell, transfer, assign or otherwise dispose of its interest in all or any part of its specified Existing Notes. Such undertaking will terminate immediately upon the Existing Notes being unblocked or cancelled at the Restructuring Effective Date in accordance with paragraph 5.1.7 above.

6 FOR EXISTING LENDERS WHO ARE NOT BLOCKED SCHEME CREDITORS – UNDERTAKING NOT TO TRANSFER

This section below only applies to Existing Lenders and any reference to a "Scheme Creditor" in this section below refers to such persons. If you are an Existing Noteholder, this section does not apply to you.

6.1 By submitting a Lender Proxy Form, each Scheme Creditor will be deemed to have given the undertaking that it will not, from the date of submission of its Lender Proxy Form, sell, transfer, assign or otherwise dispose of its interest in all or any part of its specified Existing Debt Instruments. Such undertaking will terminate immediately on the earliest of the following circumstances:

6.1.1 on the Restructuring Effective Date;

6.1.2 the Scheme is not approved by the requisite majorities of the Scheme Creditors at the Scheme Meetings (or any adjournments thereof), is withdrawn or is terminated in accordance with the terms of the Scheme;

6.1.3 the Scheme is not sanctioned by the Court at the Scheme Sanction Hearing (or any adjournments thereof);

6.1.4 the Restructuring Effective Date does not occur by 11:59 p.m. Hong Kong time on the Longstop Date; or

6.1.5 the Restructuring Support Agreement is otherwise terminated pursuant to clause 13 therein.

SCHEDULE 1

ACCOUNT HOLDER LETTER[1]

For use by Account Holders in respect of the Existing Notes issued by

COUNTRY GARDEN HOLDINGS COMPANY LIMITED (碧桂園控股有限公司)

(the "**Company**")

in relation to the scheme of arrangement in respect of the Company under Part 13 of the Companies Ordinance (Cap. 622 of the laws of Hong Kong) (the "**Scheme**")

This Account Holder Letter is **only** to be completed by the Scheme Creditors (or by instructing their Account Holder if the Scheme Creditor is not an Account Holder). If a Scheme Creditor is not an Account Holder, it must ensure that it submits its voting instructions and/or its elections to its Account Holder to enable its Account Holder to complete the Account Holder Letter. This Account Holder Letter must be validly completed and submitted via the Scheme Portal (https://portal.sodali.com/countrygarden) to the Information Agent before (i) the Voting Instruction Deadline in order for the Scheme Creditor to vote at the Scheme Meeting (Class 2) and (ii) the Scheme Consideration Entitlement Election Deadline in order for the Scheme Creditor to receive its Scheme Consideration Entitlement on the Restructuring Effective Date. A Scheme Creditor who wishes to vote at the Scheme Meeting (Class 2) **and** receive its Scheme Consideration Entitlement on the Restructuring Effective Date must validly complete and submit this Account Holder Letter via the Scheme Portal (https://portal.sodali.com/countrygarden) to the Information Agent before the Voting Instruction Deadline.

If you are not sure whether you are an Account Holder or a Scheme Creditor, you should contact the Information Agent using the contact details provided herein and in the Explanatory Statement (as defined below).

Capitalised terms used but not defined in this Account Holder Letter have the meanings given to them in the explanatory statement relating to the Scheme issued by the Company on 13 October 2025, subject to any amendments or modifications made by the Court (the "**Explanatory Statement**").

Additionally, references to a document being "**validly completed**" are to a document containing all such information as it is required to contain on its face, and being duly executed and/or delivered in the manner contemplated by that document (including, if applicable, as a deed), and submitted together with or in connection with the taking of any other required procedural steps (including submitting any required custody instruction or other required instruction to or through a Clearing System).

For the avoidance of doubt:

- the Account Holder Letter of a Scheme Creditor who would **only** like to receive its Scheme Consideration Entitlement but **not** vote at the Scheme Meeting (Class 2) shall be considered "**validly completed**" if it has provided the information required in (i) Part 1, (ii) Appendix 1 (if applicable), and (iii) Appendix 2. For the purposes of submitting its elections as to its Scheme Consideration Entitlement **only**, a Scheme Creditor (or their Account Holder) does **not** need to provide information in Part 2 of this Account Holder Letter; and

[1] A sample Account Holder Letter will be posted online via the Transaction Website (https://projects.sodali.com/countrygarden). Account Holders and Scheme Creditors must note that paper Account Holder Letters are circulated as a sample only and will not be accepted by the Information Agent. Only Account Holder Letters submitted via the Scheme Portal (https://portal.sodali.com/countrygarden) will be accepted.

- the Account Holder Letter of a Scheme Creditor who would **only** like to vote at the Scheme Meeting (Class 2) but **not** elect or receive its Scheme Consideration Entitlement on the Restructuring Effective Date shall be considered "**validly completed**" if it has provided the information required in (i) Part 1 (other than section 3(c)) and (ii) Part 2 of this Account Holder Letter. Appendix 2 (and Appendix 1 if applicable) of this Account Holder Letter must also be completed for a Scheme Creditor to be eligible to receive any RSA Fees. For the purposes of voting **only**, a Scheme Creditor (or their Account Holder) does not need to provide information in section 3(c) of Part 1 of this Account Holder Letter.

For the purposes of this Account Holder Letter, references to "**Scheme Creditors**" shall mean any person who is the beneficial owner of the Existing Notes and/or the owner of the ultimate economic interest in any of the Existing Notes, who are not Sanctions-Affected Scheme Creditors.

The Scheme will, if implemented, materially affect the Scheme Creditors. Scheme Creditors must use this Account Holder Letter (by instructing their Account Holder if the Scheme Creditor is not an Account Holder) to: (a) register details of their interest in the Existing Notes; (b) if they wish, make certain elections in relation to the voting at the Scheme Meeting (Class 2); and (c) allow them to receive their Scheme Consideration Entitlement on the Restructuring Effective Date. A summary of this Account Holder Letter is set out below.

A validly completed Account Holder Letter must be submitted to and received by the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden) by the Voting Instruction Deadline in order for a Scheme Creditor to vote at the Scheme Meeting (Class 2) and be eligible to receive its Scheme Consideration Entitlement and RSA Fees (if applicable) on the Restructuring Effective Date or otherwise by the Scheme Consideration Entitlement Election Deadline to be eligible to receive its Scheme Consideration Entitlement on the Restructuring Effective Date. In addition, if you are a holder of the Existing HKD Convertible Bonds, you must vote, or have your Account Holder vote, in favour of the extraordinary resolutions set out in the Existing HKD Convertible Bonds Consent Solicitation in order to be eligible to receive the RSA Fees.

If a Scheme Creditor is not an Eligible Person (i.e. a person who can make the securities law confirmations, sanctions law confirmations and undertakings set out in Annex B to the Distribution Confirmation Deed), it may designate a Designated Recipient who is an Eligible Person to receive its Scheme Consideration Entitlement by submitting a Designated Recipient Form in accordance with the terms of the Scheme. Any Designated Recipient appointed by that Scheme Creditor must hold its account with the same Account Holder as that Scheme Creditor.

Each Unadmitted Scheme Creditor should establish its entitlement to its share of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed and its entitlement to receive its Option 1 Valid Bid Entitlement in accordance with the Scheme. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to any part of the Trust Assets in accordance with the terms of the Holding Period Trust Deed by the Bar Time, all of the rights of that Unadmitted Scheme Creditor under the Holding Period Trust Deed shall be extinguished, and no New Notes Entitlement and/or MCB (B) Entitlement under the Holding Period Trust Deed or any other benefit under the Scheme shall be issued or distributed. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to Option 1 Valid Bid Entitlement in accordance with the Scheme before the Bar Time, that relevant Unadmitted Scheme Creditor shall not receive or be entitled to any Option 1 Valid Bid Entitlement under the Scheme.

Subject to and in accordance with the terms of the Holding Period Trust Deed and provided always that the relevant Unadmitted Scheme Creditor establishes a valid entitlement to a share of the Trust Assets by no later than the Bar Time, an Unadmitted Scheme Creditor (who is not a Sanctions-Affected Scheme Creditor) may, prior to the Bar Time, make a request to the Holding Period Trustee in writing to transfer the applicable share of the Trust Assets to itself (or the Designated Recipient) on or before the Holding Period Expiry Date.

After the Holding Period Expiry Date, the Holding Period Trustee will, as soon as reasonably practicable, transfer the legal and beneficial interests in any unvested Trust Assets held by the Holding Period Trustee to the Company or to any person nominated by the Company to be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

Blocking Existing Notes

Any Scheme Creditor that procures the submission of an Account Holder Letter must first block its Existing Notes by ensuring that its Account Holder, **prior to delivering the Account Holder Letter to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden)**, submits a Custody Instruction via the relevant Clearing System and includes in the Account Holder Letter the relevant Custody Instruction Reference Number. An Account Holder Letter that does not contain a valid Custody Instruction Reference Number will not be valid for the purpose of voting at the Scheme Meeting (Class 2) and/or receiving any Scheme Consideration Entitlement on the Restructuring Effective Date and the Company reserves the right to reject any such Account Holder Letter.

On the Restructuring Effective Date, the Existing Notes will be irrevocably cancelled and marked down in the Clearing Systems and thereafter will not be capable of being traded in the Clearing Systems.

Online Account Holder Letter Form

It is highly recommended that the completed Account Holder Letter be printed or saved as a PDF document after submission via the Scheme Portal (https://portal.sodali.com/countrygarden). You will receive acknowledgement of the transmission of your submission. Original paper copies of the Account Holder Letter are not required and should not be sent to the Information Agent.

A separate Account Holder Letter, Distribution Confirmation Deed and, if applicable, Designated Recipient Form must be completed in respect of each separate beneficial holding of interest in the Existing Notes.

You are strongly advised to read the Explanatory Statement, the Scheme and, in particular, the Solicitation Packet in Appendix 4 (*Solicitation Packet*) to the Explanatory Statement before you complete this Account Holder Letter. The Solicitation Packet contains detailed information on the various options contained in this Account Holder Letter.

With respect to the Scheme Creditors under the Scheme, this Account Holder Letter and any non-contractual obligations arising out of or in relation to this Account Holder Letter shall be governed by, and interpreted in accordance with, the laws of Hong Kong. The courts of Hong Kong shall have exclusive jurisdiction to settle any disputes which may arise out of or in connection with this Account Holder Letter. By submission of the Account Holder Letter to the Information Agent via the Scheme Portal, the Scheme Creditor irrevocably submits to the jurisdiction of such courts and waives any objections to proceedings in such courts on the ground of venue or on the ground that the proceedings have been brought in an inconvenient forum.

Account Holders are not Scheme Creditors unless and to the extent that an Account Holder has the ultimate economic interest, whether as principal or beneficiary or otherwise, in the Existing Notes held in global form through the relevant Clearing System as at the Record Date and has a right to the issue of definitive notes.

Section 3

B. Amount of Scheme Claims to be Admitted for Voting Purposes:

The amount of the Scheme Claims of each Scheme Creditor who submits (or has submitted on its behalf) a valid Account Holder Letter will be calculated and admitted for voting purposes at the Scheme Meeting (Class 2) at a value equal to the sum of:

(i) the outstanding principal amount of that Scheme Creditor's Existing Debt as at the **Record Date**;

(ii) all accrued and unpaid interest (including default interest) and distributions in respect of the outstanding principal under that Scheme Creditor's Existing Debt up to but excluding the **Record Date**; and

(iii) any other claim or liability arising, directly or indirectly, in relation to, or arising out of or in connection with, the Existing Debt Finance Documents, as at the **Record Date** ("**Other Claim or Liability**"),[8]

(together, the "**Voting Scheme Claims**").

To the extent the Scheme Creditor's Voting Scheme Claim comprises any Other Claim or Liability, the Scheme Creditor must provide the amount and details of any such Other Claim or Liability to the Information Agent at countrygarden@investor.sodali.com, to be provided to the Chairperson for consideration.[9] If the Scheme Creditor fails to provide such information, such Other Claim or Liability will be disregarded for voting purposes, except as may be permitted by the Chairperson in his or her sole discretion. **For the avoidance of doubt, including any Other Claim or Liability will not result in any additional cash or new instruments for creditors because the Other Claim or Liability is only used for voting purposes.**

[8] A Scheme Creditor as (i) the beneficial owner of the Existing Notes, and/or (ii) the owner of the ultimate economic interest in the Existing Notes, would not be a party to the Existing Notes Finance Documents and would therefore not typically have any Other Claim or Liability. However, should you consider there to be any Other Claim or Liability that should be included in your Voting Scheme Claim, please include such details here.

[9] For the avoidance of doubt, each Scheme Creditor's Voting Scheme Claim and Scheme Consideration Entitlement are determined separately. For the purposes of determining the entitlement of Scheme Creditors to the Scheme Consideration Entitlement **only**, the Scheme Claims shall comprise the following:

(i) in respect of Scheme Claims (Class 1), any claim or claims in respect of any Liability of the Company and/or any member of the Group to a Scheme Creditor arising, directly or indirectly, in relation to, or arising out of or in connection with, any of the Existing Syndicated Loans Finance Documents, whether before, at or after the Record Date, including, for the avoidance of doubt, any interest or default interest accruing on, or accretions arising in respect of, such claims; and

A validly completed Lender Proxy Form must be submitted to and received by the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden) by the Voting Instruction Deadline in order for a Scheme Creditor to vote at the relevant Scheme Meeting and be eligible to receive its Scheme Consideration Entitlement and RSA Fees (if applicable) on the Restructuring Effective Date or otherwise by the Scheme Consideration Entitlement Election Deadline to be eligible to receive its Scheme Consideration Entitlement on the Restructuring Effective Date.

If a Scheme Creditor is not an Eligible Person (i.e. a person who can make the securities law confirmations, sanctions law confirmations and undertakings set out in Annex B to the Distribution Confirmation Deed), it may designate a Designated Recipient who is an Eligible Person to receive any of its Scheme Consideration Entitlement by submitting a Designated Recipient Form in accordance with the terms of the Scheme. Any Designated Recipient appointed by that Scheme Creditor must hold its account with the same Account Holder as that Scheme Creditor.

Each Unadmitted Scheme Creditor should establish its entitlement to its share of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed and its entitlement to receive

its Option 1 Valid Bid Entitlement in accordance with the Scheme. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to any part of the Trust Assets in accordance with the terms of the Holding Period Trust Deed by the Bar Time, all of the rights of that Unadmitted Scheme Creditor under the Holding Period Trust Deed shall be extinguished, no New Notes Entitlement and/or MCB (B) Entitlement under the Holding Period Trust Deed or any other benefit under the Scheme shall be issued or distributed. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to Option 1 Valid Bid Entitlement in accordance with the Scheme by the Bar Time, that relevant Unadmitted Scheme Creditor shall not receive or be entitled to any Option 1 Valid Bid Entitlement under the Scheme.

Subject to and in accordance with the terms of the Holding Period Trust Deed and provided always that the relevant Unadmitted Scheme Creditor establishes a valid entitlement to a share of the Trust Assets by no later than the Bar Time, an Unadmitted Scheme Creditor (who is not a Sanctions-Affected Scheme Creditor) may, prior to the Bar Time, make a request to the Holding Period Trustee in writing to transfer the applicable share of the Trust Assets to itself (or the Designated Recipient) on or before the Holding Period Expiry Date.

After the Holding Period Expiry Date, the Holding Period Trustee will, as soon as reasonably practicable, transfer the legal and beneficial interests in any unvested Trust Assets held by the Holding Period Trustee to the Company or to any person nominated by the Company to be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

B. Amount of Scheme Claims to be Admitted for Voting Purposes:

The amount of the Scheme Claims of each Scheme Creditor who submits (or has submitted on its behalf) a valid Lender Proxy Form will be calculated and admitted for voting purposes at a Scheme Meeting at a value equal to the sum of:

(i) the outstanding principal amount of that Scheme Creditor's Existing Debt as at the **Record Date**;

(ii) all accrued and unpaid interest (including default interest) and distributions in respect of the outstanding principal under that Scheme Creditor's Existing Debt up to but excluding the **Record Date**; and

(iii) any other claim or liability arising, directly or indirectly, in relation to, or arising out of or in connection with, the Existing Debt Finance Documents, as at the **Record Date** ("**Other Claim or Liability**"),

(together, the "**Voting Scheme Claims**").

To the extent the Scheme Creditor's Voting Scheme Claim comprises any Other Claim or Liability, the Scheme Creditor must provide the amount and details of any such Other Claim or Liability to the Information Agent at countrygarden@investor.sodali.com, to be provided to the Chairperson for consideration.[20] If the Scheme Creditor fails to provide such information, such Other Claim or Liability will be disregarded for voting purposes, except as may be permitted by the Chairperson in his or her sole discretion. **For the avoidance of doubt, including an Other Claim or Liability will not result in any additional cash or new instruments for creditors because the Other Claim or Liability is only used for voting purposes.**

[20] For the avoidance of doubt, each Scheme Creditor's Voting Scheme Claim and Scheme Consideration Entitlement are determined separately. For the purposes of determining the entitlement of Scheme Creditors to the Scheme Consideration Entitlement **only**, the Scheme Claims shall be determined as the aggregate of the following:

(i) in respect of Scheme Claims (Class 1), any claim or claims in respect of any Liability of the Company and/or any member of the Group to a Scheme Creditor arising, directly or indirectly, in relation to, or arising out of or in connection with, any of the Existing Syndicated Loans Finance Documents, whether before, at or after the Record Date, including, for the avoidance of doubt, any interest or default interest accruing on, or accretions arising in respect of, such claims; and

(ii) in respect of Scheme Claims (Class 2), any claim or claims in respect of any Liability of the Company and/or any member of the Group to a Scheme Creditor arising, directly or indirectly, in relation to, or arising out of or in connection with, any of the Ever Credit Bilateral Loan Finance Documents, ICBC Loan Finance Documents, Existing Loans (Onshore Credit Support) Finance Documents and the Existing Notes Finance Documents, whether before, at or after the Record Date, including, for the avoidance of doubt, any interest or default interest accruing on, or accretions arising in respect of, such claims.

C. Election of Scheme Consideration:

The table below should be completed by **Scheme Creditors** for the purposes of making their election as to the form of Scheme Consideration Entitlement a Scheme Creditor would like to receive. **You should consult the description of the options available to Scheme Creditors in respect of their Scheme Consideration Entitlement in paragraph 4.3 (*Scheme Consideration Entitlement of Scheme Creditors (who are not Sanctions-Affected Scheme Creditors)*) and in section 8.2 (*Overview of the implementation method*) of the Explanatory Statement before you make your election.**

In the event that a Scheme Creditor is unable to satisfy the New Lender Preconditions, it shall automatically be deemed to have elected the corresponding "notes" format of the Option it had originally elected (i.e. (i) an Option 3B election will be deemed as an Option 3A election, (ii) an Option 4B election will be deemed as an Option 4A election and (iii) an Option 5B election will be deemed as an Option 5A election).

- Under the terms of the Scheme, the reallocation mechanism of the Scheme Consideration Options shall, by default, allocate Existing Lenders to Option 3B and/or Option 4B. To indicate that an Existing Lender would like to be allocated to Option 3A and/or Option 4A instead of Option 3B and/or Option 4B, please tick the Option 3A and Option 4A box in the Reallocation Scenario row.

(i) it is solely liable for any taxes or similar payments imposed on it under the laws of any applicable jurisdiction as a result of voting in favour of the Scheme (other than any taxes and similar or related payments for which any member of the Group is liable in accordance with the New Instrument Documents), and that it will not and does not have any right of recourse (whether by way of reimbursement, indemnity or otherwise) against the Company, any other member of the Group, the Existing Loans Administrative Parties (as applicable), the Advisers, the New Instrument Administrative Parties, the Chairperson, the Information Agent or any of their Affiliates, directors, officers, advisers or employees in respect of such taxes or similar payments;

(j) neither it, nor any of its Subsidiaries, any director or officer of it or its Subsidiaries or, to the knowledge of the Scheme Creditor, any person who, directly or indirectly, owns or controls (in each case, as pursuant to Applicable Sanctions) the Scheme Creditor, any agent, employee or Affiliate or other person associated with or acting on behalf of the Scheme Creditor or any of its Subsidiaries is a natural person or entity that is currently the subject or target of any laws, regulations, rules and/or orders relating to economic, financial or trade sanctions, restrictive measures or embargoes administered, enacted, maintained and/or enforced by any Governmental Entity of the United States of America (including by the Office of Foreign Assets Control of the U.S. Department of the Treasury or the U.S. Departments of State and Commerce), the United Nations Security Council, the European Union or any member state thereof which has jurisdiction, or any

governmental authority of the same, the United Kingdom (or any governmental authority of the same, including, without limitation, in respect of the United Kingdom, His Majesty's Treasury and the Department for Business and Trade) and the British Overseas Territories (including, for the avoidance of doubt, The Russia (Sanctions) (EU Exit) Regulations 2019, as amended from time to time and as applicable in the Cayman Islands pursuant to The Russia (Sanctions) (Overseas Territories) Order 2020 (as amended)) ("**Applicable Sanctions**"), nor is the Scheme Creditor or any of its Subsidiaries located, organised or resident in a country, region or territory that is the target of comprehensive country/region-wide sanctions under any Applicable Sanctions, including, without limitation, the territories of Crimea, the so-called People's Republic of Donetsk, the so-called People's Republic of Luhansk and, more generally, the non-Ukraine-government-controlled areas of Donetsk, Kherson, Luhansk, Sevastopol and Zaporizhzhia and the countries of Cuba, Iran and North Korea (each, a "**Sanctioned Country**"), and as a result of the performance of any transactions contemplated by the Scheme, to the knowledge of the Scheme Creditor, would cause a violation of Applicable Sanctions applicable to such person, *provided*, *however*, that the foregoing shall not apply if and to the extent that the expression of, or compliance with, or receipt or acceptance of, such confirmation and/or undertaking would breach any provision of (i) Council Regulation (EC) No. 2271/96, as amended from time to time, or any applicable implementing legislation with respect to Council Regulation (EC) No. 2271/96, (ii) Council Regulation (EC) No. 2271/96 as retained in the UK and amended by the Protecting against the Effects of the Extraterritorial Application of Third Country Legislation (Amendment) (EU Exit) Regulations 2020/1660, or (iii) any other applicable UK or British Overseas Territory "Protection of Trading Interests" legislation including, without limitation, the UK Protection of Trading Interests Act 1980; and

(k) it will not, directly or knowingly indirectly, use the proceeds of the Scheme Consideration Entitlement, or lend, contribute or otherwise make available such proceeds to or for the benefit of any subsidiary, joint venture partner or other person or entity (i) to fund or facilitate any activities of or business with any person that, at the time of such funding or facilitation, is the subject or the target of any Applicable Sanctions, (ii) to fund or facilitate any activities of or business in any Sanctioned Country, or (iii) in any other manner that will result in a violation by any person (including any person participating in the transaction, whether as adviser, investor or otherwise) of any Applicable Sanctions, *provided*, *however*, that the foregoing shall not apply if and to the extent that the expression of, or compliance with, or receipt or acceptance of, such confirmation and/or undertaking would breach any provision of (i) Council Regulation (EC) No. 2271/96, as amended from time to time, or any applicable implementing legislation with respect to Council Regulation (EC) No. 2271/96, (ii) Council Regulation (EC) No. 2271/96 as retained in the UK and amended by the Protecting against the Effects of the Extraterritorial Application of Third Country Legislation (Amendment) (EU Exit) Regulations 2020/1660 or (iii) any other applicable UK or British Overseas Territory "Protection of Trading Interests" legislation including, without limitation, the UK Protection of Trading Interests Act 1980.

