Section D – Risks								
D.2	Key risks that are specific to the Issuer:	The Securities are general unsecured obligations of the Issuer. Investors in the Securities are exposed to the risk that the Issuer could become insolvent and fail to make the payments owing by it under the Securities.						

		<p>The Issuer is exposed to a variety of risks that could adversely affect its results of operations and financial condition, including, among others, those described below:</p> <p>All references to the Issuer set out below are describing the consolidated businesses carried out by Credit Suisse Group AG ("CSG") and its subsidiaries (including the Issuer) and therefore should also be read as references to CSG.</p> <p>Liquidity risk:</p> <ul style="list-style-type: none"> • The Issuer's liquidity could be impaired if it is unable to access the capital markets, sell its assets, its liquidity costs increase, or as a result of uncertainties regarding the possible discontinuation of benchmark rates. • The Issuer's businesses rely significantly on its deposit base for funding. • Changes in the Issuer's ratings may adversely affect its business. <p>Market risk:</p> <ul style="list-style-type: none"> • The Issuer may incur significant losses on its trading and investment activities due to market fluctuations and volatility. • The Issuer's businesses and organisation are subject to the risk of loss from adverse market conditions and unfavourable economic, monetary, political, legal, regulatory and other developments in the countries in which it operates. • The Issuer may incur significant losses in the real estate sector. • Holding large and concentrated positions may expose the Issuer to large losses. • The Issuer's hedging strategies may not prevent losses. • Market risk may increase the other risks that the Issuer faces. <p>Credit risk:</p> <ul style="list-style-type: none"> • The Issuer may suffer significant losses from its credit exposures. • Defaults by one or more large financial institutions could adversely affect financial markets generally and the Issuer specifically. • The information that the Issuer uses to manage its credit risk may be inaccurate or incomplete. <p>Risks relating to CSG's strategy:</p> <ul style="list-style-type: none"> • CSG and its subsidiaries including the Issuer may not achieve all of the expected benefits of its strategic initiatives.
--	--	--

		<p>Risks from estimates and valuations:</p> <ul style="list-style-type: none"> • Estimates are based upon judgement and available information, and the Issuer's actual results may differ materially from these estimates. • To the extent the Issuer's models and processes become less predictive due to unforeseen market conditions, illiquidity or volatility, its ability to make accurate estimates and valuations could be adversely affected. <p>Risks relating to off-balance sheet entities:</p> <ul style="list-style-type: none"> • If the Issuer is required to consolidate a special purpose entity, its assets and liabilities would be recorded on its consolidated balance sheets and it would recognise related gains and losses in its consolidated statements of operations, and this could have an adverse impact on its results of operations and capital and leverage ratios. <p>Country and currency exchange risk:</p> <ul style="list-style-type: none"> • Country risks may increase market and credit risks the Issuer faces. • The Issuer may face significant losses in emerging markets. • Currency fluctuations may adversely affect the Issuer's results of operations. <p>Operational risk:</p> <ul style="list-style-type: none"> • The Issuer is exposed to a wide variety of operational risks, including cybersecurity and other information technology risks. • The Issuer may suffer losses due to employee misconduct. <p>Risk management:</p> <ul style="list-style-type: none"> • The Issuer's risk management procedures and policies may not always be effective, particularly in highly volatile markets. <p>Legal and regulatory risks:</p> <ul style="list-style-type: none"> • The Issuer's exposure to legal liability is significant. • Regulatory changes may adversely affect the Issuer's business and ability to execute its strategic plans. • Swiss resolution proceedings and resolution planning requirements may affect CSG's and the Issuer's shareholders and creditors. • Changes in monetary policy are beyond the Issuer's control and

		<p>difficult to predict.</p> <ul style="list-style-type: none"> • Legal restrictions on its clients may reduce the demand for the Issuer's services. <p>Competition risk:</p> <ul style="list-style-type: none"> • The Issuer faces intense competition in all financial services markets and for the products and services it offers. • The Issuer's competitive position could be harmed if its reputation is damaged. • The Issuer must recruit and retain highly skilled employees. • The Issuer faces competition from new trading technologies. <p>Statutory powers of Swiss Financial Market Supervisory Authority FINMA in the case of a restructuring proceeding:</p> <ul style="list-style-type: none"> • The rights of the holders of Securities issued by the Issuer may be adversely affected by Swiss Financial Market Supervisory Authority FINMA's broad statutory powers in the case of a restructuring proceeding in relation to the Issuer, including its power to convert such Securities into equity and/or partially or fully write-down such Securities.
D.3	Key risks that are specific to the Securities:	<p>The Securities are subject to the following key risks:</p> <ul style="list-style-type: none"> • The issue price or the offer price of the Securities may be more than the market value of such Securities as at the issue date, and more than the price at which the Securities can be sold in secondary market transactions. The issue price or the offer price of the Securities may take into account, where permitted by law, fees, commissions or other amounts relating to the issue, distribution and sale of the Securities, or the provision of introductory services, expenses incurred by the Issuer in creating, documenting and marketing the Securities and amounts relating to the hedging of its obligations under the Securities. • A secondary market for the Securities may not develop and, if it does, it may not provide the investors with liquidity and may not continue for the life of the Securities. Illiquidity may have an adverse effect on the market value of the Securities. The price in the market for a Security may be less than its issue price or its offer price and may reflect a commission or a dealer discount, which would further reduce the proceeds you would receive for your Securities. • The market value of the Securities will be affected by many factors beyond the control of the Issuer (including, but not limited to, the creditworthiness of the Issuer, the interest rates and yield rates in the market, the volatility of the underlying asset(s) (if any),