2. Unless a Scheme Creditor is a natural person attending in person or a corporation attending by a duly authorised representative, it must appoint a proxy to vote on its behalf at a Scheme Meeting. It is recommended that the Chairperson is appointed as the proxy as there would in such circumstances be no need for any additional documents or identification to be taken to a Scheme Meeting by or on behalf of the Scheme Creditor.

3. Any Scheme Creditor or its proxy attending a Scheme Meeting in person must produce a duplicate copy of the Lender Proxy Form validly completed and submitted on behalf of that Scheme Creditor, together with evidence of corporate authority (in the case of a corporation or institution) (for example, a valid power of attorney, letter of authorisation and/or board resolutions) and evidence of personal identity (being a valid original passport or other original government-issued photographic identification) at the registration desk by no later than half an hour before the scheduled time of a Scheme Meeting. If appropriate personal identification or evidence of authority is not produced, that person shall only be permitted to attend and vote at the relevant Scheme Meeting at the discretion of the Chairperson.

4. For the avoidance of doubt, in order to vote, the Lender Proxy Form should be completed and submitted to and received by the Information Agent by the Voting Instruction Deadline.

5. Scheme Creditors who vote in favour of the Scheme will also be treated as having waived the performance of the obligation in clause 7.2.1 of the Restructuring Support Agreement of the Scheme Creditors who are Blocked Scheme Creditors to the extent that the performance of such obligation requires the submission of a Lender Proxy Form (which such Blocked Scheme Creditors are not entitled, able or permitted to do due to Applicable Sanctions), provided that each such Blocked Scheme Creditor has validly submitted the Blocked Scheme Creditor Form in accordance with the terms of the Scheme, the Explanatory Statement and the Solicitation Packet.

Capitalised terms used but not defined in this Blocked Scheme Creditor Form have the meanings given to them in the explanatory statement relating to the Scheme issued by the Company on 13 October 2025, subject to any amendments or modifications made by the Court (the "**Explanatory Statement**").

Additionally, references to a document being "**validly completed**" are to a document containing all such information as it is required to contain on its face, and being duly executed and/or delivered in the manner contemplated by that document (including, if applicable, as a deed), and submitted together with or in connection with the taking of any other required procedural steps.

For the avoidance of doubt:

- the Blocked Scheme Creditor Form of a Blocked Scheme Creditor who would **only** like to receive its Blocked Scheme Consideration Entitlements but **not** vote at the Scheme Meeting (Class 2) shall be considered "**validly completed**" if it has provided the information required in Part 1. the Restructuring Effective Date, in accordance with the terms of the Blocked Escrow Agreement. A summary of this Blocked Scheme Creditor Form is set out below.

Background

Blocked Scheme Creditors are Scheme Creditors (other than Sanctioned Scheme Creditors) that are not entitled, able or permitted (whether directly or through a custodian) to submit instructions or settle through the Clearing Systems as a result of any Applicable Sanctions affecting the Scheme Creditor or its custodian, and who do not have a sanctions licence in respect of the Applicable Sanctions, which would allow that Scheme Creditor to freely deal in the Scheme Consideration Entitlement and submit instructions or settle through the Clearing Systems.

Blocked Scheme Creditors will, accordingly, not be able to submit Custody Instructions via the Clearing Systems and the Information Agent will not be able to collect information, including voting instructions, from Blocked Scheme Creditors or the Clearing Systems.

As a result, Blocked Scheme Creditors will not be able to vote on the Scheme through the Clearing Systems.

However, Blocked Scheme Creditors are invited to vote for, or against, the Scheme by completing this Blocked Scheme Creditor Form, together with sufficient evidence to allow the Blocked Scheme Creditor Tabulation Agent to reliably establish their identity, status as a Scheme Creditor and the value of their holding. In addition, in order to be allocated the RSA Fees, Blocked Scheme Creditors must:

- if they are a holder of the Existing HKD Convertible Bonds, vote in favour of the extraordinary resolutions set out in the Existing HKD Convertible Bonds Consent Solicitation;
- include their Accession Code when completing this Blocked Scheme Creditor Form (to the extent that the Blocked Scheme Creditor is a Blocked Scheme Creditor (Participating)); and
- vote in favour of the Scheme.

A validly completed Blocked Scheme Creditor Form, together with any accompanying documents, must be submitted to and received by the Blocked Scheme Creditor Tabulation Agent via email at agent.asia@glas.agency by the Voting Instruction Deadline in order for a Blocked Scheme Creditor to vote at the Scheme Meeting (Class 2) and by the Scheme Consideration Entitlement Election Deadline to be eligible for (i) its Blocked New Notes Entitlement, Blocked MCB (A) Entitlement, Blocked MCB (B) Entitlement and/or Blocked RSA Fees Entitlement (as applicable) to be transferred to the Blocked Escrow Agent on the Restructuring Effective Date to hold on escrow in accordance with the terms of the Blocked Escrow Agreement; and/or (ii) Blocked Option 1 Valid Bid Entitlement to be allocated to it on the Restructuring Effective Date in accordance with the Scheme.

Each Unadmitted Scheme Creditor should establish its entitlement to its share of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed and its entitlement to receive its Option 1 Valid Bid Entitlement in accordance with the Scheme. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to any part of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed by the Bar Time, all of the rights of that Unadmitted Scheme Creditor under the Holding Period Trust Deed shall be extinguished, and no New Notes Entitlement and/or MCB (B) Entitlement under the Holding Period Trust Deed or any other benefit under the Scheme shall be issued or distributed. If an Unadmitted Scheme Creditor does not or fails to establish its entitlement to Option 1 Valid Bid Entitlement in accordance with the Scheme before the Bar Time, that relevant Unadmitted Scheme Creditor shall not receive or be entitled to any Option 1 Valid Bid Entitlement under the Scheme.

Subject to and in accordance with the terms of the Holding Period Trust Deed and provided always that the relevant Unadmitted Scheme Creditor who is a Blocked Scheme Creditor establishes a valid entitlement to a share of the Trust Assets by no later than the Bar Time, an Unadmitted Scheme Creditor who is a Blocked Scheme Creditor may, prior to the Bar Time, make a request to the Holding Period Trustee in writing to allocate the applicable share of the Trust Assets to itself, with such Trust Assets to be transferred to the Blocked Escrow Agent (to the extent permitted by the Applicable Sanctions) to be held in accordance with the terms of the Blocked Escrow Agreement on and from the Holding Period Expiry Date.

After the Holding Period Expiry Date, the Holding Period Trustee will, as soon as reasonably practicable, transfer the legal and beneficial interests in any unvested Trust Assets held by the Holding Period Trustee to the Company or to any person nominated by the Company to be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

The rights of the applicable Blocked Scheme Creditor (Participating) and Blocked Scheme Creditor (Residual) under the Scheme and the Blocked Escrow Agreement to any Blocked Assets (including any rights of Blocked Scheme Creditors (Participating) and Blocked Scheme Creditors (Residual)) shall be extinguished upon the receipt of such Blocked Assets by the Company.

(i) in respect of Scheme Claims (Class 1), any claim or claims in respect of any Liability of the Company and/or any member of the Group to a Scheme Creditor arising, directly or indirectly, in relation to, or arising out of or in connection with, any of the Existing Syndicated Loans Finance Documents, whether before, at or after the Record Date, including, for the avoidance of doubt, any interest or default interest accruing on, or accretions arising in respect of, such claims; and

A list of the Offshore Subsidiaries and Onshore Obligors is enclosed as **Annexure 1 (List of Subsidiaries)**. Capitalised terms adopted in this Report have the same meaning in the list of abbreviations enclosed as **Annexure 2 (List of Abbreviations)**.

2. The Liquidation Analysis primarily encompasses:

   2.2 considering and analysing other information and data available to us;

   2.3 considering and analysing the realisations available to creditors from Country Garden and the Offshore Subsidiaries; and

   2.4 estimating the returns available to the creditors from Country Garden and the Offshore Subsidiaries in a hypothetical liquidation including taking into account any security and other priorities available to the creditors.

For the purposes of this Report, we have adopted 31 December 2024 as the relevant date of the Liquidation Analysis (the hypothetical date on which Country Garden and all of its subsidiaries are simultaneously placed into liquidation). We have done so as the financial statements of Country Garden, the Offshore Subsidiaries and Onshore Obligors as at 31 December 2024 and the associated information are the most recent available financial statements and information of Country Garden, the Offshore Subsidiaries and Onshore Obligors. All currency conversions to USD are calculated based on exchange rates of USD1 = RMB7.1884, HKD7.7629, NZD1.7552, AUD1.5949, GBP0.7920, SGD1.3508, THB33.8119, INR84.1960, IDR15,868 and MYR4.4376 respectively.

5. Information and documents provided by Country Garden and/or its advisors for the purposes of this Report are set out in **Annexure 3 (List of Information and Documents – Country Garden)**.

6. We have also reviewed and considered other publicly available information for the purposes of this Report. The publicly available information and documents in addition to those provided by Country Garden and/or its advisors are described in **Annexure 4 (List of Information and Documents – Public Searches)**.

7. This Report:

   7.1 has been prepared for Country Garden and/or its advisors and is strictly private and confidential;

   7.2 shall not be reproduced, distributed or disclosed, in whole or in part, without Kroll's prior written consent, save that this Report may be (i) provided to the creditors of Country Garden or a member of the Group on a duty of care basis and (ii) included in any documents to be filed with any relevant Court(s) including in connection with the Scheme and any communications with the creditors and announcements made by Country Garden or its advisors;

   7.3 has been prepared on the basis of the information and documents available to us. While we have attempted to corroborate the information obtained from different sources, we are relying on the accuracy and validity of these information and documents. Our work does not constitute an audit of the Group or the information and documents available us; and

7.4 contains various estimates. These estimates are not guarantees of future performance and involve risks and uncertainties, which are difficult to predict. Actual events and realisation may differ materially from what is estimated herein due to a variety of factors.

8. We reserve the right to amend or supplement our analysis and opinions as appropriate. We may also offer additional analysis and opinions in respect of any further information and documents to be made available to us in relation to this matter.

B. Key Limitations

9. The Liquidation Analysis is an estimate of the potential outcomes following a liquidation of Country Garden and its subsidiaries as at 31 December 2024 and therefore should be considered directional in nature only.

10. Estimating recoveries in a hypothetical liquidation requires the use of estimates and assumptions which we considered reasonable but are inherently subject to business, economic and competitive uncertainties and contingencies beyond the control of Country Garden.

11. To the extent that the assumptions set out in this Report do not hold true, or require refinement or amendment, this may, at some future point in time, alter the conclusions reached in this Report, and ultimately the possible outcomes for creditors in the scenarios considered in this Report.

12. The Liquidation Analysis has been completed at a specific point in time, based on the financial position of Country Garden at 31 December 2024. As Country Garden's financial position continues to change over time, the possible outcomes in a hypothetical liquidation are also likely to change over time.

C. Executive Summary

13. **Section A (This Report)** describes the events leading to the engagement of Kroll by Country Garden to prepare the Liquidation Analysis in respect of Country Garden.

14. A summary of the Group's financial position based on its financial statements as at 31 December 2024 is described in **Section D (Country Garden – Financial Position)**. In summary, as at 31 December 2024:

    14.1 Country Garden's liabilities exceed its assets by USD1,011 million. Country Garden's liabilities which primarily comprise bond payable, intercompany payable and bank and other borrowings and are approximately 5% more than its assets primarily comprise intercompany receivables and investment in subsidiaries. These liabilities do not include guarantee claims and other contingent liabilities against Country Garden totalling USD1,979 million (after deducting the estimated realisable value of the assets pledged in favour of the guarantee claims and other contingent liabilities); and

    14.2 the Offshore Subsidiaries' assets totalled USD37,603 million and the liabilities totalled USD20,369 million. 30 of the Offshore Subsidiaries granted corporate guarantees for 34 loans or bonds borrowed or issued by Country Garden or the Group's subsidiaries totalling USD15,792 million (including accrued interest). 29 of the Offshore Subsidiaries pledged their assets as security for 41 loans borrowed or guaranteed by Country Garden or the Group's subsidiaries totalling USD15,935 million (including accrued interest). After considering the contingent liabilities arising from the corporate guarantees provided by the Offshore Subsidiaries, the total liabilities of the Offshore Subsidiaries will increase to USD36,161 million. The total assets only exceed the total liabilities by USD1,442 million, or approximately 3.8% more than the total liabilities.

15. On 11 April 2025, Country Garden entered into the Restructuring Support Agreement with certain holders of the Existing Public Notes in relation to a proposed restructuring of its offshore debt by way of a scheme of arrangement. In-Scope Debt totalling USD16,027 million (including accrued interest) as at 31 December 2024, which is made up of two classes of debt instruments, is intended to be compromised in the Scheme.

16. Country Garden and the wider PRC real estate industry suffered a severe downturn since June 2021. A chronology of key events in relation to Country Garden and the PRC estate industry from around June 2021 to May 2025 is enclosed as **Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)**.

17. Absent a material improvement of the PRC economy and their financial and operational affairs, the likelihood of any material realisations from the Onshore Subsidiaries being made available to Country Garden and/or its Offshore Subsidiaries (whether in any liquidation of Country Garden and the Offshore Subsidiaries or otherwise) is, in our opinion and experience, likely low, including for the following reasons:

    17.1 under the current economic conditions and regulatory and policy environment in PRC, the Onshore Subsidiaries are obliged to utilise their financial and other resources to ensure completion and delivery of the Onshore Development Projects. Any surplus resources of the Onshore Subsidiaries which may be available are likely closely scrutinised;

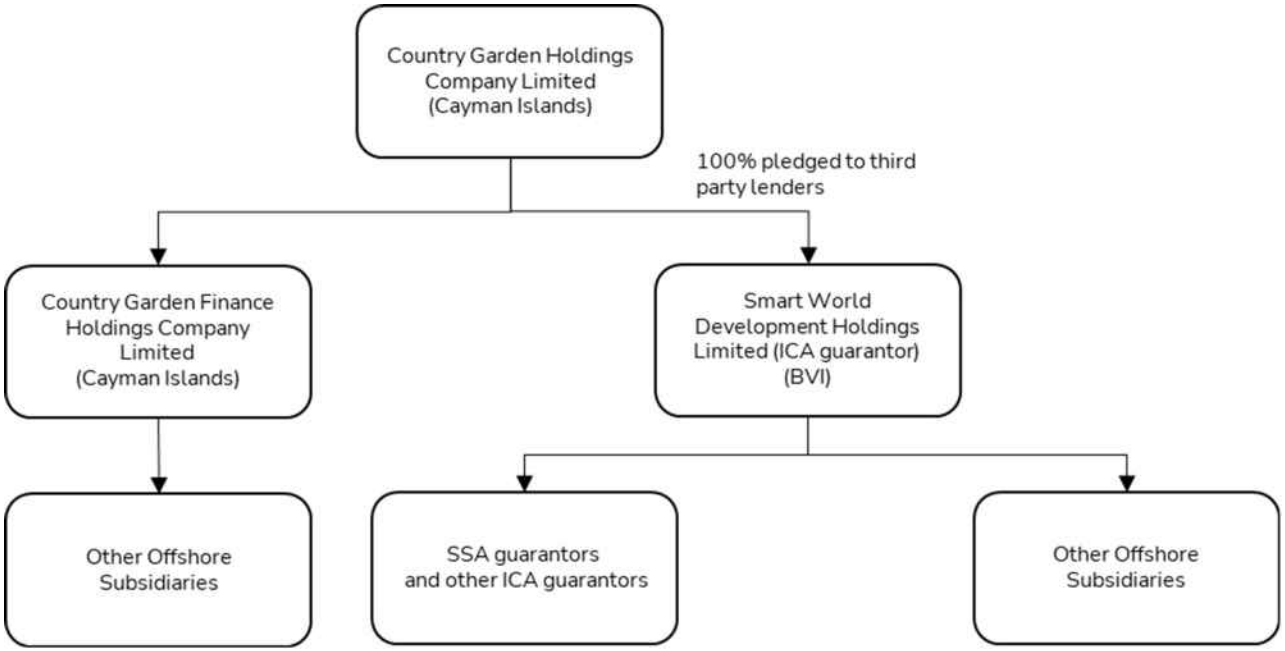
    17.2 local financial and trade and other creditors of the Onshore Subsidiaries will unlikely allow any funds and/or resources to be transferred offshore for the benefit of the offshore creditors before the debts due by the Onshore Subsidiaries to them have been settled;

    17.3 should the Offshore Subsidiaries and their liquidators seek to replace the local legal representatives of the Onshore Subsidiaries and seek to secure control of the Onshore Subsidiaries and their assets, in our opinion and experience, the incumbent local legal representatives would unlikely cooperate. Securing such control is therefore unlikely without legal proceedings which may take several years; and

    17.4 the estimated realisable value of the Onshore Subsidiaries' assets is likely materially less than their book value.

18. Accordingly and in our opinion and experience, no material resources or distributions will likely be available from Country Garden's Onshore Subsidiaries for the benefit of the Offshore Subsidiaries and Country Garden in any liquidation of Country Garden.

19. **Section F (Liquidation Analysis**) describes the Liquidation Analysis undertaken on the basis of the methodology and key assumptions set out in **Section E (Methodology, Assumptions and Analysis)**.



20. For the purposes of the Liquidation Analysis, we have assumed that Country Garden and all of its subsidiaries will be placed into liquidation. This assumption is based on the fact that all In-Scope Debt (which comprises 51.6% of Country Garden's overall indebtedness) is already in default. If the Scheme is not implemented, the forbearance provisions under the RSA would expire and Scheme Creditors are expected to enforce their rights against the relevant obligors of the In-Scope Debt. This would in turn trigger further cross-defaults across the Group and give rise to further creditor enforcement actions across all entities within the Group.

21. In an insolvent liquidation, Country Garden will likely generate returns to its unsecured creditors ranging between 2.8% and 3.5%, primarily from Country Garden's intercompany receivables ranging from USD748 million to USD943 million. Further, the Senior Pari Passu Liabilities will receive additional returns ranging between 0.3% and 0.4% from Country Garden pursuant to the terms of the Subordination Deeds which subordinate the right of the lender under the unsecured Existing Shareholder Loans (i.e. Concrete Win Limited) to receive any recoveries from Country Garden until the Senior Pari Passu Liabilities are fully repaid. A summary of the total returns available for the Scheme Creditors is enclosed as **Annexure 6 (Returns Available for Scheme Creditors).**

D. Country Garden – Financial Position

22. Country Garden was incorporated in the Cayman Islands on 10 November 2006 and is a PRC property developer listed on the HKEX (Stock Code: 2007). The Group's business activities primarily comprise property development, construction, property investment and hotel operation. As at 31 December 2024, the Group owned 3,084 property development projects, of which 3,053 were located in the PRC.

23. Country Garden owns most of the Group's subsidiaries through Smart World, a wholly owned subsidiary incorporated in the British Virgin Islands, whose shares have been pledged in favour of third party lenders to secure the Group's borrowings. Set out below is a simple diagrammatic presentation of the holding structure of the Group:

24. A more detailed diagrammatic presentation of the holding structure of the Group prepared by Country Garden's financial advisors is enclosed as **Annexure 7 (Group Structure Chart)**.

25. On 2 April 2024, trading in Country Garden's shares on the HKEX was suspended primarily because of delay in the publication of the 2023 annual results. Such delay was caused by Country Garden's need to collect more information to make appropriate accounting estimates and judgements and reasonably reflect changes in the industry and Country Garden in the annual results, due to the continuous volatility of the industry and the increasingly complex operating environment facing Country Garden at the time.

26. On 21 January 2025, Country Garden announced that it has fulfilled the trading resumption requirements of the Hong Kong Stock Exchange and trading of its shares was resumed on the same date.

27. On 11 April 2025, Country Garden entered into the RSA with certain holders of the Existing Public Notes in relation to a proposed restructuring of its offshore debt by way of a scheme of arrangement. A summary of all debts covered by the Scheme pursuant to the RSA is set out below:

Existing Debt as at 31 Dec 2024 USD million	Description	Principal	Principal and estimated accrued interest	Class	Issuer/Borrower	Guarantor	Securities

Country Garden

28. A summary of the assets and liabilities of Country Garden as at 31 December 2024 prepared on the basis of its unaudited financial statements and the information available to us is set out below:

Assets and Liabilities	RMB million	USD million equivalent
Assets		
Intercompany receivables	156,581	21,782
Investment in subsidiaries	3,960	551
Trade and other receivables	297	41

Financial assets	2	0
Total assets	**160,958**	**22,391**

Total liabilities	**(168,225)**	**(23,402)**
Net assets / (liabilities)	**(7,267)**	**(1,011)**

29. The above summary indicates that Country Garden's liabilities exceed its assets as at 31 December 2024 by USD1,011 million. Country Garden's liabilities which primarily comprise bond payable, intercompany payable and bank and other borrowings and is approximately 5% more than its assets which primarily comprise intercompany receivables and investment in subsidiaries. These liabilities do not include guarantee claims and other contingent liabilities against Country Garden totalling USD1,979 million (after deducting the estimated realisable value of the assets pledged in favour of the guaranteed claims and other contingent liabilities).

30. Country Garden and the wider PRC real estate industry suffered a severe downturn since June 2021. A chronology of key events in relation to Country Garden and the PRC real estate industry from around June 2021 to May 2025 is enclosed as **Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden).**

Offshore Financial Position

31. As at 31 December 2024, Country Garden has approximately 309 Offshore Subsidiaries, 13 of which have no assets or liabilities. The remaining 296 Offshore Subsidiaries were incorporated in Cayman Islands, British Virgin Islands, Hong Kong, Japan, India, Indonesia, Philippines, Malaysia, Singapore, Thailand, Australia, New Zealand, the United States and the United Kingdom.

32. The financial statements of the Offshore Subsidiaries as at 31 December 2024 (before the elimination of any intercompany transactions and investments in subsidiaries) indicate that the Offshore Subsidiaries' assets totalling USD37,603 million primarily comprised the following:

Assets	%	USD million
Investment in subsidiaries	41	15,599
Intercompany receivables	35	13,246
Landed properties (including property under development, completed properties held for sale, inventories, investment properties and right-of-use assets)	10	3,611
Trade and other receivables	4	1,349
Financial assets	2	682
Others	8	3,116
Total	**100**	**37,603**

33. The Offshore Subsidiaries had 31 Offshore Development Projects located in Hong Kong, India, Indonesia, Thailand, Malaysia, Australia, New Zealand, the United States and the United Kingdom. Among the Offshore Development Projects:

    33.1 23 have not yet commenced or are under development; and

    33.2 8 are completed.

34. 10 Offshore Development Projects were pledged to secure borrowings from 15 credit facilities with loan principal amounts totalling USD319 million – 4 Offshore Development Projects were pledged for more than 1 credit facility.

35. As at 31 December 2024, the Offshore Subsidiaries' liabilities (before the elimination of any intercompany transactions) totalled USD20,369 million and primarily comprised the following:

Liabilities	%	USD million
Intercompany payables	75	15,271
Trade and other payables	18	3,725
Bond payable	6	1,019
Bank and other borrowings	1	207
Others	0	148
Total	**100**	**20,369**

36. 30 of the Offshore Subsidiaries granted corporate guarantees for 34 loans or bonds borrowed or issued by Country Garden or the Group's subsidiaries totalling USD15,792 million (including accrued interest). Some of these debts are guaranteed by more than one of these 30 Offshore Subsidiaries. 29 of the Offshore Subsidiaries pledged their assets as security for 41 loans borrowed or guaranteed by Country Garden or the Group's subsidiaries totalling USD15,935 million (including accrued interest). After considering the contingent liabilities arising from the corporate guarantees provided by the Offshore Subsidiaries, the total liabilities of the Offshore Subsidiaries will increase to USD36,161 million. The total assets only exceed the total liabilities by USD1,442 million, or approximately 3.8% more than the total liabilities.

Onshore Financial Position

37. In assessing the Onshore Subsidiaries' ability to generate any realisations to be made available to the Offshore Subsidiaries, Country Garden and their creditors, we have considered the following matters:

    37.1 the financial position of the Onshore Subsidiaries; and

    37.2 the status of the PRC economy including its real estate industry (and its regulatory and other requirements).

Financial Position of the Onshore Subsidiaries

38. The consolidated financial statements of Country Garden's major Onshore Subsidiaries as at 31 December 2024 indicate that their assets totalled RMB810,132 million (equivalent to USD112,700 million) and primarily comprised the following:

Assets	%	USD million
Landed properties (including property under development, completed properties held for sale, inventories, investment properties and right-of-use assets)	54	60,776
Trade and other receivables (including intercompany receivables)	31	35,157
Others	15	16,768
Total	**100**	**112,700**

39. As at 31 December 2024, the Onshore Subsidiaries' liabilities totalled RMB725,712 million (equivalent to USD100,956 million). The book value of the Onshore Subsidiaries' assets as set out in the above paragraph were 12% greater than the total liabilities at that date.

40. In light of the current PRC market condition and the circumstances surrounding Country Garden and the Onshore Subsidiaries, estimates prepared by the Group as at 31 December 2024 indicate that the Onshore Development Projects will not generate sufficient cashflow for the relevant Onshore Subsidiaries to settle all operational costs, expenses and liabilities associated with these Onshore Development Projects and the Onshore Subsidiaries for the financial years from 2025 to 2036. The Onshore Subsidiaries do not have sufficient resources to complete the Onshore Development Projects and as a result, there will unlikely be any realisation available to Country Garden from the Onshore Subsidiaries in any liquidation.

Status of the PRC Economy

41. The PRC real estate industry has suffered a downturn from around 2021. To deal with the downturn, the PRC government has been working closely with property developers and stakeholders to implement policy and regulations to ensure, inter alia, completion and delivery of property development projects in the following manner:

41.1 closely monitoring the progress and status of the property development projects including to ensure that sufficient resources are being made available by the group for ongoing development projects;

41.2 resources used for any purposes other than completing and delivering the property development projects are closely scrutinised;

41.3 local governments may actively manage the property development projects to address any problems and issues faced by the property development projects; and

41.4 where necessary, funding may be made available by the local governments to ensure completion and delivery of the property development projects.

42. Absent a material improvement of the PRC economy and their financial and operational affairs, the likelihood of any material realisations from the Onshore Subsidiaries being made available to Country Garden and/or its Offshore Subsidiaries (whether in any liquidation of Country Garden and the Offshore Subsidiaries or otherwise) is, in our opinion and experience, likely low, including for the following reasons:

42.1 under the current economic conditions and regulatory and policy environment in PRC, the Onshore Subsidiaries are obliged to utilise their financial and other resources to ensure completion and delivery of the Onshore Development Projects. Any surplus resources of the Onshore Subsidiaries which may be available are likely closely scrutinised;

42.2 local financial and trade and other creditors of the Onshore Subsidiaries will unlikely allow any funds and/or resources to be transferred offshore for the benefit of the offshore creditors before the debts due by the Onshore Subsidiaries to them have been settled;

42.3 should the Offshore Subsidiaries and their liquidators seek to replace the local legal representatives of the Onshore Subsidiaries and seek to secure control of the Onshore Subsidiaries and their assets, in our opinion and experience, the incumbent local legal representatives would unlikely cooperate. Securing such control is therefore unlikely without legal proceedings which may take several years; and

42.4 the estimated realisable value of the Onshore Subsidiaries' assets is likely materially less than their book value.

43. Accordingly and in our opinion and experience, no material resources or distributions will likely be available from Country Garden's Onshore Subsidiaries for the benefit of the Offshore Subsidiaries and Country Garden in any liquidation of Country Garden.

E. Methodology, Assumptions and Analysis

44. This section summarises the Liquidation Analysis in respect of Country Garden as at 31 December 2024 which primarily encompasses the work described in paragraph 2 above and is primarily based on:

    44.1 the information and documents available to us to date;

    44.2 the circumstances surrounding the Group and the PRC real estate industry as described in **Section D (Country Garden – Financial Position);** and

    44.3 the following methodology and key assumptions.

Methodology and Key Assumptions

45. The methodology adopted in the Liquidation Analysis includes:

    45.1 assessing the financial position of the Offshore Subsidiaries and Onshore Obligors including any estimated (direct or indirect) distribution from them, through the shareholding structure, to Country Garden as at 31 December 2024 on an entity-by-entity basis;

    45.2 estimating the realisable value of Country Garden's assets as at 31 December 2024 under the following 2 scenarios:

        45.2.1 a low recovery scenario in which the relevant assets would be realised at a relatively low value; and

        45.2.2 a high recovery scenario in which the relevant assets would be realised at a relatively high value.

        The bases for the Low Recovery Case and the High Recover Case in respect of each asset are set out in paragraphs 49 to 60 below;

45.3 considering Country Garden's liabilities and contingent liabilities as at 31 December 2024, and any security associated with such liabilities; and

45.4 establishing the likely return available to Country Garden's creditors in any liquidation – for both the Low Recovery Case and the High Recovery Case.

46. Further, when estimating the recoveries for both the Low Recovery Case and High Recovery Case, we have considered the following:

46.1 consultations with the management team of Country Garden including, where available, valuation reports and other supporting information, when identifying the recoverable value of the assets by the Group; and

46.2 the recoverable value of assets is generally lower in a liquidation scenario than in a going concern scenario. This is primarily because liquidators typically realise the assets on an "as-is" basis and in a cost effective manner. It is unlikely that liquidators would continue to operate the assets or make capital investments to enhance the value of the assets. Further, the offer price may also be adversely affected by potential purchasers taking into consideration the relevant legal risks and limited ability to conduct due diligence on the asset.

47. In implementing the above methodology, we have adopted the following key assumptions:

47.1 Country Garden and all of its subsidiaries will be placed into liquidation on 31 December 2024 and cease all trading and operations upon liquidation due to the following reasons:

47.1.1 the In-Scope Debt (which comprises 51.6% of Country Garden's overall indebtedness) is already in default. If the Scheme is not implemented, the forbearance provisions under the RSA would expire and Scheme Creditors are expected to enforce their rights against the relevant obligors under the In-Scope Debt, which would in turn result in further cross defaults across the Group;

47.1.2 Country Garden and some of its subsidiaries manage the liquidity position of the Group by funding the various subsidiaries through intercompany loans. In a liquidation scenario, the liquidators would likely seek repayment of these intercompany loans and take enforcement actions against the relevant subsidiaries; and

47.1.3 in these circumstances, the Group would seek to maximise recoveries for creditors as best as it can, but anticipates that its Subsidiaries would likely be required to make, or cause Country Garden to make, an application to the Court and/or courts in other relevant jurisdictions, as applicable, to place Country Garden and/or certain other Subsidiaries into liquidation to facilitate an orderly winding-up and realisation of their assets for the benefit of the creditors of the Group.

47.2 apart from the securities provided by the Onshore Obligors in favour of the Existing Loans (Onshore Credit Support) with Country Garden as borrower and the Existing Loans (Onshore Credit Support) with Country Garden as guarantor, no material realisation will be available from the Onshore Subsidiaries of Country Garden, for the reasons set out in paragraphs 38 to 43 above;

47.3 all assets of Country Garden and the Offshore Subsidiaries are sold or realised by the liquidators following their appointment;

47.4 all liabilities of Country Garden and the Offshore Subsidiaries will become due and payable upon filing of the winding-up application or commencement of the winding up, as applicable;

47.5 where the intercompany balances set out in the available financial records of the relevant entities are not consistent, the larger balances are adopted for the purposes of this analysis;

47.6 secured creditors of Country Garden and the Offshore Subsidiaries will enforce against all assets secured to them and make claims in the liquidation of Country Garden and the Offshore Subsidiaries as unsecured creditors for any remaining unpaid balances;

47.7 unsecured creditors of Country Garden and the Offshore Subsidiaries will exercise their respective rights to recover their debts including by making a claim in the liquidations of Country Garden and/or the Offshore Subsidiaries for the full amounts they are entitled to;

47.8 distributions or dividends to unsecured creditors of Country Garden and the Offshore Subsidiaries are made by their respective bases on a pari-passu basis save for the Senior Pari Passu Liabilities of Country Garden which are expected to receive additional returns from Country Garden pursuant to the terms of the Subordination Deeds;

47.9 costs associated with the liquidation, including fees and expenses incurred by the liquidators and their legal and other advisors during Country Garden's and the Offshore Subsidiaries' liquidations, will be settled from the realisable assets before any distribution to the creditors (in line with s. 109(1) of the Companies Act (2023 Revision) and O.20, r.1 of the Companies Winding Up Rules (2023 Consolidation) of the Cayman Islands); and

47.10 any distribution of funds from the Offshore Subsidiaries to Country Garden will not be impacted by any relevant local policies and legislation, including any capital or foreign exchange restrictions or taxation policies.

Analysis and Observations

48. Paragraphs 49 to 90 below set out the analysis, observations and specific assumptions made by us for each of Country Garden's assets and liabilities as at 31 December 2024 for the purposes of the liquidation analysis described in **Section F (Liquidation Analysis)**. A summary of Country Garden's assets and liabilities as at 31 December 2024 is also included in **Section F** below.

Intercompany receivables

49. Intercompany receivables represent amounts due from Country Garden's Onshore Subsidiaries and Offshore Subsidiaries. 20% of Country Garden's intercompany receivables are due from 152 Offshore Subsidiaries. Financial statements of these 152 Offshore Subsidiaries indicate that 1 of them have no assets.

50. The realisable value of intercompany receivables depends heavily on the financial position of the corresponding subsidiaries and their ability to make distributions to their unsecured creditors (including intercompany creditors such as Country Garden). The aggregate realisable value of intercompany receivables is equal to the total amount of distributions available from those subsidiaries to Country Garden. Our analysis in respect of the financial position of the 151 Offshore Subsidiaries which have assets indicates that there will likely be a distribution of 17% to 21% to their unsecured creditors (including Country Garden), primarily from landed properties and

intercompany receivables. A summary of our analysis of any recovery from the above relevant Offshore Subsidiaries is set out in **Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)**.

51. 80% of Country Garden's intercompany receivables are due from the Onshore Subsidiaries. For the reasons set out in paragraphs 38 to 43 above, there will unlikely be any resources or distributions available from the Onshore Subsidiaries to the Offshore Subsidiaries and Country Garden in any liquidation of Country Garden.

Investment in subsidiaries

52. Investment in subsidiaries represents Country Garden's investment in CG Finance and Smart World. In any liquidation, realisable value of a company's investment in subsidiaries usually depends on whether the subsidiaries have surplus funds available to be distributed to their shareholders from the realisations of their assets and after settling their liabilities and any costs associated with the realisation of these assets and any winding up costs.

CG Finance

53. CG Finance is the shareholder of two Offshore Subsidiaries, which have net liabilities. CG Finance's financial statements as at 31 December 2024 indicate that it had investment in subsidiaries totalling USD1 but was indebted to Country Garden, Country Garden (Hong Kong) Development Company Limited and Sky Global International Development Limited totalling USD42,806. CG Finance did not have any other assets or liabilities.

Smart World

54. Country Garden's shares in Smart World have been pledged in favour of various banks, bondholders, noteholders and other lenders to secure 22 loans totalling USD15,537 million (including accrued interest).

55. Smart World's financial statements as at 31 December 2024 indicate that its assets with book value totalling USD3,991 million comprised primarily investment in subsidiaries (approximately 100% of the total assets). Smart World's liabilities totalled USD15,675 million and comprised primarily guaranteed liabilities (approximately 100% of the total liabilities). Smart World's assets represent only

25% of its liabilities and it is therefore balance sheet insolvent (its liabilities exceed its assets) and there will unlikely be any surplus realisations available to be distributed to its shareholder.

56. Accordingly, Country Garden's investment in CG Finance and Smart World will unlikely generate any realisable value in any liquidation.

Trade and other receivables

57. Trade and other receivables represent primarily a loan from Country Garden to a Borrower totalling USD41 million. This loan was granted in 2018 and 71% of it has been due and payable since 2020.

58. Information in respect of the Borrower's financial position as at 31 December 2024 is not available and we are unable to ascertain whether (and to what extent) the Borrower is able to repay this loan. In our experience, securing repayment of loan in any liquidation which has been outstanding for over 3 years is unlikely without legal proceedings which may take several years. Legal and other professional costs may also be incurred to recover this loan. We have therefore adopted a zero recovery rate for the purposes of this analysis.

Cash and cash equivalents

59. In our experience, cash and cash equivalents are typically realisable in full.

Financial assets

60. Financial assets represent Country Garden's holding of 490,000 units in Sasseur Real Estate Investment Trust which is listed on the Singapore stock exchange. The quoted price of the trust was USD0.5034 per unit on 31 December 2024. Accordingly, the market value of this financial asset is USD246,660 (490,000 units x USD0.5034) as at 31 December 2024.

Cost of liquidation

61. Cost of liquidation includes fees and expenses incurred by the liquidators and any receivers of secured assets and their legal and other advisors during the liquidation. This cost will typically be paid from realisation of assets by the liquidators and receivers before any distribution to the creditors. The magnitude of this cost will largely depend on the size and nature of the assets and other matters dealt with by the liquidators and receivers and the complexity of the winding up or receivership. However, in our experience, the winding up cost of an insolvent company in a real estate group will likely approximate 5% of the total realisable value of all assets.

Liabilities

62. We have assumed that all liabilities become due and payable upon liquidation. This analysis excludes any contractual and statutory liabilities which may be triggered by the liquidation of Country Garden such as termination of any contracts or agreements entered into by Country Garden. Such damages could likely be very substantial and for this reason, the liabilities set out in this analysis are likely conservative.

63. Country Garden's financial statements as at 31 December 2024 do not disclose any preferential creditors as at 31 December 2024.

Bond payable

64. Bond payable relates to the Existing Public Notes totalling USD9,375 million and an onshore bond totalling USD508 million issued by Country Garden and the associated interest payable totalling USD831 million as at 31 December 2024. We have assumed that the bond holders will claim the amount due to them against both their respective bond issuer and the guarantors in full. This is consistent with our experience.

<u>Existing Public Notes</u>

65. The Existing Public Notes are secured by way of by the ICA Share Security and guaranteed by the ICA Guarantors (including the share pledge over the entire share capital of Smart World, which is the immediate subsidiary of the Country Garden).

66. Although the Existing Public Notes constitute secured liabilities of Country Garden due to the share pledge over the share capital of Smart World, there are unlikely to be any recoveries from the share pledge over the shares of Smart World as Smart World is balance sheet insolvent (its liabilities exceed its assets). Additionally, there are unlikely to be any recoveries from the ICA Share Security based on our analysis as exhibited in Annexure 6 as all ICA Guarantors are insolvent based on the Liquidation Analysis.

67. Of the 15 series of the Existing Public Notes, 11 series of Existing Public Notes are part of the Senior Pari Passu Liabilities which benefit from the Subordination Deeds and will receive additional returns from Country Garden pursuant to the terms of the Subordination Deeds.

Onshore bond

68. The onshore bond is secured by way of equity income pledge from 6 onshore subsidiaries of Country Garden. In light of the current circumstances surrounding the Group, it is highly unlikely that Country Garden's onshore subsidiaries will have any surplus resources (after settling their operating costs and due liabilities) for dividend distribution purposes. On this basis, there will unlikely be any resources or distributions available from these onshore subsidiaries to the holders of the onshore bonds by way of the equity income pledge in any liquidation of Country Garden or its subsidiaries.

Bank and other borrowings

69. Bank and other borrowings represent outstanding principal and accrued interest of bank and other borrowings totalling USD5,660 million and primarily comprise:

69.1 Ever Credit Bilateral Loan totalling USD234 million;

69.2 ICBC Loan totalling USD2 million;

69.3 Existing Syndicated Loans totalling USD4,054 million;

69.4 Existing Shareholder Loans totalling USD1,205 million;

69.5 one Existing Loan (Onshore Credit Support) with Country Garden as borrower totalling USD125 million; and

69.6 one bilateral loan borrowed by Country Garden totalling USD40 million which will not be compromised by the Scheme.

70. Country Garden's financial statements as at 31 December 2024 (as set out in paragraph 28 above) recorded the book value of these bank and other borrowings at USD5,064 million. Country Garden advised that the difference between USD5,660 million as set out in the above paragraph and the book value of USD5,064 million is due to the accrued interest and relevant accounting treatment of such accrued interest.

Ever Credit Bilateral Loan and ICBC Loan

71. The Ever Credit Bilateral Loan and ICBC Loan are secured by the ICA Share Security and guaranteed by the ICA Guarantors (including the share pledge over the entire share capital of Smart World, which is the immediate subsidiary of the Country Garden).

72. Although the Ever Credit Bilateral Loan and ICBC Loan constitute secured liabilities of Country Garden due to the share pledge over the share capital of Smart World, there are no recoveries expected from the share pledge over the shares of Smart World as it is balance sheet insolvent (its liabilities exceed its assets). Additionally, there are unlikely to be any recoveries from the ICA Share Security based on our analysis as exhibited in Annexure 6 as all ICA Guarantors are insolvent based on the Liquidation Analysis.

73. Ever Credit Bilateral Loan and ICBC Loan are part of the Senior Pari Passu Liabilities which benefit from the Subordination Deeds and will receive additional returns from Country Garden pursuant to the terms of the Subordination Deeds.

Existing Syndicated Loans

74. The Existing Syndicated Loans are secured by the ICA Share Security and SSA Share Security and guaranteed by the ICA Guarantor and SSA Guarantors (including the share pledge over the entire share capital of Smart World, which is the immediate subsidiary of Country Garden).

75. Although the Existing Syndicated Loans constitute secured liabilities of Country Garden due to the share pledge over the share capital of Smart World, there are no recoveries expected from the share pledge over the shares of Smart World as it is balance sheet insolvent (its liabilities exceed its assets). Additionally, there are unlikely to be any recoveries from the ICA Share Security and the SSA Share Security based on our analysis as exhibited in Annexure 6 as all ICA Guarantors and SSA Guarantors are insolvent based on the Liquidation Analysis.

76. Existing Syndicated Loans are part of the Senior Pari Passu Liabilities which benefit from the Subordination Deeds and will receive additional returns from Country Garden pursuant to the terms of the Subordination Deeds.

Existing Shareholder Loans

77. The 3 Existing Shareholder Loans are unsecured financings and constitute unsecured liabilities of Country Garden. Further, pursuant to the Subordination Deeds, the Senior Pari Passu Liabilities with principal and accrued interest totalling USD11,775 million must be fully repaid before any payments can be made to repay the borrowings from the lender (i.e. Concrete Win Limited) under the Existing Shareholder Loans, totalling USD1,205 million. The Existing Shareholder Loans are not compromised by the Scheme.

One Existing Loan (Onshore Credit Support) with Country Garden as borrower

78. 1 bilateral loan facility from a bank with claims totalling USD125 million which is secured by equity interest in two Onshore Obligors and landed properties owned by two Onshore Obligors with realisable value totalling USD115 million. This loan is guaranteed by 4 of the ICA Guarantors and various Onshore Subsidiaries. In late June 2025, the Guangzhou Intermediate People's Court issued the Judgment and ordered that the lender of this loan has priority claim over the cash balance of an onshore subsidiary of Country Garden totalling RMB142 million (or USD20 million).

79. Our analysis indicates that the total realisable value of the above assets pledged in favour of the one Existing Loans (Onshore Credit Support) with Country Garden as borrower approximate USD135 million and can be used to fully settle these loans.

80. The one Existing Loan (Onshore Credit Support) with Country Garden as borrower is part of the Senior Pari Passu Liabilities which benefits from the Subordination Deeds and will receive additional returns from Country Garden pursuant to the terms of the Subordination Deeds.