		<p>etc.). Some or all of these factors will influence the value of the Securities in the market.</p> <ul style="list-style-type: none"> • Where the relevant distributor(s) may only confirm the amount or number of Securities sold to investors after the Securities have been issued, the Issuer may cancel some of the Securities if the amount or number of Securities subscribed for or purchased is less than the aggregate nominal amount or number of Securities (as applicable) issued on the issue date. The market for the Securities may be limited. • The total size of Securities being issued on the issue date may be greater than the amount subscribed or purchased by investors as the dealer may retain some of the Securities as part of its issuing, market-making and/or trading arrangements or for the purposes of meeting future investor demand. The issue size of the Securities should not be regarded as indicative of the depth or liquidity of the market, or the demand, for the Securities. • The levels and basis of taxation on the Securities and any reliefs from such taxation will depend on an investor's individual circumstances and could change at any time. The tax and regulatory characterisation of the Securities may change over the life of the Securities. This could have adverse consequences for investors. • In certain circumstances (for example, if the Issuer determines that its obligations under the Securities have become unlawful or illegal or following an event of default or following certain events affecting the Issuer's hedging arrangements) the Securities may be redeemed prior to their scheduled maturity. In such circumstances, the Unscheduled Termination Amount payable may be less than the original purchase price and could be as low as zero. No other amounts shall be payable in respect of the Securities on account of interest or otherwise following such determination by the Issuer. • Following early redemption of Securities, investors may not be able to reinvest the redemption proceeds in an investment having a comparable return. Investors in Securities should consider such reinvestment risk in light of other investments available at that time. • Investors may be exposed to currency risks because the underlying asset(s) may be denominated in a currency other than the currency in which the Securities are denominated, or the Securities and/or underlying asset(s) may be denominated in currencies other than the currency of the country in which the investor is resident. The value of the Securities may therefore increase or decrease based on fluctuations in those currencies. • The Issuer is not obliged to maintain the listing of the Securities. If

		<p>the regulated market or other market in respect of which the Securities are listed and/or admitted to trading closes, or if the relevant regulated market in respect of which the Securities are admitted to trading is replaced with a market that is not a regulated market, the Issuer may de-list the Securities or may (but is not obliged to) consent to the Securities to be admitted to trading on such replacement market instead.</p> <ul style="list-style-type: none"> • The Issuer may modify the terms and conditions of the Securities without the consent of Securityholders for the purposes of (a) curing any ambiguity or correcting or supplementing any provision if the Issuer determines it to be necessary or desirable, provided that such modification is not prejudicial to the interests of Securityholders, or (b) correcting a manifest error. • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may adjust the terms and conditions of the Securities without the consent of Securityholders following certain events affecting the Issuer's hedging arrangements, or may early redeem the Securities at an amount which may be less than the initial investment. • In making discretionary determinations under the terms and conditions of the Securities, the Issuer and the calculation agent may take into account the impact on the relevant hedging arrangements. Such determinations could have a material adverse effect on the value of and return on the Securities and could result in their early redemption. • Subject to the conditions and other restrictions set out in the terms and conditions of the Securities, the Issuer may be substituted without the consent of Securityholders in favour of any affiliate of the Issuer or another company with which it consolidates, into which it merges or to which it sells or transfers all or substantially all of its property. • The Issuer is subject to a number of conflicts of interest, including: (a) in making certain calculations and determinations, there may be a difference of interest between the investors and the Issuer, (b) in the ordinary course of its business the Issuer (or an affiliate) may effect transactions for its own account and may enter into hedging transactions with respect to the Securities or the related derivatives, which may affect the market price, liquidity or value of the Securities, and (c) the Issuer (or an affiliate) may have confidential information in relation to the underlying asset(s) or any derivative instruments referencing them which may be material to an investor, but which the Issuer is under no obligation (and may be subject to legal prohibition) to disclose.
Section E – Other		

E.2b	Reasons for the offer and use of proceeds:	Not applicable; the net proceeds from the issue of the Securities will be used by the Issuer for its general corporate purposes (including hedging arrangements).
E.3	Terms and conditions of the offer:	The Securities have been offered to the dealer at the issue price. The Securities are not being publicly offered.
E.4	Interests material to the issue/offer:	Fees shall be payable to the distributor(s). The Issuer is subject to conflicts of interest between its own interests and those of holders of Securities, as described in Element D.3 above.
E.7	Estimated expenses charged to the investor by the Issuer/offeror:	The dealer will pay a fee to the distributor(s) in connection with the issue of up to 7.50 per cent. of the Nominal Amount per Security upfront.