<u>One bilateral loan borrowed by Country Garden which will not be compromised by the Scheme</u>

81. 1 bilateral loan facility from a bank with claims totalling USD40 million which is secured by assets owned by Wise Fame, an equity interest in an Onshore Obligor and landed properties owned by an Onshore Obligor with estimated realisable value ranging from USD41 million to USD43 million. This loan is guaranteed by Wise Fame and an Onshore Obligor of Country Garden. This loan is not compromised by the Scheme.

82. In our experience and opinion, the creditors will enforce against all securities and assets available to them and make the Deficiency Claim for the remaining balance of the liabilities against both Country Garden and guarantors in full in any liquidation. On this basis, Country Garden's bank and other borrowings would be reduced from USD5,660 million to USD5,494 million.

Guaranteed and other contingent liabilities

83. Guaranteed and other contingent liabilities totalling USD2,612 million relates to:

83.1 liabilities of the Onshore Subsidiaries and Offshore Subsidiaries totalling USD2,102 million which are guaranteed by Country Garden or are otherwise supported by Country Garden by way of letters of undertaking, letters of indemnity or letters of comfort (including (i) the Existing HKD Convertible Bonds, (ii) the Existing Loans (Onshore Credit Support) with Country Garden as guarantor), (iii) a loan borrowed by an onshore subsidiary of Country Garden and (iv) borrowings of Offshore Subsidiaries in Malaysia and Indonesia; and

83.2 claims totalling around USD510 million from certain onshore trade creditors. We have been advised that these liabilities are likely Country Garden's contingent liabilities pursuant to certain framework agreements which will not be compromised by the Scheme.

84. The relevant Onshore and Offshore Subsidiaries provided assets as security for these liabilities which primarily comprise completed properties held for sale and property under development. Our analysis indicates that the realisable value of the relevant secured assets would likely be sufficient to settle approximately USD543 million to USD632 million of these liabilities. That is, the estimated realisation totalling USD543 million to USD632 million relates to the secured assets of the Offshore Subsidiaries and/or Onshore Subsidiaries of the Group (not of Country Garden).

85. For the purpose of this analysis, we have deducted the higher end of the relevant secured assets' realisable value approximating USD632 million from the guaranteed liabilities totalling USD2,612 million.

86. In our experience and opinion, the creditors will claim the remaining balance totalling USD1,979 million against the guarantors including Country Garden in any liquidation.

Existing HKD Convertible Bonds

87. The 2 Existing HKD Convertible Bonds are secured by the ICA Share Security and guaranteed by the ICA Guarantors (including the share pledge over the entire share capital of Smart World, which is the immediate subsidiary of Country Garden).

88. Although the 2 Existing HKD Convertible Bonds constitute secured liabilities of Country Garden due to the share pledge over the share capital of Smart World, there are no recoveries expected from the share pledge over the shares of Smart World as it is balance sheet insolvent (its liabilities exceed its assets). Additionally, there are unlikely to be any recoveries from the ICA Share Security based on our analysis as exhibited in Annexure 6 as all ICA Guarantors are insolvent based on the Liquidation Analysis.

Existing Loans (Onshore Credit Support) with Country Garden as guarantor

89. The Existing Loans (Onshore Credit Support) with Country Garden as guarantor comprises 12 bilateral loan facilities which are secured by way of share pledge and asset pledge provided by Onshore Subsidiaries of Country Garden and are guaranteed by Country Garden and some of its Onshore Subsidiaries. The recoveries from secured assets provided by the Onshore Subsidiaries constitute the primary source of recoveries for these loans.

One loan borrowed by an onshore subsidiary of Country Garden

90. The loan is a bilateral loan facility secured by various onshore security interest over landed properties with realisable value ranging from USD88 million to USD117 million provided by an Onshore Subsidiary and is guaranteed by another Onshore Subsidiary. We have been advised that this loan is likely a contingent liability of Country Garden. This loan will not be compromised by the Scheme.

F. Liquidation Analysis

91. In the summary below, we have, by adopting the methodology, assumptions, analysis and observations set out in **Section E (Methodology, Assumptions and Analysis)** above, estimated the realisable value of Country Garden's assets under the Low Recovery Case and High Recovery Case by reference to its financial statements as at 31 December 2024. From this, we have established the likely return available to Country Garden's creditors in any liquidation under these 2 cases:

Assets and Liabilities **USD million equivalent**	**Unaudited** **31 December 2024**	**Low** **Recovery Case**	**High** **Recovery Case**	**Paragraph** **Reference**
Assets				
Intercompany receivables	21,782	748 (3.4%)	943 (4.3%)	49 to 51
Investment in subsidiaries	551	- (0%)	- (0%)	52 to 56
Trade and other receivables	41	- (0%)	- (0%)	57 to 58
Cash and cash equivalents	16	16 (100%)	16 (100%)	59
Financial assets	0.2	0.2 (88.7%)	0.2 (88.7%)	60
Total realisable value of assets	**22,391**	**765**	**959**	
Cost of liquidation	-	(38)	(48)	61
Balance available to unsecured claims (after liquidation cost)	**22,391**	**727**	**911**	
Liabilities				62 to 63
Bond payable	(10,714)	323 (3.0%)	405 (3.8%)	64 to 68

Assets and Liabilities USD million equivalent	Unaudited 31 December 2024	Low Recovery Case	High Recovery Case	Paragraph Reference
Intercompany payables	(7,134)	201 (2.8%)	252 (3.5%)	
Bank and other borrowings (excluding realisable value of the secured assets)	(5,494)	133 (2.4%)	167 (3.0%)	69 to 82
Trade and other payables	(490)	14 (2.8%)	17 (3.5%)	
Guaranteed and other contingent liabilities (excluding realisable value of the secured assets)	(1,979)	56 (2.8%)	70 (3.5%)	83 to 90
Total Unsecured Claims	**(25,812)**			
Estimated Return from Country Garden to its unsecured creditors		**727** **(2.8%)**	**911** **(3.5%)**	

92. Accordingly, on the basis of the above Liquidation Analysis, the liquidation of Country Garden will likely generate returns to its unsecured creditors ranging between 2.8% and 3.5%, primarily from Country Garden's intercompany receivables ranging from USD748 million to USD943 million. Further, the Senior Pari Passu Liabilities will receive additional returns ranging between 0.3% and 0.4% from Country Garden pursuant to the terms of the Subordination Deeds, which subordinate the right of the lender under the unsecured Existing Shareholder Loans (i.e. Concrete Win Limited) to receive any recoveries from Country Garden until the Senior Pari Passu Liabilities are fully repaid.

93. In my experience, in light of the size and nature of the businesses and assets of Country Garden and its Offshore Subsidiaries, the associated liquidation procedure, including investigating the affairs of these companies, securing and realising their assets, adjudicating creditor claims and distributing dividends to creditors, will likely require 5 to 7 years.

94. The table below is a summary of the estimated returns available from Country Garden and other credit support to Scheme Creditors based on a hypothetical liquidation of Country Garden and its subsidiaries:

Existing Debt		Class	Return from Security Assets %	Unsecured Portion of the Existing Debt (Including Estimated Accrued Interest) (USD million)	Return Available for the Unsecured Portion of the Existing Debt (Including Estimated Accrued Interest)						Total Return %

	12 PRC law governed bilateral loan facilities, each with Country Garden as guarantor	Class 2	7.7% to 100%	118 to 178	2.8% to 3.5%	-	-	-	0.2% to 92.8%	3.1% to 95.6%	26.7% to 100%

[1] For 11 series of Existing Public Notes that are part of the Senior Pari Passu Liabilities, the estimated return available from Country Garden is 3.1%-3.9%. For the remaining 4 series of Existing Public Notes, the estimated return available from Country Garden is 2.8%-3.5%

Set out below is a chronology of key events in relation to the PRC real estate industry and Country Garden from around June 2021 to May 2024 on the basis of publicly available information:

Date	Events
During 2021 and 2022	Policies, including the "*three red lines*" for property developers and the "*two red lines*" for lending banks, were in place in the PRC, which restricted PRC banks to provide financings to real estate companies in the PRC.
1 June 2021	At least 4 real estate developers in the PRC were reported by Debtwire to have missed bond payment(s) since July 2020.
30 June 2021	The Asia Financial reported that: 1. since the second half of 2020, PRC's policies aimed at curbing real estate bubble and limiting the expansion of the PRC property developers; 2. the growth rates in loans, trusts and bond issuance for property development in PRC were at their slowest in May 2021; 3. in contrast with PRC property companies' increasing sales during the first 6 months in 2021, the price of their stocks had been declining. The share price of Shenzhen listed China Vanke Co Ltd had been declining for 4 months and closed at a 30-month low on 28 June 2021. The share price of Shanghai listed Poly Developments and Holdings Group Co Ltd closed at its lowest since July 2019 on 28 June 2021; 4. PRC's property index had plummeted to a close to a 10-year low as Beijing's deleveraging reform and rising land costs put pressure on property firms' growth and profits; 5. as of 27 June 2021, PRC's property sector was the sixth worst-performing sector of PRC's 28 top industry sectors; and

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
	6. many property firms had bought back their shares or increased major shareholders' stakes in the firms in order to boost their market values. In May 2021, "*Binjiang Real Estate, The Wharf (Holdings) Ltd, and Central China Real Estate joined a long list of firms doing share buybacks*".
27 August 2021	Reuters commented that PRC's attempts to discourage PRC property developers from excessive borrowing was spilling over into loan losses at banks and the credit markets suffered as the cash strapped developers fell into distress and that "*debt and land-buying curbs and hundreds of new rules are hitting developers far harder than they had expected, settling off a scramble to sell assets as well as a steady drumbeat of bankruptcies, defaults and cut-price takeover*".
14 September 2021	The Guardian reported that "*China Evergrande Group has said it cannot sell properties and other assets fast enough to meet its massive USD300 billion debts, and that its cashflow was under 'tremendous pressure'*".
15 October 2021	Allianz published the following comments in respect of PRC's economy: 1. housing activity in PRC would remain weak and further defaults among real estate developers could be expected, even though policymakers had the means and intention to avoid a systemic crisis; and 2. risks remained tilted to the downside and much relied on policy coordination and reactivity to help PRC economy navigate the multiple crunches that were occurring at the same time. The main domestic risk came from the real estate sector deteriorating further in a long lasting way, with spillover impact on other section of the PRC economy.

Date	Events
18 November 2021	Reuters reported that: 1. China Evergrande Group was selling the 18% stake in Heng Ten Group (0136.HK) at a loss of HKD8.5 billion; and 2. China Evergrande Group's wholly owned subsidiary entered into an agreement with Allied Resources Investment Holdings Ltd to sell 1.66 billion shares in Heng Ten Group at a discount of 24%.
22 December 2021	The World Bank expected PRC's real GDP growth to reach 8% in 2021 before moderating it to 5.1% in 2022 due to less favorable base effects, diminishing support from exports, and the government's continued deleveraging efforts. The bank warned an increased downside risks to PRC's economic outlook, including renewed domestic Covid outbreaks and a severe and prolonged downturn in the highly leveraged property sector.
31 December 2021	At least 16 real estate developers in the PRC were reported by Debtwire to have missed bond payment(s) since July 2020. These developers include China Aoyuan, China Evergrande Group, Kaisa Group and Fantasia Holdings Group.
17 January 2022	ABC News reported that in spite of PRC's economy growth by 8.1% in 2021, there was an abrupt slowdown in the second half of 2021 – growth sank to 4% in the fourth quarter of 2021 as compared to the fourth quarter of 2020. The slowdown in the second half of 2021 was largely attributable to tightening controls on borrowing by PRC real estate developers and financial difficulties facing them. Smaller developers have collapsed or defaulted on debts. Big developers (such as China Evergrande Group) were struggling to avoid defaulting on debts.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
February 2022	KPMG published, inter alia, the following observations in respect of the PRC economy: 1. domestic consumption remained weak and growth of retail sales growth slowed to 1.7% in December 2021, the slowest pace since August 2020. New Covid cases had led to tightened quarantine measures in some areas. With a series of major events taking place in 2022 such as the Beijing Winter Olympics, National People's Congress and the 20th Party Congress, KPMG expected pandemic control measures to remain tight in the near future. The recovery of domestic consumption was likely to be gradual and would be subject to pandemic evolvement; and 2. the real estate market continued to face pressure. New property sales fell 17% and property dropped 29% from a year ago in the fourth quarter of 2021. The PRC government applied some marginal easing measures to support the housing market, such as accelerating mortgage approvals and increasing bank loans to the property sector. However, KPMG expected the overall regulatory tone of "*housing is for living in, not for speculation*" to remain in place.
11 March 2022	Moody's commented that: (i) tight funding conditions and sizable refinancing needs for the rest of 2022 would continue to pressure developers' liquidity and increase the number of defaults, (ii) since the start of 2021, there had been defaults by 15 PRC developers, including 6 so far this year (iii) the defaults were largely driven by the deterioration in the funding access for the property sector that became prevalent in the second half of 2021. PRC developers continued to face trouble accessing fundings, particularly for companies with large offshore debt exposure and limited liquidity buffers.
29 March 2022	The Shanghai Municipal Health Commission in the PRC announced that parts of Shanghai would be under lockdown and undergo city-wide testing from 28 March 2022.
13 April 2022	Bloomberg reported that due to PRC's strict Covid policies and locking down of its economic hub, Shanghai, commodities import and transportation have all taken a hit.
12 May 2022	Starting from 12 May 2022, all public transport in Beijing were suspended and commute from suburbs was discouraged.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
8 June 2022	The World Bank published the following economic update in respect of PRC: 1. PRC's economy was projected to slow in 2022, due to the Covid outbreak and the prolonged lockdown in parts of the PRC from March to May in 2022. The World Bank projected PRC's real GDP growth to slow sharply to 4.3% in 2022 (0.8% points lower than projected in December 2021). Growth momentum was expected to rebound in the second half of 2022, helped by aggressive policy stimulus to mitigate the economic downturn; 2. risks to PRC's growth were unevenly balanced and downside risks prevail: the Covid outbreak could lead to more prolonged economic disruptions. Risk could also stem from persistent stress in the real estate sector with wider economy-wide consequences. If the Covid pandemic could be brought under control and domestic restrictions could be fully lifted, full year growth could be higher than projected; 3. in the short term, PRC was facing the dual challenge of balancing Covid mitigation with supporting economic growth: while PRC had the macroeconomic space to counter the growth slowdown, the dilemma facing decisions makers was how to make the policy stimulus effective, as long as mobility restrictions persist. Recurrent Covid outbreaks were adding to economic uncertainty, weighing on private investment and consumption and reducing the effectiveness of policy measures; and 4. there was a danger that PRC remained tied to the old playbook of boosting growth through debt-financed infrastructure and real estate investment. Such a growth model was ultimately unsustainable and the indebtedness of many corporates and local governments was already too high.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

PRC's property sector deteriorated further in recent months; and 5. in January to May 2022, property sales by floor area sank 16.8% from a year earlier in the PRC capital.
22 June 2022	Moody's downgraded Country Garden to Ba1, a non-investment grade.
30 June 2022	China Index Academy reported that sales of properties of the top 100 property developers in PRC during the first 6 months in 2022 declined by approximately 49% as compared to the first 6 months in 2021.
14 July 2022	The Standard reported that homebuyers have suspended mortgage payments on at least 100 projects in more than 50 cities and *"[t]he delayed projects "make up about 1% of China's total mortgage balance, according to Jefferies Financial Group Inc. Should every buyer default, that would lead to a RMB388 billion (USD58 billion) increase in non-performing loans."*

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
15 July 2022	BBC News reported that PRC's economy contracted sharply in the second quarter of this year as widespread coronavirus lockdowns hit businesses and consumers. GDP fell by 2.6% in the 3 months to the end of June from the previous quarter during which major cities across PRC, including the major financial and manufacturing centre Shanghai, were put into full or partial lockdowns. Many analysts did not expect a quick economic recovery for China as the government continued with its strict zero Covid approaching to slowing the spread of the coronavirus.
19 July 2022	South China Morning Post reported that the value of defaults in the PRC this year had already exceeded USD20,000 million which had already doubled the total defaults of 2021 of USD9,000 million. PRC property developers accounted for most of these defaults. South China Morning Post also citied: 1. deputy head of research at ICBC International – "*Uncertainties will linger on in the remainder of the year or even next year. Improvement may come, but will take a longer time to materialise*"; and 2. director of S&P Global Rating – "*While we believe the policy crackdown on China's property sector has bottomed, the down cycle has further to go, considering the rocky sales, weak sentiment and deteriorating financing conditions faced by developers*" and that "*We don't expect the housing market to recover any time soon. As such, the potential for default remains high*".
25 July 2022	NOWnews reported that: 1. oversupply by the PRC real estate developers left a large number of unfinished buildings in the PRC; 2. the deterioration of PRC real estate section might have an impact on PRC's financial system; and 3. PRC's annual fiscal gap may widen to RMB6 trillion.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

PRC would adhere to its rigid Covid strategy until 2023.
31 July 2022	At least 39 real estate developers in the PRC were reported to have missed bond payment(s) since July 2020. Creditors of some of these real estate developers commenced enforcement actions against them including by filing winding up petitions and appointing receivers.
1 August 2022	CNBC reported that the loss in confidence in PRC property sector could feed into a contagion that would further drag down the wider economy and that land sales, which made up a dominant portion of provincial government revenue, had fallen 30% in the past year. CNBC also quoted CreditSights that "*China's property market is in difficulty, still, despite all the easing measures and asset values are still falling, especially in the lower tier regions as well. So it's going to be very difficult to rebuild confidence*".

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
2 August 2022	Forbes reported that China Evergrande Group's creditors were facing even dimmer prospects of ever getting their money back, as PRC's real estate crisis spread and claims on the developer's assets continued to pile up. Cash-strapped property firms, including Evergrande, Kaisa, Sunac and others, had suspended construction on pre-sold homes across more than 90 Chinese cities.
7 August 2022	BBC News reported that PRC authorities cancelled all flights and trains from Sanya, known as "*China's Hawaii*" on Saturday, a day after 263 positive cases were confirmed. The lockdown of Sanya meant that travelers must now present negative PCR tests over seven days before being allowed to leave. PRC was the only major economy to still follow a "zero Covid" policy and there were concerns about the impact of the strict rules, including mass testing and local lockdowns, on the economy.
14 August 2022	Bloomberg reported that PRC's home prices fell for an 11th month in July 2022, underscoring how government relief efforts have been failing to control PRC's real estate crisis. According to Bloomberg, within 4 weeks in July 2022, more than 320 projects in about 100 cities were facing payment boycotts. Earlier in August 2022, more than a dozen developers in a central Chinese province sought help from their local governments to restore property sales.
18 August 2022	Country Garden announced that: 1. "*...as compared with the core net profit of approximately RMB15,200 million and the net profit attributable to shareholders of approximately RMB15,000 million for the half-year ended 30 June 2021, the Group is expected to record a core net profit ranging from approximately RMB4,500 million to RMB5,000 million and the net profit attributable to shareholders ranging from approximately RMB200 million to RMB1,000 million for the half year ended 30 June 2022*"; and

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
	2. "*the expected decrease in profit was primarily attributable to (i) the impact of the tough business environment in the real estate industry and the continued impact of the COVID-19 epidemic and (ii) the decrease in revenue recognized for properties sold caused by the downturn in the market and slowdown in construction progress*".
24 August 2022	Bloomberg reported that PRC was probing a number of executives at state owned real estate companies, signaling an expansion of the government's crackdown on misconduct. The latest probes could signal that authorities were widening the campaign to include the property sector, which was already suffering from slowdown that was hurting the world's second largest economy.
30 August 2022	Country Garden published its interim results for the half-year ended 30 June 2022, indicating a decrease of Country Garden's net profit by 91% from RMB22,420 million in the half-year ended 30 June 2021 to RMB1,907 million in the half-year ended 30 June 2022.
8 September 2022	Bloomberg reported that PBOC tried to revive the demand for property loans by cutting the 5-year loan prime rate by 15 basis points in August 2022 to 4.30% in response to drop in the overall bank lending to the real estate sector in PRC in the second quarter of 2022, which fell to USD7.8 trillion and was the first drop since 2011.
12 September 2022	The Economist reported that: 1. in December 2021, the "*three red lines*" caused a cash crunch for Evergrande and led to default by Evergrande on an offshore bond and other key players of the real estate industry were also at risk of default; 2. homebuyers have been refusing to pay for mortgage in fear of homes that would remain unfinished; 3. policymakers repeatedly cut mortgage rates since mid May 2022;

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
29 September 2022	PBOC announced that it would use policy tools to encourage special loan optimisation and provide guidance to banks to support financing needs to promote stable development of the real estate industry, while also protecting the legal rights of home buyers to promote a steady development in the housing market.
3 October 2022	Financial Times reported that Chinese policymakers implemented several measures to optimise the PRC's housing market, including launching bailout funds and special loans for developers, lowering interest rates for housing provident fund loans, and offering tax incentives for homebuyers. The measures were intended to encourage property purchases and support demand and were expected to boost the housing market in the fourth quarter.
19 October 2022	Wall Street Journal reported that: 1. PRC's residential housing sales fell 30% year-over-year in the first 8 months this year based on official data. According to Fitch, 81 privately owned developers reported a median year-over-year decline of 59% in contracted sales in the first half of 2022, compared with a 38% drop for 45 state-owned enterprises; and 2. because home buyers were worried of developers' ability to deliver apartments, they stayed away from many private developers, leading to a vicious cycle of even worse sales. Such developers then needed to decide between using dwindling cash flow to finish projects or repay debt.
31 October 2022	Fitch predicted that PRC's property market stress would continue to negatively impact construction activity, despite recent improvements in housing delivery data. Infrastructure projects were expected to be the key growth driver for the construction sector, with policy support likely to remain in place until 2023. While housing project delivery had increased in recent months, the floor area of newly started housing projects and housing projects under construction had been declining, indicating a sustained depression in the housing construction market.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
31 October 2022	Fitch downgraded Country Garden from "BB+" to "BB-".
9 November 2022	S&P Global Ratings downgraded Country Garden from "BB" to "B+" on 8 November 2022 and subsequently withdrew the ratings at Country Garden's request.
9 November 2022	Fitch affirmed Country Garden at "BB-" and withdrew the ratings on the same date for commercial reasons.
11 November 2022	Moody's downgraded Country Garden from "Ba2" to "Ba3".
17 November 2022	Fitch predicted that PRC's engineering and construction sector growth would slow down in 2023 due to a deceleration in fixed-asset investment and uncertainties surrounding economic and property policies. The credit profiles of privately owned developers were expected to be more vulnerable than state-owned enterprises which were better positioned to cope with challenges due to their market leadership, infrastructure exposure, diversification, and strong funding access. Fitch stated that engineering and construction companies were mostly state-owned enterprises that play an important role in building strategically critical infrastructure.
21 November 2022	Standard & Poor's reported that the rise of state-owned enterprises in PRC would transform the property development sector, making it less financially innovative and less engaged with offshore bond markets. The decline of privately owned developers was leading to a smaller and more stable property market dominated by state-owned enterprises, who would use leverage less aggressively and be less likely to cause price bubbles. Recent government policies would target state-owned enterprises and viable private entities, leaving less sound privately owned developers to fight for survival.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

Date	Events
23 November 2022	Fitch reported that: 1. broad-based monetary stimulus which helped the PRC property sector to recover from severe downturns in 2008 to 2009 and 2014 to 2015 may not be as effective to resolve the current crisis as the central government has remained committed to the "*homes are for living, not for speculation*" principle, which may have resulted in a more measured and selective approach in supporting the sector; 2. PRC developers had *"around USD52 billion of offshore public bonds and RMB500 billion of domestic capital market debt maturing and puttable in 2023".* The current difficult funding environment for PRC developers would likely persist; 3. market confidence remained fragile, and uncertainty surrounding developers' ability to deliver quality homes on schedule remained a primary market concern and the central government remained committed to the "*homes are for living, not for speculation*" principle; 4. the absence of a broad based stimulus could lead to more protracted housing recession especially across most lower tier cities; and 5. offshore capital markets were likely to remain closed for most private developers, while rising US rates meant that even the stronger state developers would unlikely be active issuers. Privately owned developer's inability to access the capital market had been a critical factor that perpetuated the current crisis of confidence within the sector.
25 November 2022	Reuters reported that PBOC planned to offer cheap loans to financial companies to purchase bonds issued by property developers and to provide funds to high quality developers, in an effort to restore market confidence in the heavily indebted property sector. The interest rate on PBOC loans could be much lower than the benchmark interest rate, and PBOC was also preparing a list of systemically important developers that would get wider support from the central government to shore up their balance sheets.

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

These measures would take effect immediately.
15 December 2022	According to data released by the PRC National Bureau of Statistics, new home prices across 70 major cities in PRC dropped 1.6% year-on-year in November 2022, with 51 of those cities reporting a month-on-month drop in prices.
6 January 2023	Reuters reported the following opinions from economists and analysis in respect of the PRC real estate industry: 1. UBS chief China economist – "*for 2023, we expect a sequential rebound in both sales and property new starts, as property policies continue to ease, and re-opening after Covid leads to a rebound in economic activity and household income*" and "*although property sales will likely be slightly weaker than in 2022, property will be much less of a drag on the economy than in 2022*"; 2. China Index Academy – "*new-home sales rose more than 20% over the three-day New Year holiday from a year-ago due to promotions, support policies and the gradual release of pent-up demand after high Covid-19 cases*"; and 3. a Reuters survey of 8 economists and analysts – "*property sales are expected to slip by a median of 8% this year, compared to a slump of around 25% in 2022, as economic activity, household income and consumer confidence are seen rebounding in the second half*".

Annexure 5 (Chronology of Key Events – PRC Real Estate Industry and Country Garden)

16 January 2023	Bloomberg reported that PBOC and PRC's largest bad-debt management firms were planning to lend up to RMB160,000 million (USD24,000 million) to high-quality developers in order to help them resolve and prevent relevant industry risks. PBOC would provide RMB80,000 million of loans at an annual interest of 1.75% to selected developers via asset management companies such as China Huarong Asset Management. PBOC would also encourage the asset management companies to provide the same amount from their own funds.

Annexure 7 (Illustrative Group Structure Chart – Existing Debt)

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

1. **Section E (Methodology and Liquidation Analysis)** of the Report describes, inter alia, that in any liquidation, the realisable value of a company's investment in subsidiaries usually depends on whether the subsidiaries have any surplus funds available for distribution to their shareholders after settling their liabilities and any costs associated with the realisation of these assets and any winding up costs. Capitalised terms used in the Report have the same meaning in this annexure.

2. This annexure describes the Liquidation Analysis for the 309 Offshore Subsidiaries prepared on the basis of the methodology and assumptions described in **Section E** of the Report. For the purposes of this Liquidation Analysis of the 309 Offshore Subsidiaries, we have also:

   2.1 where appropriate, used the same recovery rates as those adopted in the Liquidation Analysis of Country Garden for asset categories which are recorded in both Country Garden's and the 309 Offshore Subsidiaries' financial statements as there is no material difference between the circumstances surrounding Country Garden and the Offshore Subsidiaries;

   2.2 adopted recovery rates which we consider reasonable and appropriate for asset categories which are recorded in the 309 Offshore Subsidiaries' financial statements but not recorded in those of Country Garden, by reference to our observations and analysis set out in paragraphs 4 to 55 below; and

   2.3 assumed, as we did for the Liquidation Analysis of Country Garden, all liabilities would become due and payable in this analysis.

3. Set out in paragraphs 4 to 55 below are our observations and analysis of the recovery rates (in Low Recovery Case and High Recovery Case) of the 309 Offshore Subsidiaries' and 19 Onshore Obligors' assets and their liabilities by reference to the financial statements as at 31 December 2024. A summary of the asset recovery rates adopted in this analysis in relation to the ICA Guarantors, SSA Guarantors and Smart Insight International Limited is enclosed as **Tab 1 (Summary of Asset Recovery Rates)**.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

Cash and Cash Equivalents

4. In our experience, cash and cash equivalents are typically realisable in full.

5. Notwithstanding this, some of these cash and cash equivalents are pledged in favour of lenders to secure borrowings of the Group. In these circumstances, we have assumed that the relevant secured lenders will enforce against the pledged cash balances of the relevant Offshore Subsidiaries first and the estimated realisable value of these cash and cash equivalent will be reduced accordingly.

Restricted Cash

6. Restricted cash comprises:

   6.1 cash guarantees for project performance which will be released upon reaching project milestones, such as properties under development being structurally completed or receipt of certificates of completion;

   6.2 guarantee deposits which will be released upon repayment of the corresponding bank loans and/or mortgages;

   6.3 rental deposits which will likely be released at the end of the tenancy after the rental payments due by the Offshore Subsidiaries are settled or used to settle any outstanding rental payments; and

   6.4 restricted cash which requires consent to release from the third-party shareholders of joint ventures.

7. In any liquidation, the Group will unlikely be able to complete the property developments associated with performance guarantees or pay all outstanding liabilities due to lenders and landlords who in turn will unlikely release the associated restricted cash and guarantee deposits.

8. On this basis, we consider it reasonable to adopt a recovery rate of 40% to 60% for the restricted cash in this analysis.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

Trade and Other Receivables

9. Country Garden's management has advised that 99% of these trade and other receivables are associated with the real estate industry and in light of the circumstances surrounding the Group, the Offshore Subsidiaries will likely encounter delays and resistance in collecting these trade and other receivables and the associated realisable value will unlikely be higher than 20% to 30% of their book value in any liquidation.

Financial Assets

10. Financial assets comprise the Offshore Subsidiaries' equity investment in 1 publicly listed company, 9 private companies and 1 listed fund.

11. We have estimated the realisable value of these financial assets based on the following information and documents:

    11.1 quoted market prices for the publicly listed financial assets ("Quoted Price");

    11.2 valuation reports prepared by independent valuers ("Independent Valuation"); and

    11.3 realisable value estimated by the Group's management on the basis that the assets will be sold at market value ("Estimated Market Value").

12. We have calculated the estimated realisable value of the financial assets for the purpose of this analysis as follows:

    12.1 when the Quoted Price is available, we have adopted the Quoted Price as the estimated realisable value of the financial assets; and

12.2 when the Quoted Price is not available, we have referred to the Independent Valuation or the Estimated Market Value of the relevant financial assets and adopted a recovery rate of 50% to 70% to the market value in calculating the estimated realisable value.

13. A summary setting out these equity investments with estimated realisable value exceeding USD50 million as at 31 December 2024 and our observation and analysis in respect of their estimated realisable values is enclosed as **Tab 2 (Estimated Realisable Value – Financial Assets)**.

Inventories

14. The inventories comprise work-in-progress (93%), finished goods (6%) and raw materials (1%). Country Garden's management has advised that these inventories are associated with the real estate industry.

15. In light of the circumstances surrounding the Group, the Offshore Subsidiaries will likely encounter additional delay and/or resistance in identifying any interested parties to purchase these inventories and the associated realisable value will unlikely be higher than 20% to 30% of their book value in any liquidation.

Property Under Development

16. The properties under development represent incomplete development projects which likely require further work and capital to complete.

17. We have estimated the realisable value of these properties under development based on the following information and documents:

17.1 indicative offers available or sale and purchase agreements entered into by the Group with the potential buyers ("Offer");

17.2 Independent Valuation prepared by independent valuers for the Group on the basis that the development of the properties has not been completed;

17.3 realisable value estimated by the Group's management on the basis that the properties will be sold in any liquidation ("Estimated Liquidation Value"); and/or

17.4 Estimated Market Value .

18. The Offer or the Estimated Liquidation Value in respect of a property under development represents the consideration a buyer is willing to pay to acquire the property in the circumstances surrounding the Group and/or where the Offshore Subsidiary owning the property is in a liquidation. The Independent Valuation or the Estimated Market Value represents the market value of the property where the Offshore Subsidiary owning the property is not in any liquidation and will sell the property to a willing buyer in an arm's length transaction.

19. Further, empirical and academic studies in respect of sale of real estate properties under any liquidation indicate that a discount of approximately 20% on market value is generally expected in a liquidation. In light of the circumstances surrounding the Group as described in the Report, the prospects to identify interested parties to purchase these properties under development will also likely be limited.

20. On the basis described in the above 2 paragraphs, we have calculated the estimated realisable value of the properties under development for the purposes of this analysis as follows:

20.1 when an Offer is available, we have adopted the Offer as the estimated realisable value of the relevant properties under development;

20.2 when an Offer is not available (but an Independent Valuation is available), we have referred to the Independent Valuation as the market value of the relevant properties under development and adopted a recovery rate of 60% to 80% to the market value in calculating the estimated realisable value;

20.3 when both an Offer and an Independent Valuation are not available:

20.3.1 but the Estimated Liquidation Value is available, we have adopted it as the estimated realisable value of the relevant properties under development; and

20.3.2 but the Estimated Market Value is available, we have referred to it as the market value of the relevant properties under development and adopted a recovery rate of 60% to 80% to the market value in calculating the estimated realisable value.

21. A summary setting out the properties under development with estimated realisable value exceeding USD50 million as at 31 December 2024 and our observation and analysis in respect of their estimated realisable values is enclosed as **Tab 3 (Estimated Realisable Value – Properties Under Development)**.

Completed Properties Held for Sale

22. For the purposes of this analysis, we have adopted the same approach set out in paragraphs 17 to 20 above to estimate the realisable value of the completed properties held for sale.

23. A summary of the completed properties held for sale with estimated realisable value exceeding USD50 million as at 31 December 2024 and our observation and analysis in respect of their realisable value is enclosed as **Tab 4 (Estimated Realisable Value – Completed Properties Held for Sale)**.

Contract Assets

24. Contract assets primarily comprise the costs incurred by the Offshore Subsidiaries in selling their properties including legal fees, sales commission and other costs. These costs are capitalised by the Offshore Subsidiaries and they will be expensed when the associated properties are sold. We have assumed that they are not recoverable in this analysis.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

Prepaid Income Tax

25. The prepaid income tax primarily represents prepaid income tax of Offshore Subsidiaries located in Malaysia (48%), Indonesia (27%) and India (8%) and will be utilised to settle the relevant Offshore Subsidiaries' income tax liabilities for the future financial years. Any surplus after deducting these future income tax liabilities will be refunded to the relevant Offshore Subsidiaries.

26. In our experience, realisable value of this type of asset is usually minimal in any liquidation and we have therefore adopted a zero recovery rate for these assets in this analysis.

Deferred Income Tax Assets

27. Country Garden's annual report for the year ended 31 December 2024 indicates that the Group's deferred income tax assets are recognised for tax losses carried forward to the extent that the realisation of the related benefit through future taxable profits is probable.

28. In our experience, realisable value of this type of asset is usually minimal in any liquidation and we have therefore adopted a zero recovery rate in this analysis.

Property, Plant and Equipment (“PPE”)

29. The PPE primarily comprises factory buildings (75%), transportation equipment (17%) and machinery (7%).

30. In our experience, a discount of approximately 20% is generally expected for a sale of real estate properties on a liquidation basis. In light of the circumstances surrounding the Group, we have adopted a recovery rate of 30% to 50% for the factory buildings.

31. 97% of the Offshore Subsidiaries’ transportation equipment relates to an aircraft owned by Eagle Raise Limited, an Offshore Subsidiary. On 15 January 2025, Eagle Raise entered into a sales and purchase agreement to sell the aircraft to JAS Aero Trading DWC-LLC at

USD53.6 million. For the purposes of the Liquidation Analysis, we have adopted USD53.6 million as the estimated realisable value of this aircraft.

32. The remaining transportation equipment and machinery are unlikely to generate any meaningful realisable value in any liquidation.

Right-of-Use Assets

33. 99% of the right-of-use assets are land use rights and account for only 0.3% of the Offshore Subsidiaries' total assets. In our experience, the realisable value of this type of asset is usually minimal in any liquidation and we have therefore adopted a zero recovery rate in this analysis.

Intangible Assets

34. The intangible assets primarily comprise a trademark held by Forest City Branding Sdn Bhd and computer software and account for less than 0.002% of the Offshore Subsidiaries' total assets.

35. In our experience, realisable value of this type of assets is usually minimal in any liquidation and we have therefore adopted a zero recovery rate in this analysis.

Intercompany Receivables

36. These are intercompany balances due from Country Garden's subsidiaries. The realisable value of intercompany receivables in any liquidation depends largely on the corresponding subsidiaries' ability to distribute dividends to its intercompany creditors.

37. For the reasons set out in paragraphs 38 to 43 of the Report, the likelihood of any material realisation from the Onshore Subsidiaries being made available to Country Garden and/or its Offshore Subsidiaries (absent a material improvement of its financial and operational affairs) is remote. We have therefore adopted a zero recovery for any intercompany receivables due from the Onshore Subsidiaries.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

38. Among the 309 Offshore Subsidiaries, 212 entities had offshore intercompany receivables recorded in their financial statements as at 31 December 2024. Intercompany loans are classified as unsecured creditors. The recovery rates of these intercompany receivables are therefore the same as the recovery rates generated by the corresponding group entities to their respective unsecured creditors.

Prepayments

39. Country Garden's management has advised that the prepayments were made primarily for purchasing construction materials and services. In our experience, these prepayments are likely not recoverable in any liquidation.

Investment Properties

40. The Investment properties primarily comprise buildings leased to an international school in Malaysia held by Country Garden Pacificview Sdn Bhd account for only 0.2% of the Offshore Subsidiaries' total assets.

41. Empirical and academic studies in respect of sale of real estate properties under any liquidation indicate that a discount of approximately 20% on market value is generally expected on a liquidation basis. In light of the circumstances surrounding the Group as described in the Report, the prospects to identify interested parties to purchase these investment properties will also likely be limited. We have therefore adopted a recovery rate of 60% to 80% to completed properties in this analysis.

Investment in Subsidiaries

42. In any liquidation, the realisable value of a company's investment in subsidiaries usually depends on whether the subsidiaries will have any surplus funds available for distribution to their shareholders after settling their liabilities and any costs associated with the realisation of these assets and any winding up costs.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

43. On the basis of the Liquidation Analysis of the 309 Offshore Subsidiaries, the following 38 Offshore Subsidiaries will likely have surplus funds available for the holding companies after settlement of their liabilities and any costs associated with the realisation of these assets and any winding up costs:

No.	Offshore Subsidiaries	Surplus Funds		Shareholders (100% unless otherwise stated)
		Low Recovery Case USD	High Recovery Case USD	
38	Giant Light M&E Engineering Sdn Bhd	8,046,476	8,530,990	Country Garden Real Estate Sdn Bhd

44. The above table indicates that these 38 Offshore Subsidiaries will likely have surplus funds available for distribution to the holding companies after settlement of their liabilities and any costs associated with the realisation of these assets and any winding up costs. However, Country Garden will not receive any dividend distribution from the Offshore Subsidiaries through the shareholding structure of the Group in any liquidation because most of the intermediate holding companies are insolvent.

45. A summary of the estimated financial position of the ICA Guarantors, SSA Guarantors and Smart Insight International Limited in any liquidation prepared on the basis of the methodology, assumptions and observations and analysis set out in this annexure is enclosed as **Tab 5 (Summary of Estimated Financial Position)**.

Investment in Associates and Joint Ventures

46. 44% of this asset represents the Offshore Subsidiaries' investment in onshore associates and joint ventures. For the reasons set out in paragraphs 38 to 43 of the Report, no resources or distributions would be available from Offshore Subsidiaries' investment in onshore associates and joint ventures through the shareholding structure of the Group, to the Offshore Subsidiaries.

47. The realisable value of the remaining investments in associates and joint ventures, which are located offshore, relies heavily on whether the associates and joint ventures have any surplus assets for any possible distributions to the shareholders by reference to their dividend policy.

48. Since the relevant Offshore Subsidiaries do not have more than 50% shares in these associates and joint ventures, they (on their own) will unlikely be able to sell any of the assets of their respective associates and joint ventures without consent from the other shareholder. These Offshore Subsidiaries also unlikely have any control over the dividend policy of these associates and joint ventures.

Annexure 8 (Financial Position Analysis – Offshore Subsidiaries)

49. Further, in light of the circumstances facing the Group, the prospect of identifying potential buyers to purchase interests in any real estate related associates and joint ventures will likely be limited.

50. Accordingly, these associates and joint ventures will unlikely generate any material return to their shareholders. We have therefore adopted a recovery rate of 30% to 40% to the relevant Offshore Subsidiaries' investment in offshore associates and joint ventures in this analysis.

Cost of Liquidation

51. Cost of liquidation includes fees and expenses incurred by the liquidators and any receivers of secured assets and their legal and other advisors during the liquidation. This cost will typically be paid from realisation of assets by the liquidators and receivers before any distribution to the creditors. The magnitude of this cost will largely depend on the size and nature of the assets and other matters dealt with by the liquidators and receivers and the complexity of the winding up or receivership. However, in our experience, the winding up cost of an insolvent company in a real estate group will likely approximate 5% of the total realisable value of all assets.

Liabilities

52. We have assumed that all liabilities will become due and payable upon liquidation in this analysis. This analysis excludes any contractual and statutory liabilities which may be triggered by the liquidation of the Offshore Subsidiaries such as termination of any contracts or agreements entered into by the relevant Offshore Subsidiaries. Such damages could likely be very substantial and for this reason, the liabilities set out in this analysis are likely conservative.

Guaranteed Liabilities

53. This primarily represents the Group's liabilities which are guaranteed by the other Offshore Subsidiaries. These liabilities total USD15,792 million (including accrued interest). 23 Offshore Subsidiaries provided assets as security for these liabilities which primarily

comprise (i) completed properties held for sale, (ii) property under development, (iii) cash and cash equivalents (iv) financial assets and (v) investment in subsidiaries.

54. Our analysis indicates that the realisable value of the relevant secured assets will likely be sufficient to settle approximately USD158 million of these liabilities.

55. In our experience and opinion, the creditors will claim the remaining balance totalling USD15,634 million (including accrued interest) against both the guarantors and the borrowers in any liquidation.

Tab 2 (Estimated Realisable Value – Financial Assets)

Set out below is a summary of the equity investment with estimated realisable value exceeding USD50 million as at 31 December 2024 and our observation and analysis in respect of their realisable value:

No	Financial Assets	Owner	Estimated Realisable Value USD million	Kroll's Observations and Analysis
1	Shares in Ruipeng Pet Group Inc. ("Ruipeng") and associated put option (Private company)	Gracious Rhythm Limited	98 to 138	An independent valuer engaged by the Group estimated this financial asset's value at USD197 million as at 31 December 2024 after considering the minority nature of the financial asset. The associated put option can only be exercised when Ruipeng fails to complete listing on a stock exchange by 14 October 2025. Information in respect of the financial position of Ruipeng as at 31 December 2024 is not available and we are unable to ascertain whether (and to what extent) Ruipeng will repurchase these shares. In our experience, the relevant Offshore Subsidiary which owns the financial asset will also likely encounter additional difficulties in requesting Ruipeng or identifying interested parties to purchase this financial asset in any liquidation. We have therefore adopted a recovery rate of 50% to 70% to the market value estimated by the independent valuer in this analysis.
2	4.48% shares in Hong Kong Asia Medical Holding Limited (Private company)	Red Luck Ventures Limited	43 to 60	An independent valuer engaged by the Group estimated this financial asset's value at USD85 million as at 31 December 2024 after considering the minority nature of the financial asset. In our experience, the prospect of identifying any potential buyers interested in acquiring such a minority interest other than the majority shareholder(s) is remote and the only potential buyer is likely the majority shareholder(s). Information in respect of the financial position of Hong Kong Asia Medical Holding Limited as at 31 December 2024 is not available and we are unable to ascertain whether

4. The above table indicates that between 31 December 2024 and 30 June 2025:

4.1 the financial position of 10 Relevant Companies (including Country Garden) deteriorated as follows:

4.1.1 the total assets of 7 Relevant Companies decreased by RMB36,003 to RMB230,956,511 – in a larger extent than the decrease in their total liabilities of RMB4,140 to RMB57,693,896;

4.1.2 the total liabilities of 2 Relevant Companies (including Country Garden) increased by RMB65,906,706 to RMB3,297,127,787 – in a larger extent than the increase of their total assets of RMB34,842,108 to RMB1,915,791,255; and

4.1.3 the total assets of 1 Relevant Company decreased by RMB69,456,322 while its total liabilities increased by RMB111,906,829;

4.2 the financial position of 4 Relevant Companies has not changed as they did not have any assets or liabilities as at 31 December 2024 and 30 June 2025; and

4.3 the financial position of 8 Relevant Companies improved as follows:

4.3.1 the total liabilities of 5 Relevant Companies decreased by RMB57,155 to RMB52,686,949 – in a larger extent than the decrease in their total assets of RMB1,318 to RMB51,958,341;

4.3.2 the total assets of 1 Relevant Company increased by RMB51,859,520 while its total liabilities increased by RMB15,857,063;

4.3.3 the total assets of 1 Relevant Company remained unchanged while its total liabilities decreased by RMB455,517; and

4.3.4 the total assets of 1 Relevant Company increased by RMB5,720,168 and its total liabilities decreased by RMB1,329,345.

5. In other words, the above improvements of the 8 Relevant Companies' financial position are relatively insignificant as compared to their respective total liabilities.

6. In light of the above changes, the recovery available from the Relevant Companies (including Country Garden, ICA Guarantors, SSA Guarantors, Smart Insight and Wise Fame) to their creditors (including the Scheme Creditors under the Existing Debt) in a hypothetical liquidation of the Group as at 30 June 2025 will unlikely be higher than that as at 31 December 2024 (as set out in paragraph 94 of the Liquidation Analysis Report[1]). Accordingly, similar to the conclusion set out in paragraph 94 of the Liquidation Analysis Report, there will unlikely be any meaningful dividend to be declared by the Relevant Companies for their shareholders or holder of any share pledge against the equity interest in the Relevant Companies (including any holders of the ICA Share Security and SSA Share Security).

Summary of the Scheme Prepared by Country Garden and Its Advisors

4. A summary of the Scheme prepared by Country Garden and its financial and legal advisors is reproduced in paragraphs 5 to 9 below. The SCA shall be comprised of:

9.6.1 *USD 89 million to be paid in cash on RED (the "SCA Day 1 Payment"); and*

9.6.2 *USD 89 million to be paid in instalments over 2 years after RED by way of a loan (the "SCA Loan")".*

Methodology

10. The methodology adopted in the Recovery Analysis includes:

    10.1 reviewing the terms set out in the RSA;

    10.2 considering the Options available to each Scheme Creditor under the Scheme;

    10.3 calculating the future cash flow available to the Scheme Creditors under the Options on a present value basis as at the RED. Detailed steps undertaken by us in calculating the Estimated Return are set out in paragraph 11 below;

    10.4 estimating the estimated return available to the Scheme Creditors for every USD100 Scheme Consideration Claims by multiplying the present value of the Options calculated in paragraph 10.3 above by the Election % of each Option and by including the additional return associated with the Class 1 Indebtedness which is the summation of the present value of (i) all future interest and principal payment of the SCA Loan as at RED and (ii) the SCA Day 1 Payment; and

    10.5 calculating the Estimated Return by dividing the returns calculated in paragraph 10.4 above by the Scheme Claims of these creditors.

11. In implementing the above methodology, we have estimated the future cash flow available to the Scheme Creditors under each Option by calculating the following:

    Option 1

    11.1 the Tender Consideration payable to the Scheme Creditors on the RED;

    Option 2

    11.2 the value of Country Garden's shares to be given to the Scheme Creditors by converting the MCB(A) and selling these shares;

    Option 3

    11.3 (i) the interest and principal payment to the holders of the MTI and multiplying them by 33% and (ii) the value of Country Garden's shares to be given to the Scheme Creditors by converting the MCB(A), selling these shares and multiplying them by 67%;

Option 4

11.4 (i) the interest and principal payment to the holders of the LTI(A) and multiplying them by 65% and (ii) the value of Country Garden's shares to be given to the Scheme Creditors by converting the MCB(B), selling these shares and multiplying them by 35%; and

Option 5

11.5 the interest and principal payment to the holders of the LTI(B).

Key Assumptions

12. In implementing the above methodology, we have adopted the following key assumptions:

12.1 the situation surrounding Country Garden would not change substantially, including but not limited to the following:

12.1.1 the capital structure of Country Garden remains substantially unchanged save for the direct effect of the restructuring-related transactions;

12.1.2 the macroeconomic environment remains substantially similar;

12.1.3 the shares of the Company remain to be listed at all material times; and

12.1.4 the credit ratings of Country Garden's debt, and consequently, the cost of debt, remain constant at all material times.

12.2 the Reference Date will be 30 June 2025 and the RED will be 31 December 2025;

12.3 the present value of the Estimated Return available to the Scheme Creditors as at the RED are calculated by adopting a discount rate of either 10% or 25%.

These rates are estimated based on our experience and by considering the risk-free rate, company specific risk premium and country risk premium as follows:

Discount Rate = Risk-Free Rate + Beta of Country Garden x Market Risk Premium + Country Risk Premium

12.4 each of the Scheme Creditors will elect Option 1, Option 2, Option 3 and Option 5 in proportion to the maximum acceptance amounts of each Option and the total election by or allocation to Scheme Creditors of each of the Options will reach their respective maximum acceptance amounts. The remaining Scheme Claims will be allocated to Option 4. This means that 13%, 13%, 52%, 13% and 10% of the Scheme Creditors by value will elect Option 1, Option 2, Option 3, Option 4 and Option 5 respectively;

12.5 there will not be any returns from the CVR associated to the FC Project offered to the Scheme Creditors by the controlling shareholder of Country Garden. Country Garden has not been provided with any future business plans of its controlling shareholder with respect to the FC Project and does not have the information necessary to enable a meaningful estimation of return from these CVR and we have not been provided with any such information;

12.6 Country Garden will honour its payment obligations in respect of the Scheme Consideration to be issued, the Early-Bird RSA Fees, General RSA Fees and any work fees due to Scheme Creditors in connection with the proposed restructuring;

Tender Offer

12.7 every USD1 of Scheme Consideration Claims will be exchanged for USD0.1 cash on the RED;

MCBs

12.8 holders of MCBs will either voluntarily convert all MCBs on the RED or convert the MCBs to Country Garden's shares in accordance with the mandatory conversion schedules and then sell the conversion shares in the secondary market for cash on the same day of conversion:

12.9 the disposal price of the shares converted from MCBs in the secondary market is determined as follows:

12.9.1 voluntary conversion on RED: HKD0.45, which is the 3-month volume-weighted average trading price (VWAP) of Country Garden between May 2025 and August 2025; and

12.9.2 mandatory conversion between 31 December 2027 and 31 December 2034: HKD2.57, which is the 5-year VWAP of Country Garden between 2020 and 2024.

We have adopted the 3-month VWAP and 5-year VWAP in order to smooth out the impact of price fluctuations. These prices serve as market-based proxies for the fair value of the Country Garden shares on RED and post-RED which aligns with the respective MCBs conversion timelines.

12.10 the triggering events for the mandatory conversion of the MCBs will not occur. All MCBs will be converted into ordinary shares of Country Garden at either of the following conversion dates:

12.10.1 Scenario A: on the following dates:

16. Accordingly, set out below is a summary of the total Estimated Return (after adopting the Election %) available to the Scheme Creditors:

Scheme Creditors	Estimated Return (% or USD for every USD100 in principal amount of Scheme Claims)			
	Scenario A: All MCBs be converted in accordance with the mandatory conversion schedules		Scenario B: All MCBs be converted on RED	
	Discount rate at 10%	Discount rate at 25%	Discount rate at 10%	Discount rate at 25%
Class 1 Scheme Claims	53.9	29.8	32.4	21.1
Class 2 Scheme Claims	51.0	26.7	28.9	17.7

17. Further, the Scheme also offers eligible Consenting Creditors an additional return of 0.05% or 0.1% over principal amounts of their Scheme Claims from the General RSA Fee or Early-Bird RSA Fee respectively. The additional Estimated Return from the RSA Fee over the Scheme Claims ranges from 0.007% to 0.058%.

18. Set out below is a table comparing the Estimated Return offered by the Group to (i) the Scheme Creditors under the Scheme and (ii) creditors of the Group under the Liquidation Analysis, which assumes that the creditors will enforce against the assets pledged in their favour and make the Deficiency Claims against Country Garden and other offshore guarantors as unsecured creditors:

Comparison	Estimated Return to Scheme Creditors under the Scheme	Estimated Return to Unsecured Creditors from Country Garden and Other Offshore Guarantors under the Liquidation Analysis
Class 1	21.1% to 53.9%	9.3% to 11.9%
Class 2 – Existing Public Notes / Existing HKD Convertible Bonds / Ever Credit Bilateral Loan / ICBC Loan	17.7% to 51.0%	3.8% to 6.8%
Class 2 – Existing Loans (Onshore Credit Support)		2.8% to 5.1%[3]

[3] These returns are estimated after taking into account, inter alia, the estimates of the realisable value of the onshore assets being pledged in favour of the lenders under the Existing Loans (Onshore Credit Support). On the basis of the information available to us, the realisable value of these assets is likely sufficient to fully settle certain of the Existing Loans (Onshore Credit Support) and we have therefore assumed that the relevant lenders will not make any Deficiency Claims against Country Garden and/or any other relevant offshore guarantors under the Liquidation Analysis. In the circumstances where the actual realisable value of these onshore assets is insufficient to fully settle the relevant loans, certain of these lenders will likely make a Deficiency Claim against Country Garden and/or other relevant offshore guarantors. Given the magnitude of these Deficiency Claims is likely to be insignificant and will unlikely meaningfully increase the total unsecured liabilities of Country Garden or the other relevant offshore guarantors, the estimated return available to these Deficiency Claims under the Liquidation Analysis (if such Deficiency Claims were made) will likely approximate (i) 2.8% to 3.9% from Country Garden and (ii) 0.9% to 1.2% from the other offshore guarantors. In other words, if the pledged assets are sufficient to settle the Existing Loans (Onshore Credit Support), the relevant lenders will not make any Deficiency Claims and the estimated return from Country Garden and Other Offshore Guarantors will be zero.

and

IN THE MATTER OF section 670 of the Companies Ordinance, Chapter 622 of the Laws of Hong Kong

COUNTRY GARDEN HOLDINGS COMPANY LIMITED (碧桂園控股有限公司)

Unless otherwise defined herein, terms used in this Notice have the same meanings as defined in the explanatory statement (the "**Explanatory Statement**") relating to the proposed scheme of arrangement between Country Garden Holdings Limited (碧桂園控股有限公司) (the "**Company**") and the Scheme Creditors (as defined therein) under sections 670, 673 and 674 of the Hong Kong Companies Ordinance (the "**Scheme**"). For the avoidance of doubt, references to "**Scheme Creditors**" in this Notice shall exclude any Sanctioned Scheme Creditors, who are not entitled to vote in the Scheme Meetings and who are required to notify the Company of their status instead.

Copies of the Scheme, the Explanatory Statement and the Solicitation Packet are available for download from the Transaction Website (https://projects.sodali.com/countrygarden) subject to eligibility and registration.

NOTICE IS HEREBY GIVEN that by an order made on [•] (the "**Scheme Convening Order**"), the High Court of the Hong Kong Special Administrative Region (the "**Court**") has directed that:

(i) a meeting of Scheme Creditors (Class 1) (the "**Scheme Meeting (Class 1)**") be convened for the purpose of considering and, if thought fit, approving the Scheme (with or without modification, addition or condition approved or imposed by the Court); and

(ii) a meeting of Scheme Creditors (Class 2) (the "**Scheme Meeting (Class 2)**" and together with Scheme Meeting (Class 1), the "**Scheme Meetings**" and each a "**Scheme Meeting**") be convened for the purpose of considering and, if thought fit, approving Scheme (with or without modification, addition or condition approved or imposed by the Court).

Details of Scheme Meetings

The **Scheme Meeting (Class 1)** will be convened at **6:00 p.m. Hong Kong time on 22 October 2025**.

The **Scheme Meeting (Class 2)** will be convened at **8:00 p.m. Hong Kong time on 22 October 2025**.

Registration at the Scheme Meetings will commence at **5:00 p.m. Hong Kong time on 22 October 2025**.

Each Scheme Meeting will be held at the offices of Linklaters at 11th Floor Alexandra House, Chater Road, Hong Kong ("**Linklaters Hong Kong Office**"). The Scheme Meetings are each subject to any adjournment as may be necessary or appropriate (in which case any changes in arrangements relating to the Scheme Meetings shall be communicated to Scheme Creditors in advance of the Scheme Meetings (i) on the Transaction Website, (ii) by way of notice through the Clearing Systems, and (iii) by email to Scheme Creditors, Account Holders, Existing Lenders and Intermediaries, for whom the Information Agent has valid contact details).

Scheme Creditors (Class 1) and Scheme Creditors (Class 2) will be able to attend their respective Scheme Meeting either in person, by a duly authorised representative (if a corporation) or by proxy provided that an Account Holder Letter (and Custody Instruction), Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) has been validly submitted in relation to their relevant Existing Debts by the relevant deadlines.

Scheme Creditors do not have to personally attend the relevant Scheme Meeting in order to express their vote, provided that they validly complete and submit their Account Holder Letter (and Custody Instruction), Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) by the relevant deadlines, and appoint the Chairperson as their proxy, or a proxy other than the Chairperson (who attends the relevant Scheme Meeting on their behalf) for the purposes of expressing their vote.

Telephone and video conference facilities will also be made available to Scheme Creditors upon request to (i) the Information Agent at countrygarden@investor.sodali.com (for Scheme Creditors who are not Blocked Scheme Creditors); or (ii) the Blocked Scheme Creditor Tabulation Agent at agent.asia@glas.agency (for Blocked Scheme Creditors), in each case, at least forty-eight (48) hours before the relevant Scheme Meeting. Scheme Creditors will be sent instructions for dialing in via telephone or video conference upon providing the Information Agent or Blocked Scheme Creditor Tabulation Agent (as applicable) with satisfactory evidence of their identity and/or their authority (in the case of a corporation) to represent the Scheme Creditor.

For the avoidance of doubt, Scheme Creditors, their duly authorised representatives (if a corporation), or their proxies will not be able to cast their vote at the relevant Scheme Meeting should they only observe such Scheme Meeting via telephone or video conference rather than attend in person. Should Scheme Creditors wish to vote, they will need to attend the relevant Scheme Meeting in person or by proxy (including appointing the Chairperson as proxy) at the Linklaters Hong Kong Office. Scheme Creditors who have validly completed and submitted their Account Holder Letter, Lender Proxy Form or Blocked Scheme Creditor Form (as applicable) appointing the Chairperson as proxy or a proxy other than the Chairperson (who attends the relevant Scheme Meeting on their behalf) to express their vote, may in addition, request for the telephone and video conference facilities to observe such Scheme Meeting.

Completion of voting forms

Scheme Creditors may vote in person (or, if a corporation, appoint a duly authorised representative) or appoint the Chairperson as their proxy or appoint a proxy other than the Chairperson to attend and vote in their place. A Scheme Creditor should indicate whether it wishes to attend and vote at the relevant Scheme Meeting in person (or if a corporation, by a duly authorised representative), or to appoint a proxy to vote on its behalf at the relevant Scheme Meeting in (i) Part 2 (*Voting and Appointment of Proxy*) of the Account Holder Letter or Part 2 (*Voting and Appointment of Proxy*) of the Lender Proxy Form for Scheme Creditors who are not Blocked Scheme Creditors; or (ii) Part 2 (*Voting and Appointment of Proxy*) of the Blocked Scheme Creditor Form for Blocked Scheme Creditors (as applicable).

Scheme Creditors (who are not Blocked Scheme Creditors)

In order to vote on the Scheme and attend the relevant Scheme Meeting (in person, by a duly authorised representative (if a corporation) or by proxy), a Scheme Creditor must ensure that:

(i) in respect of the Existing Noteholders only, a Custody Instruction is submitted on its behalf by the **Custody Instruction Deadline** (being **5:00 p.m. Hong Kong time on 14 October 2025**) and in any event prior to submitting an Account Holder Letter (in accordance with the instructions set out in the Account Holder Letter and Solicitation Packet); and

(ii) the Account Holder Letter or the Lender Proxy Form (as applicable) has been validly completed and submitted on its behalf to and received by the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden) (in accordance with the instructions set out in the Account Holder Letter or the Lender Proxy Form, and Solicitation Packet) by no later than the **Voting Instruction Deadline** (being **5:00 p.m. Hong Kong time on 17 October 2025**).

Blocked Scheme Creditors

Blocked Scheme Creditors are Scheme Creditors that are not entitled, able or permitted (whether directly or through a custodian) to submit instructions or settle through the Clearing Systems as a result of any Applicable Sanctions affecting the Scheme Creditor or its custodian, and who do not have a sanctions license in respect of the Applicable Sanctions which would allow that Scheme Creditor to freely deal in the Scheme Consideration Entitlement and submit instructions or settle through the Clearing Systems.

In order to vote on the Scheme and attend the relevant Scheme Meeting (in person, by a duly authorised representative (if a corporation) or by proxy), a Blocked Scheme Creditor must ensure the Blocked Scheme Creditor Form (including the required supporting evidence to establish their identity, status as a Scheme Creditor and the value of their holding) has been validly completed and submitted to and received by the Blocked Scheme Creditor Tabulation Agent via email at agent.asia@glas.agency (in accordance with the instructions set out in the Blocked Scheme Creditor Form and Solicitation Packet) by no later than the **Voting Instruction Deadline** (being **5:00 p.m. Hong Kong time on 17 October 2025**).

Registration prior to Scheme Meetings

Registration at the Scheme Meetings will commence at **5:00 p.m. Hong Kong time on 22 October 2025**.

If the appropriate personal identification and authorisation evidence is not produced, that person may not be permitted to attend, or vote at, the relevant Scheme Meeting. If a Scheme Creditor appoints the Chairperson as its proxy, there is no need for the Chairperson to take the Account Holder Letter, the Lender Proxy Form or the Blocked Scheme Creditor Form (as applicable) to the relevant Scheme Meeting.

Chairperson of Scheme Meetings

Pursuant to the Scheme Convening Order, the Court has appointed Mat Ng, a Managing Director of Grant Thornton Recovery & Reorganisation Limited, and/or Nigel Trayers, a Managing Director of Grant Thornton Recovery & Reorganisation Limited, or such other representative of Grant Thornton Recovery & Reorganisation Limited to act as the Chairperson of the Scheme Meetings. The results of the Scheme Meetings will be made available on the Transaction Website.

The failure of any Beneficiary to complete any applicable "know your customer" or other similar check of the Holding Period Trustee or the relevant bank shall not prejudice any distribution to any other Beneficiary.

(iii) In the event that a Blocked Scheme Creditors Allocation Instruction is issued in respect of any cash payments or distributions made in respect of the New

Notes Entitlement and Blocked MCB (B) Entitlement of the relevant Eligible Blocked Beneficiaries, the Holding Period Trustee has no obligation to transfer such cash payments or distributions by the Holding Period Expiry Date in accordance with Clause 2.4.1 (*Request for allocation of Ineligible Creditor Share*) if the amount of cash in the account holding the Trust Assets is not sufficient to make such transfer, distribution or other dealing.

(iv) For the avoidance of doubt, the Holding Period Trustee is not responsible for checking or monitoring the status (including, but not limited to, the Applicable Sanctions) of the Blocked Scheme Creditor, and shall be entitled to rely upon the instructions provided by the Blocked Scheme Creditor Tabulation Agent or the Company.

2.5 Treatment of unclaimed Trust Assets following the Holding Period Expiry Date

2.5.1 In the event that any Beneficiary does not satisfy any of the conditions set out in Clause 2.3.1 (*Request for distribution of Ineligible Creditor Share*) or Clause 2.4.1 (*Request for allocation of Ineligible Creditor Share*) prior to the Bar Time, all of the rights of such Beneficiary under this Deed shall be extinguished and no New Notes Entitlement or MCB (B) Entitlement under this Deed or any other benefit under the Scheme (unless already distributed to an Unadmitted Scheme Creditor) shall be issued or distributed.

2.5.2 The Holding Period Trustee shall, as soon as reasonably practicable after the Holding Period Expiry Date, transfer, without encumbrance, the legal and beneficial interests in any unvested Trust Assets held by the Holding Period Trustee to the Company (at the Company's sole cost), and, for the avoidance of doubt, each Beneficiary shall have no entitlement to any legal, beneficial or vested interest in any unvested Trust Assets or any right or claim against the Company, the Holding Period Trustee or any other person. Such remaining unvested Trust Assets shall be transferred to the Company (or its nominee) and delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

2.6 Fractional entitlements

Subject in each case to a minimum denomination of USD1,000, if the principal amount of New Notes and/or MCB (B) to be delivered to, or on behalf of, an Eligible Beneficiary as part of its New Notes Entitlement and MCB (B) Entitlement resulting from any calculation made in accordance with the Scheme and this Deed is not an integral multiple of USD1.00, that amount shall be rounded down to the nearest integral multiple of USD1.00 (in excess of USD1,000). All entitlements to the New Notes and MCB (B) under the Scheme and this Deed which would have arisen, but for this Clause 2.6, shall be disregarded and no cash or other consideration will be due in respect of any such fractional entitlement.

2.7 Winding up of Holding Period Trust

If the Holding Period Trustee determines that all the Trust Assets have been distributed to the relevant Beneficiaries and/or transferred to the Company in accordance with this Deed, then the Holding Period Trust shall be automatically deemed to be wound up.

2.8 Blocked Scheme Creditors

If, following the date of this Deed, a Scheme Creditor who was not previously a Blocked Scheme Creditor becomes a Blocked Scheme Creditor prior to the Holding Period Expiry Date, the Holding Period Trustee shall be entitled to treat such Scheme Creditor as a Blocked Scheme Creditor.

2.9 Representations and warranties

The Holding Period Trustee represents and warrants to the Beneficiaries as follows:

2.9.1 it is a company duly incorporated and validly existing under the laws of its jurisdiction of incorporation;

2.9.2 its memorandum and articles of association give it power and all necessary corporate or other authorities have been obtained and all necessary action taken, for it and, if applicable, the duly authorised attorney acting on its behalf, to enter into this Deed and the transactions contemplated hereby;

2.9.3 subject to the Legal Reservations, this Deed constitutes its valid, legal, binding and enforceable obligations; and

2.9.4 neither the signing and the delivery of this Deed nor the performance of any of the transactions contemplated hereby does or will contravene or constitute a default under or cause to be exceeded any limitation in its powers or any law or regulation by which it or any of its assets is bound or affected or its memorandum and articles of association.

3 Reliance and duties of the Holding Period Trustee

3.1 Instructions

3.1.1 The Holding Period Trustee hereby agrees in favour of the Beneficiaries that it shall deal with the Trust Assets only as contemplated by this Deed, each Allocation Instruction delivered to it by the Company and/or each Blocked Scheme Creditor Allocation Instruction delivered to it by the Company. The Holding Period Trustee's duties under this Deed are solely mechanical and administrative in nature and the Holding Period Trustee may request clarification of any instruction or obligation placed upon it pursuant to this Deed from the Company or any Beneficiary (as applicable) as to whether, and in what manner, the Holding Period Trustee should act or refrain from acting (and shall not be liable). The Holding Period Trustee may refrain from acting unless it receives any such instructions or clarification that it has requested.

3.1.2 Wherever any provision of this Deed refers to the Holding Period Trustee agreeing or consenting to any request, agreement or action, or where any reference is made to any action being taken at the direction of the Holding Period Trustee, such references shall be deemed to refer to the Holding Period Trustee agreeing, consenting or acting, as applicable, on, or pursuant to, the instructions of the Beneficiaries acting together. The Holding Period Trustee shall, unless instructed or directed otherwise, act (or refrain from acting) having regard to the interests of the Beneficiaries in accordance with its fiduciary duty as a bare trustee of the Holding Period Trust. For the avoidance of doubt, the Holding Period Trustee, when acting on an Allocation Instruction delivered to it by the Company and/or a Blocked Scheme

Creditor Allocation Instruction delivered to it by the Company, shall be deemed to be acting or refraining from acting having regard to the interests of the Beneficiaries in accordance with its fiduciary duty as a bare trustee of the Holding Period Trust.

3.1.3 The Holding Period Trustee shall only act in accordance with an Allocation Instruction and: (i) has no discretion in the making or withholding of any distribution to a Beneficiary; and (ii) is entitled to rely upon: (a) each Allocation Instruction and each Blocked Scheme Creditor Allocation Instruction delivered to it by the Company; (b) each Holding Period Account Holder Letter and each Holding Period Lender Proxy Form delivered to the Information Agent and each Holding Period Blocked Scheme Creditor Form delivered to the Blocked Scheme Creditor Tabulation Agent; and (c) all other information provided to it by the Company or the Information Agent and/or the Blocked Scheme Creditor Tabulation Agent on behalf of the Company without the need for further investigation or enquiry, and shall have no liability to any person for acting on the basis of such information.

3.1.4 The Beneficiaries and the Company shall promptly make available to the Holding Period Trustee such information and records and provide such assistance as the Holding Period Trustee may request for the purposes of performing its functions as the Holding Period Trustee under this Deed.

3.2 Rights attaching to the Trust Assets

The Holding Period Trustee shall not, and shall not be entitled to, exercise any voting rights, any put option rights, any conversion rights or any other rights conferred by or under or arising out of the Trust Assets or any instrument constituting the Trust Assets held in the Holding Period Trust.

3.3 Duties of the Holding Period Trustee

3.3.1 The Holding Period Trustee is not obliged to review or check the adequacy, accuracy or completeness of any document that it forwards to another party.

3.3.2 The Holding Period Trustee shall have only those duties, obligations and responsibilities expressly specified in this Deed and the Scheme (and no others shall be implied).

3.4 Rights and information

The Holding Period Trustee may:

3.4.1 rely on any representation, communication, notice or document believed by it to be genuine, correct and appropriately authorised and received by it in the course of performing its obligations under this Deed (including, for the avoidance of doubt, an Allocation Instruction or a Blocked Scheme Creditors Allocation Instruction); and

3.4.2 rely on a certificate from any person (including, for the avoidance of doubt, an Allocation Instruction or a Blocked Scheme Creditors Allocation Instruction):

(i) as to any matter of fact or circumstance which might reasonably be expected to be within the knowledge of that person; or

(ii) to the effect that such person approves of any particular dealing, transaction, step, action or thing,

as sufficient evidence that that is the case and, in the case of Clause 3.4.2, may assume the truth and accuracy of that certificate.

3.5 Advice

The Holding Period Trustee may act and rely on the opinion, advice or services of, or information obtained from, any lawyer, accountant, tax advisers, surveyors or other professional advisers or experts and shall not be responsible to anyone for any damage, costs or loss occasioned by so acting or relying, whether such advice is obtained or addressed to a member of the Group or the Holding Period Trustee. Any such opinion, advice or information may be sent or obtained by letter, fax or any other method and the Holding Period Trustee shall not be liable to anyone for acting in good faith on any opinion, advice or information purporting to be conveyed by such means, even if it contains some error or is not authentic.

3.6 Agent

The Holding Period Trustee may act in relation to this Deed, the Scheme and the Trust Assets through its officers, employees and agents and shall not:

3.6.1 be liable for any error of judgement made by any such person; or

3.6.2 be bound to supervise, or be in any way responsible for any loss incurred by reason of misconduct, omission or default on the part of, any such person,

unless such error or such loss was directly caused by the Holding Period Trustee's gross negligence, wilful misconduct or fraud.

4 Confidentiality

4.1.1 Notwithstanding any other provision of the Scheme, the Explanatory Statement or this Deed, the Holding Period Trustee is not obliged to disclose to any other person: (i) any confidential information; or (ii) any other information if the disclosure would, or might in its reasonable opinion, constitute a breach of any law or regulation or a breach of a fiduciary duty.

4.1.2 Unless this Deed expressly specifies otherwise, the Holding Period Trustee may not disclose to any other party any information that it has received as trustee under this Deed.

4.1.3 Notwithstanding any other provision of this Deed, the Holding Period Trustee is authorised to disclose information concerning the Holding Period Trust and the Trust Assets to its subsidiaries and affiliates and other providers of services as may be necessary in connection with its performance of this Deed (including, but not limited to, lawyers and accountants for the Holding Period Trustee), or to the extent ordered to do so by a court of competent jurisdiction, and may disclose to third parties that it is providing the services contemplated by this Deed.

5 Action contrary to any law

Notwithstanding any other provision of this Deed or the Scheme to the contrary, the Holding Period Trustee is not obliged to do or omit to do anything if it would, or might in its reasonable opinion, constitute a breach of:

5.1.1 any law or regulation or a breach of a fiduciary duty or duty of confidentiality; or

5.1.2 internal policies regarding anti-money laundering checks, and the Holding Period Trustee may do anything which is, in its reasonable opinion, necessary to comply with any such law, regulation, directive or internal policies regarding anti-money laundering checks.

6 No responsibility to spend own funds

Notwithstanding any provision of any Restructuring Document, this Deed or the Scheme to the contrary, the Holding Period Trustee is not obliged to expend or risk its own funds or otherwise incur any financial liability in the performance of its duties, obligations or responsibilities or the exercise of any right, power, authority or discretion. Subject to the terms of the engagement letter entered into between the Company and the Holding Period Trustee, the Company agrees to be responsible for and shall pay all fees, costs and expenses properly incurred by the Holding Period Trustee in connection with any and/or all actions taken or which shall be taken pursuant to this Deed or the Scheme.

7 Liability

7.1 Exclusion of Liability

Without limiting Clause 7.2 (*Proceedings*) (and without prejudice to any other provision of the Scheme and the Explanatory Statement excluding or limiting the liability of the Holding Period Trustee), the Holding Period Trustee (both in its capacity as the Holding Period Trustee and as legal holder of the Trust Assets) will not be liable for:

7.1.1 any damages, costs or losses to any person, any diminution in value or any liability whatsoever arising as a result of taking or not taking any action under or in connection with this Deed, the Scheme or the Explanatory Statement, unless directly caused by its gross negligence, wilful misconduct or fraud;

7.1.2 exercising or not exercising any right, power, authority or discretion given to it by, or in connection with, this Deed, the Scheme or any other deed, arrangement or document entered into, made or executed in anticipation of, under or in connection with the Scheme, unless directly caused by its gross negligence, wilful misconduct or fraud; and/or

7.1.3 without prejudice to the generality of Clauses 7.1.1 and 7.1.2, any damages, costs, losses, any diminution in value or any liability whatsoever arising as a result of:

(i) any act, event or circumstance not reasonably within its control; or

(ii) the general risks of investment in, or the holding of assets in, any jurisdiction,

including (in each case and without limitation) such damages, costs, losses, diminution in value or liability arising as a result of: nationalisation, expropriation or other governmental actions; any regulation, currency restriction, devaluation or fluctuation; market conditions affecting the execution or settlement of transactions or the value of assets; breakdown, failure or malfunction of any third party transport, telecommunications, computer services or systems; natural disasters or acts of God; war, terrorism, insurrection or revolution; or strikes or industrial action.

7.2 Proceedings

No party (other than the Holding Period Trustee) may take any proceedings against any officer, employee or agent of the Holding Period Trustee in respect of any claim it might have against the Holding Period Trustee, or in respect of any act or omission of any kind by that officer, employee or agent in relation to this Deed or the Scheme.

7.3 Limitation

Without prejudice to any provision of this Deed or the Scheme excluding or limiting the liability of the Holding Period Trustee arising under or in connection with this Deed or the Scheme, the liability of the Holding Period Trustee shall be limited to the amount of actual loss which has been finally judicially determined to have been suffered, but without reference to any special conditions or circumstances known to the Holding Period Trustee, unless such loss or damage was directly caused by the Holding Period Trustee's gross negligence, wilful misconduct or fraud. To the extent permitted by any applicable law, in no event shall the Holding Period Trustee be liable for any loss of profits, goodwill, reputation, business opportunity or anticipated saving, or for special, punitive, indirect or consequential damages, whether or not the Holding Period Trustee has been advised of the possibility of such loss or damages.

8 Resignation of the Holding Period Trustee

8.1 The Holding Period Trustee may resign at any time by giving 10 Business Days' prior written notice to the Company. The Company must promptly notify the Beneficiaries of any such resignation. If any Holding Period Trustee gives notice of retirement at the time when it is the sole Holding Period Trustee, that Holding Period Trustee and/or the Company shall, as soon as reasonably practicable, appoint another suitably qualified person as its successor.

8.2 The Holding Period Trustee's resignation notice shall only take effect upon:

8.2.1 the appointment of a successor who agrees to be bound by the terms of the Scheme and this Deed; and

8.2.2 the transfer of all the Trust Assets to that successor.

8.3 The Company must promptly notify the Beneficiaries of the appointment of a successor once effective.

8.4 The retiring Holding Period Trustee shall make available to the successor Holding Period Trustee such documents and records and provide such assistance as the successor Holding Period Trustee may reasonably request for the purposes of performing its functions as Holding Period Trustee under the Scheme or this Deed.

8.5 Upon the appointment of a successor, the retiring Holding Period Trustee shall be discharged from any further obligation (other than its obligation under Clause 8.4) but shall remain entitled to the benefit under Clause 7 (*Liability*) of this Deed and clause 9 (*Releases and waivers*) and clause 10 (*Exclusion of liability and indemnity*) of the Scheme. Its successor

shall have the same rights and obligations as it would have had if such successor had been an original party to this Deed.

9 Miscellaneous provisions

9.1 Custodians and nominees

The Holding Period Trustee may appoint and pay any person to act as a custodian or nominee on any terms in relation to any asset of the trust as the Holding Period Trustee may determine, including, for the purpose of depositing with a custodian this Deed, any Trust Assets or any document relating to the trust created under this Deed. Provided the Holding Period Trustee exercises reasonable care in selecting any custodian or nominee appointed under this Clause 9.1 to the extent permitted by any applicable law, the Holding Period Trustee shall not be responsible for any loss, liability, expense, demand, cost, claim or proceedings incurred by reason of the misconduct, omission or default on the part of such custodian or nominee appointed by it under this Clause 9.1.

9.2 Delegation by the Holding Period Trustee

9.2.1 Whenever it considers it expedient in the interests of the Beneficiaries, the Holding Period Trustee may, in the conduct of its trust business under this Deed and using reasonable care in such delegation, delegate by power of attorney or otherwise to any person for any period, all or any right, power, authority or discretion vested in it in its capacity as such.

9.2.2 Subject to the Holding Period Trustee exercising reasonable care in such delegation, that delegation may be made upon any terms and conditions (including the power to sub-delegate) and subject to any restrictions that the Holding Period Trustee (as the case may be) may, in its discretion, consider expedient in the interests of the Beneficiaries.

9.2.3 Provided the Holding Period Trustee exercises reasonable care in selecting any delegate or sub-delegate appointed under this Clause 9.2, to the extent permitted by any applicable law, the Holding Period Trustee shall not be in any way responsible for any damages, costs or losses incurred by reason of any misconduct, omission or default on the part of any such delegate or sub-delegate appointed under this Clause 9.2.

9.3 Additional Holding Period Trustees

9.3.1 The Holding Period Trustee may at any time appoint (and subsequently remove) any suitably qualified person to act as an additional co-trustee jointly with it, subject to such a trustee agreeing to be bound by the terms of this Deed and the Scheme:

(i) if it considers that appointment to be in the interests of the Beneficiaries;

(ii) for the purposes of conforming to any legal requirement, restriction or condition applicable to the Holding Period Trustee in a jurisdiction in which a particular act is to be performed; or

(iii) for obtaining or enforcing any judgment or any provision of this Deed in any jurisdiction,

and the Holding Period Trustee shall give prior notice to the Company and the Beneficiaries of that appointment.

9.3.2 Any co-trustee so appointed shall have the rights, powers, authorities and discretions (not exceeding those given to the Holding Period Trustee under or in connection with this Deed and the Scheme) and the duties, obligations and responsibilities that are given or imposed by the instrument of appointment.

9.3.3 The Holding Period Trustee may remove any person appointed as an additional Holding Period Trustee by written notice to the Company, the Beneficiaries and that person.

9.3.4 If there are more than two Holding Period Trustees, the majority of them acting together will be competent to perform the Holding Period Trustee's functions.

9.4 Acceptance of title

The Holding Period Trustee shall be entitled to accept without enquiry, and shall not be obliged to investigate, any right and title that any Beneficiary may have to any of the Trust Assets and shall not be liable for, or bound to require any person to remedy, any defect in its right or title.

- **Holding Period Expiry Date**: being one Business Day prior to the date falling six calendar months after the Restructuring Effective Date (or, if such date is not a Business Day, the next Business Day after that date), or such later date as the Company may designate, in its sole discretion acting reasonably, as notified by the Company to Scheme Creditors in writing.

A validly completed Holding Period Account Holder Letter must be submitted to and received by the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden) by the Bar Time in order for a Scheme Creditor to receive its share of the relevant Trust Assets pursuant to the Holding Period Trust Deed.

If a Scheme Creditor is not an Eligible Person (i.e. a person who can make the securities law confirmations, sanctions law confirmations and undertakings set out in Annex B to the Distribution Confirmation Deed), it may designate a Designated Recipient who is an Eligible Person to receive its share of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed. Any Designated Recipient appointed by a Scheme Creditor must hold its account with the same Account Holder as that Scheme Creditor.

Each Unadmitted Scheme Creditor should establish its entitlement to its share of the relevant Trust Assets in accordance with the terms of the Holding Period Trust Deed and its entitlement to receive its Option 1 Valid Bid Entitlement in accordance with the Scheme. If a Beneficiary does not or fails to establish a valid entitlement to any part of the Trust Assets in accordance with the terms of the Holding Period Trust Deed by the Bar Time, all of the rights of that Beneficiary under the Holding Period Trust Deed shall be extinguished, and no New Notes Entitlement and/or MCB (B) Entitlement under the Holding Period Trust Deed or any other benefit under the Scheme shall be issued or distributed. If an Unadmitted Scheme Creditor does not or fails to establish a valid entitlement to the Option 1 Valid Bid Entitlement in accordance with the Scheme before the Bar Time, that relevant Unadmitted Scheme Creditor shall not receive or be entitled to any Option 1 Valid Bid Entitlement under the Scheme.

After the Holding Period Expiry Date, the Holding Period Trustee will, as soon as reasonably practicable, transfer the legal and beneficial interests in any unvested Trust Assets held by the Holding Period Trustee to the Company or to any person nominated by the Company to be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

Submission of Custody Instructions

Any Scheme Creditor that procures the submission of a Holding Period Account Holder Letter by the Bar Time to establish its entitlement to its share of the relevant Trust Assets must first ensure that its Account Holder, **prior to delivering the Holding Period Account Holder Letter to the Information Agent via the Scheme Portal (https://portal.sodali.com/countrygarden)**, submits a Custody Instruction via the relevant Clearing System prior to the Holding Period Custody Instruction Deadline and includes in the Holding Period Account Holder Letter the relevant Custody Instruction Reference Number. A Holding Period Account Holder Letter that does not contain a valid Custody Instruction Reference Number will not be valid for the purpose of receiving any Scheme Consideration Entitlement in accordance with the Holding Period Trust Deed and the Scheme. The Company reserves the right to reject any such Holding Period Account Holder Letter.

Online Holding Period Account Holder Letter Form

You will receive acknowledgement of the transmission of your submission. Original paper copies of the Holding Period Account Holder Letter are not required and should not be sent to the Information Agent.

A separate Holding Period Account Holder Letter, Distribution Confirmation Deed and, if applicable, Designated Recipient Form must be completed in respect of each separate beneficial holding of interest in the Existing Notes.

You are strongly advised to read the Explanatory Statement, the Scheme, and, in particular, the Solicitation Packet in Appendix 4 (*Solicitation Packet*) and the Holding Period Trust Deed at Appendix 9 (*Form of Holding Period Trust Deed*) to the Explanatory Statement before you complete this Holding Period Account Holder Letter. The Solicitation Packet contains detailed information on the various options contained in this Holding Period Account Holder Letter.

With respect to the Scheme Creditors under the Scheme, this Holding Period Account Holder Letter and any non-contractual obligations arising out of or in relation to this Holding Period Account Holder Letter shall be governed by, and interpreted in accordance with, the laws of Hong Kong. The courts of Hong Kong shall have exclusive jurisdiction to settle any disputes which may arise out of or in connection with this Holding Period Account Holder Letter. By submission of the Holding Period Account Holder Letter to the Information Agent via the Scheme Portal, the Scheme Creditor irrevocably submits to the jurisdiction of such courts and waives any objections to proceedings in such courts on the ground of venue or on the ground that the proceedings have been brought in an inconvenient forum.

Additionally, "**Beneficiary**" has the meaning given to it in the Holding Period Trust Deed and references to a document being "**validly completed**" are to a document containing all such information as it is required to contain on its face, and being duly executed and/or delivered in the manner contemplated by that document (including, if applicable, as a deed), and submitted together with or in connection with the taking of any other required procedural steps.

Beneficiaries, who are Blocked Scheme Creditors, must use this Holding Period Blocked Scheme Creditor Form to: (a) register details of their interest in the Existing Notes; and (b) allow them to be allocated their share of the relevant Trust Assets, in accordance with the terms of the Holding Period Trust Deed, Blocked Escrow Agreement and the Scheme. 2. However, Blocked Scheme Creditors are invited to complete this Holding Period Blocked Scheme Creditor Form, together with sufficient evidence to allow the Blocked Scheme Creditor Tabulation Agent to reliably establish their identity, status as a Scheme Creditor and the value of their holding.

Upon expiry of the Blocked Escrow Period, and subject to any action necessary to ensure compliance with Applicable Sanctions by the Company or the Blocked Escrow Agent, any Blocked Assets which remain unable to be distributed, transferred or paid to any Blocked Scheme Creditors in strict compliance with all Applicable Sanctions will be released and returned to the Company without encumbrance in accordance with the terms of the Blocked Escrow Agreement. The rights of the applicable Blocked Scheme Creditor under the Scheme and the Blocked Escrow Agreement to any Blocked Assets (including any rights of Blocked Scheme Creditors in respect of such Blocked Scheme Consideration Entitlement) shall be extinguished upon the receipt of such Blocked Assets

by the Company. Such Blocked Assets received by the Company shall be delivered as soon as reasonably practicable thereafter to the New Notes Administrative Parties and/or MCB Administrative Parties (as applicable) to be cancelled forthwith.

Following an increase in the principal amount of the Notes, the Notes will bear interest on the increased principal amount thereof, from (and including) and after the applicable Interest Payment Date on which payment of the relevant PIK Interest is made; *provided*,

In all cases, Individual Definitive Notes delivered in exchange for any Global Note or beneficial interests therein will be registered in the names, and issued in any approved denominations, requested by the relevant clearing system.

(f) Global Notes shall in all respects be entitled to the same benefits under this Indenture as Individual Definitive Notes authenticated and delivered hereunder.

(g) The Person in whose name any Note is registered at the close of business on any Interest Record Date with respect to any Interest Payment Date shall be entitled to receive the interest, if any, payable on such Interest Payment Date notwithstanding any transfer or exchange of such Note subsequent to the Interest Record Date and prior to such Interest Payment Date.

2.5 Registration, Transfer and Exchange

(a) The Notes are issuable only in registered form. The Company shall keep at the office or agency to be maintained for the purpose as provided in Clause 4.2 a register (the "**Register**") in which, subject to such reasonable regulations as it may prescribe, it shall register, and shall register the transfer of, Notes as provided in this Clause. The name and address of the registered holder of each Note and the amount of each Note shall be recorded in the Register. Such Register shall be in written form in the English language or in any other form capable of being converted into such form within a reasonable time. Such Register shall be open for inspection by or on behalf of the Trustee on Business Days at all reasonable times.

(b) Upon due presentation for registration of transfer of any Note, the Company shall execute and the Trustee, the Registrar or an Authenticating Agent shall authenticate and deliver in the name of the transferee or transferees a new Note or Notes in authorized denominations for a like aggregate principal amount.

(c) A Holder may register the transfer of a Note only by written application to the Registrar stating the name of the proposed transferee and otherwise complying with the terms of this Indenture. No such registration of transfer shall be effected until, and such transferee shall succeed to the rights of a Holder only upon, final acceptance and registration of the transfer by the Registrar in the Register. Prior to the registration of any transfer by a Holder as provided herein, the Company, the Trustee and any agent of any of them shall treat the Person in whose name the Note is registered as the owner thereof for all purposes whether or not the Note shall be overdue, and neither the Company, the Trustee, nor any such agent shall be affected by notice to the contrary. Furthermore, any Holder of a Global Note shall, by acceptance of such Global Note, agree that transfers of beneficial interests in such Global Note may be effected only through a book-entry system maintained by the Holder of such Global Note (or its agent) and that ownership of a beneficial interest in the Note shall be required to be reflected in a book entry. At the option of the Holder, Notes may be exchanged for other Notes of any authorized denomination and of a like aggregate principal amount, upon surrender of the Notes to be exchanged to the Registrar. When Notes are presented to the Registrar with a request to register the transfer or to exchange them for an equal principal amount of Notes of other authorized denominations, the Registrar shall register the transfer or make the exchange as requested if the requirements for such transactions set forth herein are met. To permit registrations of transfers and exchanges, the Company and each Subsidiary Guarantor shall execute and the Trustee, the Registrar or an Authenticating Agent shall authenticate Notes at the Registrar's request.

(d) Every Note presented or surrendered for registration of transfer or for exchange shall (if so required by the Company or the Registrar) be duly endorsed, or be

accompanied by a written instrument of transfer duly executed, by the Holder thereof or his attorney duly authorized in writing in a form satisfactory to the Company and the Registrar.

(e) The Company may require payment of a sum sufficient to cover any tax or other governmental charge that may be imposed in connection with any exchange or registration of transfer of Notes (other than any such transfer taxes or other similar governmental charge payable upon exchanges). No service charge to any Holder shall be made for any such transaction.

(f) The Company shall not be required to exchange or register a transfer of (1) any Notes for a period of 15 days next preceding the first mailing of notice of redemption of Notes to be redeemed or (2) any Notes called or being called for redemption.

(g) All Notes issued upon any transfer or exchange of Notes shall be valid obligations of the Company, evidencing the same debt and entitled to the same benefits under this Indenture, as the Notes surrendered upon such transfer or exchange.

(h) Claims against the Company for the payment of principal of, premium, if any, or interest on the Notes shall become void unless presentation for payment is made as required in this Indenture within a period of six years.

2.6 Book-entry Provisions for Global Notes

(a) Ownership of beneficial interests in the Global Notes (the "**book-entry interests**") will be limited to persons that have accounts with Euroclear and/or Clearstream or persons that may hold interests through such participants. Book-entry interests will be shown on, and transfers thereof will be effected only through, records maintained in book-entry form by Euroclear and Clearstream and their participants.

(b) Except as provided in Clause 2.4(e), the book-entry interests will not be held in definitive form. Instead, Euroclear and/or Clearstream will credit on their respective book-entry registration and transfer systems a participant's account with the interest beneficially owned by such participant. The laws of some jurisdictions may require that certain purchasers of securities take physical delivery of such securities in definitive form. The foregoing limitations may impair the ability to own, transfer or pledge book-entry interests.

(c) So long as the Notes are held in global form, the Common Depositary (or its nominee) will be considered the sole holder of the Global Notes under this Indenture and "holders" of book-entry interests will not be considered the owners or "Holders" of Notes. As such, participants must rely on the procedures of Euroclear and Clearstream and indirect participants must rely on the procedures of the participants through which they own book-entry interests in order to transfer their interests in the Notes or to exercise any rights of Holders under this Indenture. In considering the interests of Holders or beneficial holders of the Notes while the Global Notes are held on behalf of, or registered in the name of any nominee for, a clearing system, the Trustee may have regard to any certificate, report or any other information provided to it by such clearing system or its operator as to the identity (either individually or by category) of its accountholders with entitlements to the Note and may consider such interests as if such accountholders were the holders of the Notes represented by the Global Notes. The Trustee may call for any certificate or other document to be issued by the relevant clearing system as to the principal amount of

Note evidenced by the Global Notes standing to the account of any person. Any such certificate or other document shall be conclusive and binding for all purposes. The Trustee shall not be liable to any Holders or beneficial holders of the Notes, the Company, the Subsidiary Guarantors or any other person by reason of having accepted as valid or not having rejected any certificate or other document to such effect purporting to be issued by the relevant clearing system and subsequently found to be forged or not authentic or not to be correct.

(d) None of the Company, the Subsidiary Guarantors, the Trustee or any of the Agents will have any responsibility or be liable for any aspect of the records relating to the book-entry interests. The Notes are not issuable in bearer form.

2.7 Mutilated, Defaced, Destroyed, Stolen and Lost Notes

(a) The Company shall execute and deliver to the Paying and Transfer Agent Individual Definitive Notes in such amounts and at such times as to enable the Paying and Transfer Agent to fulfill its responsibilities under this Indenture and the Notes.

(b) In case any Note shall become mutilated, defaced or be apparently destroyed, lost or stolen, upon the request of the registered holder thereof, the Company in its discretion may execute, and, upon the written request of Authorized Officers of the Company, the Trustee, the Registrar or an Authenticating Agent shall authenticate and deliver, a new Note (with each Subsidiary Guarantee endorsed thereon), bearing a number not contemporaneously outstanding, in exchange and substitution for the mutilated or defaced Note, or in lieu of and substitution for the Note so apparently destroyed, lost or stolen. In every case the applicant for a substitute Note shall furnish to the Company, the Subsidiary Guarantors and the Trustee, and any agent of the Company, the Subsidiary Guarantors or the Trustee such security and/or indemnity as may be required by each of them to indemnify and defend and to save each of them harmless and, in every case of destruction, loss or theft, evidence to their satisfaction of the apparent destruction, loss or theft of such Note and of the ownership thereof. Upon the issuance of any substitute Note, such Holder, if so requested by the Company, the Subsidiary Guarantors or the Trustee, or any agent thereof, shall pay a sum sufficient to cover any stamp duty, tax or other governmental charge that may be imposed in relation thereto and any other expenses (including the fees and expenses of the Trustee or its agent(s)) connected with the preparation and issuance of the substitute Note. Each of the Trustee and the Registrar is hereby authorized, in accordance with and subject to the foregoing conditions in this paragraph (b), to authenticate and deliver, or cause the authentication and delivery of, from time to time, Notes (with each Subsidiary Guarantee endorsed thereon) in exchange for or in lieu of Notes (with each Subsidiary Guarantee endorsed thereon), respectively, which become mutilated, defaced, destroyed, stolen or lost. Each Note delivered in exchange for or in lieu of any Note shall carry all the rights to principal, premium (if any), interest (including rights to accrued and unpaid interest and Additional Amounts) which were carried by such Note.

(c) Mutilated or defaced Individual Definitive Notes must be surrendered before replacements will be issued. In the event any such mutilated, defaced, destroyed, lost or stolen certificate has become or is about to become due and payable, the Company in its discretion may, instead of issuing a new certificate, pay such Notes.

2.8 Further Issues

Subject to the covenants described in Clause 4, the Company may, from time to time, without notice to or the consent of the Holders, create and issue Additional Notes having the same terms and conditions as the Notes (including the benefit of the Subsidiary Guarantees) in all respects (or in all respects except for the issue date, issue price and the first payment of interest on them and, to the extent necessary, certain temporary securities law transfer restrictions) (a "**Further Issue**") so that such Additional Notes may be consolidated and form a single class with the previously outstanding Notes and vote together as one class on all matters with respect the Notes; *provided*, that the issuance of such Additional Notes shall then be permitted under Clause 4.5. In connection with any such issuance of Additional Notes, the Company shall deliver an Officers' Certificate to the Trustee directing the Trustee or the Registrar or an Authenticating Agent to authenticate and deliver Additional Notes in an aggregate principal amount specified therein and the Trustee or the Registrar or an Authenticating Agent, in accordance with such Officers' Certificate, shall authenticate and deliver such Additional Notes.

2.9 Cancellation of Notes; Disposition Thereof.

All Notes surrendered for payment, redemption, registration of transfer or exchange, if surrendered to the Company or any agent of the Company or the Trustee, shall be delivered to the Paying and Transfer Agent for cancellation or, if surrendered to the Paying and Transfer Agent, shall be cancelled by it; and no Notes shall be issued in lieu thereof except as expressly permitted by any of the provisions of this Indenture. The Paying and Transfer Agent shall dispose of cancelled Notes held by it in accordance with its customary procedures, and deliver a certificate of disposition to the Company and the Subsidiary Guarantors. If the Company shall acquire any of the Notes, such acquisition shall not operate as a redemption or satisfaction of the indebtedness represented by such Notes unless and until the same are delivered to the Paying and Transfer Agent for cancellation.

2.10 Common Code; ISIN Numbers

The Company in issuing the Notes may use "Common Code" or "ISIN" numbers (if then generally in use), and, if so, the Trustee and the Paying and Transfer Agent shall use for the Notes "Common Code" or "ISIN" numbers in notices as a convenience to Holders; *provided*, that any such notice may state that no representation is made as to the correctness of such numbers either as printed on the Notes or as contained in any notice and that reliance may be placed only on the other identification numbers printed on the Notes, and any such redemption shall not be affected by any defect in or omission of such numbers. The Company shall promptly notify the Trustee and the Paying and Transfer Agent of any change in the "Common Code" or "ISIN" numbers.

2.11 Defaulted Interest

Any interest on any Note that is payable, but is not punctually paid or duly provided for, on the dates and in the manner and at the rate provided in the Notes and this Indenture (all such interest herein called "**Defaulted Interest**") shall forthwith cease to be payable to the Holder on the relevant Interest Record Date by virtue of having been such Holder, and such Defaulted Interest may be paid by the Company, at its election in each case, as provided in paragraph (a) or (b) of this Clause 2.11:

(a) The Company may elect to make payment of any Defaulted Interest to the Persons in whose names the Notes are registered at the close of business on a special record date for the payment of such Defaulted Interest, which shall be fixed in the following manner. The Company shall notify the Trustee, the Paying and Transfer Agent and

the Holders in writing of the amount of Defaulted Interest proposed to be paid on each Note, the special record date and the date of the proposed payment at least five Business Days prior to the special record date. In addition, the Company shall fix the special record date for the payment of such Defaulted Interest, such date to be not more than 15 calendar days and not less than one Clearing System Business Day prior to the proposed payment date. Notice of the proposed payment date of such Defaulted Interest and the special record date therefor having been so given, such Defaulted Interest shall be paid to the Persons in whose names the Notes are registered at the close of business on such special record date and shall no longer be payable pursuant to paragraph (b) of this Clause 2.11.

(b) The Company may make payment of any Defaulted Interest on the Notes in any other lawful manner not inconsistent with the requirements of any securities exchange on which the Notes may be listed, and upon such notice as may be required by such exchange, if, after notice given by the Issuer to the Holders, the Paying and Transfer Agent and the Trustee of the proposed payment date pursuant to this paragraph (b), such manner of payment shall be deemed reasonably practicable.

Subject to this Clause 2.11, each Note delivered under this Indenture upon registration of transfer of or in exchange for or in lieu of any other Note shall carry the rights to interest accrued and unpaid, and to accrue, which were carried by such other Note.

2.12 Scheme Creditor CVR Payments

Following the receipt by the Trustee of any amounts from the Collateral Agent in respect of payments under the Scheme Creditor CVR Deed in accordance with the Common Security Intercreditor Agreement (each, a "**CVR Recovery**"), the Trustee shall onward send such CVR Recovery to the Paying and Transfer Agent who shall notify the Holders in writing of the amount of such CVR Recovery, the special record date and the date of the proposed payment of such CVR Recovery to the Holders. In addition, the Paying and Transfer Agent shall fix the special record date for the payment of such CVR Recovery, such date to be not more than 15 calendar days and not less than one Clearing System Business Day prior to the proposed payment date. Notice of the proposed payment date of such CVR Recovery and the special record date therefor having been so given, such CVR Recovery shall be distributed by the Paying and Transfer Agent on a *pro rata* basis to the Persons in whose names the Notes are registered at the close of business on such special record date. For the avoidance of doubt, the payment of a CVR Recovery shall not affect, or be deemed to be any payment of, the amount of principal, premium or accrued and unpaid interest outstanding under the Notes.

3 Redemption

3.1 Redemption for Taxation Reasons

(a) The Notes may be redeemed, at the option of the Company or a Surviving Person with respect to the Company, as a whole but not in part, upon giving not less than 10 Business Days' nor more than 30 Business Days' notice to the Holders and upon reasonable written notice in advance of such notice to Holders to the Trustee and the Paying and Transfer Agent (which notice shall be irrevocable), at a redemption price equal to 100% of the principal amount thereof, together with accrued and unpaid interest (including any Additional Amounts), if any, to the date fixed by the

Company or the Surviving Person, as the case may be, for redemption (the "**Tax Redemption Date**") if, as a result of:

(b) any change in, or amendment to, the laws (or any regulations or rulings promulgated thereunder) of a Relevant Jurisdiction affecting taxation; or

(c) any change in the existing official position or the stating of an official position regarding the application or interpretation of such laws, regulations or rulings (including a holding, judgment or order by a court of competent jurisdiction),

(d) which change or amendment becomes effective (i) with respect to the Company or any initial Subsidiary Guarantor, on or after the Original Issue Date, or (ii) with respect to any Future Subsidiary Guarantor or Surviving Person, on or after the date such Future Subsidiary Guarantor or Surviving Person becomes a Future Subsidiary Guarantor or Surviving Person, with respect to any payment due or to become due under the Notes or this Indenture, the Company, a Surviving Person or a Subsidiary Guarantor, as the case may be, is, or on the next Interest Payment Date would be, required to pay Additional Amounts, and such requirement cannot be avoided by the taking of reasonable measures by the Company, a Surviving Person or a Subsidiary Guarantor, as the case may be; *provided*, that no such notice of redemption shall be given earlier than 90 days prior to the earliest date on which the Company, a Surviving Person or a Subsidiary Guarantor, as the case may be, would be obligated to pay such Additional Amounts if a payment in respect of the Notes were then due.

(e) Prior to the mailing of any notice of redemption of the Notes pursuant to paragraph (a) of Clause 3.1, the Company, a Surviving Person or a Subsidiary Guarantor, as the case may be, shall deliver to the Trustee and the Paying and Transfer Agent at least 10 Business Days but not more than 30 Business Days before a redemption date:

(f) an Officers' Certificate stating that such change or amendment referred to in paragraph (a) of Clause 3.1 has occurred, describing the facts related thereto and stating that such requirement cannot be avoided by the Company, a Surviving Person or a Subsidiary Guarantor, as the case may be, taking reasonable measures available to it; and

(g) an Opinion of Counsel or an opinion of a tax consultant, in either case of recognized standing with respect to tax matters of the Relevant Jurisdiction, stating that the requirement to pay such Additional Amounts results from such change or amendment referred to in paragraph (a) of Clause 3.1.

(h) The Trustee shall accept such certificate and opinion as sufficient evidence of the satisfaction of the conditions precedent described above, without further verification in which event it shall be conclusive and binding on the Holders.

(i) Any Notes that are redeemed shall be cancelled.

3.2 Mandatory Redemption

(a) [On each of the following dates (each a "**Mandatory Redemption Date**"), the Company shall redeem (such redemption, a "**Mandatory Redemption**") at least the minimum principal amount of the Notes set forth below, adjusted in accordance with paragraph (b) of Clause 3.2 (the "**Minimum Principal Amount**"), at a redemption

(a) in the case of a redemption in satisfaction of the Company's obligations under Clause 4.18, the Company redeems each Scheme Instrument other than the MCBs in an amount equal to the aggregate amount to be used in such redemption multiplied by the Original Scheme Instrument Ratio of such Scheme Instrument; and

3.5 Selection and Notice

(a) The Company shall give not less than 10 Business Days' nor more than 30 Business Days' notice to the Holders of any redemption pursuant to this Clause 3 and, upon reasonable written notice in advance of such notice to the Holders, to the Trustee and the Paying and Transfer Agent. If less than all of the Notes are to be redeemed at any time, the Trustee shall select Notes for redemption as follows:

(i) if the Notes are listed on any recognized securities exchange or are held through a clearing system, in compliance with the requirements of the principal national securities exchange on which the Notes are listed (if any) or the requirements of the clearing system; or

(ii) if the Notes are not listed on any recognized securities exchange, on a *pro rata* basis.

(c) If the Company elects to redeem the Notes pursuant to the optional redemption provisions of Clause 3.3 hereof, it must furnish to the Trustee, at least 10 Business Days but not more than 30 Business Days before a redemption date, an Officers' Certificate setting forth:

(iv) the redemption price.

(d) Neither the Trustee nor any of the Agents shall be responsible for calculating or verifying any calculations of any amount payable under any notice of redemption and shall not be liable to the Holders or any other person for not doing so.

3.6 Method and Effect of Redemption

(a) The notice of redemption referred to in this Clause 3 shall identify the Notes to be redeemed and shall include or state the following:

(i) the redemption date;

(ii) the redemption price, including the portion thereof representing any accrued interest;

(iii) if the Notes are in certificated form, the place or places where Notes are to be surrendered for redemption;

(iv) if the Notes are in certificated form, Notes called for redemption must be so surrendered in order to collect the redemption price;

(v) on the redemption date the redemption price will become due and payable on Notes called for redemption, and interest on Notes called for redemption will cease to accrue on and after the redemption date; and

(vi) if any Note contains a ISIN or Common Code number, no representation is being made as to the correctness of the ISIN or Common Code number either as printed on the Notes or as contained in the notice of redemption and that the Holder should rely only on the other identification numbers printed on the Notes.

(b) Once notice of redemption is sent to the Holders, Notes called for redemption become due and payable at the redemption price on the redemption date, and upon surrender of the Notes called for redemption, the Company shall redeem such Notes at the redemption price. On and after the redemption date, interest shall cease to accrue on the Notes or portions of them called for redemption.

4 Covenants

4.1 Payment of Notes

(a) The Company shall pay the principal of, any premium on (if any) and interest, and Additional Amounts, if any, on the Notes on the dates and in the manner provided in

the Notes and this Indenture. Not later than 10:00 a.m. (London time) one Business Day prior to the Interest Payment Date, the due date of any principal on any Notes, the Tax Redemption Date pursuant to Clause 3.1, the Mandatory Redemption Date pursuant to Clause 3.2 or the redemption date pursuant to Clause 3.3 or Clause 3.4, or in the case of any payment of interest or principal due on the Original Issue Date, not later than 5:00 p.m. (London time) on the Original Issue Date (each a "**Payment Date**"), the Company shall pay or cause to be paid to the account of the Paying and Transfer Agent, in such coin or currency of the United States of America as at the time of payment shall be legal tender for the payment of public and private debts, in immediately available funds, an amount which shall be sufficient to pay the aggregate amount of interest, principal or premium or all of such amounts, as the case may be, becoming due in respect of the Notes on such Payment Date; *provided*, that if the Company or any Affiliate of the Company is acting as Paying and Transfer Agent, it shall, on or before each due date, segregate and hold in a separate trust fund for the benefit of the Holders a sum of money sufficient to pay such amounts until paid to such Holders or otherwise disposed of as provided in this Indenture. In respect of the redemption date pursuant to Clause 3.4, the Company shall be deemed to have instructed the Trustee to transfer on the Payment Date the Subordination Recovery to the account of the Paying and Transfer Agent. In each case the Company shall promptly notify the Trustee and the Paying and Transfer Agent of its compliance with this paragraph. The Company shall procure that, before 10:00 a.m. (London time) on the second Business Day before each Payment Date, the bank effecting payment for it confirms by authenticated SWIFT message to the Paying and Transfer Agent the payment instructions relating to such payment. The Paying and Transfer Agent shall not be bound to make any payment until it is satisfied that it has actually received the full amount due to be paid to it pursuant to this Clause 4.1.

(b) An installment of principal, premium or interest shall be considered paid on the date due if the Paying and Transfer Agent, other than the Company or any Affiliate of the Company, holds on that date money designated for and sufficient to pay the installment. If the Company or any Affiliate of the Company acts as Paying and Transfer Agent, an installment of principal or interest shall be considered paid on the due date only if paid to the Holders.

(c) The Paying and Transfer Agent (which will include the Company or any Affiliate of the Company if it is acting as Paying and Transfer Agent) shall make payments in respect of the Notes represented by the Global Notes by wire transfer of immediately available funds to the accounts specified by the Holders of the Global Notes. Each Holder, by accepting the Notes and the Subsidiary Guarantees on the Original Issue Date, acknowledges that there may be delays of up to five Business Days in the payment by the Paying and Transfer Agent of interest and principal due on the Original Issue Date. With respect to Individual Definitive Notes, the Trustee (or the Paying and Transfer Agent) shall make all payments by wire transfer of immediately available funds to the accounts specified by the Holders thereof or, if no such account is specified, by mailing a check to each Holder's registered address; *provided*, that if the Company or any Affiliate of the Company is acting as Paying and Transfer Agent, it shall make such payment to the Holders as specified above.

(d) At least three Business Days prior to the first Payment Date and, if there has been any change with respect to the matters set forth in the below-mentioned certificate,

at least three Business Days prior to each Payment Date thereafter, the Company shall furnish the Paying and Transfer Agent with an Officers' Certificate instructing the Paying and Transfer Agent as to any circumstances in which payments of principal of, or interest or premium on, the Notes due on such date shall be subject to deduction or withholding for, or on account of, any Taxes described in Clause 4.23 and the rate of any such deduction or withholding. If any such deduction or withholding shall be required and if the Company therefore becomes liable to pay Additional Amounts, if any, pursuant to Clause 4.23 then at least three Business Days prior to each Payment Date, the Company shall furnish the Trustee with a certificate which specifies the amount required to be withheld on such payment to Holders of the Notes, and the Additional Amounts, if any, due to the Holders of the Notes, and at least one Business Day prior to such Payment Date, shall pay to the Paying and Transfer Agent such Additional Amounts, if any, as shall be required to be paid to such Holders.

(e) Whenever the Company appoints a Paying and Transfer Agent for the purpose of paying amounts due in respect of the Notes, it shall cause such Paying and Transfer Agent to execute and deliver an instrument substantially in the form of Exhibit F hereof in which such agent shall agree with the Company, among other things, to be bound by and observe the provisions of this Indenture (including the Notes). The Company shall cause each Paying and Transfer Agent to execute and deliver an instrument in which such Paying and Transfer Agent shall agree:

(i) that it will hold all sums received by it as such Paying and Transfer Agent for the payment of the principal of, or premium or interest on, the Notes (whether such sums have been paid to it by or on behalf of the Company or by any other obligor on the Notes or the Subsidiary Guarantees) in trust for the benefit of the Holders or of the Trustee;

(ii) that it will give the Trustee written notice of any failure by the Company (or by any other obligor on the Notes or the Subsidiary Guarantees) to make any payment of the principal, or premium or interest on, the Notes and any other payments to be made by or on behalf of the Company under this Indenture, when the same shall be due and payable; and

(iii) that it will pay any such sums so held in trust by it to the Trustee upon the Trustee's written request at any time during the continuance of a failure referred to in paragraph (ii) above.

Anything in this Clause 4.1 to the contrary notwithstanding, the Company may at any time, for the purpose of obtaining a satisfaction and discharge of this Indenture or for any other reason, pay or cause to be paid to the Trustee all sums held in trust by the Company or any Paying and Transfer Agent hereunder, as required by this Clause 4.1 and such sums shall be held by the Trustee upon the trusts herein contained. If the Paying and Transfer Agent shall pay all sums held in trust to the Trustee as required under this Clause 4.1, the Paying and Transfer Agent shall have no further liability for the money so paid over to the Trustee.

Anything in this Clause 4.1 to the contrary notwithstanding, the agreements to hold sums in trust as provided in this Clause 4.1 are subject to the provisions of Clause 8.4.

4.2 Maintenance of Office or Agency

(a) The Company shall maintain an office or agency where Notes may be surrendered for registration of transfer or exchange or for presentation for payment and where notices and demands to or upon the Company in respect of the Notes and this Indenture may be served.
